

# Software Upgrade for Motorola BRAVO™ (37.4.0) \*

## Introduction

This is a software upgrade for AT&T Motorola BRAVO users who are currently using Android™ 2.1 (Eclair) software versions. The 37.4.0 upgrade for Motorola BRAVO provides new features from Android 2.2 (Froyo) plus additional improvements.

## Who Can Use This Release

All Motorola/AT&T BRAVO users.

## Android 2.2 (Froyo) Highlights

<b>Adobe Flash Player 10.1</b>	Your device now supports Adobe® Flash® Player 10.1, allowing access to rich Web content and games. Adobe Flash Player 10.1 is installed along with this upgrade.
<b>App storage and updating</b>	Applications can now be stored on the device's microSD card. Additionally, apps can be set to automatically update by checking "allow automatic updating" under each app's page in Android Market™.
<b>Wi-Fi Hotspot</b>	Phone can provide an Internet connection for up to 5 Wi-Fi-enabled devices
<b>USB Tethering</b>	You can use your device as a 3G connection for a Windows® or Linux® laptop by connecting the phone to the computer with a USB cable.
<b>Digital Keyboard</b>	Added punctuation to the suggestion ribbon so contractions will display correctly.

## BRAVO Specific Highlights of the Upgrade

<b>Profiles</b>	Added profiles feature that provides three customizable sets of home screens to give you access to the apps, shortcuts, and widgets you want, when you need them.
<b>Applications</b>	Added new applications Files, Latitude, Places, News and Weather, Google Search
<b>Dialer search</b>	Phone numbers and contacts can now be searched from the dialer screen by entering the first few letters of the contact's name or first few digits of the contact's number.
<b>Task Manager</b>	Added Task manager app to assist with managing apps
<b>LinkedIn</b>	LinkedIn® social network accounts can now be added to integrate with contacts, social networking updates, and messaging
<b>Security</b>	Added new security features, including Exchange-based encryption and password security
<b>Gallery</b>	Updated the design of the user interface

## Instructions for Installing Software

For a successful installation, we recommend installing these updates while the battery in your phone is at least 50% charged. Make sure you have an active SIM card installed in your phone.

If you have received a notification message for this update:

1. Select "Download"
2. After the software is downloaded, select "Install now"
3. After the software is installed, your phone will re-start automatically
4. Your phone is now updated with 37.4.0 software

\*Note: Menu->Settings->About phone-> System version

If you have not received a notification message for this update:

1. Select the Settings icon in the main menu
2. Select "About phone"
3. Select "System updates"
4. Select "Download"
5. After the software is downloaded, select "Install"
6. After the software is installed, your phone will re-start automatically
7. Your phone is now updated with 37.4.0 software

If you have difficulty with this update, visit <http://www.att.com/econtactus/>.

Certain features, services and applications are network dependent and may not be available in all areas; additional terms, conditions and/or charges may apply. All features, functionality and other product specifications are subject to change without notice or obligation. Contact your service provider for details.
