### FCC PART 15 REQUIREMENTS

This equipment has been tested and found to comply with the limits for Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation.

This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation.

If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and the receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult your dealer or an experienced technician for help.

Connection of peripherals to this unit requires the use of grounded, shielded cables to ensure compliance with the class B limits.

---

### FCC PART 68 REQUIREMENTS

[APPLICABLE WHEN  
USING OPTIONAL  
NURIT 8000  
SECURE DOCKING  
STATION OR NURIT  
8000 EXTERNAL  
MODEM]

The Federal Communications Commission (FCC) has established rules permitting this device to be directly connected to the telephone network. Standardized FCC Part 68 compliant telephone line cords and modular jacks are used for these connections. This equipment **should not** be used on party or coin lines.

If this device is malfunctioning, it may be causing harm to the telephone network; this device should be disconnected until the source of the problem can be determined and until repair has been made. If this is not done, the telephone company may temporarily disconnect service.

The telephone company may make changes in its technical operations and procedures; if such changes affect the compatibility or use of this device, the telephone company is required to give adequate notice of the changes. You will be advised to file a complaint with the FCC.

If the telephone company requests information on what equipment is connected to their lines, inform them of:

- The telephone number this unit is connected to
- The ringer equivalence number: 0.2A
- The USOC jack required: RJ-11C
- The FCC Registration number:

*The Ringer Equivalence Number (REN) is used to determine how many devices can be connected to your telephone line. In most areas, the sum of the RENs of all devices on any one line should not exceed five (5). If too many devices are attached, they may not ring properly. To be certain of the number of devices that may be connected to the line, as determined by the total RENs, contact the telephone company to determine the maximum REN for the calling area.*

---

## Product Regulatory Information, Continued

---

### FCC PART 90 REQUIREMENTS

This device contains a radio transceiver module, (FCC ID number is located on the bottom of the terminal), operating under Part 90 of the FCC rules in a licensed part of the radio spectrum. Qualified personnel must perform service or repairs to the radio portion of this device. Any unauthorized modification to the radio module, shielding, or antenna system may void the user's authority to operate this device

---

### IN CANADA

This digital apparatus does not exceed the class B limits for radio noise emissions from digital apparatuses set forth in the Radio Interference Regulations of the Canadian Department of Communications.

Le présent appareil numérique n'émet pas de bruits radioélectriques dépassant les limites applicables aux appareils numériques de la classe B prescrites dans le Règlement sur le brouillage radioélectrique édicté par le ministère de Communications du Canada.

---

### SHIPPING

Carefully pack and send the package prepaid, adequately insured and preferably in the original carton. Attach a postage-paid letter to the outside of the package detailing the complaint.

***PLEASE NOTE: SHIPMENT MUST BE SENT TO AN AUTHORIZED DEALER OR SERVICE CENTER ONLY. PLEASE NOTIFY YOUR LIPMAN REPRESENTATIVE BEFORE SHIPMENT. PRODUCTS SENT TO OTHER LOCATIONS WILL BE RETURNED AT OWNERS EXPENSE. CONTACT YOUR DEALER FOR THE CORRECT ADDRESS.***

---

## LIPMAN USA - NURIT 8000 SECURE - Limited Warranty

**Lipman USA Inc.** will repair this product with new or rebuilt parts, free of charge, in the U.S.A. for one (1) year from the date of original purchase in the event of a defect in materials or workmanship. Carry-in or mail-in service in the continental U.S.A. can be obtained during the warranty period from our N.Y. Service Center or call 1-800-4-LIPMAN toll free. In New York State call (516) 484-9898.

This warranty is extended only to the original purchaser. A purchase receipt or other proof of date of original purchase will be required in order to exercise your rights under this warranty.

This warranty only covers failures due to defects in materials or workmanship which occur during normal use. It does **not** cover damage which occurs in shipment; failures which are caused by products not supplied by Lipman USA; or failures which result from accident, misuse, abuse, neglect, mishandling, misapplication, alteration or modification; service by anyone other than the Lipman USA Service Center or accredited service centers, or damage that is attributable to acts of God.

### Limits and Exclusions

There are no express warranties except as listed above.

LIPMAN USA SHALL NOT BE LIABLE FOR INCIDENTAL OR CONSEQUENTIAL DAMAGES RESULTING FROM THE USE OF THIS PRODUCT, OR ARISING OUT OF ANY BREACH OF THIS WARRANTY. ALL EXPRESSED AND IMPLIED WARRANTIES, INCLUDING THE WARRANTIES OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE, ARE LIMITED TO THE APPLICABLE WARRANTY PERIOD SET FORTH ABOVE.

Some states do not allow the exclusion or limitation of incidental or consequential damages, or limitations on how long an implied warranty lasts, therefore some of the above exclusions or limitations may not apply to you.

This warranty gives you specific legal rights and you may also have other rights which vary from state to state.

If a problem with this product develops during or after the warranty period, you may contact your dealer or Service Center. If the problem is not handled to your satisfaction, then write to:

LIPMAN USA INC., 50 Gordon Drive, Syosset, N.Y. 11791

E-mail: [NURITsys@lipmanusa.com](mailto:NURITsys@lipmanusa.com)

Tel: (516)-484-9898 FAX: (516)-484-9057.

## General and Safety Instructions

---

### SECTION DESCRIPTION

When using this NURIT Wireless POS EDC Terminal or any equipment or accessories associated with it operation, basic safety precautions as below should always be followed to reduce the risk of fire, electric shock, or personal injury.

The following safety instructions are based in general on those provided by Underwriters Laboratories Inc. U.S.A.

---

1. Read **and** understand **all instructions**.
2. **Follow** all warnings and instructions marked on the unit.
3. **Unplug** the unit from wall outlets before cleaning. **Do not** use liquid or aerosol cleaners. Use a damp cloth for cleaning and/or a soft brush.
4. **Do not** use the unit near water when using the AC charger or external modem.  
  
Place the unit on a stable surface when operated in a fixed location. When operated hand-held, be sure to grasp the unit securely. **Serious damage** may result if the unit falls.
6. **Do not** cover slots and openings of the unit. They are provided for ventilation and protection against overheating. Never place the unit near radiators, or in a place where proper ventilation is not provided.
7. **Use only** the power source as marked on the unit. If you are not sure of the type of the power supplied to your home, consult your dealer or local Power Company.
8. **Do not** place objects on the power cord. Install the unit where no one can step on the cord.
9. **Do not** overload wall outlets and extension cords as this can result in the risk of fire or electric shock.
10. **Never** push any objects into this unit through slots (other than those specifically meant for credit, debit or smart cards) as they may result in risk of fire or electric shock. **Never** spill any liquid on the unit.
11. To reduce the risk of electric shock, **do not** disassemble any of the equipment or accessories referred to in this manual. If required, take the equipment to a qualified serviceperson. Opening or removing covers **may** expose you to dangerous voltages or other risks. Incorrect re-assembly can cause electric shock.

---

*Continued on next page*

## General and Safety Instructions, Continued

---

**Unplug** this unit from the wall outlet and refer servicing to qualified service personnel under the following conditions:

- When the charger cord or plug is damaged or frayed.
  - Liquid has been spilled into the unit.
12.
  - Unit has been exposed to rain or water.
  - Unit does not work normally, when following the operating instructions.
  - Unit has been dropped or damaged.
  - Unit exhibits a distinct change in performance.
13. During thunderstorms, **disconnect** telephone line, if possible. There may be a remote risk of electric shock from lightning\*.
14. **Never** install telephone wiring during a lightning storm\*.
15. **Never** install telephone jacks in wet locations unless the jack is specifically designed for wet locations\*.
16. **Never** touch non-insulated telephone wires or terminals unless the telephone line has been disconnected at the network interface\*.
17. **Use caution** when installing or modifying telephone lines\*.
18. When in the vicinity of a gas leak, **do NOT** use the NURIT 8000 SECURE, a stand-alone telephone or a telephone connected to a NURIT docking station to report such a leakage.

\* When using the NURIT 8000 SECURE optional docking station and/or external modem.

**IN ADDITION TO THE ABOVE MENTIONED SAFETY INFORMATION, PLEASE NOTE THE FOLLOWING OPERATIONAL SAFETY INSTRUCTIONS AND CAUTIONS!**

Your NURIT 8000 SECURE contains a transmitter and receiver that emit radio frequency (RF) energy. The actual frequency range used by the NURIT 8000 SECURE is radio-modem dependent according to specific model. Digital modulation techniques are used. During radio communication, the local radio system handling the actual communication controls the actual power transmission output level. This output level may typically vary (relative to distance between user location and cell transmit sites.)

---

*Continued on next page*

## General and Safety Instructions, Continued

---

### POSITIONING

The most desired operational position for the terminal is hand-held at an angle of approximately 30°. The unit is also obviously designed for optimal tabletop usage. Try and keep the terminal a short distance from your body.

When used properly, the design of this hand-held wireless terminal complies with European and International standards for the protection of public exposure to radio frequency (RF) magnetic signals.

---

### MEDICAL WARNING!

For those persons using a pacemaker or other medical devices please read the following important safety notes!

Though most electronic equipment and critical medical devices are shielded against radio-frequency signals, it is important to realize the possibilities of potential interference and what standard precautions may be taken.

---

### PACEMAKERS

Industry standards recommend a minimum separation of 6 inches (15 cm) should be kept between a wireless phone-type device and a pacemaker to prevent any potential problems.

Individuals using a pacemaker should:

1. Always keep the NURIT more than 6 inches (15 cm) from the pacemaker when using the unit as a cellular phone or when performing a transaction.
  2. Turn the NURIT **off immediately** if you suspect any problem of interference.
- 

### OTHER MEDICAL TYPE DEVICES

Consult the manufacturer of your medical-type device to determine its level of shielding. Note usage regulations in health facilities. Depending on the proximity to certain equipment, you may be asked not to use your NURIT terminal or one of its accessories.

---

### OTHER ELECTRONIC DEVICES

Radio frequency energy may affect **improperly installed** or **very sensitive systems**. Consult your vehicle manufacturer or air crew (for *possible airborne operation*) respectively regarding typical problems that may arise when using the NURIT. At the time of the publication of this guide, it is known that **all radio-type devices are prohibited to use** while airborne.

---

*Continued on next page*

## General and Safety Instructions, Continued

### ADDITIONAL WARNINGS!

1. Do not use your NURIT 8000 SECURE in an area of potential **explosive atmosphere** e.g., fuel or chemical storage or transfer facilities or any area that you would be advised to turn off your vehicle's engine. In addition, do **NOT** replace your battery pack or charge your NURIT in an area of potential explosive atmosphere.
2. Do **NOT** use your NURIT in a known **blasting area**.
3. Do **NOT** place your NURIT in the area over a vehicle-equipped air bag.
4. *If battery pack has been removed, ensure that no metal objects come in contact with the pack's electrical contacts.*
5. You are using a NURIT terminal designed for use with a built-in internal antenna. Do **NOT** open the unit with the intent of tampering with the antenna system. Doing so may damage the unit and violate FCC (Ministry of Communications) regulations.

### CONVENTIONS

- **Notes, cautions and warnings** are used like this:
- **"Notes"** contain helpful hints and other important information that will help you get better use from your NURIT.
- **"Cautions"** provide information about procedures that, if not observed, could result in damage to the NURIT or other equipment.
- **"Warnings"** mean failure to follow specific procedures and practices may result in personal injury.

### NOTE

*This publication could include technical or typographical errors. Changes are periodically made to our publications; these changes will be incorporated in future editions.*

#### If you ship the product

Carefully pack and send the package prepaid, adequately insured and preferably in the original carton. Attach a postage-paid letter to the outside of the package detailing the complaint.

