TEAC WARRANTY REGISTRATION

Please read this warranty card.
Keep your purchase receipt to enable you to proceed quickly in the event of a Warranty Service.

Warranty Terms & Conditions

1. TEAC warrants to the original retail purchaser only, that this product is free from defects in material and workmanship under normal domestic use and authorises free service during the warranty period at any TEAC Authorised Service Centre only. TEAC warranty only applies to products purchased, used and serviced in Australia.

2. Subject to the terms herein, this warranty effectively covers the equipment as specified in the Warranty Periods Table below from the date of purchase.

TEAC PRODUCT	WARRANTY PERIOD
Plasma TV 106 cm and above	1 Year (In-Home Service Available)
LCD Televisions 59cm and above	1 Year (In-Home Service Available)
Televisions – 59cm and above	1 Year (In-Home Service Available)
All Televisions under 59 cm	1 Year (No In-Home Service)
Digital Set Top Boxes & Module	1 Year (No In-Home Service)
VCR	1 Year (No In-Home Service)
DVD & Module	1 Year (No In-Home Service)
DVD Recorder & PVR Module	1 Year (No In-Home Service)
Audio Systems	1 Year (No In-Home Service)

3. In home service will only be provided as part of this warranty if all the following conditions are met;
   a) The product as indicated in the Warranty Period Table.
   b) The product is within the warranty period.
   c) The product is located within the normal service area of the local TEAC Authorised Service Centre.
In any other situation or circumstance, where an in home service call is made, a service fee will be charged by the Service Provider including a travel fee if outside normal service area.

If TEAC determines that the product is not repairable on site, TEAC can complete the repair by taking the product to a TEAC Authorised Service Centre.

Where in-home service is not available, the purchaser is required to send the product to the nearest TEAC Authorised Service Centre for repair. In this event, a copy of this warranty card and a copy of your receipt of purchase must be enclosed to be a valid warranty. Such equipment or part must be sent freight prepaid to your nearest TEAC Authorised Service Centre. After the repair, the product will be available for collection by or return to the purchaser at purchaser's cost. The warranty does not cover freight or insurance. In all cases of transit damage or lost, a claim must be filed against the carrier by the purchaser, even if shipment is arranged by TEAC. TEAC in-home service may also be available at a fee upon request.

4. Accessories, Remote, including power adaptors, AV box, TV tuners, etc, are warranted to be defect free for 1 year.

5. Replacement of spare parts under normal usage; except cabinet, front panel, knob, removable accessories, battery, consumable, AC cord, connecting cord and other accessories, are warranted as specified in Warranty Periods Table, and will be repaired or replaced at the sole judgement of TEAC.

6. The warranties hereby conferred do not extend to, and exclude, any cost associated with the installation, de-installation or re-installation of a product (be it in-home or otherwise), including costs related to the mounting, demounting or remounting of any screen, (and any other ancillary activities), delivery, handling, freighting, transportation or insurance of the product or any part thereof or replacement of and do not extend to, and exclude, any damage or loss occurring by reason of, during, associated with, or related to such installation, de-installation, re-installation or transit.

7. Normal customer maintenance as described in the owner's manual is not covered by this warranty (such as cleaning VCR heads etc.)

8. Service will be provided only during normal business hours and under safety conditions and circumstances.

9. This warranty does not apply to equipment showing abuse, damage or that it may have been tampered with, altered or repaired outside any TEAC Authorised Service Centre. If so, the warranty will be void.
*Your nearest Authorised TEAC Service Centre is listed in your Owners Manual

10. No one is authorised to assume any liability on behalf of TEAC or impose any obligation on it, in connection with the sale of any equipment other than as stated in this warranty and outlined above.

11. In no event will TEAC be responsible or liable for indirect or consequential damages from interrupted operations or other causes.

12. Warranty is not transferable to any subsequent purchaser if the product is sold during the warranty period,

* Extended promotional warranty may apply to certain products (for more info please contact: service@teac.com.au)
In home service administration fee is applied after 1ˢᵗ year of warranty.

TEAC   WARRANTY PROCEDURES

Important Safety Instructions

This symbol indicates that dangerous voltage instituting a risk of electric shock is present within this unit.

This symbol indicates that there are important operation and maintenance instructions in the literature accompanying the appliance.

CLASS1 LASER PRODUCT

Caution: Laser radiation when open. Do not stare into beam.

Caution: use of any controls, adjustments, or procedures other than those specified herein may result in hazardous radiation exposure.

Caution

1. The product contains a low-power device. In order to ensure the safety of the laser device, do not remove any cover and attempt to repair the unit. If any service is needed, please contact the distributor or its authorised service centre.
2. To reduce the risk of electric shock, do not remove the cover (back). No user-serviceable parts inside. Refer servicing to qualified service personnel. Unplug the product from the wall outlet before servicing or when it is unused for a long period of time.
3. The manufacturer will not be held responsible for the damage caused by any substitutions and modification of the product without authorisation from the manufacturer's or authorised service agent.

WARNING

The apparatus shall not be exposed to dripping or splashing and that no objects filled with liquids, such as vases, shall be placed on the apparatus.

NON ANALOG OUTPUT MANUFACTURER LICENSE AGREEMENT

This product incorporates copy protection technology that is protected by U.S. and foreign patents, including patent numbers 5,315,448 and 6,836,549, and other intellectual property rights. The use of Macrovision's copy protection technology in the product must be authorized by Macrovision. Reserve engineering or disassembly is prohibited.

The images in this manual are for reference only and may differ from your model.

Important Safety Instructions

1. Read these instructions.
2. Keep these instructions.
3. Heed all warnings.
4. Follow all instructions.
5. Do not use near water.
6. Clean only with dry cloth.
7. Do not block any ventilation openings. Maintain well ventilated conditions around

---

IMPORTANT FOR LASER PRODUCTS
1. **CLASS 1 LASER PRODUCT**
2. **DANGER:** Visible laser radiation when open and interlock failed or defeated. Avoid direct exposure to beam.
3. **CAUTION:** Do not open the back cover. There are no user serviceable parts inside the unit. Leave all servicing to qualified service personnel.

