

Allura-Fire
Built-in Electric Fireplaces

Realistic convenient
and most of all, alluring.

Performance

Allura-Fire Built-in Series

Easy to install, and easy to love. The Allura-Fire adds comfort and style to any room in the house.

Majestic's Allura-Fire BREF Built-in Series electric fireplace gives every builder the ease and convenience of a great-looking fireplace installed almost any place! Realistic flames, easy installation, and best yet, great looks. It's the perfect choice for a condominium, apartment, cottage or any room in a new house.

With its clean face, without louvers, an Allura-Fire BREF 36 or 42 inch model works perfectly on its own, framed with custom materials, or set in a beautiful full surround. All you need is a direct line voltage connection.

It's realism done to perfection. A glowing red ember bed, carved logs and decorative mesh screen add to the drama. And tempered bi-fold glass doors, with four colors of accent options, can be added for a more traditional effect.

On/off remote control provides the ultimate convenience, with the ability to be installed for 208 or 240 voltages.

BREF42
