## Basic Masterkeying Course on CD

#BMKC-CD1 – \$59.95

The Basic Masterkeying Course is designed for the Locksmith who wishes to become proficient in Basic Masterkeying. Includes 13 step-by-step lessons, 12 self quizzes

## Car Book on CD

#CB-05 – \$99.00 • #NLAA (with Membership) – \$24.95

This CD contains over 2,300 pages of automotive locksmith service.

A multitude of articles give you complete service procedures for a wide variety of cars. Techniques covered include code locations, lock and column disassembly, lockouts, and much more. Hundreds of huge photos show you how to service domestic, foreign, and even high security vehicles with ease. All known key blanks are given, as are all details you would need to work on the vehicle.

An easy index allows you to instantly locate the car you need, and one click transports you to the correct page. Read the data onscreen, or even print it out if you choose. The Car Book covers loads of specific vehicles with thousands of photos. For an additional \$24.95, receive a 1 year membership to the NLAA. See page XX of this catalog for more information. Note that NLAA members will already have received these materials. Also available in print format. See the Automotive Service Section.

## How To Pick Locks on CD

#HT-PLX1 – \$69.95

## How To Pick Locks Deluxe on CD

#HT-PLX1-NDPK – \$109.95

Includes both software and pick set. Software available on CD only.

Lock picking tools and how to use them can be mysterious to locksmith students, and newer locksmith employees. How To Pick Locks solves that problem by teaching authorized personnel the quickest and easiest way to pick locks, and how to use various kinds of picks.

Thus, you'll be better able to serve your customers during lockout situations by opening:

- House locks
- Store locks
- Some auto locks
- Filing cabinet locks
- Tool chest locks and more.

This software shows you every step of lock picking in clear and simple detail. Live Action Learning Software is an interactive guide on CD-ROM for your PC or Macintosh computers. This guide is loaded with informative audio, video, animation, photography and illustrations.

Move at your own pace through screens that come alive with sound and video. Don't just READ about how to do the skill.

Actually SEE it done and demonstrated for you! Each of these elements teach you in a clean and concise way how to learn a particular skill. Using Live Action Learning Software, you move at your own pace through the material which makes it perfect to help locksmith students and employees to upgrade their skills. You can even print out a written copy of the text from this CD to use as a handy practice guide.

How To Pick Locks: Pick set not included. Software available on CD only.

How To Pick Locks Deluxe: Included with the software is the Deluxe Pick Set. It comes complete with every tool you need to pick most normal cylinders. Included are ten different kinds of picks, four tension tools, and two broken key extractors. The lock picks are made of hardened spring steel components. The case is genuine leather with full zipper. With both learning software and tool set, you'll have everything you need to learn and perform the art of skilled lock picking.

Windows® System Requirements: 486 or Pentium® processor-based computer (Intel Pentium or compatible processor recommended), Windows® 95, 98, or Windows® NT 4.0 with Service Pack 3 or later, CD ROM drive, 16 MB of RAM, 12 MB of available hard-disk space for Acrobat® Reader, Sound Blaster or compatible sound card and speakers recommended. Mac OS Requirements: Power Macintosh computer, Apple System Software version 7.6.1 or later with open transport, CD ROM drive, 16 MB of available RAM, 8 MB of available hard-disk space for Acrobat® Reader.

The Live Action Learning Series can be viewed from your hard disk or from the CD. If you load it on your hard disk you will need 100 MB of available hard disk space.

## How To Pick Tubular Locks on CD

#HT-PTL1 – \$69.95

## How To Pick Tubular Locks Deluxe on CD

#HT-PPTL-TLPC – \$149.95

Includes both software and tubular lock pick. Software available on CD only.

Lock picking tools and how to use them can be mysterious to locksmith students, and newer locksmith employees.

Lock picking tools and how to use them can be mysterious to locksmith students, and newer locksmith employees. How To Pick Tubular Locks solves that problem by teaching authorized personnel the quickest and easiest way to pick tubular locks, most commonly found on vending machines and on other items requiring security. This software shows how to use the most common kind of tubular lock pick. Thus, you'll be better able to serve your customers during lockout situations by opening:

- Vending machines
- Coin operated washers
- Coin operated driers
- Coin operated video games and more.

This software shows you every step of tubular lock picking in clear and simple detail. Live Action Learning Software is an interactive guide on CD-ROM for your PC or Macintosh computers. This guide is loaded with informative audio, video, animation, photography and illustrations.

Move at your own pace through screens that come alive with sound and video. Don't just READ about how to do the skill. Actually SEE it done and demonstrated for you! ## Cards & Keys on CD

#CK-1 – \$149.00

Cards & Keys performs two functions:

- Key Blank number cross referencing
- Code card production

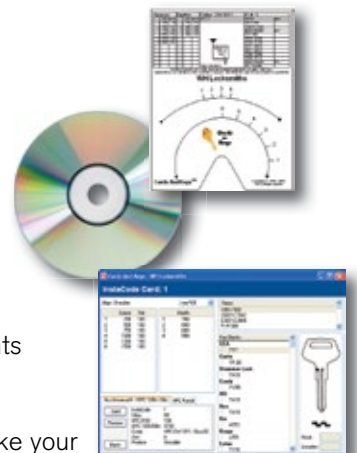

The first section of the program features a highly comprehensive database of key-blank reference numbers from 34 different manufacturers, 70,000 keys all cross indexed. This section of the program allows you to enter a key-blank reference number from a particular manufacturer and have this instantly converted to be the reference number of the brand of key-blank you use.

This information includes:

- Card number
- Space and Depth measurements in Metric or Imperial
- Code series information (where applicable)
- Cutter number
- Key blank number
- Graphical representation of the key position in the jaw (allows easy positioning, and prevents mistakes)
- Space and depth reference marks for needles.

