Additionally there are links to the 3 main functional modules of the system:

Reporting & Learning System Actions Administrations, setup and configuration

The Recommendation Tracker and Safety Alert modules are the responsibility of designated users. You will not be required to perform these functions. If you are designated, further training will be provided at a later date.

If reports are not read within 48 hours there are overdue reports or actions, the system will alert you with a flag and message beside the module with overdue items (as above; beside the Reporting & Learning System line: **!There are overdue items**). The overdue functions is there for your benefit, there is no 'penalty' for overdue reports.

To read your reports, click on **Reporting & Learning System**. A list of files will appear. The files contain all the accumulated reports from your area(s). To look at specific Elopement reports, see further:

ELOPEMENT REPORTS – ADVANCE TO DETAIL

This feature allows the managers to advance to the details of the report. For instance, clicking on Elopement results in a display of only the details related to the elopement in this report.

- Click on the Reporting & Learning System
- Click on New Search
- Click on Elopement
