## INTERNATIONAL AUTOMOTIVE CONGRESS | ASEAN

**International Automotive Congress | ASEAN.** A tradition of the International Suppliers Fair (IZB) is that a congress dedicated to the partner region takes place prior to the first day of the trade fair. The “International Automotive Congress | ASEAN”, which forms the prelude to the IZB 2014, will take place on 13<sup>th</sup> October 2014. The growth prospects, investments and potential available in the Southeast Asian automotive market will take centre stage at the specialist congress, which will revolve around the ASEAN region. Leading speakers from Volkswagen, DRB-Hicom, Continental Automotive (Thailand), Bosch Automotive (Thailand) and AAPICO PLC., to name a few, will provide profitable insights into the ASEAN automotive market.

## GRAND OPENING EVENT

**Grand Opening Event.** In the modern setting of the Autostadt in Wolfsburg, the Grand Opening Event of the 8<sup>th</sup> International Suppliers Fair (IZB) will take place on Monday, 13<sup>th</sup> October 2014. Admission to the event will start at 6pm. During the official part of the evening, which will begin at 7pm, the approx. 1500 invited guests will be welcomed by, among others, representatives of the patrons from the German Land of Lower Saxony, the city of Wolfsburg and Volkswagen AG. Following the welcome address, the IZB 2014 will be opened ceremoniously and officially by the IZB patrons. During the subsequent reception, guests will have the opportunity to establish contacts and enjoy interesting discussions.

## VDI/VW JOINT CONGRESS

**VDI/VW Joint Congress.** From 14<sup>th</sup> to 15<sup>th</sup> October 2014, the traditional large congress on “Driver Assistance Systems and Integrated Safety”, which is held in alternation with the VDI/VW Joint Congress on “Automotive Security”, will take place in Wolfsburg for the 30<sup>th</sup> time. Driver assistance systems play a huge role in defining the mobility of the future. A multitude of active and passive functions for interval control or lane assistance on the motorway and in urban areas are now firmly established in the market. Studies have proven that the introduction of these systems have not only resulted in significant improvements to driving comfort, but also, and above all, to the safety of drivers and their surrounding environments.

### Top topics of the congress:

- Driving in an increasingly automated world – prospects for Germany according to the German Federal Ministry of Transport and Digital Infrastructure
- Solutions for the vulnerability and weaknesses of networked vehicle architectures
- Challenges involved in the technical implementation of automated vehicles
- Transferring knowledge from motor racing and assisted flying for automotive applications
- What should we do with "big data" in the car of the future?
- Potential and risks for drivers
- Best-practice examples of the integrity, availability and security of supporting systems

## THE E-MOBILITY STATION IN WOLFSBURG

**The e-Mobility Station in Wolfsburg.** The e-Mobility-Station in Wolfsburg provides visitors with an overview of electromobility ranging from the use of alternative energy sources such as sunlight, wind and geothermal energy through to the fuelling of electric vehicles and right through to electric vehicles themselves. Temporary exhibitions provide a practical insight into these topics in the station's listed main building. The building is now home to the e-Mobility Station, at which Wolfsburg AG has joined forces with Volkswagen to present the electromobility of the future and demonstrate means of renewable energy generation. Come and discover the e-Mobility Station for yourself and find out more about the future of electromobility and energy generation.

A shuttle bus service will travel between the IZB exhibition grounds and the e-Mobility Station on all three days of the IZB 2014.

You can find out more about the e-Mobility Station online at:  
[www.e-mobility-station.com](http://www.e-mobility-station.com)

## MAP AND DIRECTIONS – IZB EXHIBITION GROUNDS

## WARNING! YOUR JOURNEY TO THE IZB MAY BE DELAYED BY ROADWORKS!

**Trade fairs are always accompanied by an increased amount of traffic.** It is therefore essential that both exhibitors and visitors plan their journey to their event in detail and in good time whilst allowing for delays.

Alongside the increased amount of traffic caused by the IZB as a trade fair, roadworks are currently also in place in several locations in and around Wolfsburg, thus resulting in additional driving restrictions. We therefore recommend that you leave plenty of time for your journey to the city and plan your trip in advance.

**The IZB website contains a multitude of useful tips with regard to the topics of:**

- [How to Find Us](#)
- [Parking options](#)
- [Shuttle service](#)
- [Hotel service](#)
- [The Deutsche Bahn Event Ticket](#)

If you are travelling by car, you will be directed to the IZB exhibition grounds by the extensive traffic management system in place in Wolfsburg. The IZB exhibition grounds contain a number of parking areas (see page 21, Parking).

Shuttle buses will travel between Wolfsburg Central Station and the exhibition grounds in the Allerpark in both directions every 15 minutes from shortly after 9am onwards on all three days of the event. The shuttle bus timetables can be found [online](#). An additional special shuttle service will also be provided exclusively for Volkswagen employees.
