# State of New York Contract PC60006 LIFEPAK defibrillator Catalog

May 22, 2006

Catalog numbers in this Medtronic ERS US Price List are subject to change and therefore do not reflect the final catalog numbers that will be associated with the LIFEPAK® 1000 defibrillator shipped to you. The final catalog numbers assigned to the LIFEPAK 1000 defibrillator will reflect a device that may include additional or enhanced features. Changes in final catalog numbers will not increase the price of the LIFEPAK 1000 defibrillators quoted below. The ship date for the LIFEPAK 1000 defibrillator has not yet been determined. An amended quote with final catalog numbers will be sent to you at least 30 days before shipment to allow you time to revise purchase orders if necessary. The amended quote will not change the prices quoted below.

The default settings for the LIFEPAK 1000 defibrillator shipped to you will address the 2005 AHA Guidelines. If you would like the device initially set up with a setting different than recommended by these guidelines (e.g., 2000 AHA Guidelines or to your particular protocol), please specify your initial set-up requirements to the Medtronic ERS Product Service Specialist prior to preparation of the amended quote.

Catalog#	Description	NYS Price
<b>Kit # 1</b> 99425-000005	<b>LIFEPAK 1000 defibrillator-Graphical Display only, AHA 2005 Standard Setup,</b> Includes one LiMnO2 non-rechargeable battery, one complete carrying case w/shoulder strap, two pair QC REDI-PAK electrodes and ship kit.	\$1,950.00
<b>Kit # 2</b> 99425-000005	<b>LIFEPAK 1000 defibrillator-Graphical Display, AHA 2005 Standard Setup, Pediatric Ready,</b> Includes one LiMnO2 non-rechargeable battery, one complete carrying case w/shoulder strap, two pair QC REDI-PAK electrodes, Infant/Child Reduced Energy Electrodes Starter Kit and ship kit.	\$2,000.00
<b>Kit # 3</b> 99425-000014	<b>LIFEPAK 1000 defibrillator-ECG Display only, AHA 2005 Standard Setup,</b> Includes one LiMnO2 non-rechargeable battery, one complete carrying case w/shoulder strap, two pair QC REDI-PAK electrodes and ship kit.	\$2,095.00
<b>Kit # 4</b> 99425-000014	<b>LIFEPAK 1000-ECG Display, AHA 2005 Standard Setup, Pediatric Ready,</b> Includes one LiMnO2 non-rechargeable battery, one complete carrying case w/shoulder strap, two pair QC REDI-PAK electrodes, Infant/Child Reduced Energy electrodes Starter Kit and ship kit.	\$2,145.00
<b>Kit # 5</b> 99425-000014	<b>LIFEPAK 1000-ECG Display, AHA 2005 Standard Setup, 3-wire,</b> Includes one LiMnO2 non-rechargeable battery, one complete carrying case w/shoulder strap, two pair QC REDI-PAK electrodes, 3-wire monitoring cable, accessory pouch for 3-wire cable, one pair LIFE-PATCH electrodes (3/pk) and ship kit.	\$2,200.00
<b>Kit # 6</b> 99425-000014	<b>LIFEPAK 1000-ECG Display, AHA 2005 Standard Setup, Pediatric Ready, 3 Wire,</b> Includes one LiMnO2 non-rechargeable battery, one complete carrying case w/shoulder strap, two pair QC REDI-PAK electrodes, Infant/Child Reduced Energy Electrodes Starter Kit, 3-wire monitoring cable, accessory pouch for 3-wire cable, one pair LIFE-PATCH electrodes (3/pk) and ship kit.	\$2,250.00
11141-000100	LiMnO2 Non-Rechargeable Battery Replacement Kit	\$246.50

**LIFEPAK 12**  
**defibrillator /**  
**monitor**

## **PRODUCT DESCRIPTION**

### **LIFEPAK® 12 defibrillator/monitor with ADAPTI V™ Biphasic waveform**

Includes manual external defibrillation, 3-lead ECG cable (non 12-lead units only), QUIK-COMBO™ therapy cable, 50 mm printer, 3 pack ECG electrodes, 3 rolls 50 mm paper; operating instructions, in-service video, service manual on CD-ROM, and test load. (Batteries and carry case not included.)

### **EL Display**

Optional electroluminescence display

### **AED (Automated External Defibrillation)**

### **Noninvasive Pacing**

### **SpO<sub>2</sub> Pulse Oximetry (SpO<sub>2</sub>)**

Includes 4-foot cable and a sample disposable sensor pack.

Optional reusable sensor available.

Use of LIFEPAK NiCd batteries is strongly recommended with this option.

