INSTALLATION & SERVICE MANUAL

AMFLOW® A3 VALVE ACTUATOR (BELT DRIVE)

Part Number: 00002300-0501

NOTE:

Reference the "As Built" data sheet supplied with order for specific actuator configuration.

A & H Enterprises, Inc. reserves the right to make modifications and/or improvements to **Amflow®** products without prior notice.

Explanation of Graphic Symbols

DANGER AND/OR WARNING

The exclamation point within an equilateral triangle surrounded by red is intended to alert the user to the presence of important operating and maintenance instructions that may cause personal injury or harm to the system.

CAUTION AND/OR IMPORTANT

The exclamation point within an equilateral triangle that is solid yellow with an exclamation point is intended to alert the user to use caution or contains important information.

INFORMATION

SECTION 1: INFORMATION

1.01 DESCRIPTION

The **Amflow®** A3 Actuator is a DC gear driven motor actuator designed to accommodate the **Amflow®** AM30 Flow Control Valve in hazardous area usage.

The **Amflow®** A3 Actuator is designed to be panel mounted, reference Section 1.18 and 1.19.

NOTE: Orientation is not important. Once the **Amflow®** A3 Actuator is installed, the valve can be mounted into the ADAPTOR RING (Item 4) and locked in place by the four CAMS (Item 7). The Inlet and Outlet ports of valve will then need to be connected to the system.

The **Amflow®** A3 Actuator has three different available certified communication protocols: HART / 4-20mA, H1 FOUNDATION fieldbus, or MODBUS-TCP-RTU – 4-20mA. These protocols provide ease of use in the field with their own embedded web pages eliminating third party communication devices.

1.02 DESIGN FEATURES

1. Normal module operation includes valve position, current limit, pressure & flow feedback.
2. Manual over-ride lever.
3. Low maintenance.
 - Environmentally sealed.

1.03 MECHANICAL FEATURES

- Enclosure: 316L Stainless Steel with powder coating
- Adjustable Torque Setting
- ATEX Certification: DNV 2007 OSL ATEX-1498
- Certification Category: II 2G Ex de IIC T4
- Degree of Protection: IP66
- Weight: 48 lbs. (21.7 Kg)

Amflow® A3 Actuator: Electrical Specifications

	Motor	Watts	Max. Operating Current	Max In-Rush Current	Manual Override	Communication
A3 00000222-0501-014	DC Gear	24 VDC 30 Watts	1.25 amps (continuous)	3.0 amps	Yes	1. Industrial Ethernet 2. Hart / 4-20mA 3. H1 FOUNDATION fieldbus 4. Modbus RTU / RS485 5. Modbus TCP

1.04 COMMUNICATION PROTOCOLS

1. Circuit board: Main motherboard with interchangeable daughter boards.
2. Remote access from host computer for control, monitoring, and configuration.
 3. Available Communication Protocols:
 1. INDUSTRIAL ETHERNET
 2. HART/4-20mA
 3. H1 FOUNDATION fieldbus
 4. MODBUS RTU / RS485
 5. MODBUS TCP
 6. Ethernet Protocol: IEEE 802.3 - 10T/100T

These protocols provide ease of use in the field with their own embedded web pages eliminating third party communication devices. Refer to the Circuit Board Manual provided with order for information and issues regarding communication.