**PLEASE NOTE: SHIPMENT MUST BE SENT TO AN AUTHORIZED DEALER OR SERVICE CENTER ONLY. PRODUCTS SHIPPED TO OTHER LOCATIONS WILL BE RETURNED AT OWNERS EXPENSE. CONTACT YOUR DEALER FOR THE CORRECT ADDRESS.**

## General Information

---

### FOREWORD

Thank you for purchasing the NURIT 8000 Secure Wireless Palmtop Transaction Terminal. You now own one of the most advanced electronic point-of-sale (POS) devices manufactured today.

This manual explains basic installation instructions. To fully utilize the features of your terminal, and for general safety purposes, take some time to familiarize yourself with this manual, the terminal or any accessories to be used.

Please store this manual in a safe place for future reference.

## NURIT 8000 SECURE - General Overview

### Power

---

<b>REQUIREMENTS</b>	<ul style="list-style-type: none"> <li>▪ Terminal power requirements (from AC charger): 8.4 VDC at 1.0A</li> <li>▪ AC charger requirements: 100-240 VAC at 60 Hz (U.S. standard) or; 100-240 VAC at 50 Hz (European standard)</li> </ul>

## Installation

---

**SELECTING A LOCATION**

Select a location for the NURIT 8000 SECURE Hand-Held Wireless terminal that is safe and convenient for both the retailer and cardholder.

---

**CAUTION!**

The NURIT 8000 SECURE is designed for indoor use when using the unit's AC charger, optional docking station or optional external modem. The unit is designed to be operated outdoors, but should only be powered by its built-in battery pack. Under no circumstances should the unit be powered or charged outdoors using its AC charger or docking station. Obviously, the NURIT 8000 SECURE **should not be used in areas of excessive moisture or heat.**

Avoid areas with:

- Excess heat, dust or other debris
  - Oil or moisture
- 

**WARNING!**

When connected to the terminal's AC charger, optional docking station or external modem, do not use the terminal near water, including sink, laundry tub or pool. In addition, avoid exposure to:

**Devices that radiate excessive voltage fluctuations or electrical noise, such as air conditioners, fans, electric motors, neon signs, or high-frequency security devices.**

**Direct sunlight or objects that radiate heat.**

**Metal partitions or such obstructions that may disrupt radio reception or transmission.**

---

**WARNING!**

When not operated from its hand-held position, place the NURIT 8000 SECURE on a flat table or countertop. When used in conjunction with its optional external modem or docking station, the terminal should be conveniently located in relation to a telephone line and AC power outlet.

To meet standard ventilation requirements, at least 22.1 centimeters (8.7 inches) of clear space must be provided around the terminal when placed in its fixed operating location.

---

## Unpacking Shipping Carton

When opening the original shipping carton, carefully inspect the contents for any damaged or missing components. Lipman has taken all measures to provide you with a complete unit. If shipping damage is evident, file a claim with the shipping company. Please notify your Lipman distributor concerning this damage, and if any components are missing.

**Instructions** Follow the steps below when unpacking the NURIT 8000 SECURE terminal and its supplied accessories and/or options from carton:

Step	Action
1.	With the carton right side up, remove the carton's outer sleeve.
2.	Open the carton and carefully remove the contents.
3.	<b>Stop.</b>

For your personal safety, do NOT use a NURIT terminal showing any signs of damage!

**Note** Before actual use of the terminal, remove the thin transparent plastic membrane that covers the LCD screen.

## Main Components

### ITEM

- # 1. NURIT 8000 SECURE Terminal
- # 2. AC Charger
- # 3. Paper Roll Spindle
- # 4. Lithium-ion Battery Pack
- # 5. Keypad Cover
- # 6. Thermal Paper Roll
- # 7. Documentation Kit.

## Optional Accessories

---

- # 1. Docking Station
- # 2. PC-Terminal Download Cable, (Cat. No. FCL09503.)
- # 3. Keyboard Emulation Barcode Reader Adapter Cable (Cat. No. FCL09506.)
- # 4. Terminal-to-Terminal (peer-to-peer) Interconnection Cable, (Cat. No FCL09505.)
- # 5. External Modem
- # 6. Hands-Free Headset (2.5 mm plug) (contact your cellular dealer for purchasing details)
- # 7. Cigarette Lighter Vehicular Charger
- # 8. Touch Screen Stylus
- # 9. Standard RS-232 Barcode Reader Adapter Cable (Cat. No. FCL09504.)

Availability of accessories or options may vary according to customer requirements. At the publication time of this manual, some items may not yet be available. Consult your Lipman representative for details regarding these and any upcoming options. **Connection of any non-Lipman-approved accessory may cause damage and thus void the Limited Warranty of this equipment.**

# Hardware Features of the NURIT 8000 SECURE

Take a few moments to familiarize yourself with the terminal's main feature locators as depicted in the following illustrations.

- # 7. Keypad Cover
- # 8. Smart Card Reader
- # 9. IrDA Window
- # 10. Battery Charge Connector
- # 11. Data Connector
- # 12. Headset Connector

## Bottom View

- # 1. Rubber Stop
- # 2. Radio-Modem Info. Label
- # 3. Model/Barcode-Serial No. Label
- # 4. Compliance Label
- # 5. Battery Pack
- # 6. Battery Pack Removal Snap
- # 7. Docking Station Connector Cover or Connector (Model Dependent)

## About the Battery Pack

### SMART LITHIUM-ION BATTERY PACK

The supplied high-performance Lithium-ion battery pack provides 7.2 VDC at 1450 mAh of capacity. When fully discharged, the battery fully recharges within 3 hours while installed in the terminal. An 80% charge capacity is reached within 1 hour. The terminal can be left connected to its AC charger indefinitely without causing damage to the battery.

Under typical use, the battery pack is good for well over 500 charge cycles, after which operating time may very slowly decrease. This battery pack has a self-discharge rate, and without normal use will lose approximately 1% of its charge per day. Replace the battery pack with a new one when the charge capacity is too weak for normal operation. If for any reason you intend not to use your NURIT 8000 SECURE for an extended period of time, remove the battery pack located on the underside of the unit.

### CAUTION!

When using the Lipman-supplied AC charger, the Lithium-ion battery pack **must be installed** in the terminal.

### WARNING!

1. Please do **NOT** dispose of the battery pack in a fire! Dispose of use batteries in accordance with local recycling regulations.
2. If for any reason you intend to remove the NURIT's battery pack, make sure that the metal contacts do not come in contact with any metal objects.

### NOTE

Extreme temperatures will degrade the performance of your battery pack. Do not store this Lithium-ion battery pack in an ambient temperature range below -20°C (4°F) and above 60°C (140°F).

## Installing the Battery Pack

**INSTRUCTION** Use the following step/action table when installing the battery pack:

Step	Action
1.	Carefully invert the terminal. The terminal can be held in hand or gently placed on a soft sponge-like surface so as not to damage the unit's LCD screen.
2.	Insert the battery pack onto the back of the terminal. Note that the side of the pack with the arrow engraved on it should face upward. The insertion is easily done by sliding the 2 tabs in the front of the pack into the 2 openings on the front wall of the battery compartment
3.	Press down on the battery pack until it snaps into place
4.	<b>Stop.</b>

Step 1

Step 2 →

## Removing the Battery Pack

**INSTRUCTION** Use the following step/action table when removing the battery pack:

Step	Action
1.	Hold the terminal in hand or gently place the unit on a soft sponge-like surface in order not to damage the LCD screen.
2.	Remove the battery pack from the back of the unit by grasping the pack's locking snap with a finger or ballpoint pen.
3.	Lift the pack away from the unit.
4.	<b>Stop.</b>

## Connecting the AC Charger

**INSTRUCTION** The NURIT 8000 SECURE can be operated from an AC wall outlet by using the supplied AC charger. Use the following step/action table for assistance.

Step	Action
1.	Plug the connector at the end of the adapter cord into the "power" port on the left side of the NURIT's front panel.
2.	Plug the AC charger into an electrical outlet.
3.	<b>Stop.</b>

**Note:** When the charger's LED indicator light is **green**; the battery is on trickle charge. The LED light is **red** when charging (battery is less than 98% charged). If LED indicator is **not illuminated**, the charger is disconnected from the wall outlet.

## Installing Optional 33.6 Kbps External Modem

### INSTRUCTION

The optional 33.6 Kbps external fast modem (other baud rates available) enables downloading desired applications and parameters to the NURIT 8000 SECURE via a standard telephone line. Use the following step/action table for assistance.

Step	Action
1.	Insert the modem's data plug into the center "data" port on the front of the NURIT
2.	Connect a standard telephone line cord from the modem to a standard telephone company line socket.
3.	<b>Stop.</b>

## Installing the Vehicular Charger

### INSTRUCTION

The Vehicular Battery Charger provides power to the NURIT 8000 SECURE and charges the built-in Lithium-ion battery pack. Use the following step/action table for assistance.

Step	Action
1.	Insert the plug at the end of the charger's cord into the "power" port on the left side of the NURIT's front panel.
2.	Remove the cigarette lighter from your vehicle's cigarette lighter socket.
3.	Plug the charger's adapter into the cigarette lighter socket.
4.	<b>Stop.</b>

## Removing the Vehicular Charger

**INSTRUCTION** Use the following step/action table for assistance with removal.

Step	Action
1.	Unplug the adapter from the cigarette lighter socket.
2.	Grasp the plug end of the charger's cord and pull it out of the NURIT's "power" port.
3.	<b>Stop.</b>

## Installing the Paper Roll

**INSTRUCTION** Before you can process any transaction that requires a receipt, you must install a paper roll into the printer compartment. To install this roll, use the following step/action table.

Step	Action
1.	Place the terminal preferably on a flat surface.
2.	Open paper roll cover by pushing the release button in the direction of the arrow appearing on it.
3.	Open the cover.
4.	Remove the paper roll spindle from the paper roll compartment and insert it into the new paper roll.
5.	While holding the roll in hand, mount it together with its spindle in place into the 2 slots on both sides of the compartment. <b>Ensure that the paper roll feeds from the bottom!</b>
6.	Approximately 1 inch (2.5 cm) of paper should extend out of the paper roll compartment (between the cover and serrated tear strip.)
7.	Press down on the front of the paper cover until it snaps in place.
8.	<b>Stop.</b>

## Installing the Keypad Cover

**INSTRUCTION** Use the following step/action table for assistance installing the keypad cover.

Step	Action
1.	Position the tabs on the inner front sides of the cover over the indentations on both sides of the NURIT (on both sides of the keypad.)
2.	Press down on the cover until it snaps in place.
3.	<b>Stop.</b>

## Removing the Keypad Cover

**INSTRUCTION** Use the following step/action table for assistance removing the keypad cover.

Step	Action
1.	Hold the NURIT securely with one hand.
2.	Grasp the cover with your other hand and lift upward. The cover will easily unsnap from the terminal.
3.	<b>Stop.</b>

## Using the Magnetic Card Reader

**INSTRUCTION** A magnetic swipe card reader is located between the terminal's LCD screen and paper cover release button.

Step	Action
1.	Grasp the card so that its magnetic stripe is facing you.
2.	Place the card into one end of the card reader groove.
3.	Swipe the card in a smooth continuous manner. This can be done in any direction desired (left-to-right or right-to-left).
4.	<b>Stop.</b>

## Using the Smart Card Reader

**INSTRUCTION** Refer to the following action for assistance using the smart card reader.

Action
Insert the smart card ( <b>chip end first</b> ) into the opening of the reader on the terminal's front panel. For guidance, most smart cards will have directional guide arrows engraved or inscribed on the cards.

