ADS VEHICLE EXTRACTION KIT

In a rescue situation, time and mobility are mission-critical. These factors are more significant when rescue operations involve armored vehicles in a hostile environment. Portability is important, but performance is key. This lightweight, highly portable package allows rescuers to respond quickly, yet still get the job done.

The PU5 is a full performance compact mini pump with hydraulic and fuel tanks designed for portability. The PU5 easily powers the full sized 4150 Combi tool and 4340 Telescopic ram with Holmatro's patented CORE Technology™ hydraulic system so rescuers can direct their focus to the rescue operations, not the rescue equipment. For added versatility, this kit also contains a Hooligan tool. Faster, Easier and Safer, this package allows you to get the job done and get out.

Vehicle Extraction Kit	Contact ADS for ordering information

A COMBI TOOL

The 4150 Combi is a powerful tool that offers both Cutting (67,000 lbs) and Spreading (16,166 lbs) capabilities. It comes with integrated LED lights in the handle and a low profile i-Bolt that narrows insertion profile by 2 inches. The 4150 weighs in at 31 lbs. It is also the only combi tool on the market that is UL listed.

B RAM

The 4340 Telescopic Ram was designed for hard to reach places and is extremely powerful. In its closed position it is 12 inches long and extends its first stage 7 inches with 49,145 lbs; an additional piston extends a further 5 inches with up to 18,210 lbs. The 4340 weighs 24 lbs.

C MINI PUMP

The PU5 was designed for portability (26 lbs.) and combined with the 4150 and 4340, is the perfect set up for a complete remote rescue system.

D HOSES

All tools above operate with CORE technology couplings and coaxial hoses which means the high pressure hose is housed inside the low pressure return. This allows for foolproof connections and vastly reduced set up and less than half the weight as traditional twin line hose systems.

E HOOLIGAN

The Paratech Hooligan Tool has set the standard of excellence for Halligan type tools. Now available with a machined alloy shaft for lighter weight, these heavyduty tools were designed to pry, pound, puncture, twist, and cut open or remove all types of barriers between emergency service personnel and the ability to save a life.

- Dimensions: Length 30 (76.2), Weight 10.6 (4.8)

Kit can come in either a London Bridge Trading Load Out Bag (Option 1) or a Pelican Case (Option 2).

MOJO MEDICAL KITS BY COMBAT MEDICAL SYSTEMS

MOJO-432

URBAN PATROL MEDICAL CHEST RIG

The MOJO-432 allows the medic to rapidly access both ammunition and medical equipment to provide immediate care of a critical casualty. The highly configurable design allows multiple options based on the medics mission and supply requirements. The Multi-Loop™ design allows all variations of Class-VIII items to be utilized which is critical during resupply in theater. The Mojo-432 can be used to either augment a medical pack or when used in conjunction with general purpose pouches it can be used in a stand alone capability.

- Both mission and medical equipment in easy access
- Multiple opening positions allow optimum access for confined spaces
- Fully gusseted side panels ensure equipment retention in all situations
- Movable/removable multi-loop and internal pocket for maximum configurations
- Made in America of the highest quality construction from London Bridge Trading

SCBA-G COMBINATION AND MODULAR APR/ PAPER/ SCBA SYSTEM

The SCBA-G is a modular combination SCBA/PAPR designed to provide long-duration breathing protection to Emergency Responders and the Military. The SCBA-G uses proven and tested technology. It is ideal for missions requiring long entry/egress or, involve unknown elements that may require varied levels of protection. Without exposure to the environment, the user chooses the level of protection — compressed or filtered air.

Paired with Dräger's Brand New Hybrid mask, you have the ability with these components to have an APR,PAPR, SCBA, or a Combination PAPR/SCBA Unit with only one fit test and the issuance of one mask (the SCBA/PAPR Combination is also inoperable with either the M53 or FM53 Avon mask).

Some Dräger SCBA's already in the field have the capability of being upgraded with just the SCBA-G Upgrade kit. With all SCBA-G products the mask must be purchased separately.

CROSSBOW™

THE EYESHIELD RE-INVENTED

Lenses

- Interchangeable, 2.4mm polycarbonate high-impact lenses provide 100% UVA/UVB protection.
- CLEARZONE FC™ dual lens coatings maximize scratch resistance on the outside & fog resistance on the inside. Wide-wrap lenses provide unparalleled lateral coverage from projectiles. ESSOPTICS™ ensure distortion-free optical precision throughout the entire field of view.

Standards

- Meets or exceeds U.S. MIL SPEC MIL-PRF-31013, ANSI Z87.1+, CE EN 166, U.S. Federal OSHA

Frames

- Engineered TRI-TECH™ FIT comfortably conforms to a wide variety of faces. The DEDBOLT™ LENS LOCK reliably secures lens in position; the quick-release lever twists to allow for rapid lens interchange. Durable thermoplastic nylon frames are optimized for superior compatibility with helmets, communication and night vision equipment.

JOEY POUCH HYDRATION ALTERNATIVE

The Joey Pouch is designed to be a smaller alternative to the standard 3 liter hydration system or as a replacement for a traditional canteen. For use with .75 liter bladders, the pouch features mil-spec construction from 1000 denier Cordura Nylon with a dual-pull heavy duty zipper and external webbing and will also hold a standard Nalgene bottle. Attaches to MOLLE/PALS style webbing with two included long MALICE CLIPS®. The Joey Pouch is shown with a SOURCE™ .75 liter Kangaroo bladder (sold separately).

