1. Points for Attention

WARNING:

To reduce the risk of fire or electric shock, do not expose this appliance to rain or moisture. The apparatus shall not be exposed to dripping or splashing and that no objects filled with liquid, such as vases, shall be placed on the apparatus.

	The lightning flash with arrowhead symbol, within an equilateral triangle, is intended to alert the user to the presence of uninsulated "dangerous voltage" within the product's enclosure that may be of sufficient magnitude to constitute a risk of electric shock to persons.
	The exclamation point within an equilateral triangle is intended to alert the user to the presence of important operating and maintenance (servicing) instructions in the literature accompanying the appliance.

CAUTION:

To reduce the risk of fire and electrical shock, do not remove the cover of this unit. Please refer all servicing difficulties to qualified technicians . Use of controls or adjustments or performance of procedures other than those specified may result in hazardous radiation exposure.

Where the MAINS plug or an appliance coupler is used as the disconnect device, the disconnect device shall remain readily operable.

CLASS I:

LASER PRODUCT - This marking indicates the presence of laser beams used in this unit, and CLASS I refers to laser beams of the weaker class. There is no danger of hazardous radiation outside this unit.

**Double insulation
This is class II apparatus**

Please disconnect the unit under these conditions:

Do not overload wall outlets, extension cords or convenience receptacles beyond their capacity, since this can result in fire or electric shock.

Do not use suitable outlet, it might be dangerous.

Check the connection regularly. If any rupture or failure in insulation, call for a maintenance man to replace them.

To ensure reliable operation, and to protect it from overheating, the unit must be put in somewhere well ventilated.

Do not use power-line operated sets near water *for example, near a bathtub, washbowl, kitchen sink, or laundry tub, in a wet basement, or near a swimming pool, etc.

Do not place the unit on an unstable object. The set may fall, causing serious injury to a child or an adult, and serious damage to the unit.

Never let any liquid spattered on the unit. It might cause electric shock or fire hazard.

Never place the unit near or over such objects: for example, radiator, heat register, stove or other heat sources. (including amplifier)

Unplug the unit from the wall outlet before cleaning or polishing it. Do not use liquid cleaners or aerosol cleaners. Use a cloth lightly dampened with water for cleaning the exterior of the unit.

Never place heavy object on the unit.

Important Safety Instructions:

- Read these instructions.
- Keep these instructions.
- Heed all warning.
- Follow all instructions.
- Do not use this apparatus near water.
- Clean only with dry cloth.
- Do not block any ventilation openings, Install in accordance with the manufacturer's instructions.
- Do not install near any heat sources such as radiators, heat registers, stoves, or other apparatus (including amplifiers) that produce heat.
- Do not defeat the safety purpose of the polarized or grounding-type plug. A polarized plug has two blades with one wider than the other, A grounding type plug has two blades and a third grounding prong. The wide blade or the third prong are provided for your safety. If the provided plug does not fit into your outlet, consult an electrician for replacement of the obsolete outlet.
- Protect the power cord from being walked on or pinched particularly at plugs, convenience receptacles, and the point where they exit from the apparatus.
- Only use attachments/accessories specified by the manufacturer.
- Use only with the cart, stand, tripod, bracket, or table specified by the manufacturer, or sold with the apparatus. When a cart is used, use caution when moving the cart/apparatus combination to avoid injury from tip-over.

- Unplug this apparatus during lightning storms or when unused for long periods of time.
- Refer all servicing to qualified service personnel. Servicing is required when the apparatus has been damaged in any way, such as power-supply cord or plug is damaged, liquid has been spilled or objects have fallen into the apparatus, the apparatus has been exposed to rain or moisture, does not operate normally, or has been dropped.
- Read through this instruction manual before installation and use.
- To disconnect the power cord, hold the plug instead of pulling on the cord.
- Switch off the main power when the unit is not in use. (Disconnect the power plug from the power outlet when you do not intend to use the unit for a prolonged period of time.) Before moving the unit, remove the disc from the unit's tray first.
- Do not open the cover or touch any of the components inside the unit.
- Do not operate or install the unit under direct sunlight or near objects that radiate heat. This may lead to overheating of the unit.
- Do not operate or install the unit in moist or humid conditions. This may affect the pick-up of the unit.
- Install the unit on a flat surface with good air circulation. Please ensure the ventilation holes are not covered otherwise the unit will overheat and malfunction.
- Wipe the panel and case with soft dry cloth only. Do not apply any kind of thinner, alcohol or sprays when cleaning the unit.