---

the product. Do not put product on a bed, sofa or anything that blocks ventilation. Install according to the manufacturer's instructions.
8. Do not install near any heat sources such as radiators, heat registers, stoves or other apparatus (including amplifiers) that produce heat.
9. Read, heed and follow all instructions to ensure correct and safe installation and interconnection of the apparatus;
10. The apparatus shall not be exposed to dripping or splashing and that no objects filled with liquids, such as vases, shall be placed on the apparatus.
11. The mains socket-outlet shall be installed near the apparatus and the mains plug shall remain readily operable.
12. Protect the power cord from being walked on or pinched particularly at plugs, power sockets, and the point where they exit from the apparatus.
13. Only use attachments/accessories specified by the manufacturer.
14. Use only with the stand, tripod, bracket, or table specified by the manufacturer, or sold with the apparatus.
15. Unplug the apparatus during lightning storms or when unused for long periods of time.
16. Refer all servicing to qualified service personnel. Servicing is required when the apparatus has been damaged in any way, such as power-supply cord or plug is damaged, liquid has been spilled or objects have fallen into the apparatus, the apparatus has been exposed to rain or moisture, does not operate normally, or has been dropped.

Note: Do not touch the color TFT LCD screen directly by hand.

Special Feature of DVD Module

Your TV comes equipped with a removable DVD module. Please follow the procedures below to remove or install the DVD module.

Note:
Before removing or installing the DVD module, ensure that the television is unplugged and turned off.

DVD module removal:
Refer to the illustration below and follow the procedures below to remove the DVD module from the unit:

1. Loosen the screw on the DVD module.
2. Carefully slide the DVD module along the rails and unplug the connecting cord from the LCD TV.
3. Slide the DVD module along the rails to fully remove the DVD module.
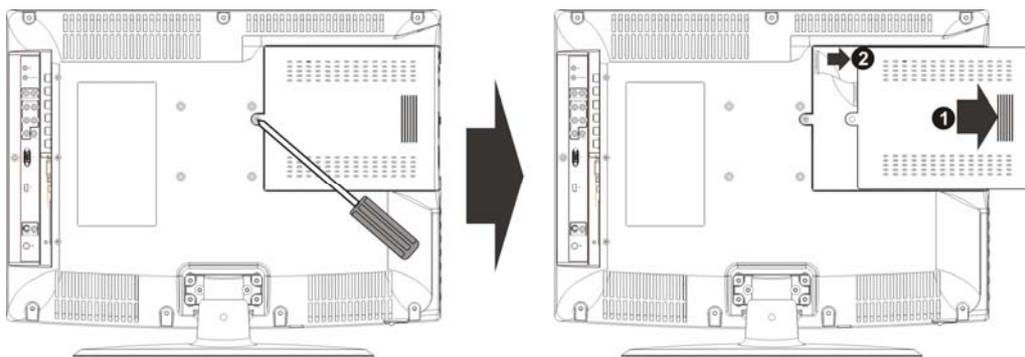

DVD module installation:
1. Plug the connecting cord into the DVD module.
2. Carefully slide the module into the desired position and lock the function module with one screw.

Disc Information

Discs Supported

	DISC LOGO	CONTENTS	SIZE	MAXIMUM TIME
DVD	DVD VIDEO	Audio+Video (active picture)	12cm	133min(SS-SL)
				242min(SS-DL)
				266min(DS-SL)
				484min(DS-DL)
CD	COMPACT disc DIGITAL AUDIO	Audio	12cm	74min
JPEG		Still high resolution	12cm	
DIVX	DIVX®		12cm	

- The operating method of some DVD discs is specified by the software maker. Please refer to the instruction manual of the disc.
- The unit will play most recordable (CD-R) or erasable (CD-RW) CDs, but playback of CD-R or CD-RW discs created on a computer requires proper formatting and finalization of the disc for audio playback. Some computers and/or software programs may not be capable of creating compatible discs.

About Disc Terms

Title
Generally, pictures or music compressed on a DVD are divided into several sections, "title".

Chapter
The smaller section unit of pictures or music in a DVD under the title, usually one title is comprised of one or more chapters and each of them is numbered for easy searching. But some discs may not have a recording by chapter facility.

Track
A segment of picture or music on a CD. Each track is numbered for searching.

Remote Control

Remote Control Drawing
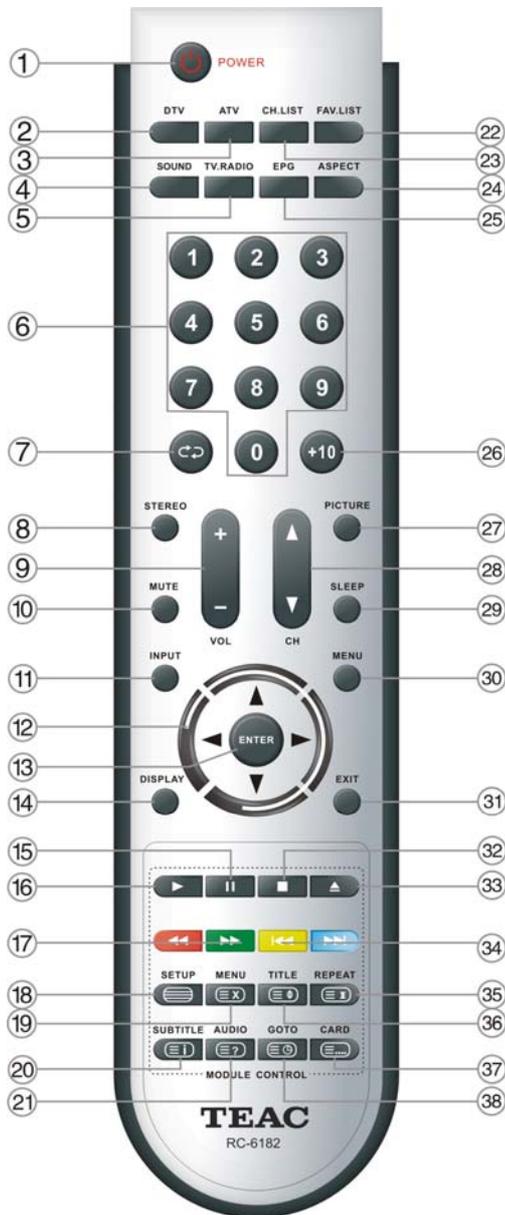

1. POWER button

Press to enter or exit standby mode.