## Installing the GSM Subscriber Identity Module (SIM) Card

**CAUTION!** The SIM card contacts can be easily damaged. Do not bend or scratch when installing or removing the card.

**NOTE** If you are not using a GSM radio modem, an **optional** Security Access Module (SAM) may be installed instead of the SIM card used. The NURIT 8000 SECURE can house up to 2 optional SAM modules.

**INSTRUCTION** The SIM card supplied by your GSM Cellular Service Provider is a special card containing your telephone number, specific service details and memory for storing telephone and messages. Your NURIT terminal can **NOT** receive or make calls without the SIM card installed. Use the following step/action table for assistance.

Step	Action
1.	Grasp the battery pack snap and lift upward.
2.	Open the SIM reader holder by pushing it in the direction of the arrow engraved on it (towards you) and lifting the hinged holder upward.
3.	Hold the SIM card so that its chip side is facing down towards the contacts on the reader.
4.	Insert the SIM card into the grooves on each side of the holder. Make sure that you slide the <b>end closest to the chip</b> into the grooves of the holder <b>first</b> .
5.	Close the SIM cardholder and lock it by pushing it towards the front of the battery pack compartment.
6.	Replace the battery pack on the back of the NURIT. Press down on the pack to lock it in place.

## Connecting Typical Peripheral Device

### INSTRUCTION

Numerous peripheral devices can be used with the NURIT 8000 SECURE terminal. A barcode reader is one such typical device. An interconnection explanation and illustration appear below for a Keyboard Emulation Barcode Reader.

Step	Action
1.	Connect the Barcode Reader to appropriate end of the optional adapter cable (part no. FCL09506).
2.	Insert the other end of the adapter cable into the center “data” port on the unit’s front panel.

## Using an Optional Cellular Headset

### INSTRUCTION

An optional headset may be used with NURIT 8000 models adapted for cellular telephone communication.

Action
To use the headset, insert its plug into the “stereo-type” port on the right side of the unit’s front panel. When removing the headset from the panel, make sure to <b>grasp the plug</b> and not the cord.

## Infrared (IrDA) Communication Link

**INSTRUCTION** Your NURIT 8000 SECURE (model dependent) is capable of communicating via an infrared communication link.

Action
<p>In order to communicate, the infrared windows of both units must be directed towards each other. Typically, these units can be 2 NURIT 8000 SECURE terminals or a terminal and personal computer.</p> <p>The distance between units should not exceed 11.8 inch (30cm).</p>

## General Care & Maintenance

**INSTRUCTION** The NURIT 8000 SECURE has been designed to give you long and trouble-free service with minimal operator care. The user should protect the terminal from direct sunlight, extreme heat, dampness and dust.

**CAUTION!** Never use thinners, benzene and synthetic cleansers since they may distort or damage the plastic and critical parts.

**CLEANING THE TERMINAL** For normal cleaning, gently wipe off dirt from the body of the terminal with a soft, damp, lint-free cloth. A **very mild** dishwashing detergent can be used to dampen the cloth. Alcohol or alcohol-based cleansers may also be used for more difficult stains. If available, a **low-pressured** blower can be used to remove dirt accumulated around the keypad buttons and within the paper roll compartment.

If possible, use a lens blower to remove dust and dirt from the LCD screen. When so necessary, gently wipe the screen with a **soft cloth** or **eyeglass lens wiper**.

**CAUTION!** **Never** rub or strongly press on the LCD screen. Doing so may lead to **damage** or other possible problems.

## An Overview of the NURIT 8000 SECURE

**INFORMATION** This section will provide you with a basic understanding of the operations and functionality of the NURIT 8000 SECURE. This will include a keyboard overview and a basic explanation of common terms that you will find throughout this manual.

### The Terminal Keyboard

Key	Function
[Back Arrow – ON/OFF]	Use this key to power the terminal On and Off and as a Back Space when entering data.
[F] (Function Key)	Use this key to batch the terminal in addition to accessing other convenient hot keys.
[MENU/CANCEL]	Use this key to access the terminal's main menus and sub-menus.
[CLEAR]	This key will clear entered data.
[NUMBER PAD]	Used to enter all numeric values. In addition these keys are used in conjunction with the Alpha key to input alphabet text and various symbols.
[ALPHA]	This key converts the numbers on the keypad to their corresponding letters.
[▲] And [▼]	Use these arrow keys to scroll through the menu and submenu options.
[ENTER]	Use this key to make selections.

## Powering the unit On and Off

**Instruction** Use the following steps to power the unit on and off. The terminal can be powered on and off when on AC power and battery pack.

To Power On:

- **Press** the **[ON/OFF]** Button.

To Power Off:

- **Press** the **[F]** button and the **[ON/OFF]** buttons simultaneously
-

## INTRODUCTION

---

### INFORMATION

Presently, there are three varieties on the 4.82 Application. They include:

- SCA\_STD (for script)
- POS\_STD (this version is supported in NURIT models 2085 and higher)
- POS\_PLUS (this version is supported in NURIT 2085-M21, NURIT 3020, NURIT 8320 and NURIT 8000 terminals The major difference between POS\_STD and POS\_Plus is that Plus supports Magtek in addition to signature capture, RDM, multi-language, the Communication Log Report and the RAM Disk Report. Driver License Verification is supported by application version POS7PLUS only.)

APPLICATION	NURIT MODEL
POS7_STD **	NURIT 2085, NURIT 3010, NURIT 3020, NURIT 8000 SECURE AND NURIT 8320  ** REQUIRES NURIT OPERATING SYSTEM (NOS) 7.8.4 AND ABOVE.

**PLEASE NOTE:** For Merchants requiring PLUS Features, see the information in the following chart.

APPLICATION	NURIT MODEL
POS6PLUS *	NURIT 2085-M21 AND NURIT 3020  * REQUIRES NURIT OPERATING SYSTEM (NOS) 6.00 AND ABOVE.
POS7PLUS **	NURIT 2085-M21, NURIT 3020, NURIT 8000 SECURE AND NURIT 8320  ** REQUIRES NURIT OPERATING SYSTEM (NOS) 7.8.4 AND ABOVE.

**PLEASE NOTE:** The Nurit Control Center version must 7.4.11 or higher when building terminal files with any of these application versions.

---

# RETAIL - User Operations

**INFORMATION** This section explains the various instructions required in operating a NURIT terminal. In this manual, transactions, operations, and specific functions available with the POS\_STD and POS\_PLUS applications are explained. Screen displays are typical of the NURIT 8000 SECURE terminal.

## Processing Sale Transactions

### Credit Cards

STEP	ACTION	DISPLAY
1.	Be sure the terminal is at the Idle Prompt	
2.	<b>Swipe</b> the credit <b>card</b> , or manually key in the account number and expiration date.	
3.	<b>Input</b> the dollar <b>amount</b> of the transaction without a decimal point and press <b>[ENTER]</b>	
4.	<p><b>Press [ENTER]</b> if the card is present at the Point of Sale</p> <p><i>Or</i></p> <p><b>Press [MENU]</b> if the card is <i>not</i> present.</p> <p><b>Note:</b> This prompt is displayed for manually entered transactions only.</p>	
5.	<p><b>Using the stylus, have the customer sign on the touch screen display.</b></p> <p><b>Note:</b> Signature Capture must be enabled. If not enabled or if the customer does not sign on the screen, a blank signature line will print on the receipt.</p>	

Continued on next page

## Credit Cards, Continued

STEP	ACTION	DISPLAY
6.	The terminal will now contact the host for an approval and print a receipt. <b>Press any key</b> for second receipt.	
7.	<b>Stop.</b>	

## Debit Cards

STEP	ACTION	DISPLAY

# Check Sale

STEP	ACTION	DISPLAY
1.	From the idle prompt <b>press [ENTER]</b> until the display identifies a check sale.	
2.	<b>Input the amount to be verified and Press [ENTER]</b>	
3.	<b>Input the 17 digit MICR number from the check &amp; press [ENTER]</b> <i>Or</i> <b>Place the Check in the Check Reader/Imager</b> <i>* Display will vary depending on check hosts</i>	
4.	If a Check Imager was used, the terminal will display results.	
5.	After completion, a successful storage message will display.	
6.	Terminal will print one receipt if paper type is <b>Single/ Double</b> or two receipts if paper type is <b>Customized</b> .	
7.	<b>Stop.</b>	

## Cash Sale

**INFORMATION** The Cash EDC mode must be turned on to process cash transactions.

STEP	ACTION	DISPLAY
1.	From the Idle prompt press <b>[ENTER]</b> until the display identifies a Cash Sale. (See right →)	
2.	<b>Input</b> the dollar <b>amount</b> of the sale and <b>press [ENTER]</b>	
3.	Terminal will print one receipt if paper type is <b>Single/Double</b> or two receipts if paper type is <b>Customized</b> .	
4.	<b>Stop.</b>	

## Processing Retail Sale Transactions – With Tip(s)

Turning the Tips function on and off is an option. There may be up to 3 tips/gratuities added per transaction. You can change the name of the tip for identification/reporting and add a default tip amount. Use the following step/action table for assistance processing a sale with tip option #1 turned on.

STEP	ACTION	DISPLAY
1.	Be sure the terminal is at the Idle Prompt	
2.	Press <b>[ENTER]</b> until the desired payment method is displayed.	
3.	<b>Swipe</b> the credit <b>card</b> , or manually key in the account number and expiration date.	
4.	<b>Input</b> the dollar <b>amount</b> of the transaction without a decimal point. <b>Press [ENTER]</b> .	

*Continued on next page*

## Processing Retail Sale Transactions – With Tip(s), Continued

STEP	ACTION	DISPLAY
5.	<p>Input the <b>tip amount</b> and press <b>[ENTER]</b></p> <p>OR</p> <p>Press <b>[ENTER]</b> to bypass</p> <p><b>Note:</b> Repeat step for Tip #2 and Tip #3 if necessary.</p>	
6.	The terminal will now contact the host for approval.	
7.	<p><b>If prompted, have the customer sign on the touch screen display using the stylus.</b></p> <p><b>Note:</b> Signature Capture must be enabled. If not enabled or if the customer does not sign on the screen, a blank signature line will print on the receipt.</p>	
8.	If requested, <b>press any key</b> to print second receipt.	
9.	<b>Stop.</b>	

# Voids

## Void Sale

**INFORMATION** A void of a sale can be done if the original sale was Processed in the same batch. If the original sale was NOT Processed in the same batch a Return must be processed.

STEP	ACTION	DISPLAY
1.	From the Idle prompt <b>press</b> the [▲] or [▼] key until the display identifies a Void/Sale. (See right →)	
2.	Swipe the credit card or key in the account number and expiration date manually.	
3.	<b>Input</b> the dollar <b>amount</b> to be voided.	
4.	<b>Press [ENTER].</b> <b>Note:</b> Depending upon the host, the terminal might dial out for authorization.	
5.	<b>Using the stylus, have the customer sign on the touch screen display.</b> <b>Note:</b> Signature Capture must be enabled. If not enabled or if the customer does not sign on the screen, a blank signature line will print on the receipt.	
6.	<b>Press any key</b> to print second receipt.	
7.	<b>Stop.</b>	

# Void Return

**INFORMATION** A Void Refund is done, if the original return is from the same batch. If the refund is from a different batch, you will not be able to Process a void return.