The program comes pre-loaded with well over 700 cards, and also includes the ability to make your own cards should you require.

System Requirements: The minimum computer hardware requirements are a Pentium CPU, 32MB of RAM and 50MB of available hard drive space, mouse or other pointing device and Windows 95, 98, ME, NT, XP or 2000. A Windows supported printer is optional.

## How To Open Cars on CD

#HT-MCO1 – \$69.95

## How To Open Cars Deluxe on CD

#HT-MCO1-AKK-55 – \$114.95

Includes both software and Deluxe Car Opening Tool Kit. Software available on CD only.

## How To Open Cars Super Deluxe on CD

#HT-MCO1-AKK-66 – \$209.95

Includes both software and Super Deluxe Car Opening Tool Kit. Software available on CD only.

One of the most important locksmith skills is helping customers with auto lock outs. For this skill, you need to open the locked car, quickly, professionally and without damage. There are 13 different methods that you can use to open a locked vehicle. Which method works best will vary from vehicle to vehicle, depending on the design of the particular locking system you need to defeat. Arm yourself with the best information possible by learning every known method to open locked cars!

This software shows you every step of car opening in clear and simple detail. Once you use the software, you will have the practical knowledge and information you need in order to open literally hundreds of different vehicles. Live Action Learning Software is an interactive guide on CD-ROM for your PC or Macintosh computers. This guide is loaded with informative audio, video, animation, photography and illustrations.

Move at your own pace through screens that come alive with sound and video. Don't just READ about how to do the skill. Actually SEE it done and demonstrated for you! Each of these elements teach you in a clean and concise way how to learn a particular skill. Using Live Action Learning Software, you move at your own pace through the material which makes it perfect to help locksmith students and employees to upgrade their skills. You can even print out a written copy of the text from this CD to use as a handy practice guide.

How To Open Cars: Car opening tool set not included. Software available on CD only.

How To Open Cars Deluxe: Shown here is the Deluxe Car Opening Tool Kit which, along with the skills you'll learn from the software, allows you to open a wide variety of foreign and domestic vehicles. (To open an even larger variety of vehicles see the Super Deluxe version.)

The Deluxe Car Opening Tool Kit (included) can be used to open certain model vehicles made by the following manufacturers: Alfa Romeo, Chevy, Chrysler, Daihatsu, Dodge, Eagle, Ford, Geo, General Motors, GMC, Honda, Hyundai, Infiniti, Isuzu, Lexus, Lincoln, Mazda, Mercedes, Mercury, Mitsubishi, Nissan, Oldsmobile, Opel, Plymouth, Porsche, Renault, Rover, SAAB, Sterling, Subaru, Suzuki, Toyota, Volkswagen, and more. ## Key Companion on CD

**#KC-1 – \$99.00**

“What is that key-blank?”

How often have you wasted time trying to work out a comparison from an old or obsolete key-blank? With Key Companion, you can chase up key comparisons in a snap! And also you can just identify a key if you are not sure, as a visual, then Key Companion will make the comparison for you against that selection.

This easy to use program has been designed for any key cutting operation, and allows you to compare key-blank reference numbers from 34 manufacturers in a matter of seconds. It's ideal for locksmiths, key cutters, hardware stores and shoe repairers. It's economical, easy to install and works with all versions of Microsoft Windows.

Best of all, the program includes not only 70,000 key-blank cross references, but a picture of the blank and profiles as well so you can make sure your search has produced the correct result!

System Requirements: The minimum computer hardware requirements are a Pentium CPU, 32MB of RAM and 50MB of available hard drive space, mouse or other pointing device and Windows 95, 98, ME, NT, XP or 2000. A Windows supported printer is optional.

## Key Manager on CD

**#KM-SU – \$200.00 (Single User License)**

**#KM-MU – \$700.00 (Multi User/Networkable)**

**#KM-AU – \$55.00 (Additional Users for Multi User Version)**

Key Manager is a stand alone or locksmith supported software package for the end user with a three user license. Profit minded locksmiths will re-sell this package to institutions and end users who can benefit from Key Management.

The program is ideal for use by: Schools • Manufacturing Companies • Real Estate Agents • Local Councils • Corporations • Hospitals • Sports Clubs • Utility Companies (such as power, water, gas, phone companies etc.).

Features: Easily manage key issues and returns • Control overdue keys • Print detailed reports of the who, what, where and when of keys, doors and key-holders • Easy to install, configure and use • Multi-user

- Full history reporting • Comprehensive step-by-step instructions • Unlimited master-key system size
- Locksmith supported systems • Stand alone systems.

Designed both as a complimentary product for ProMaster and also as a stand alone product, this is a premium quality program, developed in accordance with industry standards and requirements for this type of software. It features the latest in programming and development technology which provides ease of use and program reliability and stability. ProMaster Key Manager solves this problem by providing a comprehensive key management mechanism for all keys within the organization – both those that belong to a master key system and those that are separate such as vehicle keys.

The other unique feature with the ProMaster Key Manager is that it allows for management of multiple systems, and even multiple sites from the one location. Better still, it allows the locksmith to 'export' all relevant system details from ProMaster into the ProMaster Key Manager, thereby providing a highly professional service which is extremely convenient for the client.

The program is supplied on CD, and includes highly comprehensive instructions, which will allow almost anyone to become totally familiar with the program in only a few hours.

## How To Jumpstart Your Locksmith Business or Ten Ways To Increase Your Shekel Intake on CD

**#JUMPSTART – \$19.95**

Anyone who's ever read anything that Jake Jakubowski has written is familiar with his style... A little bit of humor, a little bit of "down home" wisdom and a whole lot of chutzpah. This book is just as witty, wry and pointed as everything else he had written. There's something on this CD for the newbie, the seasoned 'smith and the person that's dreaming of the day when they can go out on their own. Jake's advice on money making, building your business and customer relations is timeless.

Available on CD only.