2. DTV button

Press to enter DTV mode.

3. ATV button

Press to select ATV mode.

4. SOUND button

Press to select the screen picture mode: choose from Standard, User, Sports, Movie or Music.

5. TV.RADIO button

Press to select DTV program playback or Radio program playback in DTV mode.

6. 0~9 Number buttons

Press to select numbers such as TV channel.

7. ↻ button

In TV or DTV mode, press to return to the channel previously viewed.

8. STEREO button

Press to select sound track in TV mode.

9. VOL+/- button

Press to increase or decrease the volume.

10. MUTE button

Press to turn on or off the speaker output.

31. EXIT button

Press to exit all the OSD on the screen.

32. ■ STOP button

Press to stop disc playback in DVD mode.

33. EJECT button

Press to eject the disc from the unit.

34. ◄◄/►► Next Skip button

Press to skip to the previous or next chapter/track in DVD mode.

In TV mode, press the yellow button to move a channel and use the blue button to skip a channel (see P22 for details).

In teletext mode, they are the teletext colour buttons.

Remote Control

Remote Control Drawing
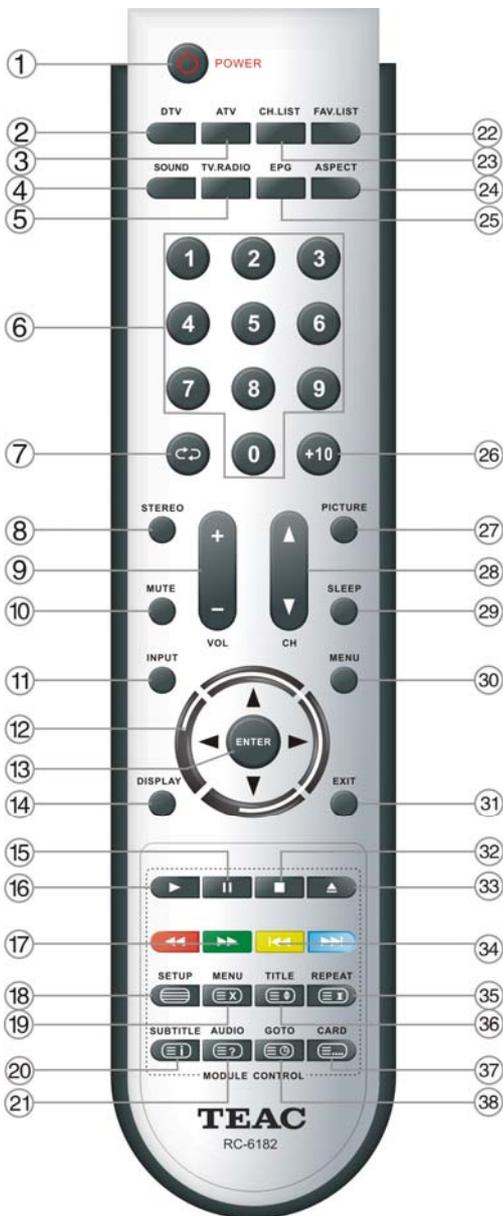

35. REPEAT button

Press to repeat a chapter, track, title or all program content in DVD mode.

In teletext mode, press to hold the current page and press again to resume.

36. TITLE button

During disc normal playback, press to go to display the title menu.

In teletext mode, press the button first time to double the size of teletext letters in the upper half of the screen, second to double the size of teletext letters in the lower half of the screen and third to resume normal status.

37. CARD button

Press to shift among disc playback, USB playback and SD/MS/MMC playback.

In teletext mode, press to select four groups of 3-digit numbers that are displayed in different colours at the bottom of the screen. Press the colour buttons on the remote control to select, then use the number buttons to input the corresponding number to display the page.

Repeat the above procedures for each page to be stored, using a different colour button each time.

38. GOTO button

Press to select the desired disc starting time, title or chapter in DVD mode.

In TV mode, press to display the real clock and press the EXIT button to exit.

Remote Control

Preparation of Remote Control

Softly push the back cover to open the battery compartment.
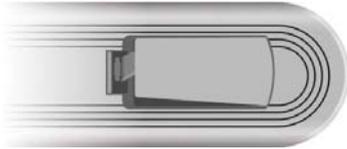

Insert two batteries (1.5V, size AAA), please make sure the polarity matches the marks inside the compartment.

Softly press the back cover to close it.

- Under normal use the battery will last for six months.
- Take out battery when the remote is not in use for a long time.

Using of Remote control

Point the remote control unit from no more than about 7 meters from the remote control sensor and within about 60 degrees of the front of the unit.

- The operating distance may vary depending on the brightness in the room.

Notes:
- Do not point bright lights directly at the remote control sensor.
- Do not place objects between the remote control unit and the remote control sensor.
- Do not use this remote control unit while simultaneously operating the remote control unit of any other equipment.

System Connections

- Open the back cover on the right side of the unit's rear panel.
- Do not connect the power cord until all other connections have been made.
- Ensure that you observe the color code when connecting audio and video cables.

Connecting to the Power Supply

Connect the power supply cord to the wall AC outlet, see the figure below.

