

i570

User's Guide

IMPORTANT NOTICE: PLEASE READ PRIOR TO USING YOUR PHONE

The SIM card provided in this kit is intended for use with the phone provided in this package.

Loss of certain features will result when using a SIM card from one of the following models: *i30sx*, *i35s*, *i50sx*, *i55sr*, *i58s*, *i60c*, *i80s*, *i85s*, *i88s*, *i90c*, *i95cl* series, and the *i2000* series.

For more information on SIM card compatibility, go to www.motorola.com/iden.

Defects or damage to your Motorola phone that result from the use of non-Motorola branded or certified Accessories, including but not limited to replacement housings and or other peripheral accessories, are excluded from warranty coverage. Please refer to the text of Motorola's Limited One Year warranty located in this user's guide for complete details.

DECLARATION OF CONFORMITY

Per FCC CFR 47 Part 2 Section 2.1077(a)

Responsible Party Name: Motorola, Inc.

Address: 8000 West Sunrise Boulevard
Plantation, FL 33322 USA

Phone Number: 1 (800) 453-0920

Hereby declares that the product:

Product Name: i570

Model Number: H65XAN6RR4CN

Conforms to the following regulations:

FCC Part 15, subpart B, section 15.107(a),
15.107(d) and section 15.109(a)

Class B Digital Device

As a personal computer peripheral, this device
complies with Part 15 of the FCC Rules.

Operation is subject to the following two
conditions: (1) this device may not cause

harmful interference, and (2) this device must
accept any interference received, including
interference that may cause undesired
operation.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation.

If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

HELLOMOTO

Introducing your new Motorola i570 phone. Here's a quick anatomy lesson.

check it out

Home Screen

② Customizable  key that can be used to open the **Settings** screen

① Press and hold the **Power Key**  for a few seconds, or until the screen lights up, to turn on your phone.

Main Menu

③ Press the Navigation Key **up, down, left or right**  to highlight a menu feature.

④ Press the  key to select.

Use and Care

To care for your Motorola phone, please keep it away from:

liquids of any kind

Don't expose your phone to water, rain, extreme humidity, sweat, or other moisture.

dust and dirt

Don't expose your phone to dust, dirt, sand, food, or other inappropriate materials.

extreme heat or cold

Avoid temperatures below -10°C/14°F or above 45°C/113°F.

cleaning solutions

To clean your phone, use only a dry soft cloth. Don't use alcohol or other cleaning solutions.

microwaves

Don't try to dry your phone in a microwave oven.

the ground

Don't drop your phone.

essentials

Caution: Before using the phone for the first time, read the Important Safety and Legal information included in the gray edged pages at the back of this guide.

about this guide

This guide shows how to locate a menu feature as follows:

Find it:  > **Settings.**

This means that, from the home screen:

- 1 Press the *menu key*  to open the menu.

- 2 Press the *navigation key*  to scroll to **Settings**, and press the *center key*  to select it.

symbols

This means a feature is network/subscription dependent and may not be available in all areas. Contact your service provider for more information.

This means a feature requires an optional accessory.

SIM card

insert the SIM card

Turn off your phone and remove your battery before you install or remove a SIM card.

- 1 Slide the latch and open the SIM card holder.

- 2 Carefully slide your SIM card into the SIM card holder.

- 3 Close the SIM card holder.

Warning: To avoid loss or damage, do not remove your SIM chip from your phone unless absolutely necessary.

battery

Battery Use & Battery Safety

- **Motorola recommends you always use Motorola-branded batteries and chargers.** The warranty does not cover damage caused by non-Motorola batteries and/or chargers.

Caution: Use of an unqualified battery or charger may present a risk of fire, explosion, leakage, or other hazard. Improper battery use, or use of a damaged battery, may result in a fire, explosion, or other hazard.

- Battery usage by children should be supervised.
- **Important:** Motorola mobile devices are designed to work best with qualified batteries. If you see a message on your display such as **Invalid**

Battery or Unable to Charge, take the following steps:

- Remove the battery and inspect it to confirm that it bears a Motorola “Original Equipment” hologram;
- If there is no hologram, the battery is not a qualified battery;
- If there is a hologram, replace the battery and retry charging it;
- If the message remains, contact a Motorola Authorized Service Center.
- New batteries or batteries stored for a long time may take more time to charge.
- **Charging precautions:** When charging your battery, keep it near room temperature. Never expose batteries to temperatures below 0°C (32°F) or above 45°C (113°F) when charging. Always take your mobile

device with you when you leave your vehicle.

- When storing your battery, keep it in a cool, dry place.
- It is normal over time for battery life to decrease, and for the battery to exhibit shorter runtime between charges or require more frequent or longer charging times.
- **Avoid damage to battery and mobile device.** Do not disassemble, open, crush, bend, deform, puncture, shred, or submerge the battery or mobile device. Avoid dropping the battery or mobile device, especially on a hard surface. If your battery or mobile device has been subjected to such damage, take it to a Motorola Authorized Service Center before using. Do **not** attempt to dry it with an

appliance or heat source, such as a hair dryer or microwave oven.

- **Use care when handling a charged battery:** particularly when placing it inside a pocket, purse, or other container with metal objects. Contact with metal objects (e.g., jewelry, keys, beaded chains) could complete an electrical circuit (short circuit), causing the battery to become very hot, which could cause damage or injury.

Promptly dispose of used batteries in accordance with local regulations. Contact your local recycling center for proper battery disposal.

Warning: Never dispose of batteries in a fire because they may explode.

battery installation

- 1 Slide the release button back until it releases the battery door.

- 2 Remove the battery door.

- 3 Push the battery down until it snaps in place.

- 4 Replace the battery door and press it gently until you hear a click.

battery charging

New batteries are not fully charged.

- 1 Insert the charger into the connector on your phone as shown.
- 2 Plug the other end of the charger into the appropriate electrical outlet.
- 3 When your phone displays **Charge Complete**, remove the charger.

When you charge the battery, the battery level indicator at the upper right of the screen shows charging progress. At least one segment of the indicator must be visible to ensure full phone functionality while charging.

Tip: Motorola batteries have circuitry that protects the battery from damage from overcharging. Of course, unplugging the charger from the wall will avoid current drain.

turn it on & off

To turn on your phone, press and hold  for a few seconds or until the display turns on. If prompted, enter your four-digit unlock code.

To turn off your phone, press and hold  for two seconds.

enable security

You must enable security the first time you power on your phone or within 10 days of first activation.

- 1 Press  under **Ok**.
- 2 You are prompted to enable security. Press  under **Yes**.
- 3 Press  to return to the idle screen.

make a phone call

Enter a phone number and press  to make a call or use a voice name. See “voice name” on page 51.

Tip: For best performance avoid touching the antenna with your fingers during the call.

To hang up, close the flip or press .

answer a phone call

When your phone rings and/or vibrates, you have the following options to answer the call:

- 1 If you want to talk on speaker phone, press the speaker key  without opening the flip. To hang up press the smart key .
- 2 If you want to answer the call using the ear speaker, just open the flip and press . To hang up, close the flip or press .

Note: You must have the **Flip Activation** feature On. See “advanced calling” on page 69.

make a private call

With Private calls service, you use your phone as a long-range, digital 2-way radio using one-to-one Private calls or one-to-many group calls.

Your Private ID is the number at which you receive one-to-one Private calls.

Talkgroup numbers are numbers through which you receive one-to-many group calls.

- 1 To make a private call enter the Private ID you want to call.
- 2 Push and hold the PTT button. Begin talking after your phone emits a chirping sound.
- 3 Release the PTT button to listen.

To end the call press , or press  under **Exit**.

A Private call ends automatically if there is no activity on the call for a few seconds.

Tip: To let someone know you want to talk to them on a Private call, press  under **Alert**.

answer a private call

- 1 When your phone emits a chirping sound or vibrates to indicate you are receiving a Private call, wait for the caller to finish speaking.
- 2 Push and hold the PTT button and begin talking after your phone emits a chirping sound.
- 3 Release the PTT button to listen.
To end the call press  under **Exit**.

store a phone number or private ID

You can store a phone number or Private ID in **Contacts**:

Find it:  > **Contacts** > **[New Contact]**.

- 1 Enter a name for the new entry. Each entry's name can contain 20 characters.
- 2 Select a specific **Ringer**.
- 3 Select a type for the entry (**Mobile, Private, Work1, Work2, Home, Fax, Pager, or Other**).
- 4 Enter the number for the entry.
- 5 Press  under **Done** when finished.

Tip: Before saving the entry, you can save more information. You can choose a special ringer, store an Email address, an IP address, and SDG list or Talkgroup ID and more.

After you have saved the number, the new Contacts entry is displayed.

call a stored phone number or private ID

Shortcut: From the home screen press  under **Contcs**.

or

Find it:  > **Contacts**.

- 1 Scroll to the **Contacts** entry.

Tip: In **Contacts**, enter the first letter of the contact you want and your contact list will jump to the first contact name starting with the letter you typed.

- 2 If the Contacts entry contains more than one number, press  left or right until the type of number you want to call is displayed (**Mobile, Private, Work1, Work2, Home, etc.**)
- 3 If you chose a phone number, press  to call the entry.

or

If you chose a **Private ID, Talkgroup ID, or SDG list**, push and hold the PTT button to call the number.

Tip: If the Contacts entry you scrolled to contains a Private ID, you can make an instant Private call to that Private ID by pushing and holding the PTT button, even if the Private ID is not the type of number displayed.

find your phone number and private ID

Find it:  > My Info.

Tip: Want to see your phone number or Private ID while you're on a call? Press  > My Info.

text messages

If your service provider offers Text Messaging, your phone is enabled to send and receive text messages using MOSMS.

set it up

Before you begin using text messaging, you may need to set up your signature, service center number, and expiration information.