## The 15 Minute Safe Opening Technique on CD

**#JJ-CD1 – \$99.00**

This book deals exclusively with round head lift out doors. Shows five ways to open a Major; three ways to find the Dog Pin on a Major; four ways to open a Star; four ways to open a LaGard style round head. Also covered are: Bolt shear, side punching, drilling false gates, finding Dog Pins, 'blowing bolts' and drilling perfect scope holes; How to make emergency dials; How to open most round heads in fifteen minutes or less; Open the most severely vandalized heads in a matter of minutes; How to bypass hardplate and relockers on lift-out doors; How to spindle drill older Majors; How to 'Blow the bolts' on a LaGard and many LaGard style round heads.

Over 100 specific photographs. Fifty clear illustrations. Dozens of specific drill points and a specific drill point locator, over 140 pages. Included are drill points for Diebold, Migh-T-Safe, Kingdom, Sentry, In-A-Floor and other round heads. Page after page, picture after picture, illustration after illustration—all designed to help you make money.

Also available in print format. See the Safe Opening Section.

Required for better performance: • 600 MHz processor or greater • Windows 98/ME/2000/XP • 100MB hard disk space • 64MB RAM • CD Drive • Mouse pointing device.

## The National Locksmith Guide To Electronic Locksmithing

**#EL-1 – \$39.95**

Everyone knows there's big money in selling, installing and servicing electronic security such as mag locks, electronic strikes, and simple access control.

But how can you learn all the skills needed to make the profits?

This book starts with the all the basics that every locksmith needs to know about electricity, and teaches you every step of the way. You'll learn everything from closed circuit TV, simple access control, wireless security, and electronic locks.

## Basic Electricity by Richard Allen Dickey

**#RD-BE-1 – \$29.95**

If you are interested in how basic electricity will affect you in the Locksmith Industry, this book is for you. Inside you will find... • Basic AC & DC electricity • Voltage, current, resistance & impedance • Series & parallel circuits

• Mystery of wire • How to use a multimeter • Static electricity.

If you have no idea of how electricity works, you will after reading this book. If you already have an understanding of the basics, this book will teach you more. Electricity is in the Locksmith Industry and it is here to stay. Don't be afraid, be amazed with what you can do.

## Certification Program

Welcome to **The National Locksmith Certification program**. This testing certification program consists of multiple specific test topics that you can choose at random. Each test contains 50 multiple choice questions of which 40 correct answers are needed for a passing score. Each completed and passed test is designated with a certificate of completion. For every five tests completed and passed, a framable certificate with accomplished letter designation is received.

For example:

**TNL-CL** – Certified Locksmith designation after a total of 5 tests are passed.

**TNL-CLA** – Certified Locksmith Advanced designation after a total of 10 tests are passed.

**TNL-CLM** – Certified Locksmith Master designation after a total of 15 tests are passed.

**TNL-CLM II** – Certified Locksmith Master II designation after a total of 20 tests are passed.

Tests are available online electronically - An email will be sent to you within 72 hours with a link to take the test.

**Cost per test is \$35.00 for Subscribers to TNL and their Bonded Employees. Non subscriber pricing per test is \$75.00.**

## The Ultimate Technitips Collection

#TIPS-2 – \$39.95

Here's one of the most useful books ever available to the locksmith!

Three hundred pages filled with tips and tricks from veteran locksmiths. You'll learn all the secrets other locksmiths use to save time and make extra money on the job. You're GUARANTEED to make back the cost of this book in no time flat.

Categories of tips include: Car Opening, Domestic and Foreign Auto Service, General Automotive, Making & Modifying Locksmith Tools, Padlock Tips, Mortise Lock Tips, Lockout Tips, Door Control, Safe Procedures, Picking & Impressioning, Modifying Key Machines and much, much more.

The Ultimate Technitips Collection is worth its weight in gold! In this one volume, you'll have the tricks and secret methods developed over many years by HUNDREDS of locksmiths. Order your copy today.

## Service With A Smile by Sara Probasco

#SWS – \$14.95

To tickle the funnybone of anyone in a service oriented business.

Service With A Smile accounts the humorous escapades of Don and Sara Probasco. You've been entertained by Sara's monthly column, now you can have an entire collection of her finest tales.

## Antique Padlocks by Jack Roberts

#PAD-1 – \$29.95

Finally there is a book to give you all the information you need about old interesting locks.

Our manual shows you a photo of the lock and gives you data on the manufacturer, age, construction materials, and even the value of the padlock! Plus, we tell you how to make an operating key, as well as information on which blanks to use, etc. A "Notes" section gives a history of the lock as well as any technical information needed to help you make a working key. Hundreds of types of locks are covered including iron, steel and brass padlocks.

## Flat Rate Manual by Janice Pate

#FRM-1 – \$34.95

Now you can easily "Price for Profit!"

Chapters allow you to price jobs in all these categories: Domestic and foreign autos, code keys, conversions, duplicate keys, first key or rekey, installations, key-in-knob locksets, lockouts, masterkey systems, miscellaneous, safe and vault work and trip charges.

## Aluminum Stile Door Service & Repair on CD by Jake Jakubowski

#JJ-ASB-1 – \$149.00 (only available on CD)

- In Aluminum Stile Door Service and Repair I endeavored to take the mystery out of aluminum stile door service, repair, replacement and refurbishment.
- I outlined easy ways to replace a pivot, a lock or a concealed vertical rod. I show how to diagnose, repair, adjust or replace an overhead concealed closer or Rixson floor check.
- In this book, you can: Learn the difference between a "stile" and a "style". Replace a surface mounted closer or deactivate a pivot with equal ease. Adjust a malfunctioning Jackson CVR or electrify a lock. Learn how to "take down a door" or replace a frame or add a mullion, or install a magnetic lock.
- In 423 pages, with 758 photographs and illustrations, I show you how to make some really swinging profits by installing hinges, butts, closers, floor checks, over head concealed closers, panic hardware, locks, latches, dust-proof strikes, new doors, frames and electronic access control.
- Photograph-after-photograph, illustration-after-illustration and chapter-after-chapter makes, I believe, Aluminum Stile Door Service and Repair the book to have.