To Wall AC Outlet
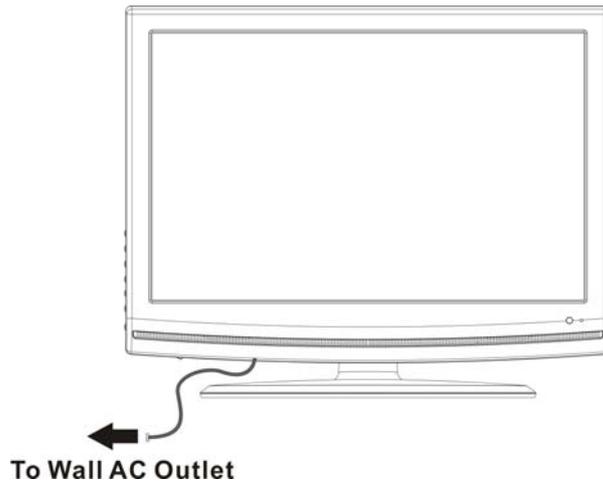

Connecting to the Power Adapter

Power is also supplied through the provided appropriate power adapter, one end is connected to the DC 12V IN jack on the rear panel of the unit, the other end to the AC100~240V wall outlet.

To wall AC outlet
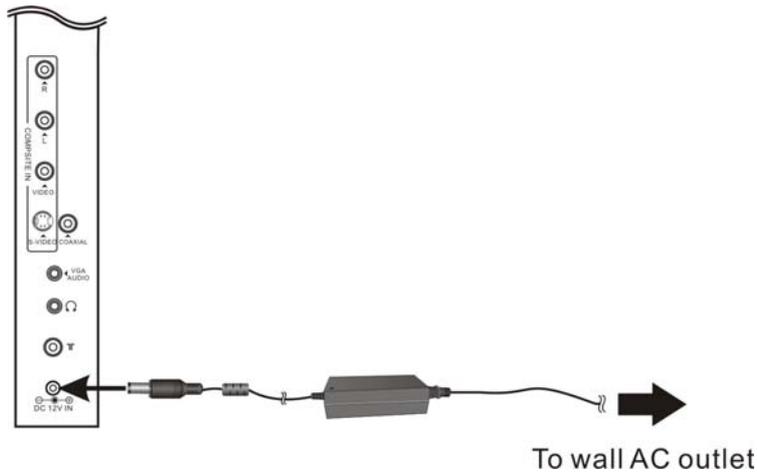

➢ *It could damage the TV set that if the power supply cord and the power adapter are used simultaneously.*

System Connections

Connecting to an External AV Signal Source

Use the AV cables to connect the external AV signal source to the AV input jacks on the rear panel of the unit. Use a S-VIDEO cable (not supplied) to connect the external AV signal source to the S-VIDEO input jack on the rear panel of the unit.
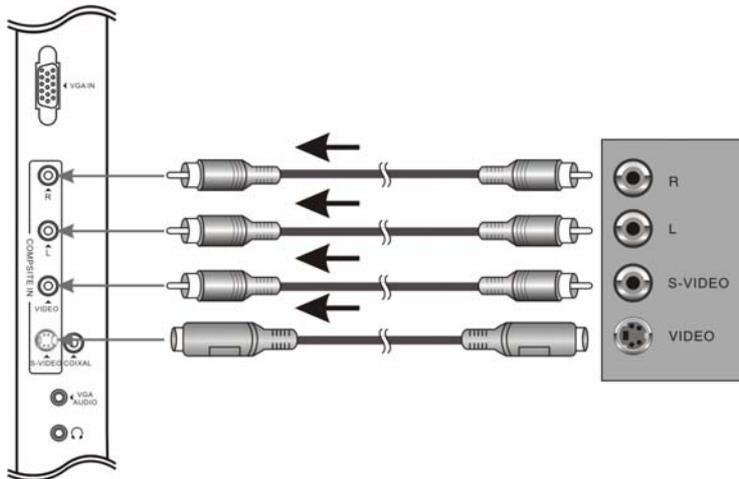

After connection, turn on the power of the unit and the external AV signal source and use the **INPUT** and the direction buttons to select **COMPOSITE** or **S-Video** mode, and then press the **ENTER** button to confirm.

➢ *The L/R audio input jacks can be used in both AV and S-VIDEO modes.*

Connecting to an External AV Signal Source (YPbPr)

Use AV cables to connect an external AV signal source to the Y/Pb /Pr (Component) input jacks on the rear panel of the unit.
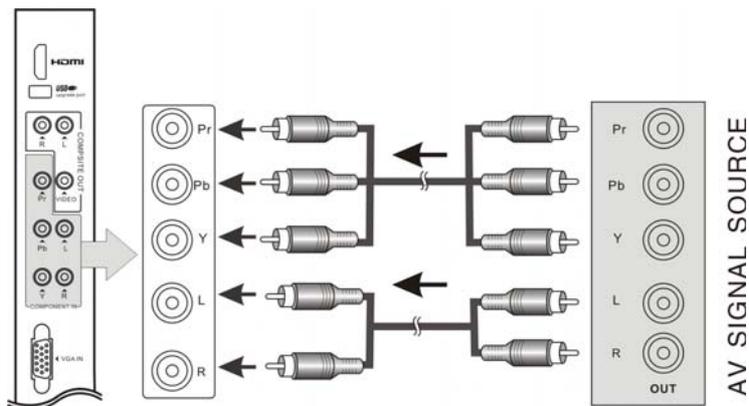

After connection, turn on the power of the unit and the external AV signal source and use the **INPUT** and the direction buttons to select **Component** mode, and then press the **ENTER** button to confirm.

System Connections

Connecting to an External AV Signal Source(HDMI)

Follow the figure below to connect an HDMI signal source to the HDMI jack on the rear panel of the unit.

After connection, turn on the power of the unit and the external AV signal source and use the **INPUT** and the direction buttons to select **HDMI** mode, and then press the **ENTER** button to confirm.