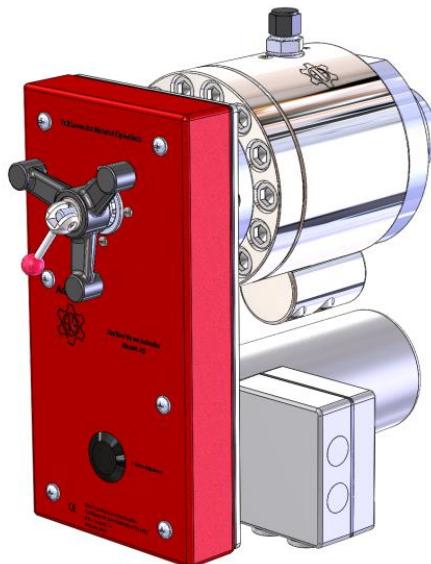

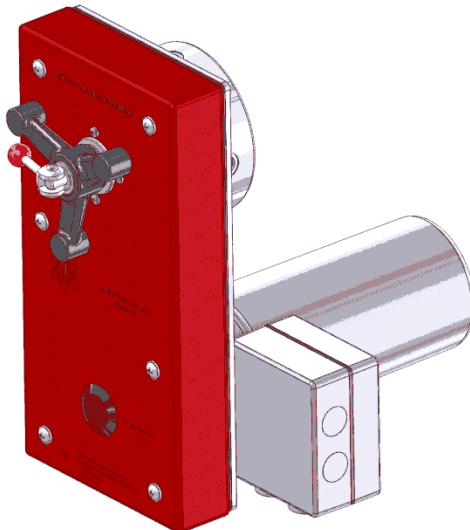

INFORMATION

1.05 SAFETY INFORMATION

1. SAFETY INFORMATION

- Follow IEC when working with electrical units.
- When handling product avoid dropping, damaging, or submerging.
- Ensure proper wiring.
- Person(s) handling circuit board should be properly grounded.
- Do not open unit while energized.