## 15 Minute Simplex Install & Other Neat Stuff on CD

by Jake Jakubowski

**#JAKE15SIMPLEX – \$69.00 (only available on CD)**

The 15 Minute Simplex Install and Other Neat Stuff shows you how to quickly put a Kaba/Ilco installation behind you. Jakes draws on his own experience from the time he first saw his first Simplex 1000 to his installation of Kaba/Ilco's 3100! Like his other books and articles, this one is loaded with photographs, illustrations, tips, tricks and short-cuts to help the beginner and the seasoned 'smith save time, make money and have a little fun doing it! If you've ever mumbled in frustration while working on one of these locks – this is the book you won't want to miss.

## Wafer Lock Reading by Robert Sieveking

**#WLR-1 – \$19.95**

- Easy to learn. • No Codes needed.
- Faster and safer than impressing. • Easy to learn principles will have you reading locks fast. • Make keys for foreign auto without codes, disassembly or impression. • Reading wafer locks is one of the special skills every locksmith should master.

## Revised GM Steering Column Course

by Thomas A. Mazzone & Tom Seroogy

**#GM-2 – \$115.00**

Here's what the course contains... • Comes complete with take-home test so you can become certified on GM steering column service! • Authoritative training on every domestic GM column from 1967 to 1995. • Includes the collapsing GM steering shaft, avoid the \$165 GM 10-cut mistake, A to Z airbags, square columns made easy, Alpha Tech Service without fear, the truth about VATS variable timing and more. • Written and photographed by 24 year GM Master Technician, Tom Mazzone, and 10 year Auto Locksmith Expert, Tom Seroogy. • In-depth information drawn from actual field experience. • Large clear photos highlight commonly found problem areas and take you step by step for clear, easy and concise service procedures. • Dangers & Warning section alerts you to costly and time consuming problems before you start. • A tool guide shows exactly what tools are necessary for servicing each column. • Written using the same strict GM service guidelines used for training GM technicians.

Includes the update free!

## Foreign & Domestic Auto Service by Michael Hyde

**#FDAS-1 – \$69.95**

This book represents the best work of Automotive Locksmithing guru Michael Hyde, author of the famous AutoSmart.

In this 300+ page collection, you get assembled in one place, the best articles and automotive procedures ever produced. Hundreds of photos lead you through step-by-step locksmith service on the most challenging cars on the road. All the cars covered are recent models. In this one book, you have every detail you need to know, including excellent photos, about common and difficult to service cars. This book will save you hours of time, and help you make big profits.

## Sieveking Auto Key Guide & Illustrated Cross Reference by Robert Sieveking

**#AK-1 – \$27.00**

The Sieveking Auto Key Guide lists over 2,600 automotive and motorcycle keyways, covering makes from Acura to Zundapp, and listing fourteen popular key manufacturer numbers.

Every listing has clear illustration of the keyway. This allows the locksmith to compare the "key-in-hand" to the listed number. If the key blank number is not known, the "Maker" section of The Sieveking Auto Key Guide will allow the locksmith to search through all the listed keyways for a particular auto maker "by the illustration of the keyway". When the correct keyway is found, you will also find all the manufacturers numbers for that keyway. The keyways are also identified as pin or wafer, and the number of pins or wafers given. Whether the illustrated key is 6 wafer or 8 wafer, 5 pin or 10 wafer, you'll know at a glance.

## **AutoSmart Books Foreign & Domestic by Michael Hyde**

**#MH-ASB (Set-Foreign & Domestic) – \$149.00**

• Now over 1400 pages of the best Auto Info.

NEW for 2012:

- The latest transponder key application information with the most proximity information out there.
- This year we continue our books are in full color.
- New Transponder Cloning section with all the major players like AD900Pro, Bianchi, ILCO, JET Hardware, JMA, Strattec, & ZedBull.
- When it comes to originating keys to automobiles, there just isn't anything like AutoSmart!
- Easy-to-read and Easy-to-use as always.
- From Keyblanks to Code Locations, to Tumbler Charts, to Progression Charts, to Making First Key, any locksmith whether a veteran or a beginner needs this book on a daily basis.
- It would be too difficult to try and remember every tidbit about every car, when you could just reach for the AUTOSMART!
- When the customer is on the phone, why guess on what it will take to get keys made to their car, when you can have this information at your fingertips and be able to quote the job correctly.
- Also, you will know the latest techniques for "Making First Key" to almost all cars and trucks.
- The latest Ford, Chrysler & G.M. info on key blanks, tumbler placements and part numbers.
- The latest Nissan, Mazda & Toyota info on key blanks, tumbler placements and part numbers.
- The latest on cars with Transponders and which ones you can do yourself.
- The most accurate and complete reference information on all cars & trucks.
- The most detailed FIRST KEY information on High Security cars found anywhere.
- The bottom line is if you are a locksmith and you do auto's this is the set of books you need. Knowledge is power and money - why go blind into a job when you don't have to?

## **Fast Facts by Robert Sieveking**

**#RS-FF-11 – \$99.00**

Written by a Locksmith for Locksmiths. Model index contain vehicles from 1965-2011.

New to the business or over 30 years experience, you cannot afford to be without Fast Facts™. No batteries required. Faster, Simpler and Easier to use than any other computer program. Fast Facts™ is a "must have" item for motorcycle work. Whether you are simply duplicating keys or making first keys for auto or motorcycles, the Fast Facts™ encyclopedia index of auto and motorcycle keys will make your job faster and easier by eliminating wasted keys cut on the wrong blank.