➢ *HDMI provides both audio and video signals and typically provides superior image quality to component, S-Video or composite.*

Connecting to an External Signal Source(AV Output)

Use the AV cables to connect the external AV input device to the AV output jacks on the rear panel of the unit.
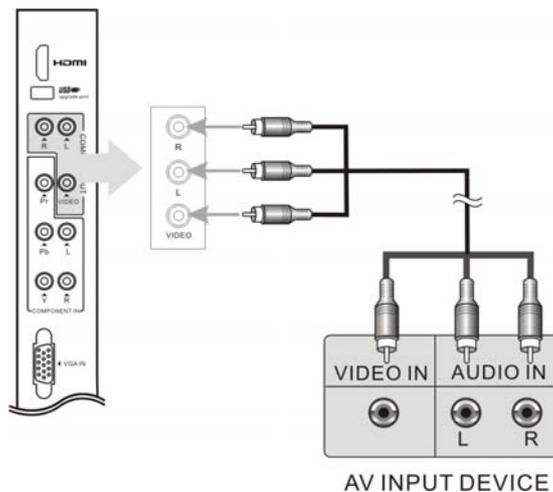

After connection, turn on the power of the unit and the external AV signal source and use the **INPUT** and the direction buttons to select the corresponding mode, and then press the **ENTER** button to confirm.

System Connections

Connecting a Coaxial Digital Output

This unit is designed with a coaxial digital audio jack, can be connected to the digital amplifier, see the figure below:
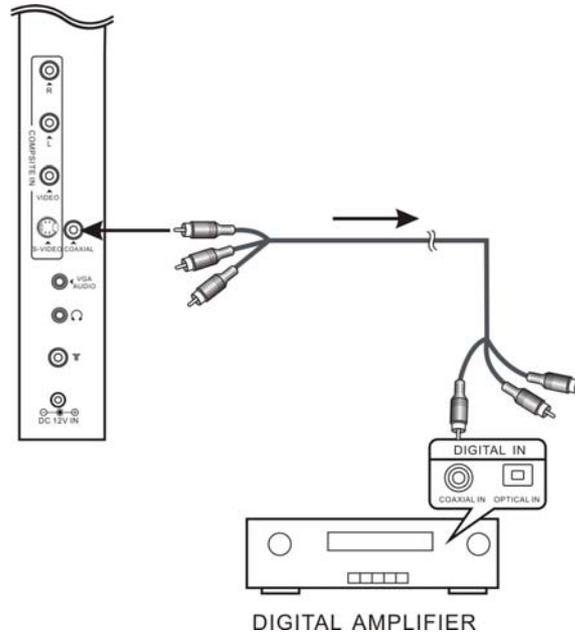

DIGITAL AMPLIFIER

Note:

This feature is available only for amplifiers equipped with coaxial digital audio input connectors.

For TVs with a built-in DVD player (optional) and an amplifier with Dolby Digital decoding function, set the digital audio signal output format in DVD setup menu to "RAW".

Connecting a USB Device for Upgrading

This unit is designed with a USB upgrade port, can be connected to the USB device for upgrading the software, see the figure below:
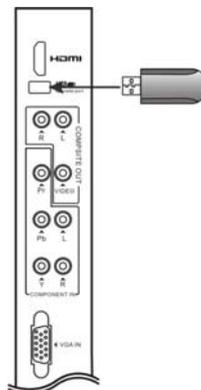

➢ *Make sure that upgrading files are stored in the USB device before connection.*

System Connections

Connecting to a PC

Follow the steps and figure below to connect PC to the unit.

1. Connect one end of the VGA cable to the VGA input jack on the jack panel of the unit and the other end to the PC VGA output.
2. Connect one end of the audio cables to the PC audio input jack on the jack panel of the television and the other end to the PC audio output jack.
3. Set the PC video resolution to match that of the television (typically 1680 x 1050@60Hz).
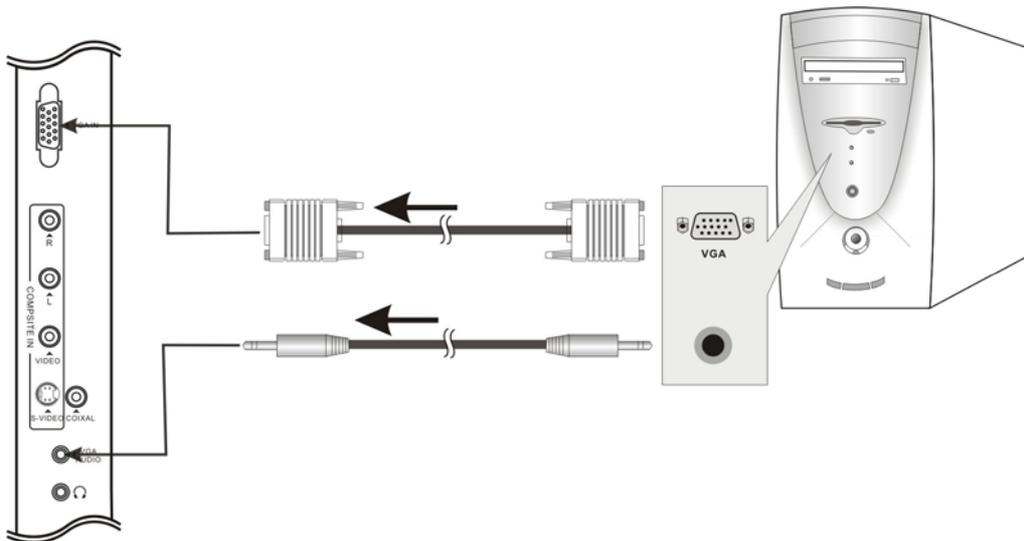

After connection, turn on the power of the unit and the external AV signal source and use the **INPUT** and the direction buttons to select **VGA** mode, and then press the **ENTER** button to confirm.

