why choose Regency?

Beautiful Home Heating Solutions

Regency Fireplace Products was founded almost 30 years ago with a mission to produce the finest fireplace products available anywhere. Regency has home heating solutions for any room in any home. Listening to our customer has enabled us to become the premium brand in the market today.

Regency Quality

The Regency name means quality in every way. The product is created and built in a world class manufacturing facility focused on getting every detail just right. Represented across North America by a carefully selected professional retail network; you can rely on knowledgeable dealers and installers who understand how to make our products run safely and to the optimum performance.

Exceptional Fire

The essence of each and every Regency stove is the unique flame. Without question, it's the best in the industry. With its dancing flames and glowing embers, the Regency fire looks just like a wood fire.

Save with Zone Heating

The best way to cut home heating costs is to turn your furnace down and enjoy the warmth of a Regency fire in the rooms where you spend quality time. Regency Gas Stoves produce consistent, controllable heat.

One Regency = One Tree

At Regency, we are committed to protecting our environment. For every Regency sold, we will plant a tree. Working with *American Forests*, the trees planted across North America will offset carbon emissions and take one more step to restore nature's balance.

Lifetime Warranty

I am so confident in the quality workmanship, the finest materials and durable heavy-duty construction invested in each and every product, that I offer a Limited Lifetime Warranty. The Regency warranty is the best in the industry. We are absolutely sure that you will be as proud of your Regency Gas Stove as we are – I guarantee it.

Ultimate U38/U39

Gas Stove

Ultimate U39 gas stove with optional nickel door and louvers

The clean, modern lines of the Ultimate Gas stove wrap around its extraordinary fire. Your Ultimate fire can be turned up as high as 40,000 BTU providing high efficiency heat or turned down to 15,000 BTU to enjoy the fire view with less warmth. Replace your old wood-stove, install into your existing masonry fireplace or warm up your kitchen, bedroom or den as you lower heating bills.

U39 with 3-panel black door and black louvers.

** black doors come with gold handles & gold hinge caps

Regency® Gas Stoves are versatile, efficient heaters that add comfort to your home. Enjoy the unique style of a freestanding stove with the convenience of gas and reduce your heating bills.

Direct Vent Technology

Direct vent technology means that you can install a Regency stove almost anywhere in your home - no chimney is needed. From the top or rear of the unit, simply vent your stove through an exterior wall. Direct vent means that you have sealed combustion – outside air is brought in through the vent for combustion and the used air is sent back out – your indoor air is not affected.

Comfort Controls

Control your comfort with a Regency remote or thermostat designed to help you manage your home heating.

Turn your fire on and off with a FireGenie® Remote exclusive to Regency. The FireGenie can be used as a thermostat, allowing you to set and automatically maintain a desired temperature. Every FireGenie features a timer, clock and backlit LCD display.

A Regency wall thermostat is a hands free solution to maintaining a constant temperature in your home. Choose the programmable wall thermostat and set different temperatures throughout the day to match your lifestyle. Wake up to warmth!