There are 179 motorcycle key plates, 526 auto key plates and many new transponder Facts. The model index lists over 3300 autos and 1400 motorcycles. The exclusive lay-flat plastic spiral bound desk size adds to the ultimate convenience.

## **Japanese High Security Auto Servicing by Michael Hyde**

## GM Sidebar Lock Decoder System by Tom Thill

#TT-1 – \$99.95

Tom Thill, the author of a new book, has invented an amazing new way to make keys for six cut GM Sidebar Locks.

The book describes a method which allows you to use a set of specially cut keys in the ignition. By turning the keys in the lock, one will become trapped. The key will only be removed when you release the turning pressure. Then you use a second set of keys until the second key traps.

Each key is specially coded. In just a few minutes you will have identified the two keys which trapped in the lock. Simply look on the provided chart until you find the section that lists the two specific keys which trapped for you. Right there on the chart, you will be given several codes. One of those codes is the correct one for the key. In many instances you will be given only one code, which will be the exact one for the lock. His new system will save a great deal of time and trouble in those instances. The average time it takes to decode the lock with his new system is about 10 minutes, and sometimes faster.

The book includes full details of all the methods, and all the charts needed to insure that you may never have to tear down a GM column again and complete instructions and specifications which enable you to cut 130 of your own keyblanks using the precise specifications needed. Do not confuse this decoder method with tryout keys. You are not creating tryout keys. You are creating carefully specified keys which exploit the sidebar lock to decode it by trapping a wafer. Then, knowing which two keys become trapped using the system, we give you the correct code for the lock.

## Advanced Wafer Lock Reading by Robert Sieveking

**#RS-WLR-2 – \$39.95**

- Reading Wafer Locks is not a new concept or difficult skill to acquire. It is one of the basic locksmith skills that will find daily use in any shop.
- It is a preferred key making method for T-Handle, L-Handle, cam and desk lock cylinders. Foreign and Domestic automotive cylinders and motorcycle cylinders offer little more challenge than desk cylinders, if you know the secrets.
- Wafer Locks are a pleasure when you know how to read them. This book offers the most complete reference on wafer lock reading to be found anywhere. Lock construction, Simple tools and The Proven Method are completely explained.
- Written for locksmiths, by a working locksmith. • Over 200 crystal clear photos and illustrations amplify the text, to make you the expert. • Over 235 pages of examples and specific locksmith instruction lead you to complete mastery of the wafer lock cylinder. • Covers many common desk and cabinet locks, Ford 10-wafer, Ford 8-wafer, GM 10-wafer (75 GRV), GM 10-wafer (93 GRV), Chrysler 7-wafer (Y154), Chrysler 7-wafer (Y157), Chrysler 8-wafer (Y-159) and motorcycles. • It is a self-study course and a reference manual. • Advanced Wafer Lock Reading is the book every locksmith needs. Advanced Wafer Lock Reading saves time and effort, and increases your "earning potential!"

## Tubular Lock Service by Robert Sieveking

**#RS-TL-1 – \$39.95**

Tubular Lock Service is indispensable!

This book contains complete step by step service and disassembly methods on nearly all current tubular locks along with key making tips, picking tools, methods and bypass procedures. This book will make you the expert. Written by an experienced locksmith, it will give you the background and experience based tips necessary to begin any tubular lock job with confidence and finish it with satisfaction.

Hundreds of Photos and Illustrations show the lock cylinder configurations, tables of information and decoding methods not found in any other resource. The book covers many types of Tubular Lock Picks and bypass tools, along with actual photos and instruction on the proper use of the tools. Secret locksmith techniques are covered in complete detail for determining the unknown combinations for ACE Change-Matic and Fort Gem- Matic cylinder.

What makes the ACE II cylinder harder to pick than other cylinders? What unique principles were used to make the Fort APEX cylinders so pick resistant?

All of these secrets and more will be revealed in The National Locksmith Guide to: TUBULAR LOCK SERVICE Tubular Lock Service. It is a must have reference

## Door Lock Encyclopedia by Robert Sieveking

**#DLE – \$39.95**

The ability to remove a lock from a door, disassemble the mechanism, and remove the lock cylinder for service is not always a simple straightforward task.

The Door Lock Encyclopedia is a clear and concise illustrated service manual illustrating service instructions for standard cylindrical locksets including American Eagle, Arrow, Corbin, Dexter, Harlock, Kwikset, Lori, Master, National Lock/Amerock, Sargent, Schlage, Weiser and Yale. It will equip you with specific knowledge and a few tricks to make servicing understandable, easy to master and profitable.

## Motorcycle Lock Service by Shirl Schamp

**#MLS-1 – \$14.95**

This book contains full details on everything the locksmith needs to know about motorcycle locks. It is recommended study material for those who want to test their knowledge.

## Pen Parties on DVD by Dave McOmie

**#DM-PEN-DVD – \$59.95**

The Pen Parties is Dave's new 110 minute DVD.

It shows you live action of safe opening and trouble shooting at its finest in cities all over America. Years in the making, Dave travels to Chicago, Phoenix, Seattle and Toledo opening dozens of locked and damaged safes. See what is inside and outside of these containers. Our tiny cameras even take you right down the hole into the wheel pack! Sections on trouble shooting, dial pulling, hardplate drilling, defeat methods and tools round out this amazing film. The production is top notch. This is not your amateur safe video. Plus see the Bloopers Reel. It's a scream when Safe Techs Go Wild!

Here's a note from Dave on the concept of the movie...

We focus on techniques which are universally applicable. For example, there is a section on Seven Defeat Methods, which cover virtually all safes using mechanical locks. In truth, in any given year, I use maybe five of the seven on all the safes that I open. That is the beauty of taking a conceptual approach to safecracking. The trick is choosing the right method for the right safe.

