LIFEPAK 12
defibrillator/
monitor

PRODUCT DESCRIPTION

LIFEPAK® 12 defibrillator/monitor with ADAPTI V™ Biphasic waveform

Includes manual external defibrillation, 3-lead ECG cable (non 12-lead units only), QUIK-COMBO™ therapy cable, 50 mm printer, 3 pack ECG electrodes, 3 rolls 50 mm paper; operating instructions, in-service video, service manual on CD-ROM, and test load. (Batteries and carry case not included.)

EL Display

Optional electroluminescence display

AED (Automated External Defibrillation)

Noninvasive Pacing

SpO2 Pulse Oximetry (SpO2)

Includes 4-foot cable and a sample disposable sensor pack.

Optional reusable sensor available.

Use of LIFEPAK NiCd batteries is strongly recommended with this option.

12-Lead ECG Monitoring

Includes 5-foot main trunk cable, 4-wire limb lead attachment, 6-wire precordial lead attachment, 2 each 3-pack and 1 each 4-pack of ECG electrodes, 100mm printer and 2 rolls of paper (in place of 50 mm printer and paper). Optional 3-foot main trunk cable available.

Noninvasive Blood Pressure (NIBP)

Includes 2-foot—9-foot coiled hose and reusable adult cuff.

Use of LIFEPAK NiCd batteries is strongly recommended with this option.

Capnography (EtCO2)

Includes 100 mm printer (REQUIRED) and 2 rolls of paper (in place of 50 mm printer and paper) and a 5-lead ECG cable.

Use of LIFEPAK NiCd batteries is strongly recommended with this option.

Fax Transmission

Enables LIFEPAK 12 unit to transmit 12-Lead reports to a remote fax machine (requires Internal Modem or External Modem).

100 mm Printer

Includes a 5-lead ECG cable, 100 mm printer and 2 rolls of paper (in place of 50 mm printer and paper).

LIFEPAK 12 Voice Recorder Accessory

Includes one USB cable and CD containing voice recorder software for a Windows®2000 or 98 SE PC.

Two Invasive Pressure Channels (IP)

Includes Premium (trending) software package, 100 mm printer and 2 rolls of paper (in place of 50 mm printer and paper) and a 5-lead ECG cable.

Premium (trending) Software for Vital Signs

Includes ST measurement trending.

Requires 100 mm printer to print trend reports.

CONFIGURATIONS/FEATURES		NYS PRICE

DATA TRANSFER™ SOFTWARE PRODUCTS

DATA TRANSFER products allow for the downloading of device data and transfer of files to a PC or other location.

21340-000095

LIFENET® DT Express Information Management Program

284.05

Features: LIFENET DT Express is a PC - based software product that allows LIFEPAK® AEDs to connect directly to a PC and then forward data on to another location. An intuitive, easy to use download wizard is included to speed the user through the download process. Users can download cases, add patient data, and save patient data to disk, and can print event logs, ECG data, and test log reports. Data can then be transferred out via modem to another PC running CODE-STAT™ SUITE data management applications.

System Requirements: Compatible with Microsoft® Windows 98 SE, Windows ME, Windows 2000 Professional (with Service Pack 1), Windows XP, and Windows NT Workstation (with Service Pack 6a).

Languages Supported: Available in English.

Devices Supported: LIFENET DT Express software is for use with the LIFEPAK CR Plus defibrillator, LIFEPAK 500 defibrillator, and the LIFEPAK 12 defibrillator/monitor.

Notes: A download accessory is required. Please see the “communications accessories” section for additional information.

LIFENET EMS ePCR System Suite Data Management

* PRICES: “BASED ON CUSTOMER PRODUCT REQUIREMENTS”

Medtronic ERS and Medusa Medical Technologies, Inc. have formed a strategic partnership to market and develop electronic patient data reporting systems for the EMS market that allows easier and more accurate patient data capture, transfer and in-depth analysis. The product suite from Medusa is an electronic patient care reporting and comprehensive data management system. It can be linked directly to Medtronic ERS LIFEPAK® monitor/defibrillators for automatic capture and transfer of the complete cardiac rhythm and vital signs record.