System Connections

Connecting to a TV Antenna

Connect TV signal input source from the aerial to the TV jack on the rear panel of the unit.
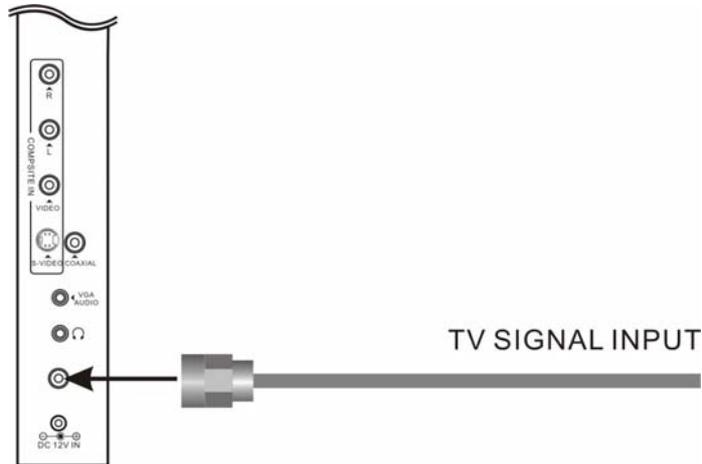

After connection, turn on the power of the unit. Then press the **INPUT** button and the direction buttons to select **TV** or **DTV** mode, press the **ENTER** button to confirm and conduct program selection.

Connecting to Earphones

Connect earphones (headphones) to the earphone jack on the rear panel of the unit for listening to the audio output in seclusion.
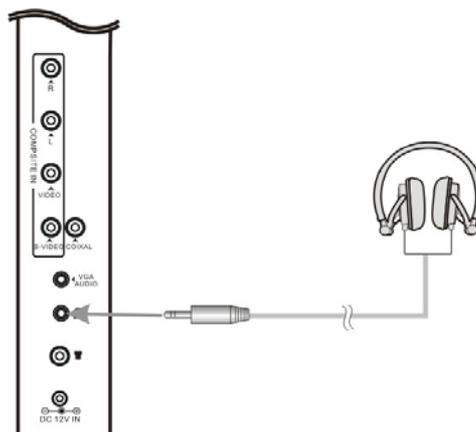

The internal speakers output will turn off automatically after the earphones have been connected. Excessively loud volume could damage your hearing. Turn down the volume before you connect the headphones and then raise the volume to a comfortable level.

Input Source Selecting

The unit incorporates multiple video modes which can be selected via the Input button on the television or remote.

Press the **INPUT** button to enter Input menu. The screen will display as shown below:

◇ **Use the ▲▼ direction buttons and ENTER button**

On the input menu, press the ▲▼ direction button to select the desired video mode. After several seconds, you can enter the selected mode.

Or after you selected the desired mode press the ENTER button to enter the selected mode immediately.

◇ **Use the INPUT button and ENTER button**

On the input menu, press the INPUT button repeatedly to select the desired video mode. After several seconds, you can enter the selected mode.

Or after you selected the desired mode press the ENTER button to enter the selected mode immediately.

TV Function

Preparations

1. After connection, press the **POWER** button to turn on the unit.
2. Press the **INPUT** button to select TV mode and you can then conduct the following operations:

Note: In other mode, you can refer to the following instructions in TV mode to go on with some settings.

Installation Guide

The first time when you turn on the TV or after you reset all the settings to their original status, the Installation Guide page appears automatically. Please follow the instructions to finish the installation guide setup. It helps to quick set the language and get the channels.

◇ The Installation Guide menu shown on the right will be displayed on the screen after you press the SOURCE button to select TV mode.

◇ The Language option is highlighted and the default is English. You can select the desired OSD language you want by pressing the ◄► button.

◇ Press the ▼ button to highlight Auto Tuning option and press the ENTER or ► button to prompt a information box, as shown on the right:

◇ Press the ◄► button to select a desired country.

◇ Press the ▼ button to highlight Start and press the ENTER button to start auto searching the available channels. The menu on the right will be displayed on the screen to show the progress of the search for TV, DTV and Radio programs.

◇ During searching, press the MENU button to skip some range of available channels. Press the EXIT button to exit.

TV Function

If you did not use the unit for the first time or if your setup has changed, you can setup the unit from Channel Setup menu. Please follow the instructions below:

Channel Setting

Press the MENU button once to enter **CHANNEL** setup menu as shown on the right.

Press the ENTER button or ▼ button to enter the menu.

In the **CHANNEL** setup menu, press the ▲▼ button to select the desired item. Press the MENU button to return to the previous menu. Press the EXIT button to exit.

Mono

DVD Playback Operation

Preparation

1. Connect the unit to the power supply and press the **POWER** button to turn on the unit.
2. Repeatedly press the **INPUT** button on the remote control to select DVD mode and press the **ENTER** button to enter.
3. Gently insert the disc, with the label side toward the front of the television, into the disc tray slot until about half of the disc is in the tray and then the disc will be drawn into the disc tray and loaded automatically.
4. Press the EJECT button to eject the disc, but the disc can not be drawn into the disc tray by pressing the EJECT button again. You must push the disc until it is drawn into the disc tray automatically.
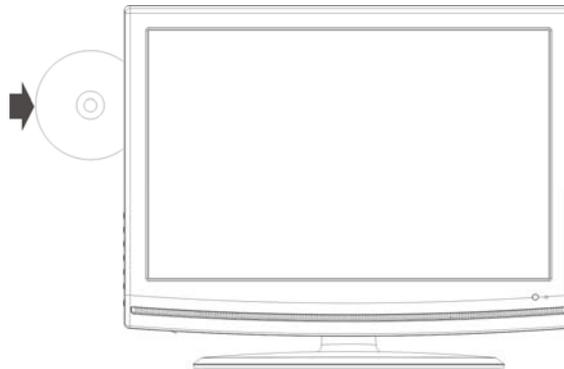

Warning: Use of poor quality discs could result in damage to the television.

DVD Playback

Region Code
DVD players and discs are coded by region. These regional codes must match the played discs. If the codes don't match, the disc cannot be played. This player's default code is 4.