### **12-Lead ECG Monitoring**

Includes 5-foot main trunk cable, 4-wire limb lead attachment, 6-wire precordial lead attachment, 2 each 3-pack and 1 each 4-pack of ECG electrodes, 100mm printer and 2 rolls of paper (in place of 50 mm printer and paper). Optional 3-foot main trunk cable available.

### **Noninvasive Blood Pressure (NIBP)**

Includes 2-foot—9-foot coiled hose and reusable adult cuff.

Use of LIFEPAK NiCd batteries is strongly recommended with this option.

### **Capnography (EtCO<sub>2</sub>)**

Includes 100 mm printer (REQUIRED) and 2 rolls of paper (in place of 50 mm printer and paper) and a 5-lead ECG cable.

Use of LIFEPAK NiCd batteries is strongly recommended with this option.

### **Fax Transmission**

Enables LIFEPAK 12 unit to transmit 12-Lead reports to a remote fax machine (requires Internal Modem or External Modem).

### **100 mm Printer**

Includes a 5-lead ECG cable, 100 mm printer and 2 rolls of paper (in place of 50 mm printer and paper).

LIFEPAK 12 Voice Recorder Accessory

Includes one USB cable and CD containing voice recorder software for a Windows®2000 or 98 SE PC.

### **Two Invasive Pressure Channels (IP)**

Includes Premium (trending) software package, 100 mm printer and 2 rolls of paper (in place of 50 mm printer and paper) and a 5-lead ECG cable.

### **Premium (trending) Software for Vital Signs**

Includes ST measurement trending.

Requires 100 mm printer to print trend reports.

CONFIGURATIONS/FEATURES		NYS PRICE
BASIC	Biphasic, AED, EL, Pace, 50mm	\$9,345.75
MID	Basic + Trend, 100mm, SPO2, NIBP	\$12,320.75
LOADED	Everything but IP and Voice Recording	\$21,245.75

Optional features can be added to the configurations above to form new configurations. See below for pricing by configuration. Optional features cannot be quoted separately and will not be listed on quotes and invoices.

#### OPTIONS

SpO2	\$1,105.00
NIBP	\$2,380.00
12-Lead - Includes FAX Software (Modem and Door Required), 100mm Printer, and Trend (if applicable)*	\$6,375.00
CO2 - Includes 100mm Printer and Trend (if applicable)*	\$3,315.00
IP - Includes 100mm Printer and Trend (if applicable)*	\$1,615.00

\*If 12-Lead, CO2 and/or IP are added to the Basic Configuration, the 100mm Printer and Trending will automatically be included to make the parameters fully functional. If these parameters are added to the Mid or Loaded Configuration, the 100 mm Printer and Trending are already included.

-----------	---------------------	-----------

**DATA TRANSFER™ SOFTWARE PRODUCTS**  
 DATA TRANSFER products allow for the downloading of device data and transfer of files to a PC or other location.

21340-000095

**LIFENET® DT Express Information Management Program**

284.05

**Features:** LIFENET DT Express is a PC - based software product that allows LIFEPAK® AEDs to connect directly to a PC and then forward data on to another location. An intuitive, easy to use download wizard is included to speed the user through the download process. Users can download cases, add patient data, and save patient data to disk, and can print event logs, ECG data, and test log reports. Data can then be transferred out via modem to another PC running CODE-STAT™ SUITE data management applications.

**System Requirements:** Compatible with Microsoft® Windows 98 SE, Windows ME, Windows 2000 Professional (with Service Pack 1), Windows XP, and Windows NT Workstation (with Service Pack 6a).

**Languages Supported:** Available in English.

**Devices Supported:** LIFENET DT Express software is for use with the LIFEPAK CR Plus defibrillator, LIFEPAK 500 defibrillator, and the LIFEPAK 12 defibrillator/monitor.

**Notes:** A download accessory is required. Please see the “communications accessories” section for additional information.

**LIFENET EMS ePCR System Suite Data Management**

**\* PRICES: “BASED ON CUSTOMER PRODUCT REQUIREMENTS”**

Medtronic ERS and Medusa Medical Technologies, Inc. have formed a strategic partnership to market and develop electronic patient data reporting systems for the EMS market that allows easier and more accurate patient data capture, transfer and in-depth analysis. The product suite from Medusa is an electronic patient care reporting and comprehensive data management system. It can be linked directly to Medtronic ERS LIFEPAK® monitor/defibrillators for automatic capture and transfer of the complete cardiac rhythm and vital signs record.

