Whidbey™ Clean Face Gas Fireplace

Introducing the Whidbey™ Clean Face Fireplace by Avalon™

The Whidbey CF clean face fireplace offers the beautiful look of a traditional masonry fireplace with the convenience found in today's modern, direct vent gas fireplaces. The Whidbey CF offers a 1080 sq. in. of fire viewing glass in a clean, louverless fireplace design with tall, dramatic flames, exceptional hand-carved logs and a glowing red ember bed.

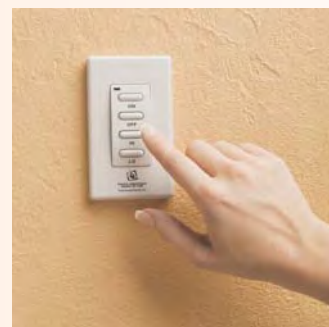

Don't need the heat and still want to enjoy the fire? The Whidbey's remarkable gas control system allows you to reduce the BTU input to your fireplace by up to 40% while still maintaining a beautiful fire within your fireplace.

The Whidbey CF features low BTU gas input. This makes it ideal for reducing energy cost. The Whidbey CF is tested as a 'Heater Rated' appliance and can heat a room up to 1,000 sq. ft. With it's Electronic IPI (Intermittent Pilot Ignition) Gas Valve you can run your fireplace in either the "Electronic Ignition" or "Standing Pilot" modes. This fireplace makes the Whidbey CF ideal choice for those looking an economical solution to the open fireplace look.

Convenience At Your Fingertips

The Whidbey CF features the Home Comfort™ Control System. This built-in control center is completely hidden within the fireplace, so all you see is the amazing fire!

You control all functions including on/off, room temperature and flame height adjustment all from the standard hand-held remote or wireless modulating wall mounted control - both included with fireplace.

*Wireless Modulating
Wall Mounted Control -*

Allows control of ON/OFF
and High/Low Fire Settings

*Thermostatic Modulating
Remote Control -*

Allows controls ON/OFF,
High/Low Fire Settings
and Room Thermostat.

Personalize Your Fireplace With These Beautiful Options

Standard Black Interior

Weathered Brick Option

Herringbone Brick Option

Ceramic Fireback Options

While not required, the Whidbey fireplace gives you the ability finish off the inside of the fireplace with the reversible brick fireback - Weathered Brick on one side Herringbone Brick on the other.

Andiron Options

Enhance the look of your Whidbey fireplace even further with a choice of three optional cast andirons. All our andirons feature finely cast details and attach to the existing grate. Change the look of your fireplace in a matter of minutes!

Accent Light

Highlight your Whidbey's interior with the optional decorative accent lighting kit. Bring out the details in the fireback and logset. Use it with the fire on or off to enhance the mood or for year round enjoyment of your fireplace.

Firescreen

Add the finishing touch to your installation with an optional decorative firescreen. The firescreen features detailed legs and handle for a traditional fireplace look. Ideal if you have small children in your home.

Optional Extra Room Power Heat Duct Kit

The Power Heat Duct Kit can be added at the time of installation and allows you to direct heat off the fireplace and direct it to an additional room in your home. A remote fan, attached to the end of the duct, pulls heat off the fireplace and delivers it to any adjoining room, up to 20 feet away.

All Avalon firestyles are proudly made in the U.S.A.

Standard Features:

- No grills for a traditional masonry fireplace look.
- Durable, high temperature, tempered glass with safety mesh screen (removable if desired).
- 1080 sq. in. of fireviewing area
- Realistic, 4 piece detailed log set cast from real firewood.
- Digital Home Comfort™ Control System can be operated by the hand-held remote control and the wireless wall control.
- The Electronic Gas Valve can be run for greater efficiency in the “Intermittent Pilot Mode” with the gas pilot turned off until you need it or “Standing Pilot Mode” with the gas pilot always on, for reliable cold weather operation.
- Natural (NG) or Propane (LP) operation.
- Uses Simpson Duravent 8 5/8” x 6” chimney.
- Seven Year “Real World” Warranty.