Shortcut: From the home screen press  under **Msgs** > **Inbox** >  > **Setup**.

or

Find it:  > **Messages** > **Inbox** >  > **Setup**.

The following options become available:

option
Signature: Enter your signature (up to 11 characters long).
Svc Cntr No: Enter the phone number of your service center. If you do not know this number, contact your service provider.

option
Expire After: This is the amount of time messages you send are saved at the service center if they cannot be delivered. After this period, they are discarded.
Clean Up After: Set the number of days after which sent messages are deleted or the number of messages to be kept.

Press  under **Done** to save the options you selected.

receive a text message

- 1 To view the message press  under **Read**.
- 2 To dismiss the message notification press  under **Exit**.

Note: If your phone is powered off when you receive a text message, your phone notifies you the next time you power it on. If you are

out of your coverage area, your phone alerts you when you return to your coverage area.

Tip: While reading a text and numeric message that contains a phone number, you can press  to call that number.

read from the Message center

- 1 From the home screen press  under **Msgs > Inbox**.
- 2 Select the message you want to read or press the number of the message you want to read. If the message fills more than one screen, scroll to read it.
- 3 To save the message, press  under **Ok** or to reply to the message, press  under **Reply** or to see all other choices, including forwarding and deleting the message, calling the sender, or storing the sender's number in **Contacts**, press .

create and send text messages

- 1 From the home screen press  under **Msgs** > **[Create Message]**.
or
Select **Inbox**, **Sent Items**, or **Drafts**.
- 2 To address the message use the keypad to enter the phone number of the person you want to send the message to and press  under **Back** or press  under **Contcs**, or press  > **Recent Calls**. Select the number you want.
- 3 Select **Mesg:** and enter the text of the message or to use a quick note press  under **Browse** and scroll to the quick note you want.
- 4 Press  > **Set Send Method** and select **Text**, **Fax**, **x400**, **Paging**, **Email**, **ERMES**, or **Voice**.

- 5 If you want to send the message, press  under **Send** or to delete the message without sending it, press  under **Cancel**.

Note: If you want to request confirmation of delivery press  > **Send & Confirm**.

use drafts

When you save a message as a draft, it is saved in the drafts folder.

Shortcut: From the home screen press  under **Msgs** > **Drafts**.

- 1 Select the draft you want to edit. You also have the choice to create new text messages from this menu.
- 2 To edit the fields you want to change, follow step 2 through step 5 in “create and send text messages” above.

resend text messages

Shortcut: From the home screen press  under **Msgs > Sent Items**.

- 1 Scroll to the message you want to resend or press the number of the message you want to resend.
- 2 Press  under **Resend**.

delete sent text messages

Shortcut: From the home screen press  under **Msgs > Sent Items**.

- 1 Select the message you want to delete and press .
- 2 Press  under **Delete**.
- 3 Press  under **Yes** to confirm.

delete all unlocked sent messages

Shortcut: From the home screen press  under **Msgs > Sent Items**.

- 1 Press  > **Delete All**.
- 2 Press  under **Yes** to confirm.

manage memory

Your text inbox, outbox, and drafts folder have a set amount of memory available for storing messages.

The text inbox holds 20 messages. If the text inbox is full, you cannot receive messages until you delete some.

The outbox and drafts folder share memory space. Together they can hold 30 messages. If the outbox and drafts folder memory is full, you cannot send messages or save drafts until you delete some.

To view the amount of memory available in your **Inbox**, **Drafts** or **Sent Items**:

Shortcut: From the home screen press  under **Msgs**.

- 1 Select **Inbox**, **Drafts** or **Sent Items**.

- 2 Press  > Setup > Memory Size.

using your handset as a modem

You can use your handset as a modem with a laptop, handheld device, or desktop computer. In order to use your handset as a modem, you must create a wired connection between your handset and the other device.

connect with a data cable

use a data cable to connect your handset to a laptop, handheld device, or desktop computer:

- 1 Pull out the connector cover, and insert the charger into the connector on your phone as shown.
- 2 Insert the data plug into the data port of the other device.
- 3 Press  under **Change**.
- 4 Scroll to the baud rate for your location.
- 5 Press  under **Select**.

When used as a modem, your handset is enabled for **Packet Data** transfer mode, which is used for small file transfers such as email.

Note: To use these services, you must install the iDEN Wireless Data Services software (available separately). For more information on setting up your computer and your handset for packet and circuit data calls, contact your service provider.

main attractions

PTV Features

Push to View (PTV) features let you send information through Private calls.

Your phone can send and receive the following items through Private calls with other phones that have this capability:¹

- Pictures¹
- My Info
- Contact information

When you make or receive a Private call, your phone automatically determines whether the Private recipient is able to receive each of

1. Additional charges may apply.

these items. Your phone saves this information for as long as the Private ID is on your **Recent Calls** list or is saved in your **Contacts**. Your phone updates the saved information each time you make or receive a call to or from that Private ID.

You can turn your phone's ability to send and receive pictures On and Off.

Note: You cannot send PTT items during Talkgroup calls or SDG calls.

send pictures

You can send pictures stored in **My Pictures** through Private calls. The picture you send appears on the Private call recipient's display.

If the recipient accepts the picture, their phone saves it.

send a picture during a private call

Note: You cannot make or receive calls while transmitting a picture.

- 1 While in a Private call press  under **Picture**.
- 2 Select the picture you want to send.
- 3 Push the PTT button to send.

Note: The first time you send a stored picture after turning the phone on, **Picture Fees May Apply. Continue?** appears.

start a call by sending a picture

You can start a call by sending a picture that you have previously received and is stored in **My Pictures**.

Find it:  > **My Pictures**.

- 1 Press  > **Send Via PTT**.

A list of **Contacts** and **Recent Calls** that have Private IDs and are able to receive pictures appears.

- 2 Select the name of the person you want to send the picture to.
- 3 Push the PTT button to send the picture.
- 4 Wait while the picture is transmitted. The Private call is temporarily interrupted while a picture is transmitted.
- 5 When prompted, press the PTT button to resume the Private call.

receive a picture

When someone sends you a picture, your phone emits a tone or vibrates and a message appears asking if you want to accept the picture.

Pictures you receive are saved to your phone's memory. They are accessible through **My Pictures**.

When you see a message asking if you want to accept the picture, press  under **Yes** to accept or  under **No** to decline.

To stop the transmission before it is finished, press  under **Cancel**.

Note: The first time you accept a stored picture after turning the phone on, **Picture Fees May Apply. Continue?** appears and you are prompted to respond. Press  under **Yes** to accept the picture.

clear a picture from the display

If you want to remove a picture from your phone's display while still on a call, press  > **Clear Screen**.

The picture will not appear on the display again the next time you receive a call from the

person who sent it. This does not delete the picture from your phone's **My Pictures**.

turn PTT picture on and off

You can turn your phone's ability to send and receive pictures On and Off.

You cannot turn your phone's ability to send and receive My Info and contact information on and off.

Find it:  > **Settings** > **2-Way Radio** > **PTT Picture** > **On**.

send My Info

- 1 While in a Private Call press  > **Send via PTT** and push the PTT button to send.
or
- 2 From the home screen press  > **My Info** >  > **Send via PTT**.

- 3 Enter the Private ID of the person you want to send your info to or press  under **Browse**.
- 4 Select a contact number from your **Recent Calls, Contacts** or **Memo**.
- 5 Push the PTT button to send your information.

set my info sending option

You can control what portion of the information in **My Info** is sent and whether it is sent automatically in every call or only when you choose to send it.

Find it:  > **My Info** >  > **Send via PTT Setup** > **Info To Send**.

The information your phone sends always includes **My Name** and **Private**. You may also send **Line 1, Line 2,** and **Carrier IP,** depending on your sending options.

automatic sending

To control whether you send your information automatically:

Find it:  > **My Info** >  > **Send via PTT Setup** > **Auto Send**.

- 1 Select **On** or **Off**.
- 2 When you make a call in which your information is sent automatically, the name you entered in the **My Name** field of **My Info** appears on the display of the recipient's phone, even if your name and Private ID are not stored in the recipient's **Contacts**.

send Contact information

- 1 While in a Private Call press  > **Send Contact**.
- 2 Press  under **Browse**.

- 3 Select a contact number from the **Recent Calls**, **Contacts** or **Memo**.
- 4 Push the PTT button to send.

one touch PTT

Find it:  > **Settings** > **2-Way Radio** > **One Touch PTT**

One Touch PTT sets your phone to do any of the following each time you push the PTT button:

option
Off: Nothing happens if you push the PTT button when the phone is in idle mode.
Last Call: Call the most recent Private ID, Group or SDG list on the recent calls list.

option

Assigned Number: Call a Private ID you assign. Enter the number using your keypad, or press  under **Search**. Select **Contacts**, **Recent Calls** or **Memo**.

Note: If you are entering a Talkgroup number, press  before the number.

quick PTT

Quick PTT lets you quickly access any Private IDs on your phone so you can make a Private call, or create an SDG list and make a SDG call.

To view a list of Contacts and SDG lists with Private IDs in Contacts:

Find it:  > **Quick PTT**.

To move between Contacts, Recent Calls, or Memo, use the  left or right, or press .

or .

make a Private call or SDG call

- 1 Select the entries you want and press  under **Done**.
- 2 Push the PTT button.

To save your selections as a SDG list press

 > **Save SDG**. For more information about

SDG lists, see on “selective dynamic group (SDG) calls” on page 54.

If you want to assign a name to the SDG list, enter the name.