## The 15 Minute Safe Opening Technique

**#JJ-1 – \$99.00**

This book deals exclusively with round head lift out doors. Shows five ways to open a Major; three ways to find the Dog Pin on a Major; four ways to open a Star; four ways to open a LaGard style round head. Also covered are: Bolt shear, side punching, drilling false gates, finding Dog Pins, 'blowing bolts' and drilling perfect scope holes; How to make emergency dials; How to open most round heads in fifteen minutes or less; Open the most severely vandalized heads in a matter of minutes; How to bypass hardplate and relockers on lift-out doors; How to spindle drill older Majors; How to 'Blow the bolts' on a LaGard and many LaGard style round heads.

Over 100 specific photographs. Fifty clear illustrations. Dozens of specific drill points and a specific drill point locator, over 140 pages. Included are drill points for Diebold, Migh-T-Safe, Kingdom, Sentry, In-A-Floor and other round heads. Page after page, picture after picture, illustration after illustration—all designed to help you make money. Also available on CD. See the Software Section.

## Bread & Butter by Dave McOmie

**#BB-01 – \$85.00**

Now here is one amazing value!

This book runs well over 300 pages and is bursting with photographs, drill points, relocker drill point and opening details for dozens of the most popular safes in the industry. Not only do you get all the opening specs and measurements, you also get a very complete rundown on opening procedures. This book actually walks you through every opening from the first step until the door swings open!

Included among many other safes are: Hamilton Square Door, Knight TL-15, Electronic Safe Locks, Pacific Security Products, Diebold, Mosler, LaGard, GSA, Side and Bottom Drilling, York, Kumihara, Sentry, and more. You'll find this very hefty book to be an indispensable aid when you have a safe to open. While this thick, monster book may be heavy to carry, it won't break your bank at only \$85!

## More Bread & Butter by Dave McOmie

**#BB-02 – \$85.00**

Another great value!

This book runs over 200 pages.

If you own Bread and Butter, you have to have More Bread and Butter. Still more photographs drill points, relocker drill point and opening details for dozens of the most popular safes in the industry. Not only do you get all the opening specs and measurements, you also get a very complete rundown on opening procedures. This book actually walks you through every opening from the first step until the door swings open!

Included in this edition are: Sentry, Gardall, Diebold ATM, Art Metal fire Safes, Wico, Diebold's CashGard, LaGard Locks, Bischoff, Mosler, HH, Gary, Kumihara, Securall, Schwab, Meilink, Fire Fyter, Star and a whole bunch more information. Make your collection complete.

## Safe Opening Volumes 1, 2, 5 by Dave McOmie

Package deals available on purchasing more than one volume!

any single Volume **\$110.00 each**

any two Volumes **\$90.00 each**

any three Volumes **\$80.00 each**

These are the classic safe books you will need to open most any safe easily and professionally. Each book contains detailed opening instructions for 200 very common safes, including 400 safe photos in each volume. You get exact drill points, drop-in points, relocker points, and more. Each safe is shown from the front for identification purposes. Then the safe is shown open with the back panel removed. You get a perfect view of the exposed boltworks, relockers and wheel pack. All measurements needed to open the safe are provided. Plus a service notes section tells you special tricks...like when to look out for hardplate! Virtually all brands are covered!

**Volume 2. #SO-2 (Modern Safes)** A & B Safe, Adesco, All-Steel, Amsec, Aanon, Armadillo, Armor, Brown, Centurion, Deluxe, Diebold, Diplomat, Gardall, Gardex, Gary, Guardian, Guardsman, Hermann, Herring Hall Marvin, Horizon, H.P., In-A-Floor, Intersec, Johnson-Pacific, Major, McGunn, Meilink, Migh-T-Safe, Mosler, Murphy, Mutual, Pacific, Pacific Security Products, Safeguard, Schwab, Sentinel, Shaw-Walker, Stewart, U.S. Security, York.

**Volume 5. #SO-5 (Very Recent Safes)** Aanon, Adesco, Amsec, Armor, Brown, Hamilton, In-A-Floor, Keepsafe, Kingdom, Lord, LSDA, McGunn, Meilink, National, National Security, New England, NKL, Pacific Security Products, Sanlic, Schwab, Sears, Sentry, USCAN, U.S.

## Penetration Party by Dave McOmie

#PP-1 – \$110.00

Uncensored! • The Safes! • The Tools! • The Action! • The Perfect Openings!  
• The Bloopers and Blunders! • The Slick Tricks!

No one knows safes and safecracking like Dave McOmie. When it comes to drill points, he is the master of all masters. This book takes you inside Dave's mind, and allows you to follow his thought process as he analyzes each opening. Dave gives you his thoughts on the best opening method, then the opening is performed. And then Dave honestly appraises each method and offers improvements where he feels his original methods were less than perfect.

## Modern Safe Opening by Robert G. Sieveking

#MSO-1 – \$59.95

This book is a step-by-step How-To course in safe penetration. Opening safes is one of the most profitable aspects of the locksmithing business. Now, with Modern Safe Opening you'll learn: the theory of operation through troubleshooting and combination changing to logical penetration site selection and methods. Nearly all possible drill points are defined and illustrated by original photos and accurate drawings. Drill and transfer, drill for the drop, drill for the fence, drill for a relock trigger, or drill to solve a specific lock malfunction. Each method is defined, and you get step-by-step procedures. Back, side, top or face drill, under the dial or outside the dial. You'll learn it all!

## Dave McOmie on Vault Doors Vol. 1 – Bank Vaults

#BV-1 – \$110.00

Dave McOmie has done it again! Here is the definitive new book on Bank Vault opening made easy! These openings can be a nightmare, but not when you bring Dave McOmie along with you on the job. You get amazing photos and opening details as usual.