STEP	ACTION	DISPLAY
1.	From the Idle prompt <b>press</b> the [ <b>▲</b> ] or [ <b>▼</b> ] key until the display identifies a Void/Return. (See right →)	
2.	Swipe the credit card or key in the account number and expiration date manually.	
3.	<b>Input the amount of the return</b> to be voided.	
4.	<b>Press [ENTER].</b> <b>Note:</b> Depending upon the host, the terminal might dial out for authorization.	
5.	<b>Using the stylus, have the customer sign on the touch screen display.</b> <b>Note:</b> Signature Capture must be enabled. If not enabled or if the customer does not sign on the screen, a blank signature line will print on the receipt.	
6.	<b>Press any key</b> to print second receipt.	
7.	<b>Stop.</b>	

## Void Forced Sale

**INFORMATION** A Void Forced Sale is done, if the original Forced Sale is from the same batch. If the forced sale is from a different batch, you will not be able to Process a void forced sale.

STEP	ACTION	DISPLAY
1.	From the Idle prompt <b>press</b> the [▲] or [▼] key until the display identifies a Void/Forced. (See right →)	
2.	Swipe the credit card or key in the account number and expiration date manually.	
3.	<b>Input the amount of the Forced Sale</b> to be voided.	
4.	<b>Press [ENTER].</b> <b>Note:</b> Depending upon the host, the terminal might dial out for authorization.	
5.	<b>Using the stylus, have the customer sign on the touch screen display.</b> <b>Note:</b> Signature Capture must be enabled. If not enabled or if the customer does not sign on the screen, a blank signature line will print on the receipt.	
6.	<b>Press any key</b> to print second receipt.	
7.	<b>Stop.</b>	

# Returns

## Credit Returns

**INFORMATION** A refund to a customer's credit card account can be done if the original sale is from a different batch. If the sale and refund are in the same batch process a Void, otherwise, a refund is done as follows:

7.	If prompted, <b>press any key</b> to print second receipt.	
8.	<b>Stop.</b>	

# Verify

---

**INFORMATION** This function is used to ensure that a customer has adequate funds on their credit card by obtaining an authorization (**THIS DOES NOT CHARGE THE CUSTOMER'S ACCOUNT**).

STEP	ACTION	DISPLAY
1.	From the Idle prompt <b>press</b> the [▲] or [▼] key until the display identifies a Verify. (See right →)	
2.	Swipe the credit card or key in the account number and expiration date manually.	
3.	<b>Input</b> the <b>amount</b> to be verified.	
4.	<b>Press [ENTER]</b> . The terminal will process the transaction.	
5.	Upon approval, one receipt without a signature line will be printed.	
6.	<b>Stop.</b>	

---

## Forced Transaction

**INFORMATION** When authorization has previously been obtained, a Forced Sale should be done to process the transaction.

STEP	ACTION	DISPLAY
1.	From the Idle prompt <b>press</b> the [▲] or [▼] key until the display identifies a Forced Sale.  (See right →)	
2.	Swipe the credit card or key in the account number and expiration date manually.	
3.	<b>Input the amount of the transaction.</b> This amount should be equal to or less than the amount that was verified.	
4.	Input the authorization number previously obtained.	
5.	<b>Using the stylus, have the customer sign on the touch screen display.</b> <b>Note:</b> Signature Capture must be enabled. If not enabled or if the customer does not sign on the screen, a blank signature line will print on the receipt.	
6.	<b>Press any key</b> for the second receipt to print.	
7.	<b>Stop.</b>	

# Batching

**INFORMATION** To Process a manual batch release, or settlement of transactions stored in the NURIT 8000 SECURE memory, use the following step/action table for assistance

STEP	ACTION	DISPLAY
1.	From the Idle prompt <b>press [F]</b>  (See right →)  <b>Note:</b> Prompts will vary by host.	
2.	<b>Press [2]</b> to start batch process.	
3.	Select the number that corresponds with the host you are batching or <b>press [1]</b> for ALL.  <b>Note:</b> Prompt will vary with terminal setup.	
4.	<b>Press [1]</b> to close the batch.  <b>Note:</b> Prompts will vary by host.	
5.	The terminal will contact the host processor, close the batch and print a batch report.	
6.	<b>Stop.</b>	
<b>Note:</b>	If a terminal is programmed for auto batch, the host will close the batch automatically each night at a specific time and the terminal will print a batch report. However, the transactions will only clear at the time of the first sale of the new batch. Although your terminal will be programmed for auto batch, you still have the option to batch manually. Images are uploaded at the start of the batch process.	

## Accessing Hot Keys

**FUNCTION DESCRIPTION** Hot Keys are short cuts to reports and functions. Hot Keys must be programmed when the terminal file is built and downloaded into the terminal with the application and parameters. A Hot Key List is printed at the end of the Print Setup Report.

**Example of Print Setup Report:**

```
HotKey List:
F1:          Driver License
F2:          Open a Tab
F3:          Close a Tab
```

STEP	ACTION	DISPLAY
1.	If necessary, <b>press [MENU/ESC]</b> to return the terminal to the idle prompt.	
2.	<b>Press the [F]</b> key at the same time as pressing the number key on the list. I.E., <b>press [F]</b> and <b>[2]</b> to Open a Tab.	
3.	<b>Stop.</b>	

## Driver License Verification \*

### INFORMATION

This feature is programmable at the *Nurit Control Center* level using one of the terminal's eight hot keys. The Programmed Hot Keys are listed at the bottom of the Setup Report.

**\*NOTE:** All Driver License Verification functions are available with POS7PLUS application only.

STEP	ACTION	DISPLAY
1.	From the idle prompt, press the <b>[F]</b> key at the same time as pressing the number key for Driver License Verification.	
2.	Swipe the customer's Driver License with the Magnetic strip facing down and to the right.  <b>Note:</b> For a successful swipe the customer's DL must have a magnetic strip.	
3.	Enter the Server ID then press <b>[ENTER]</b> .	
4.	Select the purchase type for the Age Verification.  1. Tobacco 2. Liquor 3. Scan (Displays age and issuing state)	

Continued on next page.

## Driver License Verification, Continued

---

STEP	ACTION	DISPLAY
5.	<p>The terminal will read the magnetic strip and determine if the customer's age is appropriate for the type of purchase.</p> <p><b>Note:</b> Prompts will vary depending on the selection.</p>	
6.	<p>The display will show the customer's age and resident state.</p> <p><b>Note:</b> Prompts will vary by customer.</p>	
7.	<b>Stop.</b>	

---

## DL Verification General Report \*

STEP	ACTION	DISPLAY
1.	From the idle prompt, press the <b>[F]</b> key at the same time as pressing the number key for Driver License Verification.	<pre>CREDIT . . . . . SALE ACCOUNT -&gt;</pre>
2.	Press the <b>[BS]</b> key to list the available functions.	<pre>Swipe DL Card -&gt;</pre>
3.	Press <b>[ENTER]</b> to print the report.	<pre>DRIVER LICENSE 1.General Report 2.Clerk Report 3.Supported States 4.Clear DL Data</pre>
4.	<b>Stop.</b>	

## DL Verification Clerk Report \*

STEP	ACTION	DISPLAY
1.	From the idle prompt, press the <b>[F]</b> key at the same time as pressing the number key for Driver License Verification.	
2.	Press the <b>[BS]</b> key to list the available functions.	
3.	Press <b>[2]</b> to print the Clerk Report.	
4.	Enter the Server ID then press <b>[ENTER]</b> .	
5.	<b>Stop.</b>	

## DL Verification Supported States \*

STEP	ACTION	DISPLAY
1.	From the idle prompt, press the <b>[F]</b> key at the same time as pressing the number key for Driver License Verification.	
2.	Press the <b>[BS]</b> key to list the available functions.	
3.	Press <b>[3]</b> for Supported States. A list of the states currently supported will be printed.	
4.	<b>Stop.</b>	

The list of supported states is updated periodically as states change the type of license issued. The following is a list of the supported states when this document was written and might not be current. Print a list from your terminal for the latest information.

AR – Arkansas	MI – Michigan

## Clear Driver License Data \*

STEP	ACTION	DISPLAY
1.	From the idle prompt, press the <b>[F]</b> key at the same time as pressing the number key for Driver License Verification.	
2.	Press the <b>[BS]</b> key to list the available functions.	
3.	Press <b>[4]</b> to clear the Driver License Data.	
4.	The data will be cleared.	
5.	<b>Stop.</b>	

## Quick Service Payment

**INFORMATION** QSP is used in Fast Food Restaurants, Parking Garages and Motion Picture Theaters (Cinemas). This allows the acceptance of credit cards as the payment method without requiring authorization, receipts or signatures. QSP supports swiped transactions only; manual entry transactions are processed in the normal manner. This means that manual entry transactions will contact the host for authorization and will print a receipt with a signature line. Credit Card sales and voids are the only transaction types supported by QSP. The Credit EDC capture type must be Terminal Based for QSP.

A Floor Limit can be specified for each function (authorization, receipt and signature) for each card type to be processed. This must be specified in the file built for the specific terminal and downloaded into the terminal. QSP Mode information is printed on the Print Setup Report.

This function is available only when supported and requested by the Host Processor. The capture type must be terminal based.

Please review the following chart of default Floor Limits:

CARD TYPE	MERCHANT CATEGORY	DEFAULT FLOOR LIMIT
MASTER CARD	Fast Food Restaurant	\$25.00
MASTER CARD	Parking Garage	\$50.00
MASTER CARD	Cinema	\$35.00
VISA	Restaurant (all types)	\$25.00
VISA	Cinema	\$25.00
VISA	Parking Garage/Lot	\$75.00 for Authorization \$150.00 for Signature and \$25.00 for Receipt

# Processing a QSP Sale

STEP	ACTION	DISPLAY						
1.	Be sure the terminal is at the Idle Prompt							
2.	<b>Swipe</b> the credit <b>card</b> .							
3.	<b>Input</b> the dollar <b>amount</b> of the transaction without a decimal point and press <b>[ENTER]</b>							
4.	<table border="1" data-bbox="350 932 1425 1142"> <thead> <tr> <th data-bbox="350 932 889 982">If</th> <th data-bbox="889 932 1425 982">Then</th> </tr> </thead> <tbody> <tr> <td data-bbox="350 982 889 1066">The transaction amount is less than the authorization floor limit:</td> <td data-bbox="889 982 1425 1066">The Host Processor will not be contacted for authorization.</td> </tr> <tr> <td data-bbox="350 1066 889 1142">The transaction amount is greater than the auth. floor limit:</td> <td data-bbox="889 1066 1425 1142">The terminal will contact the Host for authorization.</td> </tr> </tbody> </table>	If	Then	The transaction amount is less than the authorization floor limit:	The Host Processor will not be contacted for authorization.	The transaction amount is greater than the auth. floor limit:	The terminal will contact the Host for authorization.	
If	Then							
The transaction amount is less than the authorization floor limit:	The Host Processor will not be contacted for authorization.							
The transaction amount is greater than the auth. floor limit:	The terminal will contact the Host for authorization.							
5.	<table border="1" data-bbox="350 1199 1425 1419"> <thead> <tr> <th data-bbox="350 1199 889 1249">If</th> <th data-bbox="889 1199 1425 1249">Then</th> </tr> </thead> <tbody> <tr> <td data-bbox="350 1249 889 1333">The transaction amount is less than the receipt floor limit:</td> <td data-bbox="889 1249 1425 1333">The terminal will display a “<b>Print Receipt?</b>” prompt (see step #6).</td> </tr> <tr> <td data-bbox="350 1333 889 1419">The transaction amount is greater than the floor limit:</td> <td data-bbox="889 1333 1425 1419">A receipt will be printed.</td> </tr> </tbody> </table>	If	Then	The transaction amount is less than the receipt floor limit:	The terminal will display a “ <b>Print Receipt?</b> ” prompt (see step #6).	The transaction amount is greater than the floor limit:	A receipt will be printed.