Note: If you do not assign a name, the SDG list is named SDG followed by the number of members in the SDG list. For example, SDG (8) for a SDG list with 8 members.

MMS

Multimedia Messaging Service (MMS) lets you send and receive messages that may include text, pictures, and audio recordings.

Depending on your service provider, your phone may support Text Messages or MMS, but they both cannot be activated at the same time.

create a message

Shortcut: From the home screen press  under **Msgs** > **[Create Message]**.

or

Find it:  > **Messages** > **[Create Message]**.

You can also create a message from **Contacts**, or **Recent Calls**.

address the message

- 1 Select **To:**

- 2 Add the phone number or email address.
or
- 3 Select from **Contacts** or **Recent Calls**.
- 4 Press .

Tip: To remove a phone number or email address from the list of message recipients, scroll to the phone number or email address and press  under **Remove**.

When you are finished addressing the message, press  under **Back**.

enter or edit the body of the message

- 1 Select **Mesg:**.
- 2 Enter text or use **QNotes** and press .
- 3 Press  under **Send**.

more message options

View more message fields in a message you are creating, select **...More...**

The following options become available:

option
Subject: Create or edit the subject line.
Attach: Attach a picture, voice record or ring tone.
Cc: Sends a copy of the message to other recipients.
Auto Replies: Allows you to create a list of possible short answers for the recipient to choose when replying to your message.
Priority: Set priority Normal or High .
Report: Set receipt confirmation On Delivery .
Valid Until: Set a date after which attempts to deliver the message end, or press  under No Date .

reply to a message

You can reply to a message while you are viewing it, or while a previously viewed message is highlighted in the message center. You cannot reply to unread messages.

- 1 View the message you want to reply to.
- 2 To reply to the sender only, press  under **Reply** or  under **Reply All**.
- 3 A list of short phrases appears. Select any of these phrases to add it to your messages or select **[Create Reply]**.
- 4 Edit any message fields you want to change.
- 5 Send the message.

quick notes

When you are filling in the **Message** and **Subject** message fields, you can add ready-made words or short phrases called Quick Notes.

After you add these words or phrases, you can edit them as you would any other text.

- 1 While you are creating a message, scroll to or select **Message** or **Subject**.
- 2 Press  under **QNotes**.
- 3 Select the Quick Note you want to insert into the message.

attach pictures, voice recordings and ring tones

To attach an item while creating a message:

- 1 Select **Attach** > **[New Attachment]**.
- 2 Select **My Pictures**, **VoiceRecord**, or **Ring Tones**.
A list of available pictures, voice records or ring tones appears.
- 3 Select the picture, voice recording or ring tone you want to attach.

Tip: To view or listen to the item before attaching it, highlight it and press  under **View** or **Play**.

If you want to attach more items, select **[New Attachment]**.

- 4 When you are finished, press  under **Done**.

create a new voice record

You can create a new voice record to send with a message:

- 1 Press  or select **Attach > [New Attachment]**.
- 2 Select **VoiceRecord**.
- 3 Say the message you want to record into the microphone.
- 4 When you are finished recording, press .
- 5 When you are finished, press **Done**.

The voice record is attached to the message and saved to the list of voice records.

remove an attachment

To remove an attachment in a message you are creating:

- 1 Select **Attach**.
- 2 Scroll to the attachment you want to remove.
- 3 Press  > **Unattach**.

drafts

While you are creating a message, you can save it in the Drafts folder before you send it.

You can view, edit, send, or delete saved drafts.

save a message in the drafts folder

While composing a message you can press  > **Save In Drafts**.

You can continue to create the message. The version you saved in the Drafts folder will not change.

send a draft

Shortcut: From the home screen press  under **Msgs > Drafts**.

- 1 Select the draft you want to send.
- 2 Press  > **Send**.

edit a draft

Shortcut: From the home screen press  under **Msgs > Drafts**.

- 1 Select the draft you want to edit.
- 2 Press .

delete a draft

When you send a draft, it is removed from the Drafts folder.

To delete a message in the Drafts folder without sending it, scroll to the message you want to delete and select **Delete > Yes**.

sent items

MMS messages you have sent or tried to send are stored in the Sent Items.

forward items from the sent items

Shortcut: From the home screen press  under **Msgs > Sent Items**.

- 1 Scroll to the message you want to forward.
- 2 Press  > **Forward**.
- 3 Edit and press  under **Send**.

resend

If a message was not sent from your handset, you can resend it.

Shortcut: From the home screen press  under **Msgs > Sent Items**.

- 1 Scroll to the message you want to resend.
- 2 Press **Resend**.

Note: If your message was sent successfully, **Resend** will not appear as an option.

check delivery status

If a message was successfully sent and you set the message to give a report confirming delivery, you can check the delivery status:

Shortcut: From the home screen press  under **Msgs > Sent Items**.

Scroll to the message you want to view and press .

delete a message

- 1 Scroll to the message you want to delete.
- 2 Press .

- 3 Select **Delete Message**.
- 4 Press **Yes** to confirm.

receive a message

When you receive an MMS message, a message notification appears on the display.

- 1 To view the message press .
- 2 If the message fills more than one screen, scroll to read it.

embedded objects and attachments

Messages may contain pictures, or audio recordings as part of the body of the message or as attachments.

If a message contains pictures, or audio recordings in the body of the message, highlight each picture, or audio recording to view or play it.

If a message contains a picture or an audio recording as an attachment, open the attachment to view the picture or play the audio recording.

open attachments

- 1 View the message.
- 2 Highlight the attachment you want to open. Attachments appear at the end of a message.
- 3 Press .

Note: Attachments that are of an unknown type cannot be opened, but they can be deleted.

view received messages from the message center

Shortcut: From the home screen press  under **Msgs** > **Inbox**.

Select the message. If the message has not yet been downloaded from the message server, it is downloaded now.

delete unread messages

- 1 Scroll to the message you want to delete.
- 2 Press **Delete**.
- 3 Press **Yes** to confirm.

lock and unlock messages

Locked messages cannot be deleted until you unlock them.

- 1 View the message you want to lock or unlock.
- 2 Press  > **Lock Message** or **Unlock Message**.

call a number in a message

If a message you receive contains a phone number, Private ID, or Talkgroup ID in the

From field, the To field, the Cc field, the subject line, or the body of the message, you can call or send a call alert to that number.

send a call alert

- 1 View the message.
- 2 Highlight the Private ID or Talkgroup ID you want to alert.
- 3 Press  > **Alert**.
- 4 Push the PTT button.

make a group call

- 1 View the message.
- 2 Press .
- 3 Highlight the Talkgroup ID you want to call.
- 4 Select **Talkgroup**.
- 5 Push the PTT button.

store message information to contacts

If a message you receive contains a phone number, Private ID, Talkgroup ID, or an email address in the From field, the To field, the Cc field, the subject line, or the body of the message, you can store this information to Contacts.

- 1 View the message.
- 2 Highlight the number or email address you want to save.
- 3 Press  > **Save Number** or **Save Email**.
- 4 To store the number or email address as a new entry, select **[New Contact]**.
To store the number or email address to an existing entry, select the entry.
- 5 With the Contacts type field highlighted, press  left or right to display the

Contacts type you want to assign the number or email address.

- 6 Press  under **Done**.

go to a website

If a message contains one or more website URLs, you can go to that website.

- 1 View the message.
- 2 Highlight the website URL you want to go to.
- 3 Press  > **Go To Website**.

Note: The entire URL must appear in the message to allow you to open the website.

save an embedded picture or audio recording

To save a picture or audio recording that is part of the body of a message you receive:

- 1 View the message.
- 2 Highlight the picture or audio recording you want to save.
- 3 Press .
- 4 Select **Save Picture**, or **Save Audio**.

The item will save in the default storage location.

Note: Some types of pictures, and audio recordings can be viewed or played, but not saved.

delete an embedded picture, or audio recording

To delete a picture, or audio recording that is part of the body of a message you receive:

- 1 View the message.
- 2 Highlight the picture, or audio recording you want to delete and press .

- 3 Select **Delete Picture** or **Delete Audio**.

save attachments

- 1 View the message.
- 2 Highlight the attachment you want to save.
- 3 Press  > **Save Attachment**.

Selected items save to the default storage location.

Note: Some types of pictures and audio recordings can be viewed or played, but not saved.

delete attachments

- 1 View the message.
- 2 Highlight the attachment you want to delete.
- 3 Press  > **Delete Attachment**.

- 4 Press  under **Yes** to confirm.

message transmission

After you start to send a message you have created or start to download a message you have been sent, you can still stop the message transmission from being completed:

With the flip is closed, press the smart key on the top . Opening or closing the flip does not interrupt message transmission.

customize MMS

Find it:  > Messages >  > Setup.

This option is available from many context-sensitive menus when you are using MMS.

The *Setup menu* lets you customize MMS for your handset with the following options:

option
Friendly Name: Enter text here to create a friendly name. Your friendly name is the name displayed in the From field on other iDEN handsets when they receive messages from you.
Signature: Enter text here to create a signature. Your signature is text that is automatically inserted at the end of all messages you create. You can edit the text before sending the message.

option
Quick Notes: Lets you create new Quick Notes and edit or delete Quick Notes you have created.
Replies: Lets you create new reply phrases and edit or delete reply phrases you have created.
Cleanup: Controls how long messages remain in the Inbox and Sent Items before they are deleted.
Memory Size: Shows the total amount of Used , Free ., and total Capacity of the phone's memory.

new quick notes and reply phrases

Note: These Quick Notes are not the same as the quick notes used with Text messages. Each messaging service has its own quick notes feature.

create quick notes

- 1 From the Setup menu, select **Quick Notes** or **Replies**.
- 2 Select **[New QuickNote]** or **[New Reply]**.
- 3 Enter text from the keypad and press .

edit quick notes

You can edit only Quick Notes and reply phrases you have created.

