Register as a Y'elloSMS user

a) Go to www.yellosms.co.za

b) Click "Register"

The Registration Form will be displayed

c) Fill in the form.

All the fields other than the VAT Number are mandatory.
Give yourself a userID and password that you will remember easily

d) At the bottom of the form, read the instructions:

Once you click on the register button, an email will be sent to the address you provided above. To activate your account, follow the instructions in the email

e) Then, click the tick boxes:

I have read and agree to the terms and conditions *listed here*.
Yes, I agree to be billed R100.00 every month for the use of this service.

REGISTER

f) Finally, if you agree to these terms, click the "Register" button. Y'elloSMS will send an activation email to the address you provided in the Registration Form.

g) When you receive the email, follow the instructions and your Y'elloSMS account will immediately be set up and activated.

Congratulations! You are now a registered Y'elloSMS user.

Log on as a User

a) Please ensure you have the correct username and password.

The username and password are case sensitive.

b) Go to www.yellosms.co.za

c) Click “User Log In”

d) Insert the username and password

LOGIN:

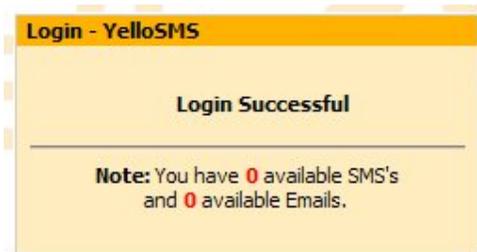

Username

Password

Incorrect username will result in a “Unknown User” error message

Incorrect password will result in a “Invalid Password” error message

e) If you have entered the correct username and password, the “Login Successful” message will be displayed:

Login - YelloSMS

Login Successful

Note: You have 0 available SMS's
and 0 available Emails.

Purchase SMS Credits online – via Credit Card

Please note that Y'elloSMS utilizes state of the art security measures to protect its clients while performing credit card e-Commerce transactions

- a) Go to www.yellosms.co.za
- b) Click “User Log In”
- c) Insert your username and password
- d) Wait until the “Login Successful” message is displayed
- e) Click “Send SMS” (at bottom left of the screen)
- f) Click “Buy Package – Credit Card” (at centre left of the screen)

The “Purchase a bulk SMS package” form will be displayed

- g) Fill in the form

Select the required SMS package

SMS Package Information	
Select package to purchase	ZAR 181.10 :: For 500 SMS Messages

- h) When form is complete, click the “Purchase The SMS Package” button
- i) If the transaction is approved by your Bank, Y'elloSMS will credit your account with the number of SMS credits purchased

Purchase SMS Credits online – via EFT

Purchasing via EFT means using a standard, non-electronic method to purchase SMS credits. The process works as follows.

- *Fill in the online purchase form*
- *Click the “Purchase The SMS Package” button to register the purchase with the Y’elloSMS Administration Department*
- *Y’elloSMS will display a printable pro-forma invoice with a reference number, the amount payable, the Y’elloSMS banking details and the Y’elloSMS Administration fax number*
- *Deposit the amount payable in the Y’elloSMS bank account and please remember to quote the reference number in the deposit reference area*
- *Fax the proof of deposit to the Y’elloSMS Administration fax number listed on the pro-forma invoice*

- a) Go to www.yellosms.co.za
- b) Click “User Log In”
- c) Insert your username and password
- d) Wait until the “Login Successful” message is displayed
- e) Click “Send SMS” (at bottom left of the screen)
- f) Click “Buy Package – EFT” (at centre left of the screen)

The “Purchase a bulk SMS package” form will be displayed

- g) Fill in the form

Select the required SMS package

SMS Package Information	
Select package to purchase	ZAR 181.10 :: For 500 SMS Messages

Complete the rest of the form

- h) Click the “Purchase The SMS Package” button
- i) When Y’elloSMS Administration receives the proof of deposit, your account will be credited with the SMS credits purchased.

Manage Contacts

Although Y'elloSMS does not provide a sophisticated CRM system, its contact management capabilities are geared to handling general SMS contact requirements, including:

- Create / Modify / Delete single contacts
- Bulk upload contacts
- Backup of Y'elloSMS contacts

a) Go to www.yellosms.co.za

b) Click "User Log In"

c) Insert your username and password

d) Wait until the "Login Successful" message is displayed

e) Click "Send SMS" (at bottom left of the screen)

f) Click "Edit Contacts" (at top left of screen)

g) You can now search for a specific contact by inserting Name or Surname or Cell Number or Remark and then clicking "Load Report" to display the required contact Or

h) Click "Load Report" to display all the contacts in your contacts database

i) Scroll to the bottom of the screen to display the available functions:

