Taking desktop colour printing to new heights

High quality Vibrant colour

High speed

Low cost

aerotek LIMITED

Dear Mr Sinclair,

Arch House
12-13 Simmons Way
London
EC1 8SJ

Please find below a pie chart outlining our projected market shares across Europe in the aircraft component manufacturing industry. As you will notice our share in the Benelux countries is much smaller than that of the others, and this is an area that will require your particular attention.

Thank you and kind regards.

Yours faithfully

David Morgan

Highly versatile media handling

Fast desktop colour laser - up to 5ppm colour, 14ppm mono. **Superb quality** 1200 x 1200dpi, delivering photographic quality. **Highly economical** to purchase, low cost per copy. **Easiest to use** - simple set-up with all major operating systems and networks. **Highly productive and flexible** - high capacity consumables, automatic collation, tray fed duplex and even envelope printing via the new multi-purpose feeder. **PhaserLink™** - you can check printer status, configure your printer, automatically select the best colour correction and print mode and access on-line documentation right from your desktop.

Take off with the new Tektronix Phaser® 560 desktop colour laser printer, the complete, cost-effective solution for every office workgroup. It's a truly productive, latest generation colour laser printer for speed and low cost, yet with superb image quality and colour consistency.

the fast & flexible

Phaser® 560

TekColor™

Specifications

Fast output on all office papers. *The powerful 33MHz RISC processor will speed through the largest, most complex job - nearly 5ppm in colour and 14ppm in black and white. It's quick when it comes to printing on a range of media from the new multi-purpose feeder, including* **address labels, envelopes:** *while* **vivid colour overhead presentation slides** *can be produced in moments.*

Brilliant photographic quality. *1200 x 1200dpi gives superb, fine-detail full-colour printing on any plain paper - excellent for printing documents with* **scanned artwork or photographs.**

TekColor Automatic Color Correction.
New feature of the Phaser 560 - automatically selects the best colour correction and print mode according to the content of the page being printed.

Lower cost colour printing *you won't believe. Colour printing in-house saves the cost of out-sourcing to a bureau and allows quick, last minute changes. The Phaser 560 has high capacity consumables and delivers* **low cost per copy** *(even lower than inkjets) plus it has the* **highest number of prints between refills** *of any desktop colour laser printer.*

Easy to use *for all office users, with built-in colour settings for superb quality on different papers. And it's* **made for the workgroup;** *"Plug & Play" with Windows 95 and compatible with all major networks, with built-in Adobe PostScript™ Level 2, the industry leading standard, to avoid application and driver problems.*

A range of applications. *The Phaser 560 provides high speed, on-demand colour printing* **for every office**, *including A4-size colour and black and white documents, presentation visuals and colour handouts. High quality,* **accurate reproduction** *is perfect for* **data analysis** *or you can produce cost-effective, high quality short print-runs of* **leaflets, brochures** *and* **adverts.**

A breakthrough in printer management.
Platform-independent Tektronix PhaserLink™ provides user and management information from the Phaser 560 to any desktop in your company, using any standard web browser. Easy to use, it helps reduce costs and offers 24 hour support via the Internet.

Phaser 560 productivity features include **Job Accounting**, *which enables charging on a usage basis:* **CheckPrint** *to allow checking of the first page of a multipage job before continuing, avoiding wasted time and consumables: and* **Job Collation**, *allowing the printer itself to collate a multicopy, multipage job, rather than tying up the host computer.*

Make it a colour copier *with the Tektronix Copystation (requires min 24Mb RAM). Copy originals and enlarge up to 8.5 x 14" (216 x 355mm) in* **glorious colour (or grey scale or black and white)** *as easily as your photocopier. And it's fast - nearly 5ppm in colour or 14ppm mono.*

TekColor Care. *Outstanding support and service are our culture. Technical support is available anytime via the World Wide Web and through our Highly Automated fax Library (HAL) and our electronic bulletin board. Or call our European Service Centre during business hours. Beyond our standard one-year warranty, we offer a range of extended service plans for extra peace of mind.*