- MADE IN THE USA
- 100% Berry Compliant
- Colors: ACU and Black

PORTABLE SEAT AND TACTICAL STORAGE COVER (TSC)

WHEN IT COUNTS MOST... TRUST ONLY THE BEST

From the company that defined protection in Helmet Pads... the only authorized Helmet Pad System in use by the US Army and the Marine Corps... Team Wendy now brings the same technology to tactical vehicle seating with the Portable Seat and Tactical Cover!

Tactical Storage Cover Benefits

- Contoured & supportive viscoelastic foam padding provides comfort, stability and vibration attenuation
- Easy to install
- Webbing system allows for convenient storage of gear and supplies
- Convenient handles provide "tear-away" ease, allowing each storage pouch to be carried or attached to the user
- Grippium™ non-slip material keep the seat and cover in place
- Optional Lumbar support pad easily zips to seat
- Removable/replaceable water repellent fabric covering
- Color: Coyote Brown, Universal Camo, Black

POUCHES

- Covered in webbing to attach gear
- Opens to carry extra gear inside
- Double handle on top for easy opening the hook/loop pouch closure
- Handles on three sides allow the pouch to be grabbed and carried quickly
- Small corner handles for quick tearing away from the Main Panel
- Able to hold up to 35 lbs. of gear
- Made in USA
- Berry Amendment Compliant

Dimensions

- Small Pouch (Attaches to upper back of cover): 8" x 14"
- Large Pouch (Attaches to lower back of cover): 16" x 15.5"

Model	Item Number
Large Pouch	TW-TSC-LP-CB, UC, BK
Small Pouch	TW-TSC-SP-CB, UC, BK

PORTABLE SEAT PAD AND LUMBAR CUSHION

Cleaning

- Unzip and remove fabric covering
- Hand wash with mild soap
- Air dry completely
- Reinsert foam

Dimensions

- Portable Seat Pad: 13.5" x 18.5" x 2.125"
- Portable Lumbar Cushion: 10.75" x 17.5" x 1.75"

Tactical Storage Cover Set	TW-TSC-SET-CB, UC, BK

Where foreign language is a barrier, Voxtec's SQU.ID® SQ.200 hands free, eyes free, wearable translation system is a bridge to common understanding. The SQ.200 provides fast, highly reliable translation of phrases from English into a target language, while enabling you to maintain situational awareness at all times. It is ideally suited for various operations within the Military, Law Enforcement, Correctional, Emergency Medical Services and Disaster Relief communities where tactical translation capability is crucial.

SQU.ID® SQ.200 TACTICAL TRANSLATION CAPABILITY RIGHT OUT OF THE BOX!

Included Features and Accessories

- Automatic Speech Recognition (ASR) technology means NO need for tedious voice training – begin using the SQU.ID SQ.200 “right out of the box”
- Rugged, award-winning design provides environmental protection against impact, fine sand and rain
- Three convenient translation modes to choose from at any time: Voice Recognition, PUSH TO TALK, or Manual operation
- Quickly add and easily manage phrases within a custom “My Favorites” category
- Add up to five custom phrases directly on device
- Loop and broadcast a series of phrases in different languages to communicate with diverse non-English speaking crowds
- Secure easily into a custom MOLLE-compatible hardened holster for complete hands free, eyes free translation capability
- Voice activated menu options, settings and phrase selections
- Use the mini USB cable to update application and language modules at any time through Voxtec's online User Center
- No internet connection, no problem – simply use the Language Module Library DVD to securely download new SQ.200 modules directly to the device
- Store and transport the SQ.200 within the MOLLE-compatible tactical carrying bag
- Recharge the SQ.200's NiMH batteries anywhere in the world via the AC/DC Universal Charger Adapter
- Access phrases available on the SQ.200 at a glance within the Phrase Reference Booklet stored inside the tactical Wrist “Coach”
- Immediately get started and quickly acquire basic through advanced skills by reviewing the SQ.200 User Manual, Quick Reference Guide and Training Program DVD

Optional Accessories

- Easily connect the SQ.200 to an external loudspeaker system or megaphone via an Audio Y-Cable Connector Kit for long range broadcast capability - Kit Includes: “Y Cable” Connector, a 25-Foot Audio Extension Cable, a 6-Foot Audio Extension Cable, and Connector Kit Instructions
- SQ.200 Lapel Microphone Kit – connect a custom, low profile, noise-cancelling lapel microphone to the SQ.200 for hands free eyes free translation capability in situations when the user is already wearing another tactical headset solution - Kit Includes: Custom Lapel Microphone and Kit Instructions
- Voxtec's Module Builder PRO “DO IT YOURSELF” Software Kit enables users to create custom SQ.200 language modules for specific use cases – Kit Includes: a CD-ROM Containing (1) License to Module Builder PRO™ Software, a Training Manual, and Audio Headset for Recording Language Translations

Included Specs

- Store up to 2,400 easily accessible phrases
- Up to 100 phrases per category
- Built in, 1-watt, weather-resistant, high fidelity Mylar speaker designed to specifically provide clear translations in high noise environments
- Over 20 hours of continuous use battery life per charge cycle provided by 4 AA NiMH rechargeable batteries
- 2-inch day and night readable diagonal LCD screen with 160 x 128 pixels
- Dimensions: 6” x 3” x 1.75” inches
- Weight: 13.5 ounces (15.8 ounces with including headset)

Available Target Languages

- Dari, Pashto, Urdu, Iraqi, Kurmanji, Arabic, Farsi, Somali, Hindi, Tagalog, Mandarin, Cantonese, Korean, Vietnamese, Thai, Spanish, Haitian Creole, and many more...!