3.	<b>Input</b> the dollar <b>amount</b> to be voided then <b>press [ENTER]</b> .							
4.	<table border="1"> <thead> <tr> <th>If</th> <th>Then</th> </tr> </thead> <tbody> <tr> <td>The transaction amount is less than the receipt floor limit:</td> <td>The terminal will display a “<b>Print Receipt?</b>” prompt (see step #5).</td> </tr> <tr> <td>The transaction amount is greater than the floor limit:</td> <td>A receipt will be printed.</td> </tr> </tbody> </table>		If	Then	The transaction amount is less than the receipt floor limit:	The terminal will display a “ <b>Print Receipt?</b> ” prompt (see step #5).	The transaction amount is greater than the floor limit:	A receipt will be printed.
If	Then							
The transaction amount is less than the receipt floor limit:	The terminal will display a “ <b>Print Receipt?</b> ” prompt (see step #5).							
The transaction amount is greater than the floor limit:	A receipt will be printed.							
5.	<b>Press [ENTER]</b> to print a receipt or <b>[MENU/ESC]</b> for no receipt.							
6.	<table border="1"> <thead> <tr> <th>If</th> <th>Then</th> </tr> </thead> <tbody> <tr> <td>The transaction amount is less than the signature floor limit:</td> <td>The receipt will not have a signature line.</td> </tr> <tr> <td>The transaction amount is greater than the signature floor limit:</td> <td>The receipt will have a signature line.</td> </tr> </tbody> </table>		If	Then	The transaction amount is less than the signature floor limit:	The receipt will not have a signature line.	The transaction amount is greater than the signature floor limit:	The receipt will have a signature line.
If	Then							
The transaction amount is less than the signature floor limit:	The receipt will not have a signature line.							
The transaction amount is greater than the signature floor limit:	The receipt will have a signature line.							
7.	<b>Press any key</b> for second receipt to print.							
8.	<b>Stop.</b>							

## Menu Options

**INFORMATION** The NURIT 8000 SECURE has a menu with several options that control many of the terminal's basic operational functions. The menu is divided into main menus and sub-menus that can be accessed by pressing the **[MENU/CANCEL]** key.

### Accessing the Main Menu

STEP	ACTION	DISPLAY
1.	From the Idle Prompt press the <b>[MENU/CANCEL]</b> key.	<pre>CREDIT ..... SALE ACCOUNT -&gt;</pre>
2.	Use the <b>[▲]</b> and <b>[▼]</b> keys to scroll through the options then <b>press [ENTER]</b> to select.  <i>OR</i>  <b>Press</b> the number on the keypad that corresponds with your selection.	<pre>MENU SCREEN: 1.Reports 2.Merch. Params 3.Merch. Option 4.Host Params 5.System Options 6.Radio Params 7.Download 8.Communication 9.NOS Menu</pre>
3.	<b>Press [MENU/CANCEL]</b> to return to the idle <b>CREDIT . . . . . SALE</b> prompt.	
4.	<b>Stop.</b>	

# 1. Reports

---

The first menu is the Report Menu, which generates ten different types of reports:

**MENU  
DESCRIPTION**

- Default Report     Current Report     History Report     Display Transactions  
 Receipt Copy     Performance     Tip Report     Report Setup  
 RAM DISK Report \*     Communication Log Report \*

**\*NOTE:** These features are available with the POS\_PLUS application only.

---

**REPORT  
TYPES**

You will be prompted in some Report sub-menus to choose a report type. Below is a list of report types and their definitions.

REPORT	DEFINITION
<b>CONDENSED REPORT</b>	This type of report will print the transaction number, card type, transaction type, last four digits of the account number, and the amount of the sale.
<b>SHORT REPORT</b>	This type of report will print the transaction type and the amount of the sale.
<b>JOURNAL REPORT</b>	This type of report will print a full receipt style copy of each transaction.
<b>TOTALS ONLY</b>	This type of report will print daily totals only.

---

## Print the Default Report

---

**FUNCTION DESCRIPTION** This is a report of the terminal's daily transactions, which has been customized, or has set defaults from the Current Report (see Current Report on the following page).

STEP	ACTION	DISPLAY
1.	From the main MENU SCREEN <b>press [ENTER/CANCEL]</b>  <u>OR</u>  <b>Press [1]</b> to access the Reports Menu	
2.	<b>Input the Password and press [ENTER].</b>	
3.	From the Reports Menu <b>Press [ENTER]</b> <u>OR</u> <b>Press [1]</b> to select Default Report	
4.	<b>Stop.</b>	

---

# Print the Current Report

## FUNCTION DESCRIPTION

Current report will print the terminal's daily transactions, and can be customized with specific options. This is where the Default Report is set.

STEP	ACTION	DISPLAY
1.	From the Main Menu, <b>press [1]</b> to access the Reports Menu. <b>Input the Password and press [ENTER].</b>	<div style="border: 1px solid black; background-color: #90EE90; padding: 5px;"> <b>MENU SCREEN:</b>            1.Reports            2.Merch. ## Setting the Merchant Fee, Continued

STEP	ACTION	DISPLAY
6.	Press <b>[ENTER]</b> to add fee to CashBack transactions only or <b>[MENU]</b> to add fee to all debit transactions.	<div style="border: 1px solid black; background-color: #90EE90; padding: 5px;"> <p>On CashBack Only ENTR=YES, MENU=NO</p> </div>
7.	<b>Stop.</b>	

## Set Batch Time

### FUNCTION DESCRIPTION

This option will allow the batch time in the terminal to be set for a specific time. This is used on AUTOBATCH terminals only. Set Batch Time will print a batch report and will not actually dial to batch.

STEP	ACTION	DISPLAY
1.	From the Main MENU SCREEN press <b>[2]</b> to access Merchant Parameters	<div style="border: 1px solid black; background-color: #90EE90; padding: 5px;"> <p><b>MENU SCREEN:</b>            1.Reports            2.Merch. Params            3.Merch. Options            4.Hosts Params            5.System Options            6.Radio Params            7.Download            8.Communication            9.NOS Menu</p> </div>
2.	Press <b>[7]</b> to set the Autobatch Batch Time	<div style="border: 1px solid black; background-color: #90EE90; padding: 5px;"> <p><b>MERCHANT PARAMS</b>            1.Authorizations            2.Security Level            3.Edit Header            4.Edit Trailer            5.Set Cash EDC            6.Merchant Fee            7.Set Batch Time            8 Srvr/Clrk/Invoice            9. Site ID</p> </div>
3.	Input the <b>Password</b> and press <b>[ENTER]</b>	<div style="border: 1px solid black; background-color: #90EE90; padding: 5px;"> <p><b>ENTER PASSWORD:</b></p> </div>

Continued on next page

## Set Batch Time, Continued

---

STEP	ACTION	DISPLAY
4.	<b>Input the desired time in military time (24 hour) and press [ENTER]</b>	
5.	If the terminal was programmed with more than one Autobatch EDC, you will be prompted to choose host before setting the batch time.	
6.	<b>Stop.</b>	

## Server ID/Clerk ID/Invoice Mode

### FUNCTION DESCRIPTION

This will allow the terminal to prompt for a server/clerk ID, invoice number, or both. For Retail terminals with no Tip active, the function is Clerk ID. For a Retail terminal with at least one Tip active or a Restaurant terminal, the function is Server ID.

If Server/Clerk ID Mode is activated, up to 100 ID/name designations can be entered and stored in the terminal. When storing the number/name designations, the server numbers are restricted to from 1 to 100.

STEP	ACTION	DISPLAY
1.	From the Main MENU SCREEN <b>press [2]</b> to access Merchant Parameters	 <p><b>MENU SCREEN:</b>  1.Reports  2.Merch. Params  3.Merch. Options  4.Hosts Params  5.System Options  6.Radio Params  7.Download  8.Communication  9.NOS Menu</p>
2.	<b>Press [8]</b> for Server/Invoice Mode.	 <p><b>MERCHANT PARAMS</b>  1.Authorization  2.Security Level  3.Edit Header  4.Edit Trailer  5.Set Cash EDC  6.Merchant Fee  7.Set Batch Time  8. Srvr/Clrk/Invoice  9. Site ID</p>
3.	<b>Input the Password</b> and <b>press [ENTER]</b>	 <p><b>ENTER PASSWORD:</b></p>
4.	Use the [ <b>▲</b> ] and [ <b>▼</b> ] keys to select <i>OFF</i> or <i>ON</i> and then <b>press [ENTER]</b> .  <i>Or</i> <b>Press</b> the number corresponding with your selection.	 <p><b>SERVER ID MODE:</b>  1.OFF  2.ON</p> <p><b>NOTE:</b> Display will change to reflect Retail or Restaurant configuration.</p>

Continued on next page.

## Server ID/Clerk ID/Invoice Mode, Continued

STEP	ACTION	DISPLAY
5.	<p>Enter the Server ID number a name is to be assigned to then <b>press [ENTER]</b>.</p> <p><i>Or</i></p> <p>Press <b>[MENU]</b> to bypass.</p>	<div style="border: 1px solid black; background-color: #90EE90; padding: 5px;"> <p><b>SERVER ID MODE:</b> 1.OFF 2.ON</p> </div> <div style="border: 1px solid black; background-color: #90EE90; padding: 5px;"> <p><b>ENTER SERVER ID</b> 1</p> </div>
6.	<p>Using the method described in Editing Header, <b>enter</b> the 19-character name. <b>Press [ENTER]</b> when the name has been entered.</p>	<div style="border: 1px solid black; background-color: #90EE90; padding: 5px;"> <p>Srv #1 Name: 1 N</p> </div>
7.	<p>Continue in this manner until all server names have been entered. <b>Press [MENU]</b> to accept the entered names and continue to Invoice Mode.</p>	<div style="border: 1px solid black; background-color: #90EE90; padding: 5px;"> <p>Srv #14 Name: 1 N ALICE</p> </div> <div style="border: 1px solid black; background-color: #90EE90; padding: 5px;"> <p><b>ENTER SERVER ID</b> 15</p> </div>
8.	<p>Use the [<b>▲</b>] and [<b>▼</b>] keys to select <i>OFF</i> or <i>ON</i> then <b>press [ENTER]</b>.</p> <p><i>Or</i></p> <p><b>Press</b> the number corresponding with your selection.</p>	<div style="border: 1px solid black; background-color: #90EE90; padding: 5px;"> <p><b>INVOICE MODE:</b> 1.OFF 2.ON</p> </div>

# Edit PIN Key

## FUNCTION DESCRIPTION

This option allows the changing or viewing of the working key for the PIN pad (access to this menu is not available without a PIN pad). The only time a change should be made in this field is if instructed by customer service.

STEP	ACTION	DISPLAY
1.	From the Main MENU SCREEN <b>press [5]</b> to access System Options.	<b>MENU SCREEN:</b> 1.Reports 2.Merch. Params 3.Merch. Options 4.Hosts Params 5.System Options 6.Radio Params 7.Download 8.Communication 9.NOS Menu
2.	<b>Press [ENTER]</b> to Set the Time and Date.	<b>SYSTEM OPTIONS:</b> 1.Set Time/Date 2.Edit PIN Key 3.Sel. Mstr Key 4.Set Batch No. 5.Edit Database 6.Working Mode 7.Test Mode 8.Predial Call 9.PinPad Init.
3.	<b>Input the Password and Press [ENTER]</b>	<b>ENTER PASSWORD:</b>
4.	Place the curser over the number you wish to edit using the [ <b>▲</b> ] and [ <b>▼</b> ] keys. <u>Or</u> <b>Press [CLEAR]</b> to remove the entire Working Key, then input the new one.	<b>ENTER PASSWORD:</b> **** <b>EDIT WORKING KEY</b> 0000000000000000
	Upon completion <b>Press [ENTER]</b>	
5.	<b>Stop.</b>	

# Select Master Key Location

**FUNCTION DESCRIPTION**

This changes the Master key location (access to this menu is not available without a PIN pad). Again, this is a field that should only be changed if instructed by customer service.