- 1 From the Setup menu, select **Quick Notes** or **Replies**.
- 2 Select the Quick Note or reply phrase you want to edit.
- 3 Edit the text and press .

delete only Quick Notes and reply phrases you have created

- 1 From the Setup menu, select **Quick Notes** or **Replies**.

- 2 Scroll to the Quick Note or reply phrase you want to delete.
- 3 Press  under **Delete**.
- 4 Press  under **Yes** to confirm.

delete all Quick Notes or all reply phrases you have created

- 1 From the Setup menu, select **Quick Notes** or **Replies**.
- 2 Press  > **Delete All**.
- 3 Press  under **Yes** to confirm.

cleanup options

The cleanup option controls how long messages remain in the Inbox and Sent Items before they are deleted. You set the clean-up option for the Inbox and Sent Items separately.

The cleanup option deletes only read, unlocked messages.

Find it:  > Messages >  > Setup > Cleanup.

- 1 Select **Inbox** or **Sent Items**.
- 2 Choose a clean up option from the following list

option
Off: Messages are never automatically deleted.
5 Messages: If you have more than 5 messages, messages are deleted in the order they were received, starting with the oldest, until 5 are left.
10 Messages: If you have more than 10 messages, messages are deleted in the order they were received, starting with the oldest, until 10 are left. With these options, messages are deleted in the order they were received, starting with the oldest, until the selected number are left.

option
1 Day: Messages are deleted if they are older than 1 day.
3 Days: Messages are deleted if they are older than 3 days. With these options, messages are deleted when you exit the message center after setting the option.
Custom: Lets you create a cleanup option of up to 99 messages or 99 days.

- 3 Press  under **Yes** to automatically delete messages now or press  under **No** to delete messages later.

delete all messages

To delete all read, unlocked messages from the Inbox, all messages in the Drafts folder, or all successfully sent messages in the Sent Items:

Find it:  > Messages.

- 1 Select **Inbox**, **Drafts**, or **Sent Items**.
- 2 Press  > **Delete All**.
- 3 Press  under **Yes** to confirm.

surveillance profile

When the unit is set to *Surveillance* mode, it DOES NOT turn on its backlight, make sounds or vibrate. This setting is designed for public safety, the unit will only ring through an earbud or headset and will only show an incoming call message on the screen.

Find it:  > Profiles > Surveillance.

- 1 Insert the earpiece or headset when prompted to do so and press .

Note: Surveillance profile works better with a Motorola Original™ Surveillance Earpiece for concealed hands-free operation and high audio quality, sold separately.

- 2 The phone is now operating in surveillance mode.

basics

See page 1 for a basic phone diagram.

display

The *home screen* shows when you turn on the phone. To dial a number from the home screen, press number keys and .

Note: Your home screen may look different.

Soft key labels  show the current soft key functions. For soft key locations, see page 1.

status indicators

Status indicators are shown at the top of the home screen:

- 1 Signal Strength Indicator:** Vertical bars show the strength of the network connection. You can't make or receive calls when  or  shows.

- 2 **Active Phone Line:** 1 indicates phone line 1 is ready to make calls; 2 indicates phone line 2 is ready to make calls.
- 3 **Speaker Off:** Sounds associated with Private calls and group calls are set to come through the earpiece rather than through the speaker.
- 4 **Ringer Off:** Your phone is set to not ring.
- 5 **Message Indicator:** Shows when you receive a text message. 
- 6 **Packet Data:** Your handset is ready to transfer packet data or is transferring packet data.
- 7 **Battery Charge Indicator:** A fuller battery indicates a greater charge. Recharge the battery when your phone shows **Low Battery**.

text entry

Some features let you enter text.

Your phone provides convenient ways to enter words, letters, punctuation, and numbers whenever you are prompted to enter text (for example, when adding a Contacts entry or when using SMS Text Messaging).

change the character input mode

- 1 When you see a screen where you can enter text, press  to change the character input mode.

2 Select one of the following options:

entry modes	
Alpha	Press a key several times for each characters.
Word	Enter words using a predictive text entering system that lets you enter a word with fewer key presses.
Symbols	Enter symbols.
Numeric	Enter numbers by pressing the numbers on the keypad.
Languages	Select the language in which you want to write the message.

Tip: When entering text, press and hold  to change letter capitalization (**Abc** > **ABC** > **abc**).

word mode

Word English Text Input lets you enter text into your phone by pressing keys just once per letter.

Word English Text Input analyzes the letters you enter using an intuitive word database and creates a suitable word in the language you are using to type the message. (The word may change as you type.)

enter a word using Word Character Input

- 1 Select the **Word** character input mode.
- 2 Press the corresponding keys once per letter to enter a word (for example, to enter the word **Bill**, press    ). (If you make a mistake, press  under **Delete** to erase a single character. Press and hold  under **Delete** to delete an entire entry.)

- 3 To accept a word and insert a space, press **#**.

To accept a word completion (such as Billion when you entered Bill), press  right.

alpha mode

To enter characters by tapping the keypad:

- 1 Select the **Alpha** mode.
- 2 Press the corresponding keys repeatedly until the desired letter appears. (For example, to enter the word **Bill**, press **2** twice, **4** three times, **5** three times, and **5** three times again. If you make a mistake, press **Delete** or **#** to erase a single character. Press and hold **Delete** to erase an entire word.)

By default, the first letter of an entry is capitalized and the following letters are lower cased. After a character is entered, the cursor

automatically advances to the next space after two seconds or when you enter a character on a different key.

Characters scroll in the following order:

characters	
1	.?! , @ & : ; " - () ' ` ~ % £ ¥
2	A B C 2 Á Ã Ä Å Ç
3	D E F 3 É Ê Ë
4	G H I 4 Í Ì
5	J K L 5
6	M N O 6 Ó Ô Õ Ò
7	P Q R S 7 ß
8	T U V 8 Ú Û Ü Ù
9	W X Y Z 9
0	+ - 0 * / \ [] = > < # §
#	Space
*	Back

navigation key

Press the *navigation key*  up, down, left, or right to scroll to items in the display. When you scroll to something, press .

handsfree speaker

You can use your phone's handsfree speaker to make calls without holding the phone to your ear.

During a call (with the flip open), press  under **Speaker** to turn the handsfree speaker On.

The handsfree speaker stays on until you press  under **Speaker** or close the flip.

Note: The handsfree speaker won't work when your phone is connected to a handsfree car kit or headset.

airplane mode

Note: Consult airline staff about the use of *Airplane Mode* during flight. Turn off your phone whenever instructed to do so by airline staff.

Airplane mode turns off your phone's calling features in situations where wireless phone use is prohibited. You can use the phone's other non-calling features when Airplane Mode is activated.

Find it:  > **Settings** > **Advanced** > **Airplane Mode** > On.

features for the hearing impaired

using your phone with a hearing aid

For best results use the following optimization procedures and handset setting. They generally apply as well for users with cochlear implants:

optimize your handset position and orientation

While in a phone call slide your phone up and down, then left and right until best microphone coupling is obtained. You also

may need to adjust your hearing aid (HA) volume setting.

If your HA has a telecoil, activate its switch, then also rotate the handset as illustrated to align the telecoils.

Note: Some automatically switched hearing aids may need an auxiliary switching magnet.

If you are unsure whether your HA is telecoil equipped or needs an auxiliary magnet, please refer to your HA user guide or contact a hearing aid professional or supplier.

optimize your handset antenna position

Your phone's rating for Hearing Aid compatibility is determined with the antenna extended if it has an extendable antenna. However, acceptable use might occur with the antenna retracted. Test your handset in both antenna positions when the handset is in the optimum orientation.

choose your hearing aid setting

Find it:  > Settings > Phone Calls > Hearing Aid.

- 1 Set this option to **Microphone**. Microphone coupling is now optimized.
or
- 2 Set this option to **Telecoil**. Handset meets US federal requirements for telecoil coupling sound.
or
- 3 Set this option to **Off** (factory default). This is the setting for non Hearing Aid users.

calls

To make and answer calls, see page 15.

recent calls

The recent calls list contains information associated with calls you have made and received and call alerts you have received.

When you send or receive Private calls, the recent call list contains the following PTV items with those calls:

- Contact information received
- My Info received
- Pictures sent or received.

The recent calls list displays up to 20 of the most recent calls and call alerts.

1 Press  > **Recent Calls**.

2 Scroll through the list.

store an item to contacts from recent calls

Phone calls, Private calls, My Info, or Contacts entries received from other phones can be stored to the **Contacts** list from the **Recent Calls** list.

Find it:  > **Recent Calls**.

1 Scroll to or select the item you want to store.

2 Press  under **Save** to store the information as a new entry in the Contacts list.

or

- 3 If **Store** is not one of your options, press  > **Update Contacts**. And select the contact you want to update.
- 4 Press  under **Save** to save your changes.

redial

To redial your last outgoing call, press and hold .

caller ID

Caller ID allows people to identify a caller before answering the phone by displaying the number of the incoming call. If you do not want your number displayed when you make a call, just follow these easy steps.

To block your phone number from being displayed for a specific outgoing call:

- 1 Press   .

- 2 Enter the number you want to call.
- 3 Press .

To permanently block your number, call your customer service provider.

call forward

Call forwarding sends calls to the phone numbers you specify. You can forward all calls to one number or forward missed calls to different numbers depending on the reason you missed the call. You can forward phone lines 1 and 2 independently.

Find it:  > **Call Forward**.

