

# Easy Clear® Water Softening System for Tea

PROJECT	

DATE

Model EQHP-Tea Water Quality System

#### **Features**

# Easy Clear High Performance Water Quality System for Tea

- Perfect for iced or hot tea brewers where hard water can affect tea clarity and taste.
- Increases tea stand time.
- Provides 4,350 grains of hardness reduction.
- Minimizes service maintenance and equipment downtime with reduced scale forming minerals.
- System includes a head assembly, integral mounting bracket and single cartridge filter.
- Quick Connect valve-in design simultaneously shuts off and vents water with 1/4 turn, allowing for siimple and trouble-free cartridge change-outs.
- Integrated carbon block media to reduce taste and odor.
- 3/8" FNPT horizontal inlet and outlet ports allow direct or easily adaptable connections to existing plumbing lines.
- System maximum operating pressure is 100 psi (862 kPa) and operating temperature 100°F (38°C).

For current specification sheets and other information, go to www.bunn.com.

## Related Products

**Warranty:** BUNN warrants the Easy Clear® hardware (excluding cartridges) to be free from defects in materials and workmanship for 1 year from the date of installation. See service manual for complete warranty statement.

## Replacement Cartridge

**EQHP-TEACRTG** 

Product No.: 39000.1007

#### **Valve In-Head Assembly**

EQHP-VHD

Product No.: 39000.1000

## Gauge

Product No.: 39000.0100

### The Effects of Hardness and Stand Time on Iced Tea Clarity

Use of an Easy Clear water softening system can dramatically improve the clarity of brewed iced tea.

# Dimensions & Specifications

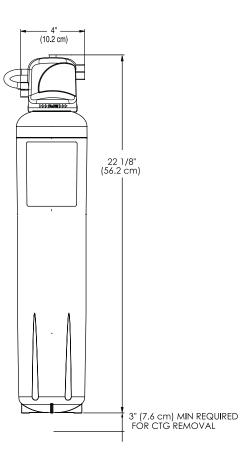

Model	Product #	Capacity	Service Flow Rate	Micron Rating
39000.0007	EQHP-TEA	4,350 grains	1 gpm	5 (nominal)

Note: Inlet and outlet plumbing connections are 3/8" FNPT.

#### Do I need a water softening system?

BUNN recommends that a water softening system be used when 10 grains per gallon (gpg) or more of hardening minerals are present in your water supply. If you are located in the shaded areas of the map below, then it is likely that you could use a water softening system.

#### When do I need to replace my cartridge?

Cartridge Replacement	Incoming Water Hardness			
Chart	10 gpg	15 gpg	20 gpg	25 gpg
onar.	(171 ppm)	(256 ppm)	(342 ppm)	(427 ppm)
Number of 3 Gallon Brews	145	97	73	58
