DYNA LOW REAR SUSPENSION KIT

General

This kit is designed to fit 1993 and later FXD, FXDL and FXDWG model motorcycles. This kit does not lower FXDL model motorcycles.

See Service Parts illustration for kit contents.

WARNING

The rider's safety depends on the correct installation of this kit. **USE THE APPROPRIATE SERVICE MANUAL PROCEDURES.** If the procedure is not within your capabilities or if you do not have the correct tools, have your Harley-Davidson Dealer perform the installation. Improper installation of this kit could lead to an accident and result in death or serious injury.

WARNING

Installation of any accessory suspension components may affect cornering clearance. This could distract the rider, causing loss of control and death or serious injury.

NOTES

A Service Manual for your vehicle is available from your Harley-Davidson dealer.

Internal shock absorber components are not repairable beyond the Service Parts listed on this Instruction Sheet. Consult your Harley-Davidson dealer if further service is required.

Installation

The installation procedures for this kit are the same as the original equipment (OE) installation procedures in the Service Manual. Refer to the appropriate Service Manual for the rear suspension system removal and installation procedures. The OE hardware will be re-used in the kit installation.

Shock Preload Adjustment

Refer to the appropriate Service Manual for spring adjustment. Spanner wrench, Part Number 94700-52L, is required for spring adjustment.