Play
Press the **PLAY** button to start playback.

Stop
During playback, press the ■ **STOP** button once to stop playback and press the ► **PLAY** button to resume normal playback. Press the ■ **STOP** button twice to stop playback completely.

Pause
During playback, press the **PAUSE** button once to pause the playback; press it repeatedly to start step-by-step playback. Press the ► **PLAY** button to resume normal playback.

DVD Playback Operation

Previous ⏮ and Next ⏭

Press the ⏭ button to go to the next chapter. Press the ⏮ button once to return to the beginning of the current chapter or track; press it twice to go to the previous chapter.

Fast Playback

During playback, press the ⏪ ⏩ button to activate fast backward or forward playback. During fast playback, press the ► **PLAY** button to resume normal playback.

Repeat

Press the **REPEAT** button repeatedly to repeat a chapter, title or all.

- **Some discs do not support the repeat function.**

Menu

Normally there is a selecting menu for DVD discs. You can press the **MENU** button (under DVD mode) to enter the menu, and use the direction buttons to highlight an item. Then press the **ENTER** button to confirm.

Title & Chapter

Normally there are several titles in a DVD disc, and several chapters (sections) in a title. Press the **TITLE** button to enter the title menu, and you can select any title or chapter quickly by entering the relevant number.

- **Some discs do not support the function by inputting the number button but the ▲▼◄► direction buttons.**

Language (Audio)

There can be up to 8 audio languages on a DVD disc. When you play a multi-language DVD disc you can use the **AUDIO** button on the remote control to select a desired language.

GOTO

During DVD disc playback, press the **GOTO** button on the remote control once, there will be a menu displayed on the screen. You can set or select items for your preference. Use the ▲▼ direction buttons to select items and press the **ENTER** button to enter and use the ▲▼ direction buttons to select the desired item. Press the ◄ direction button to return. When selecting the Title/Chapter, TT Time/CH Time, use the number buttons to input the desired title/chapter, time.

- **Some DVD discs do not support the search function.**

Subtitle

The DVD player can support multiple kinds of subtitles. When you play a multi-subtitle disc you can press the **SUBTITLE** button on the remote control to select different subtitles.

- **Some discs do not support the shifting subtitle function.**

DVD Playback Operation

CD Playback
The player will play all tracks on a CD disc by default. You can use the ⏮ ⏭ buttons, or number buttons to select a track.

Stop

Press the ■ **STOP** button once to stop playback and press the ► **PLAY** button to resume normal playback. Press the ■ **STOP** button twice to stop playback completely.

Pause

Press the **PAUSE** button to pause the playback and then press the PAUSE button again or ►**PLAY** button to resume normal playback.

Previous and Next

Press the ⏮ button to go the beginning of the current track. Press twice repeatedly to go the previous track.

Press the ⏭ button to play from the beginning of the next track.

Fast Playback

Press the ⏪ ⏩ button on the remote control to activate fast backward or forward playback.

Repeat

Press the **Repeat** button repeatedly to repeat a single track, all tracks, or to exit repeat mode.

- **Some discs do not support the repeat function.**

Audio

During playback, press the **Audio** button to toggle audio output between Mono Left, Mono Right, Mix-Mono or Stereo.

GOTO

Press the **GOTO** button to access the time-selected state. You can select *Disc Go To*, *Track Go To* or *Select Track* respectively by pressing this button repeatedly. Use the 0-9 buttons to enter the desired time and then the player will play according to the selected time. Use the 0~9 number buttons and the -/--/+10 button to enter the desired track number, then the player will play the selected track.

DVD Playback Operation

JPEG Playback

JPEG is a common picture format that requires small amounts of storage per image and has low loss in resolution. Hundreds of pictures can be stored on a disc in this format. In order to view JPEG photo albums, you can ask your film development company to make a "PICTURE CD" when they develop your film.

Normal Playback

Load a JPEG disc in. For JPEG disc, there will be a root menu displayed on the screen. Use the **ENTER** button and the direction button to select a submenu, and then use the ▲▼◄► direction button to select the contents. Many discs have other contents besides pictures.

For Picture CD disc, it will display the pictures automatically.

During playback, press the ◄◄ ►► button to select the picture.

- **Many discs have other contents besides pictures.**

Stop

Press the ■ **STOP** button to preview the pictures behind currently playing picture in the way of small pictures. Press the ► **PLAY** button to resume normal playback.

Pause

Press the **PAUSE** button to pause playback, press the **PAUSE** button again or ► **PLAY** button to resume playback.

Repeat

During playback, press the **REPEAT** button repeatedly, and the repeat modes are Shuffle, Random, Single, Repeat One, Repeat All and Repeat Off.

Menu

Press the **MENU** button once to stop playback and return to the root menu.

GOTO

During playback, press the **GOTO** button on the remote control once, use the number buttons to input the file number.

Picture Rotation

During playback, press the ◄► button to rotate the currently displayed picture. This function only activates for the current picture; once another picture is displayed, rotation will be cancelled automatically.

- **Note: Some JPEG discs may not support the rotation function.**

DVD Playback Operation

DIVX Playback

DIVX is the name of a revolutionary new video code, which is based on the new DIVX compression standard for video.

1. Load a DIVX disc in the disc tray, the player will enter the reading mode.
2. The screen displays the root menu. Use the ▲▼ buttons to select desired item and press the **ENTER** button to play.

Stop

During playback, press the ■ **STOP** button to stop playback and return to root menu and press the ► **PLAY** button to play the file from the beginning.

Pause

During playback, press the **PAUSE** button once to pause the playback and press it again or press the ► **PLAY** button to resume normal playback.

Previous ⏮and Next ⏭

Press the ⏮ button to go the previous file; press the ⏭ button to play the next file

Fast Playback

During playback, press the ⏪ ⏩ button to activate fast backward or forward playback. During fast playback, press the ►**PLAY** button to resume normal playback.

