ALUMINUM GAS TANK CONVERSION KIT

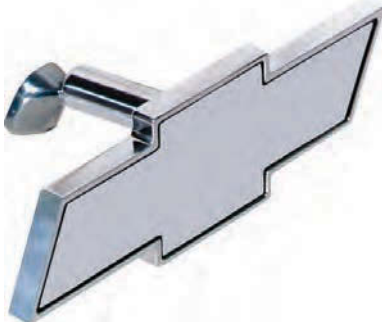

1973-1987

1973-87 Chevrolet and GMC C-10 & C-20 rear mount aluminum gas tank. These tanks are designed to fit between the frame rail and rearward of the axle on 1973-87 trucks. By eliminating the hazardous side saddle tank, you get cleaner body lines and added safety. Made of heavy gauge aluminum, these tanks offer a light weight design and are fully baffled.