	<b>LIFENET RS RECEIVING STATION</b>	
99404-000002 & 94404-000004 (Both required)	<p><b>LIFENET RS Receiving Station 3.0</b></p> <p><b>Application:</b> The LIFENET RS (receiving station) is a PC-based receiving station that receives, displays, and prints 12-lead reports from the LIFEPAK 12 defibrillators.</p> <p><b>Features:</b></p> <p><b>PDF exporter</b> – automatically exports 12-lead ECG and vital signs data in PDF format to cardiologists as well as notifies essential caregivers and key decision makers when patient data is available. The PDF is sent via email to pre-determined devices such as PCs, cell phones, and PDAs.</p> <p><b>Auto export</b> – automatically transfers patient information to pre-determined sites. Information may be sent to a cardiologist via fax or email (PDF attachment), another LIFENET RS Receiving Station, or CODE-STAT™ Suite medical informatics system.</p> <p><b>Auto forward</b> – allows operator of LIFEPAK 12 defibrillator/monitor to direct reports to pre-determined destinations through the LIFENET RS Receiving Station.</p> <p><b>Auto print</b> – prints out diagnostic quality 12-lead ECG reports for review.</p> <p><b>Auto alarm</b> (audible and visual) – alerts staff to incoming 12-lead ECG and vital signs data and other reports.</p> <p><b>Patient privacy filter</b> – removes identifiable patient information (such as name or address) when exporting records to pre-determined destinations. This can assist you in complying with HIPAA rules regarding the privacy and confidentiality of patient data.</p> <p><b>Security enhancements</b> – allow only users with administrator rights to configure settings.</p> <p><b>Multiple languages available</b> – English, French, Spanish, German, Swedish, Italian, Danish, Norwegian, and Dutch.</p> <p>Additionally, the receiving station can receive the following reports from the LIFEPAK 12 defibrillator:</p> <ul style="list-style-type: none"> <li>–A snapshot of any waveform</li> <li>–A snapshot of vital signs</li> <li>–Trend summary</li> <li>–All CODE SUMMARY events</li> </ul> <p>The LIFENET RS can also export the above reports to a fax machine, another LIFENET RS, and/or CODE-STAT SUITE software Versions 4.0 and above.</p> <p><b>Hardware/Software Included:</b> The LIFENET RS includes the RS software, computer, keyboard, mouse, flat panel monitor, two internal fax modems, and laser printer.</p>	\$11,771.40

	<b>LIFENET RS RECEIVING STATION WITH GEMS MUSE COMPATIBILITY</b>	
99404-000004 & 94404-000004	<p>This product option includes all the above product features plus the ability to interface with the GE Marquette MUSE® System (Version 5C or higher). This product will be prepared to interface with the MUSE and transmit 12-lead reports from the LIFEPAK 12 device into the MUSE System.</p> <p><b>Note:</b> Customers will need to install two analog phone lines in their facility, and have MUSE Version 5C or higher. In addition, customers will need to purchase the GEMS MUSE system connectivity for the LIFENET Receiving Station from GE Medical Systems. Historically, price has been around \$10,000.00.</p> <p>*Pricing as stipulated in contract.</p>	\$15,451.40

	Provides users support and coverage for the LNRS software and hardware components for 5 years.	

**LIFENET® EMS Electronic Patient Care Reporting System**

The LIFENET EMS Electronic Patient Care Reporting System (ePCR) is powered by Medusa Medical Technologies Inc., and provides the tools and capabilities to streamline operations, reduce costs, and validate the quality of care through data. It enables your organization to consistently capture and record comprehensive patient record information electronically and makes patient care records immediately available for quality control and quality assurance purposes.

LIFENET EMS communicates with a variety of computer aided dispatch (CAD), billing and state reporting systems. It also supports a direct link from the LIFEPAK 12 and select OEM defibrillators to support the automatic capture and transfer of rhythm and vital sign data directly into the patient care record for post event review. The Information and Reporting Module provides powerful data mining capabilities and enables agencies to analyze a wide variety of key performance drivers and metrics. The LIFENET Surveillance Module works in tandem with the Information and Reporting Module by monitoring agency-defined indicators and notifying key personnel if an agency-defined threshold or variation is detected by the system.

In the field, Medics use LIFENET EMS Field User on *ruggedized tablets*. LIFENET EMS Field User improves medic job satisfaction with reduced paperwork and faster, more accurate documentation. The system also provides quick access to protocols, tracks medic certifications, and measures procedure success rates.

LIFENET EMS is a full-featured ePCR system that can help improve patient care, and provide operational efficiencies. Brochures, data sheets, and product demonstrations are available to describe the system's and capabilities in greater detail.

**Please contact your Medtronic Sales Representative for additional product and pricing information.**
