Gas Fireplace Inserts and Trims

Inserts and Surrounds
to create the look
you want.

LHEC30

Model shown with Marquette in Rustic Bronze

Gas Fireplace Inserts that make great sense.

Everyone loves a good before & after renovation story – especially when it includes a room with an uninteresting masonry wood-burning fireplace and ends in a stylish room with an enticing Vermont Castings® gas fireplace insert. Think of the simple convenience of

flicking a switch – there's no more logs to carry in or fire to light. Vermont Castings offers inspiring and warm alternatives to transforming your favorite room in the house into a cozy retreat.

Two size versions available in direct vent or natural vent:

- LHE20 available in radiant or circulating models
- LHE30 available in radiant or circulating models
- Models available with millivolt valve (convenient on/off trim switch) or Comfort Control System (hand held remote control)
- The radiant line of gas inserts come standard with lower black flat louvers
- Circulating inserts are shipped without any louvers (you pick the color & style)

OH THE POSSIBILITIES!

Customize your look with Vermont Castings Surround options

HOW TO BUILD YOUR CUSTOM INSERT:

1. Choose an insert by size, BTUs and venting system (your Vermont Castings dealer will be able to help you here).
2. Choose face kit(s) – goes on the front of the insert, choices vary by model.
3. Choose a surround – goes around the insert and closes off the fireplace opening. Again, choices vary by model.
4. Choose additional accessory – brick lining, remote control, thermostat.

COMFORT CONTROL SYSTEM

A great feature that puts you in charge of the heat level in your room – managed simply via a hand held remote. Available on LHEC20, LHECDV20, LHEC30 and LHECDV30 models.

- Lets you control flame and fan simultaneously
- Operates without electricity
- All-in-one valve construction – no additional fan or remote system required
- Six level modulating flame and fan
- Thermostat governs flame and fan together for maximum comfort
- Timer will shut off fire at a later time, so you can go to bed without worrying