STEP	ACTION	DISPLAY
1.	From the Main MENU SCREEN <b>press [5]</b> to access System Options.	<div style="border: 1px solid black; background-color: #90EE90; padding: 5px;"> <p><b>MENU SCREEN:</b>                      1.Reports                      2.Merch. Params                      3.Merch. Options                      4.Hosts Params                      5.System Options                      6.Radio Params                      7.Download                      8.Communication                      9.NOS Menu</p> </div>
2.	<b>Press [3]</b> to Select Master Key	<div style="border: 1px solid black; background-color: #90EE90; padding: 5px;"> <p><b>SYSTEM OPTIONS:</b>                      1.Set Time/Date                      2.Edit PIN Key                      3.Sel. Mstr Key                      4.Set Batch No.                      5.Edit Database                      6.Working Mode                      7.Test Mode                      8.Predial Call                      9.PinPad Init.</p> </div>
3.	<b>Input the Password and Press [ENTER]</b>	<div style="border: 1px solid black; background-color: #90EE90; padding: 5px;"> <p><b>ENTER PASSWORD:</b></p> </div>
4.	<b>Input the correct Master Key Location and Press [ENTER]</b>	<div style="border: 1px solid black; background-color: #90EE90; padding: 5px;"> <p><b>ENTER PASSWORD:</b></p> <hr/> <p><b>MASTER LOCATION</b> 0</p> </div>
5.	<b>Stop.</b>	

## Set Batch Number

### FUNCTION DESCRIPTION

This menu option allows the batch number to be changed, if needed. This is also a field that should only be changed when instructed by customer service. To change the batch number:

STEP	ACTION	DISPLAY
1.	From the Main MENU SCREEN <b>press [5]</b> to access System Options.	<b>MENU SCREEN:</b> 1.Reports 2.Merch. Params 3.Merch. Options 4.Hosts Params 5.System Options 6.Radio Params 7.Download 8.Communication 9.NOS Menu
2.	<b>Press [4]</b> to Set the Batch Number	<b>SYSTEM OPTIONS:</b> 1.Set Time/Date 2.Edit PIN Key 3.Sel. Mstr Key 4.Set Batch No. 5.Edit Database 6.Working Mode 7.Test Mode 8.Predial Call 9.PinPad Init.
3.	<b>Input the Password</b> and <b>Press [ENTER]</b>	<b>ENTER PASSWORD:</b>
4.	Choose Host requiring batch number change.	<b>CHOOSE HOST</b> 2.Credit Host 3.Debit Host

*Continued on next page*

## Set Batch Number, Continued

STEP	ACTION	DISPLAY
5.	Input the <b>New Batch #</b> then <b>press [ENTER]</b> .	
6.	Press <b>[ENTER]</b> to complete.  <i>Or</i>  Press <b>[MENU]</b> to cancel.	
7.	<b>Stop.</b>	

## Edit Database

### FUNCTION DESCRIPTION

This sub-menu has three options, Void Transaction, Clear Database and Clear Offline. Void transaction will void a transaction by the transaction number. Clear Database will delete a batch and all its transactions. Clear Offline will clear all the offline transactions in the terminal.

### Edit Database – Void a Transaction

STEP	ACTION	DISPLAY

3.	<b>Press</b> the number that corresponds with the desired selection.	<b>STATUS BAR:</b> 1.OFF 2.ON 3.ON with Time 4.ON with Date
4.	<b>Stop.</b>	

## 6. Radio Params

**MENU DESCRIPTION** This Menu options allows viewing of the terminals radio information. There are three sub-menus in the Radio Params option.

Radio Tests     Print Params     Battery Test

### Radio Tests - RADIO RSSI

**FUNCTION DESCRIPTION**

This shows the **R**adio **S**ignal **S**trength **I**ndicator. The RSSI should be a thirteen or greater to obtain good reception. The base station will vary, depending on location.

STEP	ACTION	DISPLAY
1.	From the Main Menu <b>Press [6]</b> to access Radio Params	 <p><b>MENU SCREEN:</b>            1.Reports            2.Merch. Params            3.Merch. Options            4.Hosts Params            5.System Options            6.Radio Params            7.Download            8.Communication            9.NOS Menu</p>
2.	Allow a few moments for the terminal to register	 <p><b>PLEASE WAIT</b></p>
3.	<b>Press [1]</b> to access Radio Tests.	 <p><b>RADIO PARAMS:</b>            1.Radio Tests            2.Print Params            3.Battery Test</p>
4.	<b>Press [1]</b> to access Radio RSSI.  <b>Note:</b> The actual RSSI and base station will appear on the display.	 <p><b>RADIO RSSI: 18</b>  <b>BASE STN. : 40</b></p>
5.	<b>Press [MENU]</b> to exit	
6.	<b>Stop.</b>	

## Radio Tests - TERMINAL MAN# (MOBITEX ONLY)

**FUNCTION DESCRIPTION** This submenu function displays the MAN# (Mobitex Access Number) assigned to the terminal's radio.

STEP	ACTION	DISPLAY
1.	From the Main Menu <b>Press [6]</b> to access Radio Params	 <p><b>MENU SCREEN:</b>  1.Reports  2.Merch. Params  3.Merch. Options  4.Hosts Params  5.System Options  6.Radio Params  7.Download  8.Communication  9.NOS Menu</p>
2.	Allow a few moments for the terminal to register	 <p><b>PLEASE WAIT</b></p>
3.	<b>Press [1]</b> to access Radio Tests.	 <p><b>RADIO PARAMS:</b>  1. Radio Tests  2. Print Params  3. Battery Test</p>
4.	<b>Press [2]</b> for Terminal MAN#.	 <p><b>MAN=5555555</b>  Press any key...</p>
5.	<b>Press</b> any key to exit.	
6.	<b>Stop.</b>	

## Radio Tests - Terminal LLI# (Motient Only)

### FUNCTION DESCRIPTION

This submenu function displays the LLI# (Logical Link Indicator) assigned to the terminal's radio. The LLI must be active on the Motient network.

STEP	ACTION	DISPLAY
1.	From the Main Menu <b>Press [6]</b> to access Radio Params	
2.	Allow a few moments for the terminal to register	
3.	<b>Press [1]</b> to access Radio Tests.	
4.	<p><b>Press [2]</b> for Terminal LLI#.</p> <p><b>Note:</b> The RPD ID is the LLI#</p>	
5.	Press any key to exit.	
6.	<b>Stop.</b>	

## Radio Tests - Radio Information

**FUNCTION DESCRIPTION** This submenu function displays information specific to the units radio and is used mainly by technical support.

STEP	ACTION	DISPLAY
1.	From the Main Menu <b>Press [6]</b> to access Radio Params	 <p><b>MENU SCREEN:</b>  1.Reports  2.Merch. Params  3.Merch. Options  4.Hosts Params  5.System Options  6.Radio Params  7.Download  8.Communication  9.NOS Menu</p>
2.	Allow a few moments for the terminal to register	 <p><b>PLEASE WAIT</b></p>
3.	<b>Press [1]</b> to access Radio Tests.	 <p><b>RADIO PARAMS:</b>  1. Radio Tests  2. Print Params  3. Battery Test</p>
4.	<p><b>Press [3]</b> for Radio Info.</p> <p><b>Note:</b> Display will differ</p>	 <p><b>W ID: RIM MASC 0</b>  <b>EM</b></p>
5.	Press any key twice to exit.	
6.	<b>Stop.</b>	

# Print Params

**FUNCTION DESCRIPTION** This menu options allows you to print the radio parameters set for the terminal's radio.

STEP	ACTION	DISPLAY
1.	From the Main Menu <b>Press [6]</b> to access Radio Params	 <p><b>MENU SCREEN:</b>  1.Reports  2.Merch. Params  3.Merch. Options  4.Hosts Params  5.System Options  6.Radio Params  7.Download  8.Communication  9.NOS Menu</p>
2.	Allow a few moments for the terminal to register	 <p><b>PLEASE WAIT</b></p>
3.	<b>Press [2]</b> for Print Params.	 <p><b>RADIO PARAMS:</b>  1. Radio Tests  2. Print Params  3. Battery Test</p>
4.	The Radio Parameter information will print out.	
5.	Press <b>[MENU]</b> to exit.	
6.	<b>Stop.</b>	

# Battery Test

**FUNCTION  
DESCRIPTION**

This submenu function displays the current battery strength.

STEP	ACTION	DISPLAY
1.	From the Main Menu <b>Press [6]</b> to access Radio Params.	 <p><b>MENU SCREEN:</b>  1.Reports  2.Merch. Params  3.Merch. Options  4.Hosts Params  5.System Options  6.Radio Params  7.Download  8.Communication  9.NOS Menu</p>
2.	Allow a few moments for the terminal to register.	 <p><b>PLEASE WAIT</b></p>
3.	<b>Press [3]</b> for Battery Test.	 <p><b>RADIO PARAMS:</b>  1. Radio Tests  2. Print Params  3. Battery Test</p>
4.	Press <b>[MENU]</b> three times to exit.	 <p><b>BATT. OK (100%) GOOD BATTERY</b></p>
5.	<b>Stop.</b>	

## 7. Download

This Main Menu has four sub-menus pertaining to programming and reprogramming the terminal. This should only be done under advisement of customer service. Modem downloads cannot be done via RADIO and need to be done connected to a telephone line.

### MENU DESCRIPTION

- Parameters                       Autoload  
 Application Only                 Communication Params

## Download Definitions

**Parameter**      A parameter download is for downloading the merchant's file into the terminal. The information being downloaded is merchant specific. I.e.: Merchant ID, Terminal ID, etc.

**Autoload**        An autoload is used to update or change the current application in the terminal in addition to downloading the merchant's parameters. I.e.: Retail to Restaurant application would require an autoload.

**Application Only**      This option will download only the application information but not the merchant parameters.

## Downloading

### FUNCTION DESCRIPTION

Refer to above information for download definitions.

STEP	ACTION	DISPLAY
1.	From the Main Menu <b>Press [7]</b> to access the Download Menu	
2.	<b>Input the Password and press [ENTER]</b>	

*Continued on next page*

## Downloading, Continued

STEP	ACTION	DISPLAY
3.	<p>Press [ENTER] to continue</p> <p><i>Or</i></p> <p>Press [MENU] to exit.</p>	
4.	<p>To download via current setting press [ENTER] and skip to step 9.</p> <p><i>Or</i></p> <p>Press [MENU] to set communication options.</p> <p><b>Note:</b> The current setting will display</p>	
5.	<p>Press [3] to change the download method.</p> <p><b>Note:</b> Continuously pressing [3] will scroll through the available options. Whichever option is selected is the option that will appear on top in parenthesis.</p>	
6.	<p>If downloading via modem press [1] and input the download phone number.</p>	
7.	<p>If an exchange prefix is needed press [2] and input the exchange prefix.</p> <p>And/Or</p> <p>If a suffix is needed press [7] and input the suffix</p>	
8.	<p>Press [MENU] twice after all the communication parameters for the download have been set.</p>

5.	<b>Stop.</b>	

# Suffix

**FUNCTION DESCRIPTION** This submenu function allows you to program the terminal to dial a suffix after a phone number, when needed.

