Vehicle warranty

1. Scope:

The guarantee is in addition to the statutory warranty on repairs given by the seller. The company DTE Systems GmbH gives a warranty for the: engine, engine management system, and transmission, however with a maximum compensation per claim in the case of vehicles:

- up to 250 hp after tuning: Euro 7 500
- 251 hp and upwards after tuning: Euro 10 000

The warranty covers all damage to the parts indicated below, which, within the warranty period, can be proven to have been caused by the power electronics of the company DTE Systems GmbH.

Assembly:	Description of parts:
1.1 Engine	engine block, cylinder head and gasket, all internal parts related to the oil circuit, oil sump with oil pressure switch and oil filter housing, starter and starter ring, alternator with regulator
1.2 Engine management system	of the fuel system, the parts of the fuel injection pump and nozzle, fuel pump (turbochargers are excluded); the electronic components of the injection system (except sensors) and the electronic components of the ignition system.
1.3 Transmission	of the manual/ automatic gearbox, gearbox housing parts, including all internal parts, torque converter and main module for electronic gear change in automatic transmissions; axle and final drive transmissions with gearbox housing including all internal parts; transmission shafts, the drive shafts, axle drive shafts and drive joints

No warranty / reimbursement is provided for

- 1.4 Gaskets (except head gasket), sleeve gaskets, shaft seals, hoses and pipes, spark and glow plugs, unless their replacement is technically essential as part of indemnifiable damage to any of the parts in Assembly 1.1;
- 1.5 Parts which are not authorized by the manufacturer;
- 1.6 Operating and auxiliary materials, such as fuel, chemicals, filter cartridges, liquids, oils, greases and other lubricants, unless their replacement is essential as part of indemnifiable damage to any of the parts mentioned in Assembly 1.1
- 1.7 Tuning kit installation and removal, engine diagnostics, troubleshooting, towing costs, and performance measurements

2. Conditions:

The following documentary proof must be provided in the event of a claim:

- 2.1 TÜV registration
- 2.2 Compliance with the manufacturer's recommended service intervals (service manual)
- 2.3 Tampering with the power electronics will void any claims under warranty.
- 2.4 Vehicles not older than 3 years from first registration
- 2.5 The original Warranty form must be in DTE Systems GmbH files and the copy from DTE Systems GmbH must be stamped.

Without this proof, any right to claims under warranty against the company DTE Systems GmbH become invalid.

3. Duration:

Twelve months after installation of the power electronics.

4. Kilometrage limit:

The guarantee is valid from date of installation of the DTE Systems GmbH, power electronics up to a total kilometrage of the vehicle of a maximum of 100,000 km; in the case of smart vehicles up to 50,000 km. If the kilometrage of the vehicle is exceeded earlier than the time period, there is no right to claims under warranty. The warranty does not apply to vehicles that after registration are used as hire cars, self-drive hire cars, taxis, driving school cars, courier or delivery vehicles or are used for sports purposes.

5. In the event of a claim:

In the event of a claim, DTE Systems GmbH must be notified in writing immediately. The authorization to undertake repairs and consent to accept costs is made solely by DTE Systems GmbH. Further claims, in particular transport costs, compensation for loss of use, rental car costs, costs of remedying damage to other parts of the vehicle are expressly excluded. If the value of a replacement unit is below the cost of repair, the claims under warranty are limited to this value, including the removal and installation costs.
