DIRECTIONS FOR USING THE MP3 PLAYER IN THE E815

With the purchase of optional music accessories (USB reader and TransFlash™ Card), turn your E815 into a music phone.

HOW TO COPY MUSIC FROM COMPUTER ONTO TRANS FLASH CARD USING USB READER

- Plug cable into computer's USB port
- Connect USB Data Reader to cable
- Insert Trans Flash card into Trans Flash adapter
- Insert Trans Flash adapter into USB reader
- Open folder where music files are stored
- Right click on music file(s) to be copied and select copy to CD or device

-Windows media player will start up and songs will be uploaded into windows media player*

- Under items on device, click on arrow and select removable disk
- Select option that says Motorola
- Put a check in the box beside songs you wish to copy
- Once songs have been selected, click on copy
- USB reader will flash rapidly and it will show songs copying on the computer
- Once copying is complete, remove trans flash card and insert into phone *(the phone should be powered-down when inserting the TF card)*
- Songs copied onto the Trans Flash card are now ready to play on your E815

HOW TO PLAY MP3'S ON YOUR E815

- Press the menu key
- Select the "Media Gallery" icon
- Select "Sounds" from the media gallery main page
- List of available music files will display (Press the menu key and select switch storage device to ensure that files from Trans Flash card are being displayed) *(note that MP3's can now be played from the phone as well, if they have been moved or copied there)*
- Scroll to the song you wish to play and then select "play" on the right soft key
- Music will commence playing
- To hide Music player, select "hide" with right soft key
- You can shuffle through songs by pressing the right or left navigation keys
- To discontinue playing song press the red end call button
- To stop (pause) playing, press the "down" navigation key.
- To continue playing, press the "up" navigation key.

HOW TO CREATE A PLAYLIST

- Scroll to New Playlist option and press select
- With name selected press change to add a name for your playlist
- Select Audio files and press change
- List of music will display. Select check for each of the songs to be added to your playlist
- Select done when finished adding songs
- To store playlist information press done
- Playlist information is now stored in phone and will appear in your list of songs
- To play songs from your playlist, simply select it from your list and press play.