STEP	ACTION	DISPLAY
1.	From the Main Menu <b>Press [8]</b> to access Communication.	 <p><b>MENU SCREEN:</b>  1.Reports  2.Merch. Params  3.Merch. Options  4.Hosts Params  5.System Options  6.Radio Params  7.Download  8.Communication  9.NOS Menu</p>
2.	<b>Press [5]</b> for Suffix.	 <p><b>COMM MENU</b>  1. Min. Retries&gt;  2. DIAL : TONE  3. Exchange Pref&gt;  4. Gateway&gt;  5. Suffix&gt;  6. Via:Line/Radio  7. CHK LINE: ON  8. D. ToneChk: ON</p>
3.	<b>Press [2]</b> then press <b>[ENTER]</b> to add a suffix.	 <p><b>SUFFIX&gt;:</b>  1. NO  2. YES</p>
4.	<b>Input the Suffix</b> then <b>press [Enter]</b>	 <p><b>SUFFIX&gt;:</b>  1. NO  2. YES</p> <p><b>ENTER SUFFIX :</b>  —</p>
5.	<b>Stop.</b>	

## Via Line/Radio

### FUNCTION DESCRIPTION

This will program the terminal to process a transaction by radio first. If no signal is received, the terminal will look for a phone line. (This functionality is only available when the NURIT 8000 SECURE is connected to the external Modem.) If the terminal will only be using a phone line, because there is no signal in the area, then it can be programmed for phone Line Only.

STEP	ACTION	DISPLAY
1.	From the Main Menu <b>Press [8]</b> to access Communication.	
2.	<b>Press [6]</b> for Via: Line/Radio.	
3.	<b>Press [1]</b> for both Radio and Phone Line. <i>Or</i> <b>Press [2]</b> for phone line only.	
4.	After the selection has been made <b>press [ENTER]</b>	
5.	<b>Stop.</b>	

### The options are:

**Via: Both** – Will try to connect via the Radio first then via the phone line if radio is unsuccessful.

**Via: Line Only** – The terminal will dial out using only a Phone line.

## CHECK LINE: ON

### FUNCTION DESCRIPTION

This menu function tells the terminal to check for a phone line when attempting to dial out. (This functionality is only available when the NURIT 8000 SECURE is connected to the external Modem)

STEP	ACTION	DISPLAY
1.	From the Main Menu <b>Press [8]</b> to access Communication.	<b>MENU SCREEN:</b> 1.Reports 2.Merch. Params 3.Merch. Options 4.Hosts Params 5.System Options 6.Radio Params 7.Download 8.Communication 9.NOS Menu
2.	<b>Press [6]</b> for Via: Line/Radio.	<b>COMM MENU</b> 1. Min. Retries> 2. DIAL : TONE 3. Exchange Pref> 4. Gateway> 5. Suffix>: 6. Via:Line/Radio 7. CHK LINE: OFF 8. D. ToneChk: OFF
3.	Each time <b>ENTER</b> is pressed the display will toggle between OFF & ON. Upon desired setting <b>press [MENU]</b> to go back to the idle prompt.	<b>COMM MENU</b> 1. Min. Retries> 2. DIAL : TONE 3. Exchange Pref> 4. Gateway> 5. Suffix>: 6. Via:Line/Radio 7. CHK LINE: ON 8. D. ToneChk: OFF
4.	<b>Stop.</b>	

## CHECK LINE: ON

### FUNCTION DESCRIPTION

This menu function tells the terminal to check for a phone line when attempting to dial out. (This functionality is only available when the NURIT 8000 SECURE is connected to the external Modem)

STEP	ACTION	DISPLAY
5.	From the Main Menu <b>Press [8]</b> to access Communication.	<b>MENU SCREEN:</b> 1.Reports 2.Merch. Params 3.Merch. Options 4.Hosts Params 5.System Options 6.Radio Params 7.Download 8.Communication 9.NOS Menu
6.	<b>Press [6]</b> for Via: Line/Radio.	<b>COMM MENU</b> 1. Min. Retries> 2. DIAL : TONE 3. Exchange Pref> 4. Gateway> 5. Suffix>: 6. Via:Line/Radio 7. CHK LINE: OFF 8. D. ToneChk: OFF
7.	Each time <b>ENTER</b> is pressed the display will toggle between OFF & ON. Upon desired setting <b>press [MENU]</b> to go back to the idle prompt.	<b>COMM MENU</b> 1. Min. Retries> 2. DIAL : TONE 3. Exchange Pref> 4. Gateway> 5. Suffix>: 6. Via:Line/Radio 7. CHK LINE: ON 8. D. ToneChk: OFF
8.	<b>Stop.</b>	

## Appendix A – Restaurant Tips and Tabs

### Working Mode – TIP OPTIONS

**FUNCTION DESCRIPTION**

This option allows you to include up to three tips per transaction. This option will also allow you to name the tip type for identification. For Tip Discounting, the option **must be enabled** for each of the three tips where it is required.

The default tip amount will automatically be added to the transaction if a New Rate amount is entered for tips 2 & 3. For the Tip #1 default tip amount to be added, the tip option must be set for “In Transaction”.

**Note:** For Restaurant, Tip #1 cannot be disabled.

STEP	ACTION	DISPLAY
1.	From the Main MENU SCREEN <b>press [5]</b> to access System Options.	<b>MENU SCREEN:</b> 1.Reports 2.Merch. Params 3.Merch. Options 4.Hosts Params 5.System Options 6.Radio Params 7.Download 8.Communication 9.NOS Menu

**Auto Percent** – Will not prompt for a tip amount when entering the transaction and will print a blank tip line with suggested tip amount(s) below.

# Add Tips

## FUNCTION DESCRIPTION

This menu function allows you to go in and add the tips to a transaction in the terminal's database. This is used for Restaurant transactions only.

STEP	ACTION	DISPLAY
1.	From the idle prompt press the <b>[F]</b> and <b>[MENU/CANCEL]</b> keys at the same time to access the Tab Menu then <b>press [1]</b> for Add Tips.	
2.	There are several options for editing and adding tips*, use the arrow keys <b>[▼]</b> <b>[▲]</b> to make your selection then <b>press [ENTER]</b> . <i>Or</i> <b>Press</b> the number corresponding with your selection.	
3.	Use the <b>[▼]</b> and <b>[▲]</b> keys to scroll through the transactions.  When the desired transaction is displayed <b>press [ENTER]</b> to be prompted to add the tip amount.	
4.	Key in the tip amount then <b>press [ENTER]</b> .	
5.	If the amount of the entered tip exceeds to the <b>Overage Tip</b> parameter (defaults to <b>20%</b> in the software model), a warning message is briefly displayed.	

Continued on next page.

## Add Tips, Continued

---

STEP	ACTION	DISPLAY
6.	Press <b>[ENTER]</b> to accept the overage amount and continue or <b>[MENU]</b> to re-enter the tip amount.	
7.	The total transaction amount will appear briefly.	
8.	<b>Stop</b>	

**\*Note:** Scroll Opened will display only untipped transactions and therefore cannot be used when adjusting a transaction with an existing tip.

---

## Working Mode – Tab Option

STEP	ACTION	DISPLAY
1.	From the Main MENU SCREEN <b>press [5]</b> to access System Options.	<b>MENU SCREEN:</b> 1.Reports 2.Merch. Params 3.Merch. Options 4.Hosts Params 5.System Options 6.Radio Params 7.Download 8.Communication 9.NOS Menu

**POS STD and PLUS - NURIT 8000 SECURE QUICK REFERENCE GUIDE**

To access the menu, press the [MENU] key. This key will enter and exit out of the menu. Use the [▲] and [▼] key to scroll the menu options.

<b>1. REPORTS</b>		
1.	DEFAULT REPORT	Prints programmed default report.
2.	CURRENT REPORT	Prints a report of the current transactions: Offers several options: Used to change default report setup.
3.	HISTORY REPORT	Prints previous batch totals: Prints Combined or Per Batch totals: Maximum of 30 days.
4.	DISPLAY TRANS.	Displays current transactions offering different sorting options.
5.	RECEIPT COPY	Prints a copy of the last approved receipt. (Transaction must be last function performed.)
6.	PERFORMANCE	Prints percentage of Approvals, Denials, Disconnects, Manual Entries and Swipes: Reset option.
7.	TIP REPORT	Prints tip details for all servers or a specific server.
8.	REPORT SETUP	Offers option to print Visa/MC transactions together or separately: Setup tip discount.
9.	RAM DISK REPORT *	Prints a report listing the RAM Disk Size and max number of transactions for each EDC type.
10.	COMMUNICATIONS LOG REPORT *	Use this function to either print a communication log of the last transaction or batch processed or to clear the log.
<b>2. MERCHANT PARAMS</b>		
1.	AUTHORIZATION	Enables/disables different card and transaction types: Debit mode.
2.	SECURITY LEVEL	Sets security levels for different operations.
3.	EDIT HEADER	Edits the five line, 24 character header.
4.	EDIT TRAILER	Edits the five line, 24 character trailer.
5.	SET CASH EDC	Enables/disables recording of cash transactions.
6.	MERCHANT FEE	Enables and sets the surcharge rate for debit transactions.
7.	SET BATCH TIME	For Host Capture/Autobatch terminals, sets time terminal will print batch report.
8.	SERVER/INVOICE	Enables/disables Server, Invoice, Table and Guest No. Modes. (Table and guest for restaurant only).
9.	SITE ID	View or change Site ID.
<b>3. MERCHANT OPTIONS</b>		
1.	PAPER TYPE	Offers choice between single ply, double ply or custom (two receipts for debit).
2.	NO PAPER MODE	Disables print function (integrated or stand alone).
3.	BUZZER SET	Enables/disables tone when pressing keypad.
4.	OPERATION MODE	Toggles between Normal and Demo Modes.
5.	BATTERY SAVER	Offers option of turning Radio Only, Terminal Only, Radio and Terminal or neither off after a period of inactivity.
6.	PRINT DISCLAIMER	Enables/disables print of the disclaimer on each receipt.
7.	SET MENU TYPE	Toggles between manual scroll and auto scroll.
8.	SET HALO	Maximum dollar limit for a Sale, Return or Cash Back.
9.	PRINT SETUP	Prints terminal setup report listing; Current application, Header, Trailer, Card and transaction types, Paper type, Surcharge, Security settings, PIN Pad info, HALOs, Modes, Tip settings and Hot Keys.
10.	STORE & FORWARD	Enables/disables offline settings: Upload transactions: Resend/delete failed transactions.
11.	CHECK READER	Enables/disables check imaging for upload to the Web.
12.	SIGNATURE OPTION *	Initializes an E-Pad allowing the capture of signatures for upload to the Web.
13.	BRIDGE COMM *	Allows communication between terminal and web.
14.	LANGUAGE SETUP *	Choose from the available languages for display or printer.
<b>4. HOST PARAMS</b>		
1.	HOST PARAMS	Edit parameter settings for all hosts.
2.	HOST PHONES	Edits authorization and batch phone numbers for all hosts.
3.	PRINT EDC SETUP	Prints EDC report listing; EDC types available, All EDC hosts, Capture types, Host parameters, Radio information (when applicable), AutoDial settings.
4.	PROTOCOL VER.	Displays host protocol name and version.
5.	AUTODIAL SETUP	Sets the terminal to automatically dial out for manual batching.
6.	HOST RADIO ADDR.	Displays programmed host radio address.

