Product highlights

16-pin gold-plated connector

Designed specifically for the Nintendo Wii, this gold-plated connector provides better graphics resolution for lifelike play.

Nickel-plated connectors

Nickel-plated connectors establish a clean contact between the cable and connector for a reliable connection.

Supports up to 480p resolution

This ability to handle higher resolutions provides the best graphics possible on your system.

Color-coded connectors

Color coded connections make it easy to install your cable into the correct inputs and outputs

Illuminated connectors

Connectors light up with multi-color illumination to confirm a secure connection to your gaming console.
