Winegard Sensar III

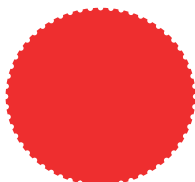

Amplified Directional RV TV Antenna

- 75 Ohm Sensar **RV3095** has [built-in amp & unique circuitry](#) for clear VHF/UHF reception whenever you park
- Raise, lower & rotate Sensar III from in inside your parked RV
- Box size: 41½ x 13½ x 8½
- It's easy to install and extends only four inches above the roof while traveling
- The antenna can be elevated to 40" above the roof line, and is bidirectional - it must be pointed toward the TV station you want to watch
- The Sensar antenna is made of tough UV protected Centrex®* polymer and other materials that are corrosion resistant
- Amplifier Gain: VHF-15.5 dB
UHF-19.5 dB

Sensar® model RV-3095 includes 20 feet of 75 ohm coaxial cable, 6 foot TV set cord, mounting hardware and a white on/off power supply switch. Switch has +12VDC receptacle, built-in two-way splitter for second TV outlet, a convenient power-on/off indicator light and cable TV input.

RV3095

Crank-Up Digital RV Satellite Antenna

- System only 8" high in travel position!
- Ball Bearings in base make rotation smooth.
- Round base, when used with our roof wedge RW-5000, accommodates front-to-back slope as well as side-to-side slope on vehicle roof.
- Antenna is galvanized steel with white thermoset powder coat
- Mount/base is cast aluminum
- Interior white control parts are sturdy molded plastic, design coordinates with vehicle interiors.

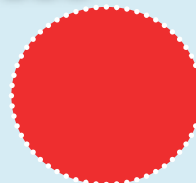

Folded Position only 8" high!

RM4600

RMDM46

#RMDM46 has same features as #RD4600 & includes Digital Magic™ Sensor Unit For Easy Antenna Alignment Readings.

White Interior Control

Portable 18" Satellite Antenna System with LNBF

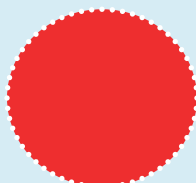

Includes LNBF

FAST, EASY SET-UP!

- Folds down for [easy storage](#)
- [Super fast antenna tracking](#) in compact portable design
- Includes leveling bubble & compass for [fast easy set-up](#)
- Complete alignment instructions for DIRECTV® System operation
- [WINEGARD Quality & Durability](#)

RD9046

RoadTrip 12"

- Superior designed radome to help increase performance
- Revolutionary antenna design for maximum signal reception
- In-Motion system tracks at 45° per second
- Compatible for 2 receivers
- Feet come attached, allowing for ease of installation
- Latest technology at low retail price
- 32" diameter, 12 1/2" height, 35 lbs.
- Upgrade Kit Available!