Our products will be updated at times. Any difference between unit and manual in that occasion will not be noticed.

Software Upgrade

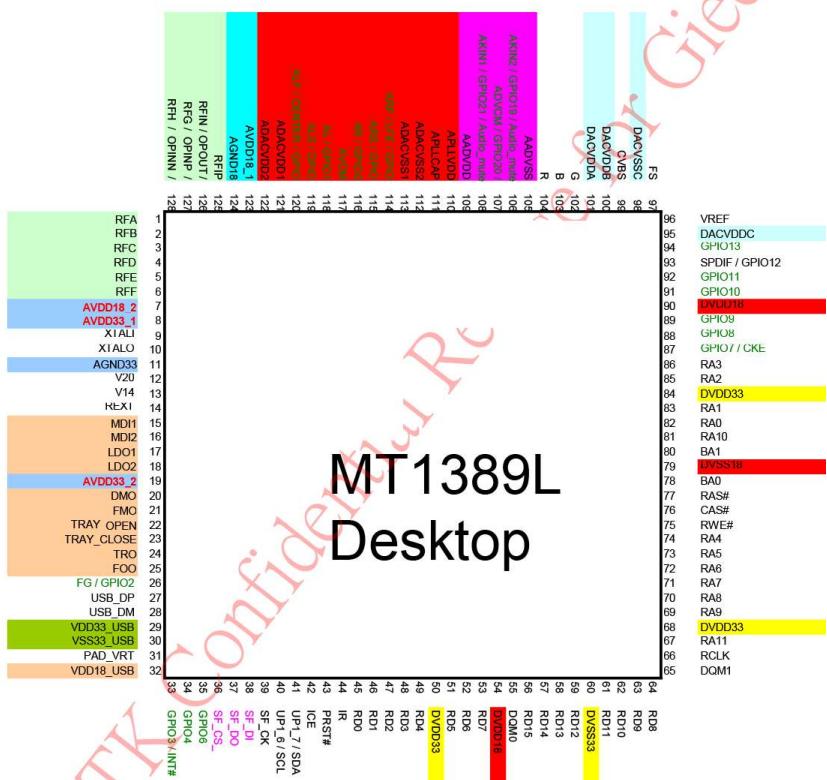

1. Creat a software upgrade disc.
2. Put the upgrade disc into the DVD player, and the unit will read it automatically.
3. There will be indication on the screen:
*Upgrade File DETECTED
Upgrade?
Press Play To Start*
4. Press ENTER or PLAY button to confirm upgrading, then on screen it indicates: * File Coping-> Upgrading*.
5. The disc tray will open automatically in a few seconds.
Please take out the disc.
6. The DVD player is Upgrading automatically. please make sure not to shut it off during uploading, or the unit may get hanged.
7. The disc tray will turn back and the unit will restart automatically when the upgrading is finished.

Displaying the Software Version Number

1. Turn the DVD to the mode of OPEN/NO DISC or press STOP button twice.
2. Press SETUP button
3. Input 1389
4. The software Version Number will display on the screen.

Symptom	Reason(s)	Solution(s)
No power	Do not connect power cord to the wall outlet	Connect them well
No picture	Do not set up TV in correct setting	Set up TV in correct mode
	Do not connect video cable securely	Connect them well
No sound	Do not connect audio cable securely	Connect them well
	Do not power the audio connection system on	Power it on
	The audio output setting is not correct.	Set it in correct mode
Distorted picture	Disc is dirty.	Clean the disc or try another one.
	In fastforward or fastbackward mode	Sometimes, the tiny distortion appears, it is normal condition.
Luminance unsteady or picture with noise	Circuitry influence	Connect DVD video player to TV directly
Unable to play	Do not load disc in	Place disc in
	The disc loaded in can not play	Place readable disc in (check the disc type)
	The disc is loaded upside down	Replace the disc with the label side up
	Do not load disc in guide slot	Load the disc correctly
	Disc dirty	Clean the disc
	TV screen has menu	Press Setup turning off the menu.
	Parental lock function	Unlock it or change the rating
Key no function	Power wave or other abnormal phenomeno (such as static) disturbs the normal condition.	Switch on/off power or unplug/replug the power cord.
Remote control does not work	Do not point remote control at the remote sensor directly.	Point remote control at the remote sensor directly.
	Remote control is too far from DVD unit.	Operate remote control within 7 meters
	Batteries are exhausted.	Replace the batteries and insert in correct polarities.