SECTION 4: VALVE INSTALLATION & REMOVAL

4.01 CAM LOCK

Step 1

10. Be sure all four (4) CAMS (Item 7) are installed, but not engaged, in ADAPTOR RING (Item 4).

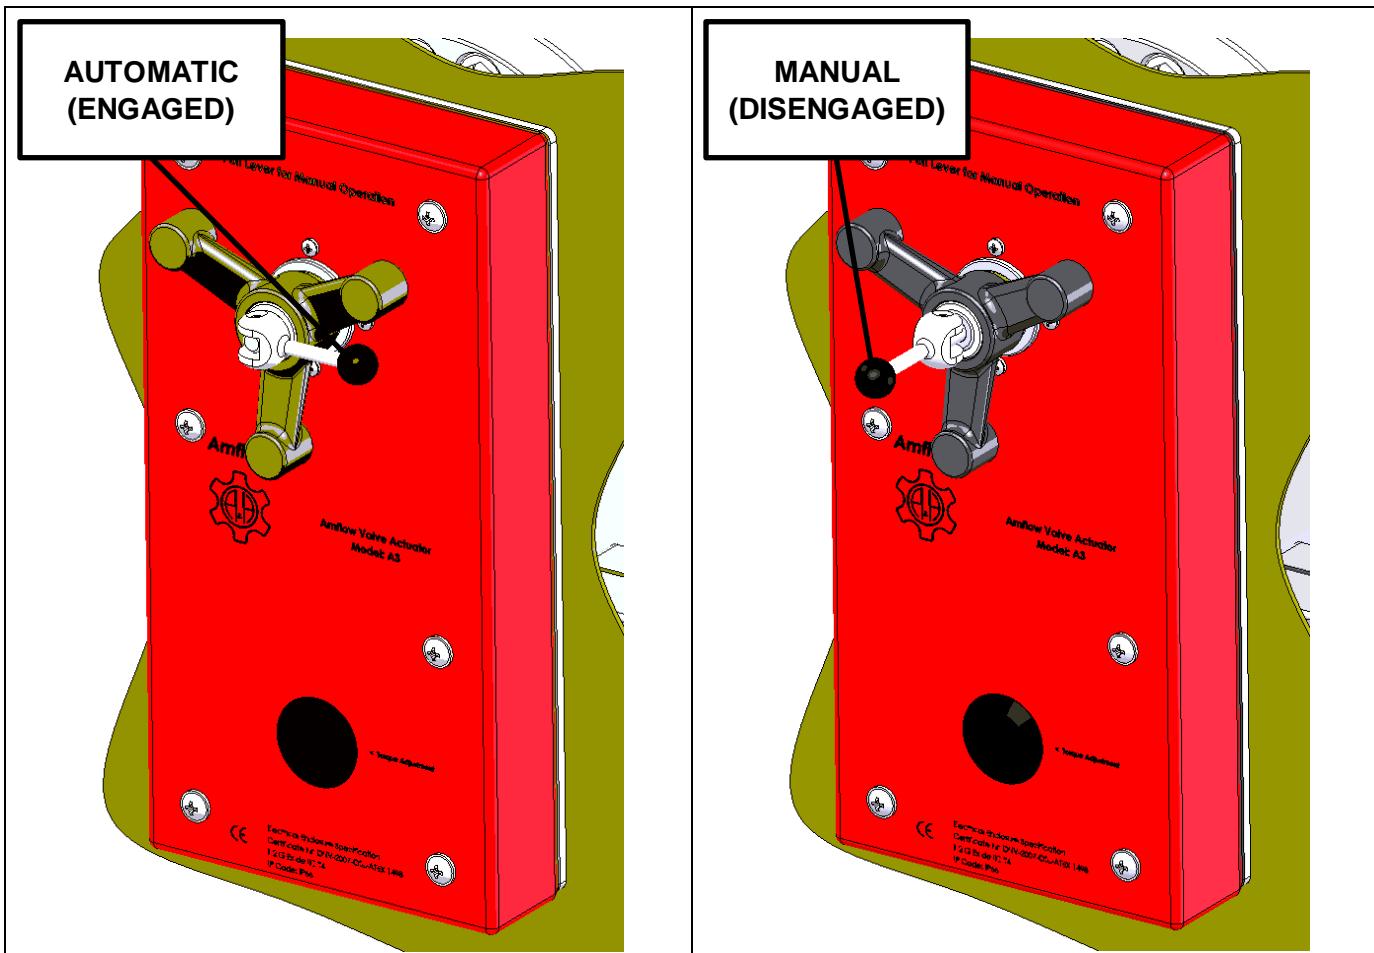

BELT DRIVE ASSY. SERVICE

4.02 AUTOMATIC/MANUAL MODE SELECTION

Step 1

11. Be sure LEVER CAM (Item 47) is disengaged (manual mode).