- 1 To forward all calls select **All Calls** and select **To:** to enter the phone number you want all your calls forwarded to.
or

- 2 You can specify a forwarding number for each type of missed call by selecting **Detailed** and choosing the following options:

If Busy: When your handset is on a call or transferring data.

If No Answer: When you do not answer on the first 4 rings.

If Unreachable: When your handset is out of coverage or powered off.

voice name

You can place calls by speaking commands to your phone if you have previously assigned a voice name to your contacts.

assign voice names to contacts

- 1 Press  under **Contcs** and select **[New Contact]**.

- 2 Assign a name, phone number and select **[Options]**.

- 3 Select **Voice Name** and follow the prompt to record the voice name.

- 4 Press  under **Back** and  under **Save**.

place a call using voice name

With the flip closed or open, press the speaker key  until you are prompted to say the voice name.

The handset will automatically place the call.

emergency calls

Your service provider programs one or more emergency phone numbers that you can call under any circumstances, even when your phone is locked or the SIM card is not inserted.

Note: Emergency numbers vary by country. Your phone's preprogrammed emergency number(s) may not work in all locations, and sometimes an emergency call cannot be placed due to network, environmental, or interference issues.

Emergency phone calls can be made even when your SIM card is blocked or not in your phone.

Dial 911 or your local emergency number to be connected to an emergency response center. If you are on an active call, you must end it before making an emergency call.

When you make an emergency call, your phone's GPS Enabled feature can help emergency service personnel find you, if you are in a location where your phone's GPS antenna has established a clear view of the open sky and your local emergency response center has the equipment to process location information. Because of the limitations of this

feature, always provide your best knowledge of your location to the emergency response center when you make an emergency call.

Note: Emergency calls cannot be placed while the keypad is locked.

Note: If you have not registered on the network, emergency calls cannot be placed while your SIM card is in your phone.

international calls

If your phone service includes international dialing, press and hold 0 to insert your local international access code (indicated by +). Then, press the keypad keys to dial the country code and phone number.

speed dial

Each phone number stored in Contacts is assigned a Speed Dial number, which you can use to call that number.

- 1 From the idle screen, use the keypad to enter the Speed Dial number assigned to the phone number you want to call.
- 2 Press .
- 3 Press .

turbo dial

The first nine entries in your contacts are set for turbo dial. They can be called by pressing and holding the speed dial number (1 through 9).

voice mail

Note: To receive voice mail messages, you must first set up a voice mail account with your service provider.

receive a voice mail message

When you receive a voice mail message, **New VoiceMail Message** appears on the display.

To call your service provider's voice mail system and listen to the message, press  under **Call**.

To dismiss the message notification:

If the flip is closed, press the smart key  on the top.

If the flip is open, press , **Back**, or close the flip.

If the caller leaves a message, this icon  appears on the display, reminding you that you have a new message.

selective dynamic group (SDG) calls

A SDG call is similar to a Private call, but is made to all members of a SDG list at once. A SDG list is a group of Private IDs that you create using your phone. A SDG list must contain at least 2 members and can contain up to 20 members.

You can create a SDG list for one call only or store it to Contacts so you can call it any time.

Note: In order to store SDG lists to your phone, you must use a SDG-capable SIM card. For more information about SDG-capable SIM cards, contact your service provider. SDG lists created with your phone are not readable by an older iDEN SIM-based phone.

You can use Send via PTT to send SDG lists to other phones that have this capability.

create SDG lists in contacts

Shortcut: From the home screen press  under **Contcs**.

- 1 Select **[New SDG List]**.

Tip: You can also create a SDG list by selecting **[New Contact]** and assigning the SDG contact type. See “store a phone number or private ID” on page 16.

- 2 If you want to assign a name to the SDG list, enter the name.

Note: If you do not assign a name, the SDG list is named “SDG” followed by the number of members in the SDG list. For example, “SDG (8)” for a SDG list with 8 members.

- 3 Add Private IDs. See “Adding Private Numbers” below.
- 4 If you want to create a voice name for the SDG list, select **[Options]** > **Voice Name**. As directed by the screen prompts, say and repeat the voice name you want to assign to the SDG list. Speak clearly into the microphone.
- 5 Press  under **Save**.

add private numbers

You can add Private IDs to a SDG list by selecting them from Contacts, the recent calls list, or memo. You can add all members in an existing SDG list by selecting the list.

You can select more than one member from Contacts and the recent calls list. A check mark appears next to each selected item.

Tip: To deselect a selected item, highlight it and press .

You can also enter Private IDs from the keypad.

add members from Contacts, the recent calls list, or Memo

- 1 While creating a SDG list, select **[Add Member]** or select **[Add Number]** and press  under **Browse**.

Tip: To move between Contacts, the recent calls list, and Memo, scroll  left or right.

- 2 Scroll to the members you want from Contacts, the recent calls list, or Memo, and press . A check mark appears next to each selected member.

Tip: To deselect a selected member, highlight it and press .

- 3 Press  under **Done**.

add members manually from the keypad

- 1 While creating a SDG list, select **[Add Number]**.
- 2 Enter the Private number using the keypad.

remove members or SDG lists

remove a member from a SDG list

- 1 From Contacts, scroll to the SDG list you want to delete the member from.
- 2 Press  under **Edit**.
- 3 Scroll to the member you want to remove.
- 4 Press  > **Remove Member**.
- 5 Press  under **Save**.

remove all members from a SDG list

- 1 From Contacts, scroll to the SDG list you want to delete the member from.
- 2 Press  under **Edit**.
- 3 Press  > **Remove All Members**.
- 4 Press  under **Yes** to confirm.

delete a SDG list from Contacts

- 1 Scroll to the SDG list you want to delete.
- 2 Press  > **Delete SDG List**.

make SDG Calls

- 1 From Contacts or the recent calls list, scroll to or select the SDG list you want.
or
Press and hold  until a prompt appears telling you to say the voice name. Say the voice name assigned to the SDG list you want.

or

From the home screen, press the number on your keypad for the shortcut you assigned to the SDG list you want.

or

Enter or select a Private ID and add more Private IDs. “start a SDG call with a private” below.

- 2 Push the PTT button.

start a SDG call with a private

You can start a SDG call with any Private ID you want to call.

Note: Choose the first Private ID that you want in the SDG call:

- 1 From the home screen, enter the Private ID.
or

From the Contacts list, scroll to an entry containing the Private ID.

or

From recent calls list, scroll to an entry containing the Private ID.

- 2 Press  > **Call SDG**.
- 3 Add more Private IDs. See “add private numbers” on page 55.

If you want to save the SDG list you have created press  > **Store SDG**.

or

If you do not want to save the SDG list, press  under **Done**.

- 4 Push the PTT button to make the call.

SDG call Information

While you are in a SDG call, the following appears on the screen:

- The name of the SDG list
- The name or the Private ID of the person speaking
- The number of participants in the SDG call

SDG Call Details

During a SDG call, you can view details about the other SDG list members, such as their name or Private ID, and their status on the call. To view SDG call details, press  under **Details**.

In the SDG Call Details view, these icons appear next to member names or Private IDs:

	The member of the SDG list who is speaking.
	A member of the SDG list who is active on the SDG call, but not speaking.

	A member of the SDG list who has exited the call.
	A member of the SDG list who could not be reached on the SDG call.
	A member of the SDG list whose status is unknown.

MOTOtalk™

MOTOtalk allows direct two-way phone-to-phone communications between two or more phones equipped for MOTOtalk. You can make and receive MOTOtalk calls even when network service is not available. You can talk to anyone on your code and channel within your range.

Note: Range will vary based on terrain, man-made structures and atmospheric conditions.

MOTOTalk allows you to use code or private mode operation, use up to 10 channels and communicate with standalone MOTOTalk radios.

Note: MOTOTalk is not compatible with older Family Radio Services products.

The following features and main menu items will not be available while in MOTOTalk mode:

- On-network phone calls
- On-network Private calls
- Data transmission
- Incoming message notification
- Musical ring tones
- Call forwarding
- Messages
- Call Timers
- Call alerts

- Voice records

set your phone to MOTOTalk

Find it:  > MOTOTalk > Go To MOTOTalk.

After a few seconds, the **MOTOTalk** idle screen appears. The channel you are set to appears on the first line of the display, the code you are set to appears on the second line of the display and **MT Ready** appears just above the softkeys.

Note: When switching from the network to **MOTOTalk**, the last channel and code that were set appear on the **MOTOTalk** idle screen.

While in **MOTOTalk**, this icon  appears on the display, indicating that there is no network signal and **MOTOTalk** is active.

Phones used in MOTOTalk mode should be a minimum of 6 feet apart to maximize performance and improve transmission range.

exit MOTOtalk

Find it:  > MT Options > Exit MOTOtalk.

The following message displays: **Switching to Network Please Wait** displays. After a few seconds, the network idle screen appears.

channels and codes

Your phone has 10 channels and 15 codes.

Channels are divided into sets of frequencies that allow you to make and receive MOTOtalk calls. Other parties may also be talking on the same channel.

Codes help minimize interference from unwanted messages and other disturbances when you are on the same channel as others.

To have a conversation, all parties must be on the same channel and code. For private MOTOtalk calls, the person you are calling

must be in MOTOtalk and set to the same channel to receive your call.

Note: When making a code call, all parties that are on your code and channel can hear your conversation.

set a channel

- 1 From the MOTOtalk idle screen, press  under **Edit**.
- 2 Scroll to **Channel** and press  under **Edit**.
- 3 Select a channel number from 1 to 10.
- 4 When you are finished, press  under **Back** to return to the MOTOtalk idle screen.

set a code

- 1 From the MOTOtalk idle screen, press  under **Edit**.
- 2 Scroll to **Code** and press  under **Edit**.