*Continued on next page.*

**QUICK REFERENCE GUIDE, Continued**

<b>5. SYSTEM OPTIONS</b>		
1.	SET TIME / DATE	Sets terminal's date (mm/dd/yy) and time (hh:mm:00): Clock is 24 Hour/Military time.
2.	EDIT PIN KEY	Edit host processor working key for debit processing.
3.	SEL. MSTR KEY	Change Master Key location.
4.	SET BATCH NO.	Change the current batch number.
5.	EDIT DATABASE	Void transaction: Clear database for selected or all EDC Types.
6.	WORKING MODE	Offers the ability to set: Tip options for retail and restaurant; AVS Option; Card Present Options and Comment Option.
7.	TEST MODE	Programming purposes only.
8.	PREDIAL CALL	Enables/disables terminal dialing immediately once card is swiped.
9.	PINPAD INIT.	Initialize external PIN Pad when necessary.
10.	PINPAD FUNC.	Allows encryption of working key in terminal
11.	PINPAD CONFIG.	Toggles between internal or external PIN Pad.
12.	STATUS BAR	Enables and Disables the Status Bar Display.
<b>6. RADIO TEST</b>		
1.	RADIO TESTS	Mobitex Units: Signal strength; MAN or ILL number; Radio Information
2.	PRINT PARAMS	Mobitex Units: Prints radio type; MAN/LLI number; Radio addresses.
3.	BATTERY TEST	Tests the battery.
<b>7. DOWNLOAD</b>		
1.	PARAMETERS	Downloads host and merchant parameters only.
2.	AUTOLOAD	Downloads full application and parameters.
3.	APPLICAT. ONLY	Downloads application only, no host or merchant parameters.
4.	COMM. PARAMS	Sets communication parameters for downloading.
<b>8. COMMUNICATIONS</b>		
1.	MIN. RETRIES	Number of times the terminal will call host processor before timeout.
2.	DIAL : TONE	Sets pulse or tone (DTMF) dialing.
3.	EXCHANGE PREF	Enables/disables and stores digit for dialing an exchange prefix before phone number.
4.	GATEWAY	Programming purposes only
5.	SUFFIX	Enables/disables and stores digit for dialing a suffix after phone number.
6.	VIA: LINE / RADIO	Not relevant for the NURIT 2085.
7.	CHK LINE: ON	Enables/disables the check line function.
8.	D. TONECHK: ON	Enables/disables the dial-tone check function.

**\* NOTE:** These features are available with POS\_PLUS application only.

## BASIC TROUBLESHOOTING

This section briefly describes how to troubleshoot some possible common problems that may rise during the normal operation of the NURIT 8000 Series. Before requesting service for this unit, check the list below for a possible cause of the problem you are experiencing. Some simple checks on your part may solve the problem, and restore proper operation. If you are still unable to solve the problem, contact the technical support help desk. Do **NOT** try to solve the problem by opening the terminal yourself!

---

### Terminal Seems to Have No Power

- Try pressing **<F>** and **<MENU>** keys simultaneously.
- Allow the battery to charge 10 to 12 hours with the terminal on and AC adapter plugged into the wall (in standby mode).

---

### “NO LINE” Appears on the Display

- Make sure that you are receiving radio coverage in the area where you are located.

---

### Printer Does Not Function Properly

- Check that the paper has been fed to the printer properly (underhand). The NURIT 8000 SECURE uses thermal paper **only**.
- Check there is paper in the printer compartment. Replace if required.
- If printer continues working even though the paper has been used up, check that the ‘end of paper’ detector in the printer mechanism is not blocked by a torn piece of paper.

---

### Card Reader Not Working

- Make sure that card has been swiped so that its magnetic strip is facing downward and facing to the front.
- Contact the technical support help desk.

---

### Receipt Prints “CANCELED”

- The terminal will display a host response, or some type of error message, as to why the transaction was canceled.

# Appendix B - Lipman USA Licensing Agreement

## 8000 Series POS EDC Terminals

### END-USER LICENSE AGREEMENT FOR LIPMAN USA SOFTWARE

**IMPORTANT-READ CAREFULLY:** This Lipman End-User License Agreement (“EULA”) is a legal agreement between you (either an individual or a single entity) and Lipman USA, Inc. (“Lipman”) for the Lipman Software Product identified above, which may include associated media, printed materials, and “online” or electronic documentation (“Software Product”). By installing, copying, or otherwise using the Software Product, you agree to be bound by the terms of this EULA. If you do not agree to the terms of this EULA, do not install, copy or use the Software Product and return the product to our attention at the address set forth below for a full refund.

### SOFTWARE PRODUCT LICENSE

The Software Product is protected by copyright laws and international copyright treaties, as well as other intellectual property laws and treaties. The Software Product is licensed, not sold.

**1. GRANT OF LICENSE.** This EULA grants you the following rights:

- **Software License.** Lipman grants you the non-exclusive right to make and use, solely in connection with your use of Lipman terminals, a number of copies of the Software Product equal to the number of Lipman [insert name of terminal] terminals validly purchased by you. You may also make copies of the Software Product for backup and archival purposes.
- **Distribution.** Lipman grants you a non-exclusive, royalty-free right to reproduce and distribute an unlimited number of copies of the Software Product, solely for use in connection with Lipman terminals, provided that you: (a) distribute the Software Product in object code form only as part of a software product created by you for use with Lipman terminals, that adds significant and primary value to the Software Product (the “Licensed Product”); provided such Licensed Product complies with all applicable laws, rules and regulations, including without limitation, all VISA, MasterCard and other association rules and regulations; (b) do not use Lipman’s name, logo, or trademarks to market the Licensed Product; (c) will not permit further distribution of the Software Product by your end-user customers; (d) include a valid copyright notice on the Licensed Product sufficient to protect Lipman’s copyright in the Software Product; (e) distribute and license the use of the Licensed Product to end users only pursuant to your end user license agreement; (f) indemnify, hold harmless, and defend Lipman from and against any claims or lawsuits, including attorney’s fees, that arise or result from the use or distribution of your Licensed Product; (g) otherwise comply with the terms of this EVLA; and (h) agree that Lipman reserves all rights not expressly granted. No license is granted to you in the source code of the Software Product.

**2. DESCRIPTION OF OTHER RIGHTS AND LIMITATIONS.**

Not for Redistribution Software. If the Software Product is labeled “Not for Redistribution” or “NFR,” then, notwithstanding other sections of this EULA, you may not resell, sublicense, or otherwise transfer for value, the Software Product by itself or as part of a Licensed Product.

*Continued on next page*

## Appendix B - Lipman USA Licensing Agreement, Continued

---

\* Maintenance of Copyright Notices. You must not remove or alter any copyright notices on all copies of the Software Product.

\* Limitations on Reverse Engineering, Decompilation, and Disassembly. Neither you nor your end-user customers may reverse engineer, decompile, disassemble or otherwise attempt to discover the source code of the Software Product, except and only to the extent that such activity is expressly permitted by applicable law notwithstanding this limitation.

\* Separation of Components. The Software Product is licensed as a single product. Its component parts may not be separated for use on more than one terminal.

\* Performance or Benchmark Testing. You may not disclose the results of any benchmark test of the Software Product to any third party without Lipman's prior written approval.

\* Support Services. Lipman may provide you with support services related to the Software Product ("Support Services"), use of Support Services is governed by the Lipman policies and programs described in the user manual, in "online" documentation, and/or in other Lipman-provided materials. Any supplemental software code provided to you as part of the Support Services shall be considered part of the Software Product and subject to the terms and conditions of this EULA. With respect to technical information you provide to Lipman as part of the Support Services, Lipman may use such information for its business purposes, including for product support and development. Lipman will not utilize such technical information in a form that personally identifies you.

Software Transfer. You may permanently transfer all of your rights under this EULA (i) only in conjunction with a permanent transfer of your validly purchased Lipman terminals; (ii) provided you retain no copies; (iii) you transfer all of the Software

Product (including all component parts, the media and printed materials, and any upgrades); and (iv) the recipient agrees to the terms of this EULA. If the Software Product is an upgrade, any transfer must include all prior versions of the Software Product.

\* Termination. Your rights under this EULA terminate upon the termination of your right to use the Lipman terminal being used in connection with the Software Product. Without prejudice to any other rights, Lipman may terminate this EULA if you fail to comply with the terms and conditions of this EULA. In such event, you must destroy all copies of the Software Product and all of its component parts.

### 3. UPGRADES

If the Software Product is labeled as an upgrade, you must be properly licensed to use a product identified by Lipman as being eligible for the upgrade in order to use the Software Product. A Software Product labeled as an upgrade replaces and/or supplements the product that formed the basis for your eligibility for the upgrade. You may use the resulting upgraded product only in accordance with the terms of this EULA. If the Software Product is an upgrade of a component of a package of software programs that you

licensed as a single product, the Software Product may be used and transferred only as part of that single product package and may not be separated for use on more than one terminal.

### 4. COPYRIGHT

All title, including but not limited to copyrights, in and to the Software Product and any copies thereof are owned by Lipman or its suppliers. All title and intellectual property rights in and to the content which may be accessed through use of the Software Product is the property of the respective content owner and may be protected by applicable copyright or other intellectual property laws and treaties. This EULA grants you no rights to use such content.

### 5. U.S. GOVERNMENT RESTRICTED RIGHTS

The Software Product is provided with RESTRICTED RIGHTS. Use, duplication, or disclosure by the Government is subject to restrictions as set forth in subparagraph (c)(1)(ii) of the Rights in Technical Data and Computer Software Clause at DFARS 252.227-7013 or subparagraphs (c)(1) and (ii) of the Commercial Computer Software Restricted Rights at 48 CFR 52.227-19, as applicable. Manufacturer is Lipman USA, Inc., 50 Gordan Drive, Syosset, New York 11791.

### 6. EXPORT RESTRICTIONS

You agree that you will not export or re-export the Software Product to any country, person, entity or end user subject to U.S.A. export restrictions. Restricted countries currently include, but are not necessarily limited to Cuba, Iran, Iraq, Libya, North Korea, Sudan, and Syria. You warrant and represent that neither the U.S.A. Bureau of Export Administration nor any other federal agency has suspended, revoked or denied your export privileges.

### 7. NO WARRANTIES.

Lipman expressly disclaims any warranty for the Software Product. THE SOFTWARE PRODUCT IS PROVIDED "AS IS" WITHOUT WARRANTY OR CONDITION OF ANY KIND, EITHER EXPRESS OR IMPLIED, INCLUDING, WITHOUT LIMITATION, THE IMPLIED WARRANTIES OF MERCHANTABILITY, FITNESS FOR A PARTICULAR PURPOSE, OR NON-INFRINGEMENT. THE ENTIRE RISK ARISING OUT OF USE OR PERFORMANCE OF THE SOFTWARE PRODUCT REMAINS WITH YOU.

### 8. LIMITATION OF LIABILITY

In no event shall Lipman or its suppliers be liable for any damages whatsoever (including, without limitation, damages for loss of business profits, consequential or incidental damages, business interruption, loss of business information, or any other pecuniary loss or expense) arising out of the use of or inability to use the Software Product, even if Lipman has been advised of the possibility of such damages. Because some states and jurisdictions do not allow the exclusion or limitation of liability for consequential or incidental damages, the above limitation may not apply to you.

### MISCELLANEOUS

This EULA is governed by the laws of the State of New York, excluding the application of its conflict of laws rules. In the event of any dispute arising from or relating to this EULA, the parties hereto irrevocably consent to the personal jurisdiction of the courts located in New York, New York, which shall be the exclusive venue for any such dispute. The United Nations' Convention on International Sale of Goods does not apply. This EULA sets forth the entire understanding and agreement between you and Lipman and may be amended only in a writing signed by both parties.