## Dave McOmie on Vault Doors Vol. 2 – Fire & Plate Vaults

#FPV-1 – \$110.00

Featuring Dave McOmie's extraordinary level of detail, opening techniques, and clear photographs, this new volume makes Fire & Plate Vaults easy to open. Your investment in this book will pay for itself many times over in saved headaches and time.

## Gun Safes by Dave McOmie

**#GS-1 – \$110.00**

Need a drill point or relocker drill point on a gun safe?

Then this is THE book for you, with superb photos and precise information on gun safes made by Amsec, Blue Star, Browning, Cannon, Centurion, Cobalt, Fort Knox, Frontier, Gardall, Gold Coast, Goldfield, Granite, Hall's, Kodiak, Liberty, Treadlok, ValueLok, Winchester and Zanotti. PLUS, Dave has included an invaluable section on how to defeat the most popular locks currently on the market, both mechanical and electronic. Mechanical locks include: Ilco P67; LaGard 3330; S&G 6730. Electronic locks include: Amsec KPL-100, KPL-2000, ESL-10; LaGard Swingbolt, Old-Style 33E, New-Style 33E, S&G 6120. This is the first book in a brand new series, in which each volume will be dedicated to a particular type of safe. This book is on gun safes. The next one will be on vault doors. The one after that will be on GSA containers. And so on. That way, when you have a particular type of container to open, you can pull down one book...instead of searching page by page through a dozen.

## 10 Years of Dave McOmie

**#DM-10 – \$199.95**

Every single National Locksmith article by Dave McOmie from August 1986 through August 1996 under one cover!

- This book has a magnificent and durable casebound hard cover!
- Over 500 high-gloss pages—our biggest safe book ever!
- Each page is numbered and labeled by month and year for easy reference.
- Dave has written an extensive Index, which categorizes each safe by manufacturer and type, and lists the corresponding page numbers and month/year. This is an indispensable aid to the technician who needs to locate information NOW!
- Dave has re-read each article and groaned a few times due to inaccurate or incomplete information. Where appropriate he has written Retrospective Comments at the end of the articles. These are sometimes information-loaded, sometimes humorous, but always worthwhile.

## 10 More Years of Dave McOmie

**#DM-20 – \$199.95**

In this second installment – Every single National Locksmith article by Dave McOmie from September 1996 through September 2006.

This book contains 327 pages. The index categorizes each safe by manufacturer and type, and lists the corresponding month / year. This book contains extensive information on a wide variety of safe opening techniques and styles. A must have for any Safe Tech.

## Drilling Safes by Carl Cloud

**#DS-1 – \$95.00**

One of the most expert safemen in the country, Carl Cloud has written a very important book on safe opening.

One of the most critical parts of opening a safe is knowing where to drill the holes. But what's the best way to drill a safe? How do you drill hardplate? What am I looking at through the hole? What tools do I need? What do all these safe terms really mean? Exactly how do I defeat a relocker? This book answers all those questions and many more!

## The Best of Dale Libby

**#DALE – \$25.00**

This book includes the best articles written by Dale Libby over the course of many years, going back well over ten years! Now you can have this terrific collection of safe opening articles, automotive articles, and more.

These are the articles that started the safe opening revolution. Now you can have them all complete, under one cover! Order your copy today! • Sentry Hardplate Info! • 135 pages, tons of photos! • Contains over 50 chapters! • Learn from the master! • Covers safe troubleshooting.

## Safe Deposit Box Service by Robert G. Sieveking

**#SDBS-1 – \$39.95**

There is gold in safe deposit boxes!

Not just money stored inside them, but gold to be earned by opening and servicing these containers. But what should I look for? Where do I drill for the fence or gates? Can I refinish this door easily? Can I open this door without damaging the lock? Where can I find space and depth dimensions? I have a key, but why can't I retract the bolt? How do you make a drill pattern for these locks? I pulled the nose, now what do I do? There are a lot of questions, and Safe Deposit Box Service gives you all the answers! You'll learn the complete theory of the principles and operation of the lever lock, as well as the tools necessary to defeat them. You'll be able to open these locks with minimum damage to the lock and container. Original photos and accurate drawings on nearly every page lead you to quick and easy success when faced with lock boxes, safe deposit boxes and inner safe doors.

## Ask Dave by Dave McOmie

**#AD-1 – \$75.00**

You asked. He answered. This is safe and vault Q&A with an attitude.

The material has breadth and depth, covering vault doors, round doors, square doors, fire safes, antique safes, Grasshopper safes, Salamander safes, electronic safes, dial removal techniques, drilling methods, scopes, tools and just about anything else you ever wanted to know...but were afraid to ask. A great addition to any safe library, Ask Dave is destined to be a cult classic. Order yours today!

## High Security Safes Volume 1 by Dave McOmie

Included are many opening tips designed to make your life easier.

## Dave McOmie on Safe Locks

**#DMSL-1 – \$110.00**

Dave McOmie on Safe Locks is one of the most important books ever published on safes!

Almost 300 pages of information, photographs and illustrations give you every scrap of information about a huge variety of safe locks. You'll have lock specifications, x-ray drawings, tons of Dave's famous photos and measurements, and his opening recommendations on a vast number of common, high security, modern, antique and electronic safe locks.

Included are locks made by: Alpine, Baum, Bernardini, Center, Chubb, Detroit, Diebold, Eagle, Federal, Fortronics, Giant, Halls, HHM, Ilco, Jackson, Kromer, LaGard, Lowe & Fletcher, Mas-Hamilton, Mauer, Meilink, Mosler, Pittsburg, Reliable, Remington-Rand, Rosengrens, S&G, SLS, SMP, Steel Safe, Stuv, Sun, Tann, Triumph, Victor and Yale. Comprised of information from the massive McOmie Files, this book covers safe locks in stunning detail to make identification and opening faster than ever.