- 3 Select a code number from 1 to 15 or one of the following options:

option
Receive All
Sets your phone to receive MOTOtalk transmissions from any phone that is set to the same channel, regardless of the code (1-15). When you receive transmissions with the code set to Receive All , the display changes from Receive All to the code on which the transmission was received.
Tip: You can reply to an incoming call within 6 seconds after hearing the short ending beep by pressing the PTT button.
Note: You cannot initiate a code call when the code is set to Receive All . If you push the PTT button with the code set to Receive All , you will receive an error message.

option
Pvt Only
Allows you to have a private conversation with another person using MOTOtalk. When on a private MOTOtalk call, no other parties can hear your conversation. In order to make a private MOTOtalk Call, you must use the valid 10-digit Personal Telephone Number (PTN) of the person you are calling. The person you are calling must be in MOTOtalk and set to the same channel to receive your call.
Note: An error message will occur if you don't use a valid PTN, or the person that you are trying to reach is not in MOTOtalk, or is set to a different channel or out of range.

- 4 When you are finished, press  under **Back** to return to the MOTOtalk idle screen.

make and receive code calls in MOTOtalk

To make a code call in MOTOtalk:

- 1 Push and hold the PTT button. **MT Transmit** appears on the first line of display. Begin speaking after your phone emits the MOTOtalk tone.
- 2 Release the PTT button to listen.

Note: The tone emitted from your phone when using MOTOtalk is 4 beeps and sounds different from the standard tone heard with on-network Private and group calls.

You could receive an error message if there are no parties on your channel or code, or if you are out of range.

When you receive a code call using MOTOtalk, **MT Receive** appears on the first line of the display.

Note: An incoming MOTOtalk call can be terminated at any time by pressing .

make a private MOTOtalk call

- 1 Enter the 10-digit PTN of the person you want to call on your channel, or press  under **Contacts** and select a contact, or scroll to a number in the recent calls list.
- 2 Push and hold the PTT button. Begin speaking after your phone emits the MOTOtalk tone.
- 3 Release the PTT button to listen.

The number or name of the person you are calling will appear in the first line of the display.

receive a private MOTOtalk call

- 1 The number or name of the person who initiated the call will appear in the first line of the display.

- 2 You can reply within 6 seconds simply by pushing the PTT button.

end a private MOTOtalk call

A private MOTOtalk call will end if there is no communication for 6 seconds.

Note: A private MOTOtalk call may be interrupted during the 6 second idle time by another code call or private call.

make emergency calls while in MOTOtalk mode

If you attempt to make an Emergency 911 call while in MOTOtalk mode, your phone will automatically exit MOTOtalk mode and attempt to find a network signal.

Note: If you are out of network coverage your phone will not be able to make an emergency 911 cellular call until you go back into the network coverage area.

You must wait until the phone reconnects to the network before attempting to make an emergency 911 cellular call.

setup options

MOTOtalk setup options are available in the MT Options screen in both network and MOTOtalk modes.

access Setup Options in network

Find it:  > MOTOtalk > Setup.

access Setup Options in MOTOtalk

Find it:  > MT Options > Setup.

The following options become available:

option
Direct Launch Launches your phone directly into MOTOtalk when you select MOTOtalk from the Main Menu. If Direct Launch is set to On , you will not see MT Options when you select MOTOtalk from the main menu. In order to have access to your setup options, Direct Launch must be set to Off . Or you can access setup options while in MOTOtalk by pressing m and selecting MT Options .
State Tone Notifies you periodically with a tone that you are in MOTOtalk mode. You can select a time frame during which you want to be notified that you are in MOTOtalk mode. Select from 30 minutes, 1, 2, 3 or 4 hours .

customize

volume

Press the volume keys to:

- turn off an incoming call alert
- change the earpiece volume during calls
- change the ringer volume from the home screen

Tip: You can quickly set your ringer to **VibeAll** by pressing and holding the volume key down in the home screen.

ring tones

To set the ring tone your phone makes when you receive phone calls, call alerts, message notifications, pictures sent using Send via PTT or Datebook reminders:

Note: Only ring tones stored in your phone's memory are available in the ring tones list. Not all audio files can be assigned as ring tones.

Find it:  > Ring Tones.

- 1 Make sure **VibeAll** is set to **Off**.
- 2 Scroll through the list of ring tones and select the one you want to assign. **Vibrate** sets your phone to vibrate instead of

making a sound; **Silent** sets your phone to neither vibrate nor make a sound.

Tip: Highlighting a ring tone lets you hear it.

- 3 Select the features you want to assign the ring tone to.
- 4 When you are finished, press  under **Done**.

Note: This icon  appears on the display if you set your phone to **Silent**. This icon  appears on the display if you set the phone to **VibeAll**.

setting your phone to vibrate

You can set your phone to vibrate instead of making a sound when you receive all phone calls, Private calls, group calls, SDG calls, call alerts, messages notifications, pictures sent using Send via PTT, and Datebook reminders.

Find it:  > Ring Tones > VibeAll > On.

66 customize

Shortcut: To set **VibeAll** to **On** using the volume controls, press the volume controls to turn down the volume as far as possible to set **VibeAll** to **On**.

To set your phone to vibrate instead of making a sound for some features but not others:

- 1 From the main menu, select **Ring Tones**.
- 2 Make sure **VibeAll** is set to **Off**.
- 3 Select **Vibrate** from the list of ring tones.
- 4 Select the features you want to set to vibrate.
- 5 When you are finished, press  under **Done**.

wallpaper

Set a photo or picture as a wallpaper (background) image in your phone's home screen or throughout all menu screens.

Find it:  > Settings > Display/Info > Wallpaper.

To select a wallpaper image scroll through the list of pictures and press  to select the picture of your choice.

Note: You can set the wallpaper to change automatically after a certain period of time by turning on the **Auto Cycle** feature located in the Wallpaper menu.

datebook

Find it:  > Datebook >  > Setup.

You can view or change these options:

option
Start View: Sets Datebook to start in day view, week view, or month view when you access Datebook.
Daily Begin: Sets the beginning of your day. This is the earliest time of day displayed in week view, if you have a 12-hour day view.
Delete After: Sets the amount of time Datebook waits to delete an event after it occurs.
Time Shift: Lets you shift the times of all Datebook events. This is useful if you are traveling to a different time zone.
Alert Timeout: Sets the amount of time a tone continues to sound when you receive a Datebook reminder.
Clock: Controls whether the time and date appear on the idle screen; sets time and date format; sets year.

hide or show location information

Your phone is equipped with a Location feature for use in connection with location-based services that may be available in the future.

The Location feature allows the network to detect your position. Turning Location off will hide your location from everyone except 911.

Note: Turning Location on will allow the network to detect your position using GPS technology, making some applications and services easier to use. Turning Location off will disable the GPS location function for all purposes except 911, but will not hide your general location based on the cell site serving your call. No application or service may use your location without your request or permission. GPS-enhanced 911 is not available in all areas.

set your Privacy Options

Find it:  > GPS > Privacy.

Select **Restricted** to turn your location off.

other features

advanced calling

feature	
call waiting	To accept the second call and put the active call on hold press  under Yes . To accept the second call and end the active call press  . Your phone rings with the second call for you to answer.

feature	
3-way call	Make or receive a phone call and press  A .  > 3 Way . Enter the second phone number, press  and  under Join . Tip: For quick ways to enter the number, press  to see the dialing menu. You cannot make any other calls after you have joined a 3-way call, even if one party disconnects.

feature	
flip activation	To make your handset to answer and end calls by opening and closing the flip press  > Settings > Phone Calls > Flip Activation. Select Flip To Ans > On and Flip to End > On.
any key answer	To answer phone calls by pressing any key on the keypad press  > Settings > Phone Calls > Any Key Ans > On.

contacts

feature	
edit/delete contact entry	Press  under Contacts. Select a contact and press  under Edit. Change the desired content and press  under Done.
set ringer ID	Press  under Contacts. Select a contact and press  under Edit > Ringer. Select desired ringer and press  under Done.

datebook

feature	
create datebook events	To create a new Datebook event press  > Datebook > [New Event] .
see datebook event	To see a calendar event press  > Datebook . Press  left or right to see the day and  up or down to see the events.
event reminder	When an event reminder occurs press  under View . Press  under Back to close the reminder.