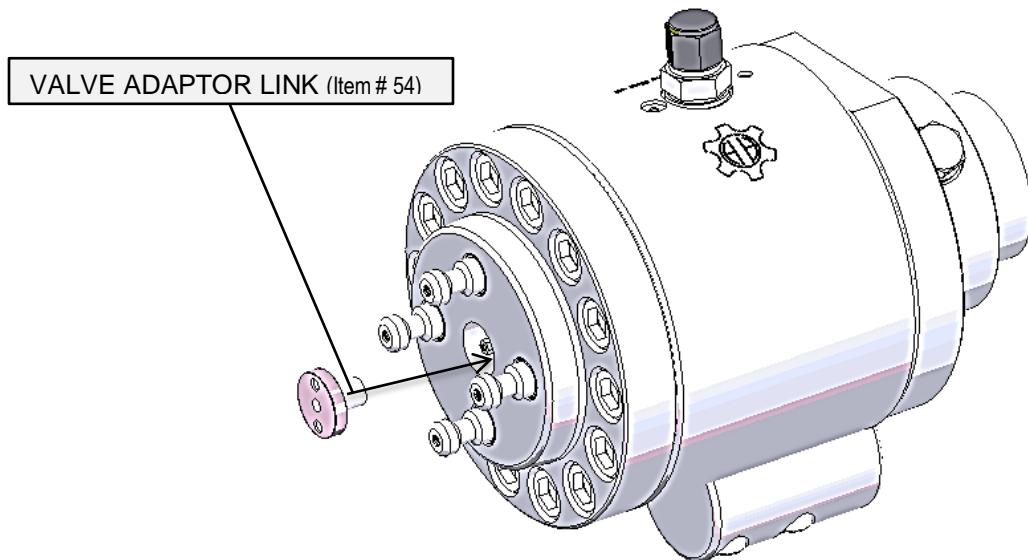

BELT DRIVE ASSY. SERVICE

4.03 STEM ADAPTOR

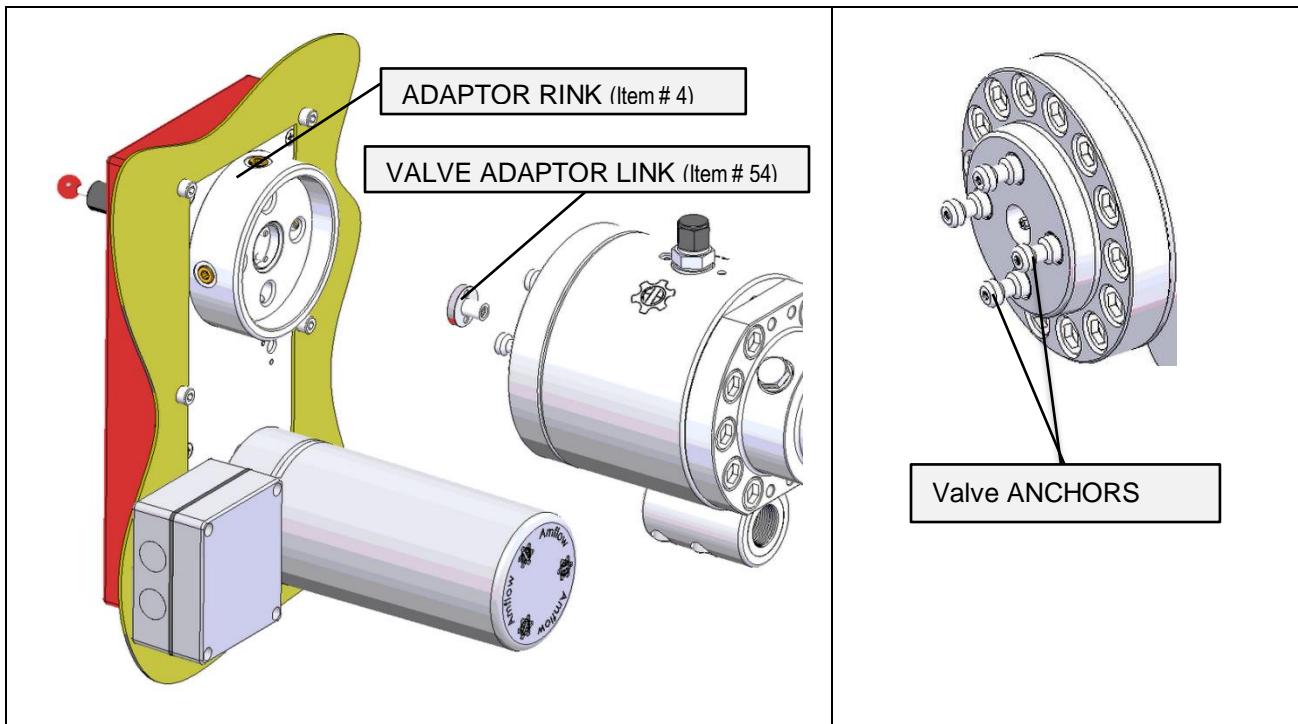

Step 1

12. Place VALVE ADAPTOR LINK (Item 54) onto VALVE STEM prior to installation.

**4.04 MOUNTING VALVE**

Step 1

13. Insert valve into ADAPTOR RING (Item 4) being sure to align valve ANCHORS