Contact List			
No	Name	Remark	Function
1		From Campaign: YelloSMS Test Campaign	<input type="checkbox"/> Edit Delete
2		From Campaign: YelloSMS Test Campaign	<input type="checkbox"/> Edit Delete

Add New Contact Bulk Load Contacts Get Backup			

j) To manually add a new contact, click “Add New Contact”

YelloSMS - Add Contact

Title

Name

Surname

Remark

Cell No. 1

Cell No. 2

Cell No. 3

Email Add. 1

Email Add. 2

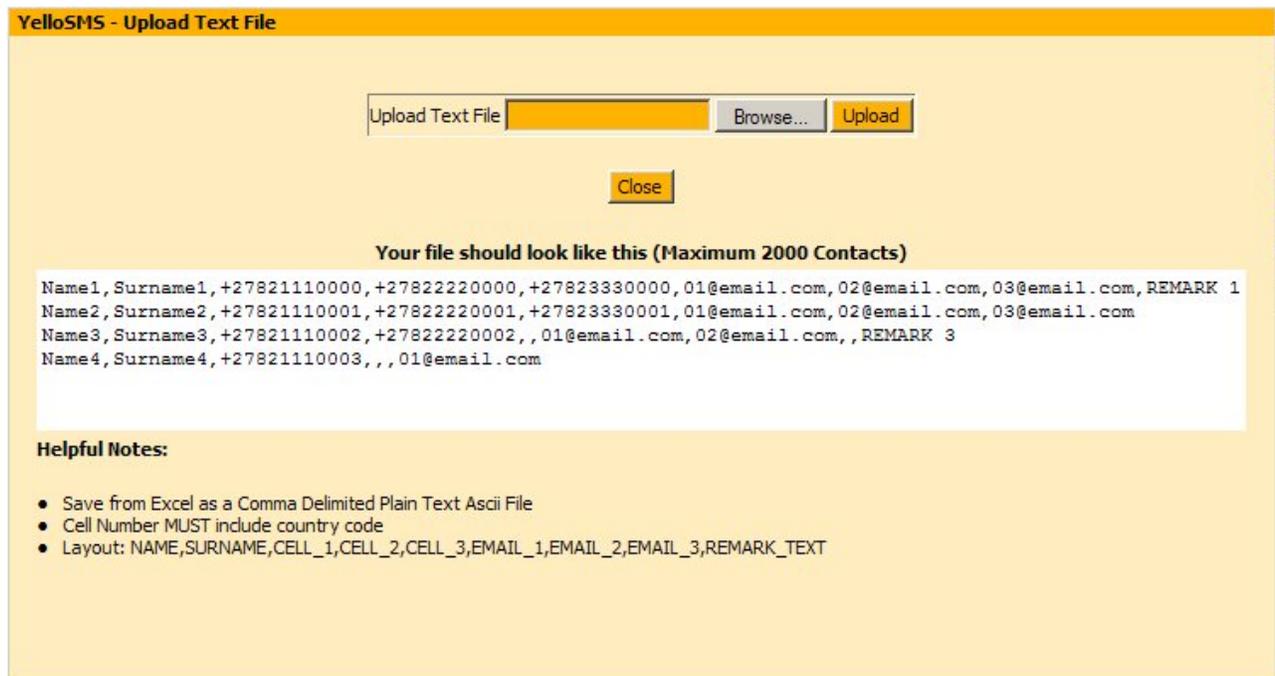

Email Add. 3

Include country code in number eg. +270001111

Please remember to use the country code when entering contact cell numbers.

- NO 0832226469 (no zeroes)
- NO 083 222 6469 (no spaces)
- YES +27832226469

k) To bulk load contacts from a file, click “Bulk Load Contacts”

The list of contacts can be set up in Excel

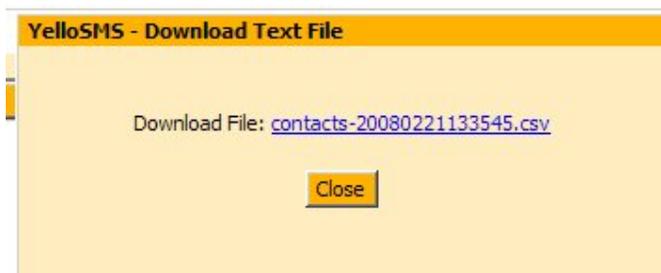

The format of the records in the Excel file MUST be as follows

- Column A = Name
- Column B = Surname
- Column C = Cell Number (in international format, eg +27832226469)
- Column D = eMail address
- Column E = Remark

NB NB The Excel file then has to be saved as a tab-delimited Text file

l) To create a backup of your contacts, click “Get Backup”

Y’elloSMS will create a tab-delimited Text file of all your contacts

To save the file, right-click on the link, select “Save the target as” and save the file to a desired destination.