## Dave McOmie on Lift-Out Round Doors

**#LRD-1 – \$125.00**

This book contains 317 pages (not counting the lengthy introduction), 664 photographs, and more than 40,000 words of text. It covers just about every lift-out round door you will ever see, and a whole lot more (54 different manufacturers, to be precise). Included in the text are drill points, relocker drill points, depth to door bolts, door thickness, door diameter, and many, many tips and tricks.

## Dave McOmie on Hinged Round Doors Vol. 1

**#HRD-1 – \$125.00**

A massive Dave McOmie safe book is ready for delivery to you! Dave McOmie On Hinged Round Doors is over three hundred pages of action packed photos, opening tips, instructions, drill points and more on a huge list of hinged round doors. In this MONSTER SAFE BOOK, Dave shows you many ways to open any one of these really common safes...yep tons of McOmie tricks! And these safes are ALL OVER THE PLACE! Four color covers, with 300 inside pages, show hundreds and hundreds of photos of the doors and the guts. With the Dave book under your arm, opening these babies just got a LOT faster and easier.

Amazingly crisp photos show you what's under the covers, see the lock, wheels, fence, lever. Know exactly what's on the other side of that cover, and exactly where everything is before you even touch the safe! This might just be Dave's finest work EVER. Learn how to deal with dials, opening methods, scoping the change key hole, work through the scope, transferring and more.

Manufacturers covered include: Amsec/Star, Armor, Cary, Chicago, Chubb, Diebold, Dominion, Eastern, Florida, Gary and more...

## Dave McOmie on Hinged Round Doors Vol. 2

**#HRD-2 – \$150.00**

All types of hinged round door safes are covered: Combination-Operated Non-Lug, Key-Operated, Round Hoppers, Captain Wheel, Old and New Style Lug,, USPS/GSA and Mosler-Canada

Extensive section on lock and relocker drill points. Lengthy section on dealing with the various mosler dials. Provides details regarding the importance of the use of proper removal techniques for each style of dial. Section on dealing with bearing plates, when and how to remove them and why.

40 years in the field and 9 years to assemble - 506 Pages - Thumbnails table of Contents

## Diary of a Safeman by C. L. Corey

**#DIARY – \$25.00**

This book is a real gem... the private safe diary of old time safecracker C.L. Corey.

Back in the days of Al Capone the crooks were blowing safes with nitroglycerin and C.L. Corey was out servicing and repairing those old safes. The book features an introduction by Dave McOmie.

Mr. Corey not only kept notes on all of his jobs, he also carefully photographed every safe he worked on. Here in striking detail, we have reproduced this diary from the most exciting era in safe work, the early 1930's. You'll see all the great old safes from the past and you'll learn how to open and repair them. Many of these beauties are still in use today!

## Safe Opening Articles 1987 by Dave McOmie

**#SA-1 – \$19.95**

Now under one cover—all the informative safe opening articles by expert safeman, Dave McOmie.

This book contains articles reprinted from The National Locksmith issues, August 1986 through 1987.

Plus an all new introduction and new chapter on six-sided safes—not available anywhere else! Also features many enlarged photos for easy identification. This book is a must for all serious safemen!

## Safe Opening Articles by Dave McOmie

**#SA-2 – \$23.95**

Dave McOmie's original articles from when he first started writing for The National Locksmith are reprinted in this book.

The first five years or so of Dave's work is presented here so if you don't have issues from the early 80's you will not want to miss a single drill point. Each article contains very valuable information to anyone who ever works on safes.

## Modern Safe Locks by Mark Bates

## National Safeman's Organization (NSO)

To make big profits in safe work with no hassles...you need information!

Together, The National Locksmith and expert Dave McOmie operate the National Safeman's Organization (NSO). With over 1600 members globally, the NSO is the largest group of its kind in the world! Your NSO membership delivers to your door a wealth of information and instructions on how to change combinations, perform safe service and respond to lockouts. The NSO will help you build profits in this field. We'll give you the know-how you need!

Here's what you get when you join the NSO:

- One year membership in the NSO
- Membership certificate suitable for framing
- Photo ID card
- BIG discounts off Dave's safe manuals
- 48+ page quarterly newsletter, The National Safeman, packed with drill points and service procedures, to make openings a snap

### 1 Year Membership National Safemans Organization (NSO) USA

Item: NP-NSO-D-1 Price: \$125.00

### 2 Year Membership National Safemans Organization (NSO) USA

Item: NP-NSO-D-2 Price: \$250.00

Item: NP-NSO-F-2 Price: \$300.00

### AS AN ADDED BONUS WHEN YOU JOIN THE NSO...

Join for two years and choose any THREE of the books shown below FREE!

Join for one year and choose any one of the books shown below for FREE!

### TEN YEARS OF DAVE MC OMIE

Contains 120 articles, 509 pages. This is Dave's only hardcover book! Value \$199.95. (On this option only, a \$9.95 s/h fee applies due to the weight of this heavy hardcover book)

### ASK DAVE

Q & A with the Master. Value \$75

### GUN SAFES

Covers gun safes plus has a valuable section on opening both mechanical and electronic safe locks. Value \$110

### HIGH SECURITY SAFES VOLUME 1

Covers popular high security safe manufacturers, from Bernardini to Tann. Value \$175

### PENETRATION PARTY

Covers more than 50 extremely popular safes, and has virtue of being retrospective: Dave critiques his own opening methods, looking for ways to improve them. Value \$110

### SAFE OPENING VOLUME 2

Second installment of the classic books. Will not be reprinted when stock runs out. Value \$110

## The National Locksmith Monthly Magazine

Every month, we are out in the field dealing with the same headaches and profit opportunities as you. We pack along our cameras and note books. Then we show you how to get through every job quickly, making the maximum profit on every call, saving countless hours of head scratching. The "National," as generations of locksmiths have called us, is a monthly full color magazine that is going to make you more money every day. Our writers are all locksmiths. They are the best in the business.