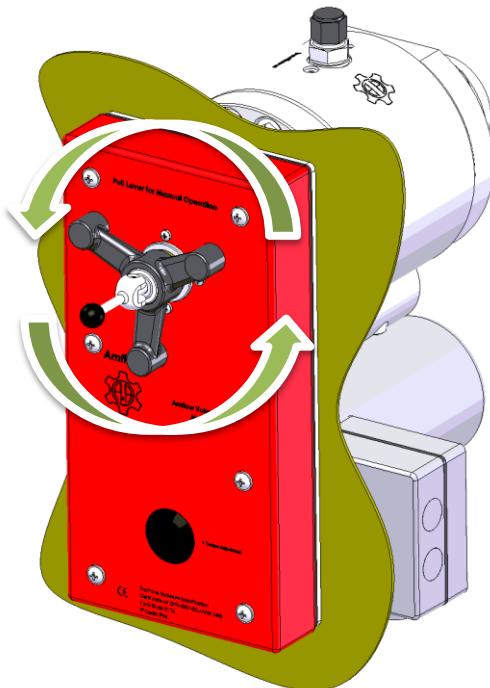

BELT DRIVE ASSY. SERVICE

4.04 MOUNTING VALVE, Continued

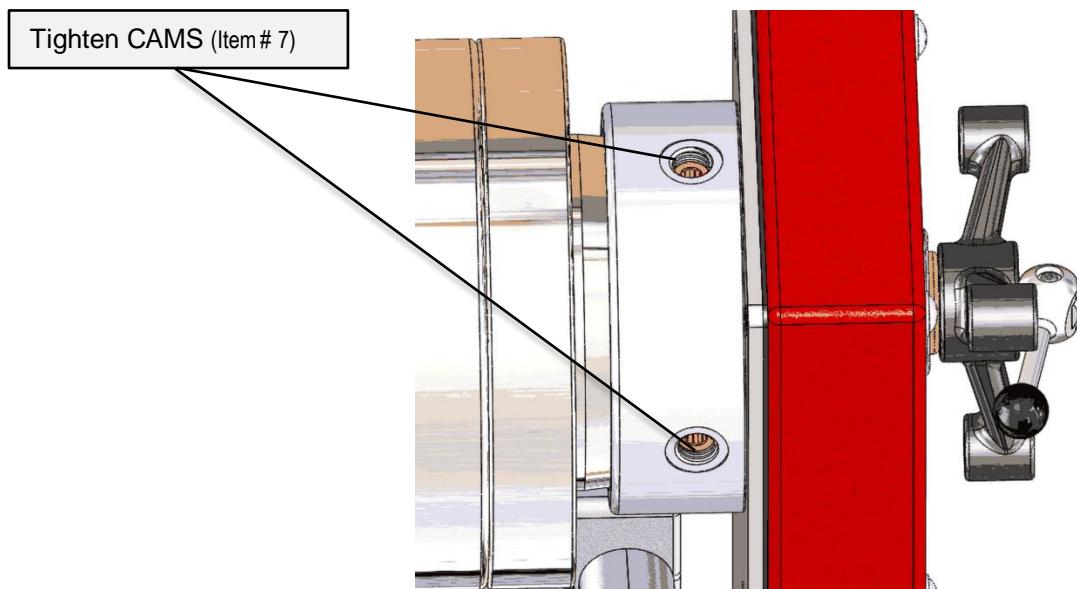

Step 2

14. While valve is being inserted into ADAPTOR RING (Item 4); rotate HANDLE (Item 46) to align VALVE ADAPTOR LINK (Item 54) with MAIN SHAFT (Item 12.1).