Manage Groups

Although Y'elloSMS does not provide a sophisticated CRM system, its contact management capabilities are geared to handling general SMS contact requirements, including:

- Create / Modify / Delete groups
- Bulk upload groups
- Automatic creation and storage of SMS Competition groups – entries received in your SMS competition are automatically stored as contacts in a group with the same name as your competition
- Backup of Y'elloSMS contacts

a) Go to www.yellosms.co.za

b) Click “User Log In”

c) Insert your username and password

d) Wait until the “Login Successful” message is displayed

e) Click “Send SMS” (at bottom left of the screen)

f) Click “Edit SMS Groups” (at top left of screen)

- Y'elloSMS will display a listing of the Groups currently set up AND
- The screen will display the functions available to you to manage your Groups

Send Bulk SMS < 2000

- a) Go to www.yellosms.co.za
- b) Click "User Log In"
- c) Insert your username and password
- d) Wait until the "Login Successful" message is displayed
- e) Click "Send SMS" (at bottom left of the screen)
- f) Click "Send Bulk SMS < 2000" (at left of screen)

The screenshot shows the 'YelloSMS - Send Bulk SMS' interface. It features three main panels:

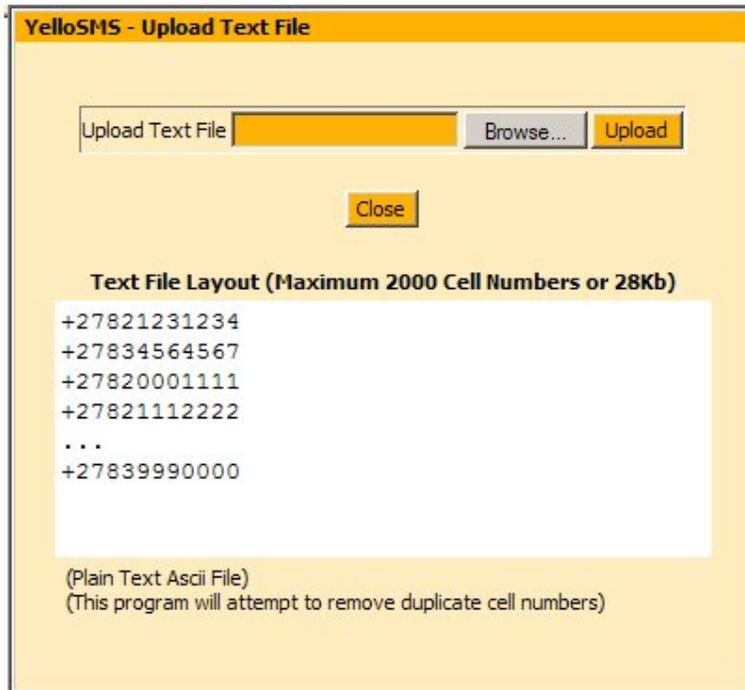

- Current Cell Numbers:** A grid of letters A-M and N-Z. Below the grid are buttons for 'All Contacts' and 'No Contacts'. A large empty box is present below these buttons.
- List to send to:** A vertical list box with an 'Add' button at the top and an 'Upload Numbers' button at the bottom. Navigation buttons (>>, >, <, <<) are located between the 'Current Cell Numbers' and 'List to send to' panels.
- New SMS:** A form for composing an SMS. It includes:
 - 'Personalize?': Radio buttons for 'No' (selected) and 'Yes'.
 - 'Greeting style': Two dropdown menus with 'Hi' and 'Name' selected.
 - 'Template': A dropdown menu with '- Select A Template -' selected.
 - A large text area for the message content.
 - 'Characters': A text box showing '0/160'.
 - 'Save SMS as Template': A checkbox.
 - 'Schedule SMS Delivery For': Date and time pickers (21 February 2008 @ 14:08).
 - 'Note: You have 0 available SMS's.'

At the bottom of the interface, there are two buttons: 'Send SMS as per above schedule' and 'Send SMS NOW'.

g) To manually select a contact(s):

- Use the Alpha keys to display a selection from your Global contact list
- Use the ">" or ">>" buttons to move contacts to the "List to Send to" area

h) To upload contacts from a file, click “Upload Numbers”

i) Personalise the messages, if required

j) Type a message, or use a template message (you can even store your typed message as a template)

k) Send the SMS now, by clicking “Send SMS NOW” or set up a Scheduled event to send the SMS later.