REPEAT

During playback, press the **REPEAT** button repeatedly to select repeat mode.

GOTO

Press the **GOTO** button repeatedly to select *Select:---* or *Go To:-:--:--*. Use the 0-9 buttons to enter the desired time or and then the player will play according to the selected time. Use the 0~9 number buttons and the -/--/+10 button to enter the desired track number, then the player will play the selected track.

USB and SD/MS/MMC Card Function

Preparation

In DVD mode, connect USB device to the USB port or insert SD/MS/MMC card into the SD/MS/MMC card slot on the right side of the unit.
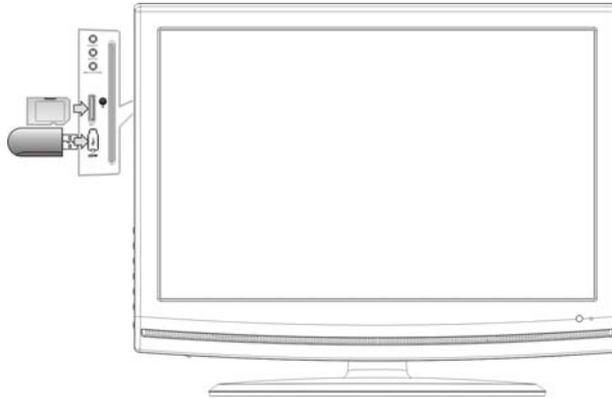

- ➢ *Make sure that files are stored in the USB and SD/MS/MMC card before connection.*
1. Press the **CARD** button to shift between Disc playback, USB playback and SD/MS/MMC playback. The default state is disc playback. Please see the figure below:
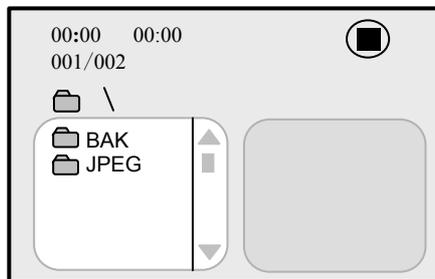

2. Press the ▲▼ buttons to select the folder. Press the ENTER button to enter.
3. Press the ▲▼ buttons to select the desired track. Then press the PLAY ► button to start playback.
4. Press the ■STOP button to stop playback. Press the ◄ button to return to the folder menu.

Note:
1. The screen display will vary from disc to disc.
2. Pull out the USB or SD/MS/MMC card directly after the files are played. The unit will now return to disc playback mode.

DVD System Setup

Preparation

Troubleshooting

SYMPTOM	CHECK ITEM
The player cannot play.	Make sure the disc is loaded in. Make sure the disc is not dirty or warped. Make sure the player's region code is the same as the region code of the DVD disc. Make sure water condensation has not occurred. If it occurs, take out the disc and leave the player on for at least one hour.
There is no sound.	Make sure the system connection is correct. Make sure the sound setup of the DVD disc is correct. Make sure the disc is not dirty or warped. Clean or replace the disc. Make sure the speakers are not muted. In the TV mode, set the correct sound mode.
LCD has no display	Make sure the unit is turned on and the connections are correct. Make sure the power adapter is correctly connected.
Cannot continue to play and play a section repeatedly.	Make sure it is not in repeat status. Make sure the disc is not dirty or damaged.
There is no picture or picture jitters up and down Unsteady.	Check if the connections with the external AV signal source are correct. Correctly set the items in the picture menu. Check if the video type input signal is not corresponding to the unit. Make sure the unit is turned on and in the correct video type.
The remote control does not work.	Make sure there are no obstructions between the remote control and the player. Make sure the remote control is pointing at the player. Make sure the batteries are inserted and the polarity is correct. Make sure the battery is not weak.

Other Notes:

Static or other external interference may cause the player to behave abnormally. If this occurs, unplug the power-supply cord from the outlet and plug it in again to reset the player. If the problems persist, then please disconnect the power and consult a qualified technician.

Specifications

Model	LCDV2255HD
Screen Size	21.6-inch TFT LCD TV
Native Resolution	1680×1050 Pixels
Brightness	300cd/m2
Contrast Radio	1000 :1
Response time (ms)	5ms
Color System	PAL
Sound System	BG/I/DK
Tuner	VHF/UHF: 48.25~863.25MHz
Antenna	75Ω VHF/UHF input
Stereo	NICAM/A2
VIDEO INPUT	
CVBS input	PAL/SECAM/NTSC
S-VIDEO input	Y/C separate video signal Y...1 Vp-p/negative sync/75Ωinput C...0.283 Vp-p/75Ωinput(NTSC) 0.3 Vp-p/75Ωinput(PAL)
COMPONENT	RCA,0.7Vp-p/75Ω input (480I/60Hz,480P/60Hz,576I/50Hz,576P/50Hz,720P/50Hz,720P/60Hz,1080I/50,1080I/60Hz)
Audio in	RCA Stereo audio input
OTHERS	
DVD Player	DVD+/-RW, DVD-R, CD, CD-R, CD-RW, JPEG, DivX 3.11/4.x/5.x/6.x
Multi Media USB Card Reader	MS, SD, MMC 3 in 1 Card reader and USB compatible Max Volume up to 2GB
VGA	15 Pin, Analog RGB signal, 0.7Vp-p, 75Ωinput(VGA, SVGA, XGA, WXGA computer signal compatibility), 1680*1050@60Hz, 1440*900@60Hz, 1024*768@60Hz, 800*600@60Hz, 640*480@ 60Hz
Teletext	1000 pages
Audio in	headphone audio input
TV SET OUT	
AV output	monitor
Speaker Output	5W+5W
Power Requirement	AC100 to 240V, 50/60Hz
Power Consumption	< 60W
Standby Power	< 2W
Dimension	529mm × 184mm × 412mm（LXWXD）
Net Weight	About 9 Kg
Ambient Temperature	10~45℃

Note: Specifications subject to change without pre-notice. Weight and dimensions are approximate.