Step 3

15. Once properly aligned and engaged, tighten four (4) CAMS (Item 7) to lock valve in place.

**END OF SECTION**

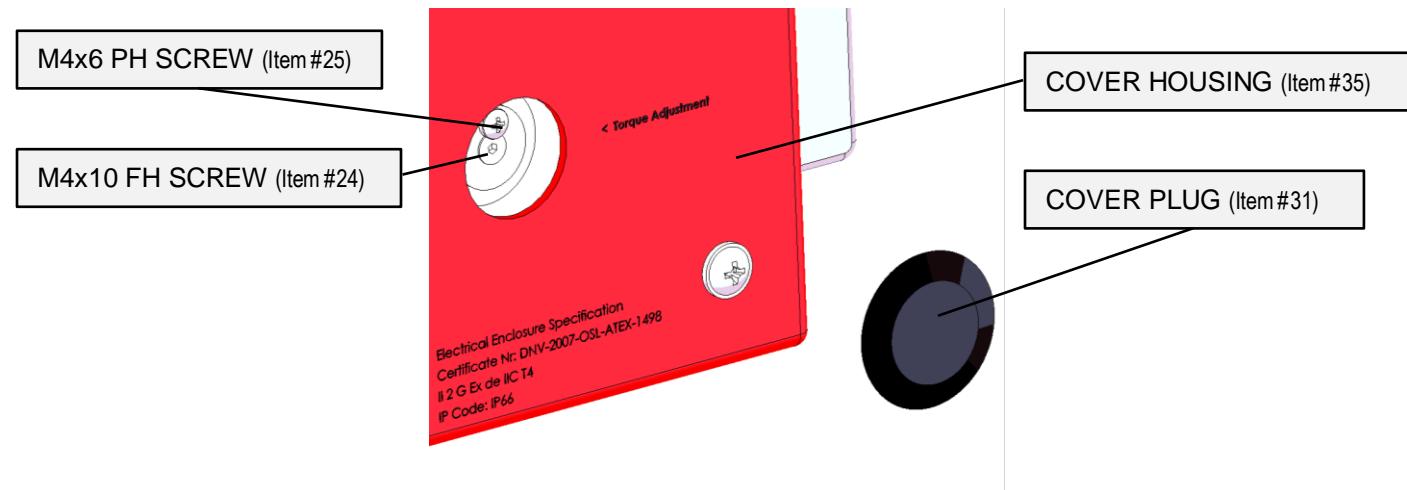

BELT DRIVE ASSY. SERVICE

SECTION 5: CLUTCH LOCATION & TORQUE ADJUSTMENT

5.01 CLUTCH LOCATION

Step 1

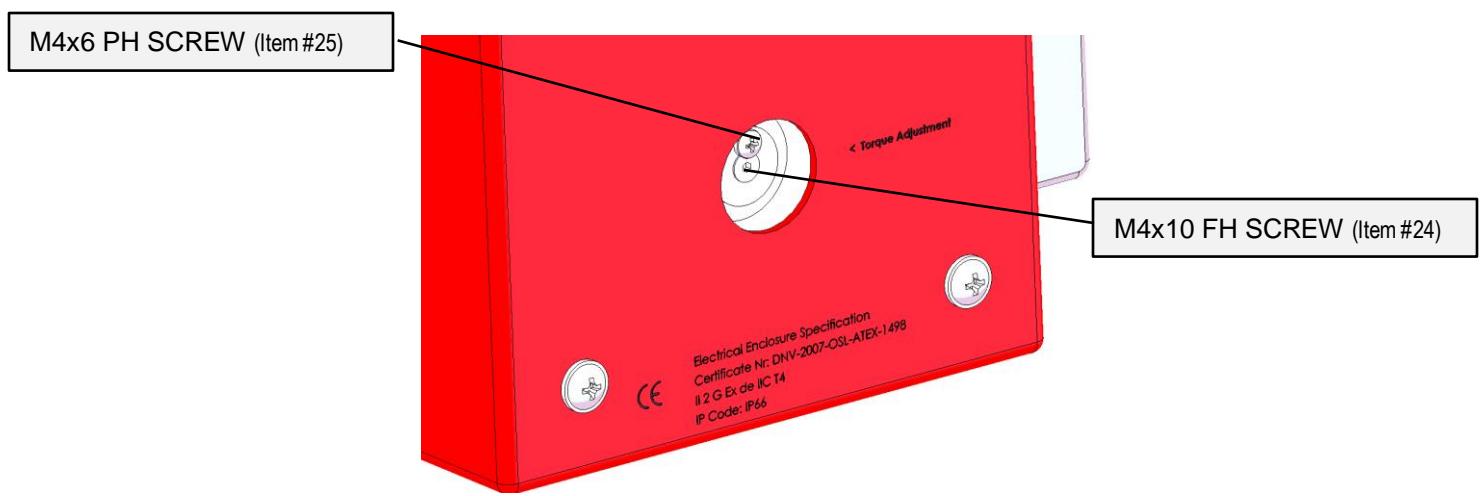

16. Find torque adjustment location on the front COVER HOUSING (Item 35) and, remove COVER PLUG (Item 31).

5.02 TORQUE ADJUSTMENT

Step 1

17. Make adjustments by loosening (do not remove) the offset M4x6 PH SCREW (Item 25) on the clutch and tightening or loosening the M4x10 FH SCREW (Item 24) in center of clutch.
