

SMART GETS SOCIAL.

Welcome

MOTOROLA DEXT with MOTOBLUR syncs contacts, posts, feeds, messages, email, photos, and much more—from sources like Facebook™, Twitter, MySpace, Gmail™, Yahoo, your work email, Picasa™, Photobucket™, and LastFM—and serves them up just the way you want them.

Your phone

Most of what you need is in the touchscreen and three simple keys on the front:

- **Home:** Go to the home screen.
- **Menu:** Open menu options.
- **Back:** Go back one screen.

If you want a full keyboard (good for texting, or searching in your **Contacts** list), just turn and slide—the screen spins to stay right-side up.

Let's go

Let's get you up and running.

Tip: Your phone comes with a microSD memory card already installed. It's right next to your SIM card.

Caution: Before assembling, charging or using your phone for the first time, please read the important **Safety, Regulatory & Legal** information provided with your phone.

You'll need to create or log into a **MOTOBLUR account**.

Use an existing email account (this becomes your MOTOBLUR ID, and receives account information) and a memorable password. Registration is secure, and should only take a few minutes.

Note: This phone supports data-intensive apps and services. It is strongly recommended that you purchase a data plan that meets your needs. Contact your service provider for details.

Touch

It's all in the touch:

Go ahead, add your personal touch.