Send Bulk SMS > 2000

Depending on your bandwidth, uploading large quantities of data to the Y'elloSMS server could take a long time. Y'elloSMS, therefore, manages this process differently to the other Send SMS modules. The process is explained below.

Step 1

- a) Go to www.yellosms.co.za
- b) Click "User Log In"
- c) Insert your username and password
- d) Wait until the "Login Successful" message is displayed
- e) Click "Send SMS" (at bottom left of the screen)
- f) Click "Send Bulk SMS > 2000" (at left of screen)

The following screen is displayed.

- Please read the caution in RED carefully
- Type your message or choose a template message and click the required Send option

YelloSMS - Send Bulk SMS

New Bulk SMS

Template:

Characters: Save SMS as Template

Schedule SMS Delivery For:

@

Note: You have **0** available SMS's.

NOTE: Once you press the 'Send SMS ASAP' or 'Send SMS as per above schedule' button, your SMS will be saved and a new screen loaded. You will then be prompted to upload your file of numbers in plain text format. Only after the ENTIRE file is uploaded will the SMS's be added to the database for sending.

If the operation is interrupted before the upload is complete, NO SMS messages will be sent.

Please ensure that the numbers in your file are unique as duplicates will NOT be checked for in this section.

Step 2

The following screen is displayed.

- Please read the caution in RED carefully
- Select the text file of cell numbers and click "Upload and Continue"

YelloSMS - Send Bulk SMS

Bulk SMS Send (Upload Cell Number List)

Message Details	
Date To Start Submitting:	2008-02-21 14:11:17
Message To Send:	testing

Upload Text File

Text File Layout (Max 2 Million Cell Numbers / 28Mb File Size)

```
+27821231234
+27834564567
+27820001111
+27821112222
...
+27839990000
```

(Plain Text Ascii File)

NOTE: This program will NOT try to remove duplicates from your list! If you submit the same number more than once more than one SMS will be sent to that number! You must ensure that each cell number on your list is unique.

Once you press the 'Upload and Continue' button the whole file will be uploaded to the server. When the complete file has been uploaded, your SMSes will be added to the database. A very large file may take several minutes to several hours to upload depending on your bandwidth.

Step 3

Once the ENTIRE file is uploaded the following screen will be displayed.

Bulk SMS Processing Complete	
Description	Value
SMS's Processed	0
Errors Encountered (Illegal Number Format)	0
Not enough available messages. 0 Messages sent.

Create New Campaign

- a) Go to www.yellosms.co.za
- b) Click "User Log In"
- c) Insert your username and password
- d) Wait until the "Login Successful" message is displayed
- e) Click "SMS Competitions" (at bottom left of the screen)
- f) Click "Create New Campaign" (at left of screen)

The instructions on completing the Create New Campaign entry form are reasonably easy to follow, but there are some points that need to be emphasized.

The "Load Last Campaign" button: will be very useful when loading your 2nd and subsequent campaigns. When you click this button the system will insert the details of the last campaign you loaded; ie you don't have to re-capture a lot of static information.

The "Campaign Details" section: is where you enter information relating to the CLIENT OF THIS CAMPAIGN, ie you are planning on running this campaign on behalf of an outside client or even another division in your company.

The "Competition Details" section: is self-explanatory, but it is worth mentioning that the details inserted in this section effectively comprise the major cost components of the campaign, eg advertising / prizes, etc.

Competition Keywords section: Is where you insert the keyword(s) of your campaign. Y'elloSMS uses a single set of 5-digit short codes, ie you will be sharing your 5-digit number with other Y'elloSMS users. Your keyword(s) is, therefore, what Y'elloSMS uses to differentiate your campaign from other campaigns. Keywords are allocated on a first-come basis, hence it is possible that the keyword(s) you request may already be in use. To avoid "over-booking" of keywords Y'elloSMS normally only allows 3 keywords per campaign, but if you want to use more than 3 keywords (eg you have 20 barcodes), please email your request to support@yellosms.co.za

Billing Information section: Is where you enter information relating to the entity that will be the beneficiary of the revenue generated by your campaign, ie Y'elloSMS Accounts will look to this section to determine who will be receiving the net income from your campaign.

SMS Profit Split Options section: We have tried to make this section as user-friendly as possible, but if you have any queries, please address them to support@yellosms.co.za

Current Campaigns

- a) Go to www.yellosms.co.za
- b) Click “User Log In”
- c) Insert your username and password
- d) Wait until the “Login Successful” message is displayed
- e) Click “SMS Competitions” (at bottom left of the screen)
- f) Click “Current Campaigns” (at left of screen)
- g) Insert search criteria and click “Load Report”