1. Be careful not to over tighten.

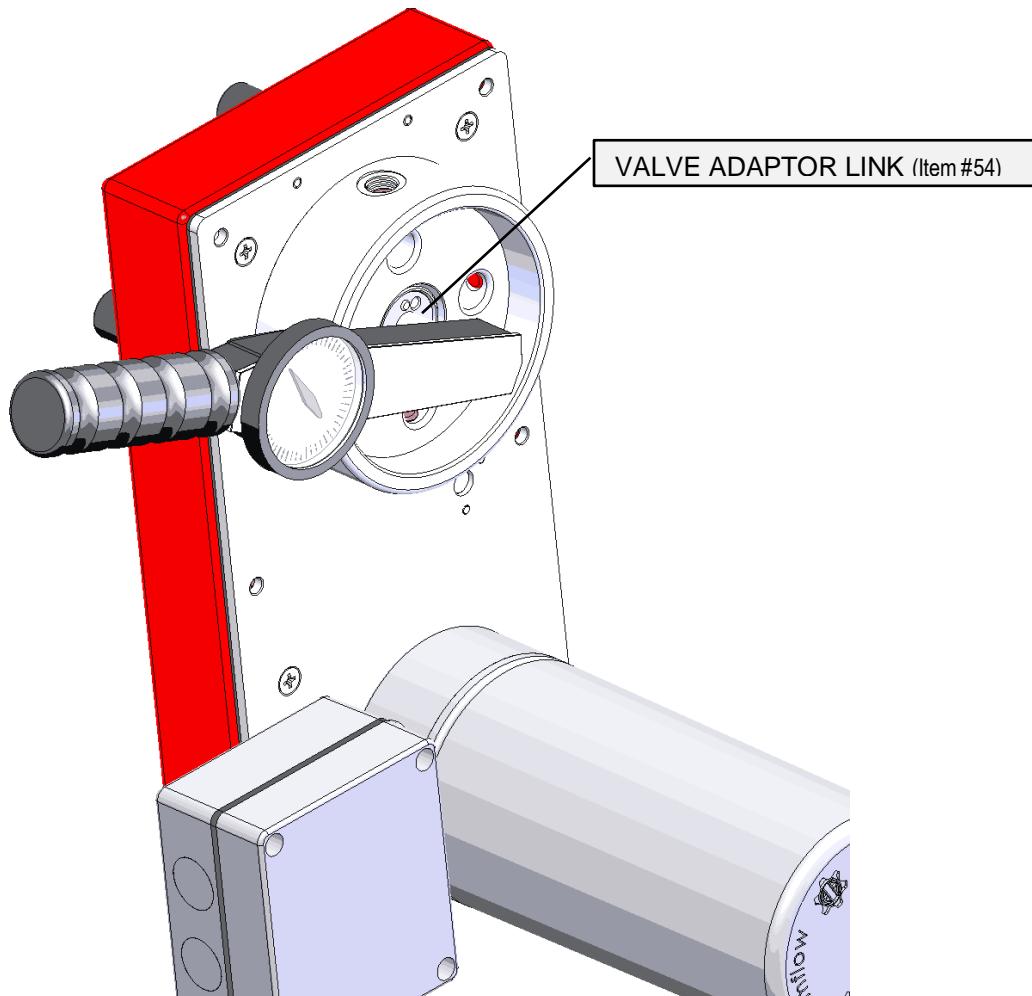

BELT DRIVE ASSY. SERVICE

5.02 TORQUE ADJUSTMENT, continued

Step 2

1. To check torque setting use VALVE ADAPTOR LINK (Item 54) and a torque wrench with a 6 mm Allen head attachment.
2. Turn up torque limit (2.0) in the alarm settings of the embedded web page to avoid a torque fault.
3. Send a find zero command and using the torque wrench at the attachment point of valve simulate a hard stop. This will force the clutch to slip allowing you to read the torque setting.