GPS

Note: To improve GPS performance:

- Stay in the open,
- Extend your phone's antenna
- Move away from other electrical or electronic devices
- Remain stationary.
- Avoid touching the antenna with your fingers.

feature	
view approximate location	To see your approximate location press  > GPS > Position . Scroll to view the entire screen. To recalculate position press  under Rfrsh . This may take several minutes.

feature	
set GPS privacy options	<p>To set the level of privacy for your GPS system press  > GPS > Privacy.</p> <p>If your GPS PIN security feature is enabled, enter your GPS PIN and select the privacy option you want.</p>
change GPS PIN	<p>Note: When you receive your phone, your GPS PIN is 0000.</p> <p>To change your GPS PIN press  > Settings > Security > Change Passwords > GPS PIN. Enter the current GPS PIN and enter the new 4- to 8-digit GPS PIN. Re-enter the new 4- to 8-digit GPS PIN to confirm.</p>

handsfree

Note: The use of wireless phones while driving may cause distraction. Discontinue a call if you can't concentrate on driving. Additionally, the use of wireless devices and their accessories may be prohibited or restricted in certain areas. Always obey the laws and regulations on the use of these products.

feature	
speaker-phone	<p>To activate the speakerphone while driving press and hold the speakerphone key  or press  under Speaker.</p>

feature	
auto answer	To automatically answer calls when connected to a car kit or headset press  > Phone Calls > Auto Ans. Select the amount of rings before answering.

pc applications

feature	
other PC applications	For a list of complete PC applications visit www.motorola.com/iden

personalize

feature	
language	Set menu language: Press  > Settings > Display/Info > Language
backlight time length	Select how long the display screen and keypad are backlit: Press  > Settings > Display/Info > Backlight
menu style	Show the main menu as graphic icons or a text-based list: Press  > Settings > Display/Info > Menu View
clock display	Press  > Settings > Display/Info > Clock > On

TTY

feature	
turn On TTY feature	From the home screen press  > Settings > Phone Calls > TTY > Use TTY > On .
choose TTY mode	From the home screen press  > Settings > Phone Calls > TTY > Type . Select from TTY , VCO or HCO .
change the TTY baud rate	From the home screen press  > Settings > Phone Calls > TTY > Baud . Select 45.45 or 50.00
change TTY mode during a call	While in the TTY call, press  > In Call Setup > TTY > Type . Select from TTY , VCO or HCO .

security

feature	
phone lock	To lock the phone press  > Settings > Security > Phone Lock > Lock Now or Auto Lock .
keypad lock	To lock the keypad press  > Settings > Security > Keypad Lock > Lock Now or Auto Lock . Shortcut: To lock the keypad press  > 
enable SIM PIN	To enable SIM PIN, press  > Settings > Security > SIM PIN > On .
change SIM PIN	To change the SIM PIN, press  > Settings > Security > Change Passwords > SIM PIN .

Note: You can make emergency calls on a locked phone (see page 51). A locked phone

still rings or vibrates for incoming calls or messages, but you need to unlock it to answer.

MOTOROLA

Important Safety and Legal Information

Safety and General Information

This section contains important information on the safe and efficient operation of your phone. Read this information before using your integrated multi-service portable radio.*

Exposure to Radio Frequency (RF) Energy

Your phone contains a transmitter and receiver. When it is ON, it receives and transmits RF energy. When you communicate with your phone, the system handling your call controls the power level at which your phone transmits.

Your Motorola phone is designed to comply with local regulatory requirements in your country concerning exposure of human beings to RF energy.

Portable Radio Product Operation and EME Exposure

Your Motorola radio product is designed to comply with the following national and international standards and guidelines regarding exposure of human beings to radio frequency electromagnetic energy (EME):

- United States Federal Communications Commission, Code of Federal Regulations; 47 CFR part 2 sub-part J.
- American National Standards Institute (ANSI) / Institute of Electrical and Electronics Engineers (IEEE). C95. 1-1992.
- Institute of Electrical and Electronics Engineers (IEEE). C95. 1-2005 Edition.*
- International Commission on Non-Ionizing Radiation Protection (ICNIRP) 1998.
- Ministry of Health (Canada). Safety Code 6. Limits of Human Exposure to Radio frequency Electromagnetic Fields in the Frequency Range from 3 kHz to 300 GHz, 1999.
- Australian Communications Authority Radio communications (Electromagnetic Radiation - Human Exposure) Standard 2003.
- ANATEL, Brazil Regulatory Authority, Resolution 303 (July 2, 2002) "Regulation of the limitation of exposure to

* The information provided in this document supersedes the general safety information in user's guides published prior to May 1, 2006

electrical, magnetic, and electromagnetic fields in the radio frequency range between 9 kHz and 300 GHz." "Attachment to Resolution 303 from July 2, 2002."

Operational Precautions

To assure optimal radio product performance and to be sure that human exposure to RF does not exceed the guidelines set forth in the relevant standards, always follow these instructions and precautions:

Phone Operation

When placing or receiving a phone call, hold your radio product as you would a wireline telephone. **Speak directly into the microphone.**

Two-way radio operation

Your radio product has been designed and tested to comply with national and international standards and guidelines regarding human exposure to RF electromagnetic energy, when operated in the two-way mode (at the face, or at the abdomen when using an audio accessory) at usage factors of up to 50% talk/50% listen.

Transmit no more than the rated duty factor of 50% of the time. To transmit (talk), push the PTT button. To receive calls, release the PTT button. Transmitting 50% of the time or less, is important because this radio generates measurable RF energy only when transmitting (in terms of measuring for standards compliance).

When using your radio product as a traditional two-way radio, **hold the radio product in a vertical position with the microphone one to two inches (2.5 to 5 cm) away from the lips.**

If you wear a radio product on your body when transmitting, always place the radio product in a Motorola approved clip, holder, holster, case or body harness. If you do not use a body-worn accessory supplied or approved by Motorola and are not using the radio product in the intended use positions along side the head in the phone mode or in front of the face in the two-way radio mode, or if you hang your device from a lanyard around your neck, keep the device at least 2.5 centimeters (1 inch) from your body when transmitting.

Approved Accessories

For a list of approved Motorola accessories call 1-800-453-0920, or visit our website at www.motorola.com/iden.

RF Energy Interference/Compatibility

Nearly every electronic device is subject to RF energy interference from external sources if inadequately shielded, designed or otherwise configured for RF energy compatibility. In some circumstances your handset may cause interference with other devices.

Follow Instructions to Avoid Interference Problems

Turn OFF your radio product where posted notices instruct you to do so.

In an aircraft, turn off your radio product whenever instructed to do so by airline staff. If your radio product offers an airplane mode or similar feature, consult airline staff about using it in flight.

Implantable Medical Devices

If you have an implantable medical devices, such as a pacemaker or defibrillator, consult your physician before using this radio product.

Persons with implantable medical devices should observe the following precautions:

- ALWAYS keep the phone more than 20 centimeters (8 inches) from the implantable medical device when the phone is turned ON.
- DO NOT carry the phone in a breast pocket;
- Use the ear opposite the implantable medical device to minimize the potential for interference.
- Turn OFF the phone immediately if you have any reason to suspect that the interference is taking place.

Read and follow the directions from the manufacturer of your implantable medical device. If you have any questions about using

your wireless phone with your implantable medical device, consult your health care provider.

Hearing Aids

Some phones may interfere with some hearing aids. In the event of such interference, you may want to consult your hearing aid manufacturer or physician to discuss alternatives.

Other Medical Devices and Health Care Facilities

If you use any other personal medical devices, consult your physician or the manufacturer or your device to determine if it is adequately shielded from RF energy. Turn off your radio product when instructed to do so in hospitals or health care facilities that may be using equipment that is sensitive to external RF energy.

Driving Precautions

Check the laws and regulations on the use of radio products in the area where you drive. Always obey them.

When using your radio product while driving, please:

- Give full attention to driving and to the road. Using a phone may be distracting. Discontinue a call if you can't concentrate on driving.
- Use hands free operation, if available.
- Pull off the road and park before making or answering a call if driving conditions so require.

- Do not place a handset in the airbag deployment area.

Responsible driving practices can be found in the “Smart Practices While Driving” section at the end of this guide and/or at the Motorola Web site: www.motorola.com/callsmart.

Note: The use of wireless phones while driving may cause distraction. Discontinue a call if you can’t concentrate on driving. Additionally, the use of wireless devices and their accessories may be prohibited or restricted in certain areas. Always obey the laws and regulations on the use of these products.

Operational Warnings

Obey all posted signs when using phones in public areas.

Potentially Explosive Atmospheres

Areas with potentially explosive atmospheres are often but not always posted, and can include fueling areas such as below decks on boats, fuel or chemical transfer or storage facilities, or areas where the air contains chemicals or particles, such as grain, dust or metal powders.

When you are in such area, turn off your handset, and do not remove, install, or charge batteries unless it is a radio product type especially qualified for use in such areas as “Intrinsically Safe” (for example, Factory Mutual, CSA, or UL approved). In such areas, sparks can occur and cause an explosion or fire.

Batteries and Chargers

Caution: Improper treatment or use of batteries may present a danger of fire, explosion, leakage, or other hazard. For more information, see the “Battery Use and Battery Safety” section in this user’s guide.

Your battery, charger, or portable radio may contain symbols, defined as follows:

Symbol	Definition
	Important safety information follows.
	Do not dispose of your battery or phone in a fire.
	Your battery or phone may require recycling in accordance with local laws. Contact your local regulatory authorities for more information.
	Do not throw your battery or phone in the trash.
	Your phone contains an internal lithium ion battery.

Symbol	Definition
	Do not let your battery, charger, or phone get wet.
	Listening at full volume to music or voice through a headset may damage your hearing.

Choking Hazards

Your portable radio or its accessories may include detachable parts, which may present a choking hazard to small children. Keep your device and its accessories away from small children.

Glass Parts

Some parts of your phone may be made of glass. This glass could break if the product is dropped on a hard surface or receives a substantial impact. If glass breaks, do not touch or attempt to remove. Stop using your phone until the glass is replaced by a qualified service center.

Seizures/Blackouts

Some people may be susceptible to epileptic seizures or blackouts when exposed to flashing lights, such as when playing video games. These may occur even if a person has never had a previous seizure or blackout.

If you have experienced seizures or blackouts, or if you have a family history of such occurrences, please consult with your physician before playing video games or enabling a flashing-lights feature (if available) on your phone.

Discontinue use and consult a physician if any of the following symptoms occur: convulsion, eye or muscle twitching, loss of awareness, involuntary movements, or disorientation. It is always a good idea to hold the screen away from your eyes, leave the lights on in the room, take a 15-minute break every hour, and stop use if you are very tired.

Caution About High Volume Usage

Listening at full volume to music or voice through a headset may damage your hearing.

Repetitive Motion

When you repetitively perform actions such as pressing keys or entering finger-written characters, you may experience occasional discomfort in your hands, arms, shoulders, neck, or other parts of your body. If you continue to have discomfort during or after such use, stop use and see a physician.