STANDARDS & CERTIFICATIONS

STANDARDS

A&H Enterprises designs its products to meet the applicable **ASME**, and **API** standards for valve design and pressure vessels.

Products are also **CE** marked and **ATEX** approved for Hazardous area installations.

MEMBERSHIP'S

CERTIFICATIONS

ATEX DIRECTIVE (94/9/EC)

In the interest of safety and quality, A&H Enterprises has certified its **Amflow®** series of actuators for use in potentially explosive atmospheres as defined by the ATEX Directive (94/9/EC) as Category 2G.

ATEX
US & INTERNATIONAL PATENTS PENDING

To ensure the safety of all parties, only genuine **Amflow®** parts must be installed in accordance with supplied instructions, good engineering, and construction practices. The actuators must not be modified in any way from the original purchased actuators. The actuators must only be operated in the conditions indicated on product data sheet. This equipment is certified for Group 2 Category II. Equipment should not be used in systems requiring a higher level of certification.

WARRANTY

LIMITED WARRANTY

Each **Amflow®** product is warranted to be free from defects in material and workmanship under normal use and service. The warranty period is three (3) years and begins on the date of original purchase. This warranty extends only to the original buyer and does not apply to any product which, in A & H Enterprises' opinion, has been misused, altered, neglected, contaminated, damaged by accident or abnormal conditions of operation or handling.

At A & H Enterprises' option, the A & H Enterprises' warranty obligation is limited to the replacement or repair of a defective product that is returned to A & H Enterprises within the warranty period. Merchandise returned to A & H Enterprises within the warranty period which, in A & H Enterprises' opinion, is defective by accident, improper operation or improper handling shall be subject to a charge for repair. Merchandise, free from defects, returned to A & H Enterprises shall be subjected to a 20% restocking fee within thirty (30) days of the purchase date. Written authorization is required for all merchandise returned to A & H Enterprises.

To obtain warranty service, contact A & H Enterprises to obtain return authorization information. Then send the product to A & H Enterprises with a description of the difficulty, transportation and insurance prepaid. A & H Enterprises assumes no risk for damage in transit. Following warranty repair, the product will be returned to Buyer, transportation and insurance prepaid. If A & H Enterprises determines that failure was caused by neglect, misuse, contamination, alteration, accident, or abnormal condition of operation or handling, A & H Enterprises will provide an estimate of repair costs and obtain authorization before commencing the work. Following repair, the product will be returned to the Buyer, transportation and insurance prepaid, and the Buyer will be billed for the repairs and the return transportation and insurance charges.

THIS WARRANTY IS BUYER'S SOLE AND EXCLUSIVE REMEDY AND IS IN LIEU OF ALL OTHER WARRANTIES, EXPRESS OR IMPLIED, INCLUDING BUT NOT LIMITED TO, ANY IMPLIED WARRANTY OR MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE. A & H ENTERPRISES SHALL NOT BE LIABLE FOR ANY SPECIAL, INDIRECT, INCIDENTAL OR CONSEQUENTIAL DAMAGES OR LOSSES, ARISING FROM ANY CAUSE OR THEORY.

Since some countries or states do not allow limitation of the term of an implied warranty, or exclusion or limitation of incidental or consequential damages, the limitations and exclusions of this warranty may not apply to every buyer. If any provision of the Warranty is held invalid or unenforceable by a court or other decision-maker of competent jurisdiction, such holding will not affect the validity or enforceability of any other provision.