Service & Repairs

If you have questions or need assistance, we're here to help. Go to www.motorola.com/iden, where you can select from a number of customer care options. You can also contact the

Motorola Customer Support Center at 1-800-453-0920 (United States), 1-877-483-2840 (TTY/TDD United States for hearing impaired).

Export Law Assurances

This product is controlled under the export regulations of the United States of America and Canada. The Governments of the United States of America and Canada may restrict the exportation or re-exportation of this product to certain destinations. For further information contact the U.S. Department of Commerce or the Canadian Department of Foreign Affairs and International Trade.

Specific Absorption Rate Data

ALL MODELS WITH FCC ID AZ489FT5844 MEET THE GOVERNMENT'S REQUIREMENTS FOR EXPOSURE TO RADIO WAVES.

Your wireless phone is a radio transmitter and receiver. It is designed and manufactured not to exceed the emission limits for exposure to radio frequency (RF) energy set by the Federal Communications Commission of the U.S. Government. These limits are part of comprehensive guidelines and establish permitted levels of RF energy for the general population. The guidelines are based on standards that were developed by independent scientific organizations through periodic and thorough evaluation of scientific studies. The standards include a substantial safety margin designed to assure the safety of all persons, regardless of age and health.

The exposure standard for wireless mobile phones employs a unit of measurement known as the Specific Absorption Rate, or SAR. The SAR limit set by the FCC is 1.6W/kg.¹ Tests for SAR are conducted using standard operating positions reviewed by the FCC with the phone transmitting at its highest certified power level in all tested frequency bands. Although the SAR is determined at the highest certified power level, the actual SAR level of the phone while operating can be well below the maximum value. This is because the phone is designed to operate at multiple power levels so as to use only the power required to reach the network. In

general, the closer you are to a wireless base station antenna, the lower the power output.

Before a phone model is available for sale to the public, it must be tested and certified to the FCC that it does not exceed the limit established by the government-adopted requirement for safe exposure. The tests are performed in positions and locations (e.g., at the ear and worn on the body) as required by the FCC for each model. The highest SAR value for this model phone when tested for use at the ear is 1.05 W/kg and when tested on the body, as described in this user guide, is 1.15 W/kg during packet data transmission. (Body-worn measurements differ among phone models, depending upon available accessories and FCC requirements.)²

While there may be differences between the SAR levels of various phones and at various positions, they all meet the government requirement for safe exposure. Please note that improvements to this product model could cause differences in the SAR value for later products; in all cases, products are designed to be within the guidelines.

Additional information on Specific Absorption Rates (SAR) can be found on the Cellular Telecommunications Industry Association (CTIA) web-site at <http://www.ctia.org> or the Canadian Wireless Telecommunications Association (CWTA) Web site: <http://www.cwta.ca>

1. In the United States and Canada, the SAR limit for mobile phones used by the public is 1.6 watts/kg (W/kg) averaged over one gram of tissue. The standard incorporates a substantial margin of safety to give additional protection for the public and to account for any variations in measurements.

2. The SAR information includes the Motorola testing protocol, assessment procedure, and measurement uncertainty range for this product.

Limited Warranty Motorola Communications Products (International)

What Does this Warranty Cover?

MOTOROLA warrants the MOTOROLA manufactured iDEN Communication Products listed below ("Product") against defects in material and workmanship under normal use and service for a period of time from the date of purchase as scheduled below:

Products Covered	Length of Coverage
iDEN Subscriber Digital Mobile and Portable Units	One (1) year from the date of purchase by the first consumer purchaser of the product unless otherwise provided for below.
Product Accesories (manufactured by or under license from MOTOROLA).	One (1) year from the date of purchase by the first consumer purchaser of the product unless otherwise provided for below.
Batteries.	One (1) year from the date of purchase by the first consumer purchaser of the product unless otherwise provided for below.

Rechargeable Batteries will be replaced during the applicable warranty period if:

- the battery capacity falls below 80% of rated capacity, or
- the battery develops leakage.

MOTOROLA, at its option, will at no charge either repair the Product (with new or reconditioned parts), replace it (with a new or reconditioned Product), or refund the purchase price of the Product during the warranty period provided it is returned in accordance with the terms of this warranty. Replaced parts or boards are warranted for the balance of the original applicable warranty period. All replaced parts of Product shall become the property of MOTOROLA.

This express limited warranty is extended by MOTOROLA to the original end user purchaser only and is not assignable or transferable to any other party. This is the complete warranty for the Product manufactured by MOTOROLA. MOTOROLA assumes no obligations or liability for additions or modifications to this warranty unless made in writing and signed by an officer of MOTOROLA. Unless made in a separate agreement between

MOTOROLA and the original end user purchaser, MOTOROLA does not warrant the installation, maintenance or service of the Product.

MOTOROLA cannot be responsible in any way for any ancillary equipment not furnished by MOTOROLA which is attached to or used in connection with the Product, or for operation of the Product with any ancillary equipment, and all such equipment if expressly excluded from this warranty. Because each system which may use the Product is unique, MOTOROLA disclaims liability for range, coverage, or operation of the system as a whole, or any portion of the system not produced by MOTOROLA, under this warranty.

General Provisions:

This warranty sets forth the full extent of MOTOROLA'S responsibilities regarding the Product, Repair, replacement or refund of the purchase price, at MOTOROLA'S options, is the exclusive remedy. THIS WARRANTY IS GIVEN IN LIEU OF ALL OTHER EXPRESS WARRANTIES. IMPLIED WARRANTIES, INCLUDING WITHOUT LIMITATION, IMPLIED WARRANTIES OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE, ARE LIMITED TO THE DURATION OF THIS LIMITED WARRANTY TO THE FULL EXTENT SUCH MAY BE DISCLAIMED BY LAW. IN NO EVENT SHALL MOTOROLA BE LIABLE FOR DAMAGES IN EXCESS OF THE PURCHASE PRICE OF THE PRODUCT, FOR ANY LOSS OF USE, LOSS OF TIME, INCONVENIENCE, COMMERCIAL LOSS, LOST PROFITS OR SAVINGS OR OTHER INCIDENTAL, SPECIAL OR CONSEQUENTIAL DAMAGES ARISING OUT OF THE USE OR

INABILITY TO USE SUCH PRODUCT, TO THE FULL EXTENT SUCH MAY BE DISCLAIMED BY LAW.

How to Get Warranty Service:

You must provide proof of purchase (bearing the date of purchase and Product item serial number) in order to receive warranty service and, also, deliver or send the Product item, transportation and insurance prepaid, to an authorized warranty service location. Warranty service will be provided by MOTOROLA through one of its authorized warranty service locations. If you first contact the company which sold you the Product (e.g., dealer or communication service provider), it can facilitate your obtaining warranty service.

What This Warranty Does Not Cover:

- Defects or damage resulting from use of the Product in other than its normal and customary manner.
- Defects or damage from misuse, accident, water, or neglect.
- Defects or damage from improper testing, operation, maintenance, installation, alteration, modification, or adjustment.
- Breakage or damage to antennas unless caused directly by defects in material workmanship.

- A Product subjected to unauthorized Product modifications, disassembles or repairs (including, without limitation, the addition to the Product of non-MOTOROLA supplied equipment).
- Product which has had the serial number removed or made illegible.
- Rechargeable batteries if:
Any of the seals on the battery enclosure of cells are broken or show evidence of tampering.
The damage or defect is caused by charging or using the battery in equipment or service other than the Product for which it is specified.
- Freight costs to the repair depot.
- A Product which, due to illegal or unauthorized alteration of the software/firmware in the Product, does not function in accordance with MOTOROLA'S published specifications or the local type acceptance labeling in effect for the Product at the time the Product was initially distributed from MOTOROLA.
- Scratches or other cosmetic damage to Product surfaces that does not effect the operation of the Product.
- Normal and customary wear and tear.
- Exclusion for defects or damage arising from use of the products in connection with non-MOTOROLA equipment.

Patent and Software Provisions:

MOTOROLA will defend, at its own expense, any suit brought against the end user purchaser to the extent that it is based on a claim that the Product or parts infringe a patent, and Motorola will pay those costs and damages finally awarded against the end user purchaser in any such suit which are attributable to any such claim, but such defense and payments are conditioned on the following:

- That MOTOROLA will be notified promptly in writing by such purchaser of any notice of such claim;
- That MOTOROLA will have sole control of the defense of such suit and all negotiations for its settlement or compromise; and
- Should the Product or parts become, or in MOTOROLA'S opinion be likely to become, the subject of a claim of infringement of a patent, that such purchaser will permit MOTOROLA, at its option and expense, either to procure for such purchaser the right to continue using the Product or parts or to replace or modify the same so that it becomes non-infringing or to grant such purchaser a credit for the Product or parts as depreciated and accept its return. The depreciation will be an equal amount per year over the lifetime of the Product or parts as established by MOTOROLA.

MOTOROLA will have no liability with respect to any claim of patent infringement which is based upon the combination of the

Product or parts furnished hereunder with software, apparatus or devices not furnished by MOTOROLA, nor will MOTOROLA have any liability for the use of ancillary equipment or software not furnished by MOTOROLA which is attached to or sued in connection with the Product or any parts thereof. In no event shall MOTOROLA be liable for any incidental, special or consequential damages arising from any claim of patent infringement or alleged infringement.

Laws in the United States and other countries preserve for MOTOROLA certain exclusive rights for copyrighted MOTOROLA software, such as the exclusive rights to reproduce in copies and distribute copies of such MOTOROLA software. MOTOROLA software may be used in only the Product in which the software was originally embodied and such software in such Product may not be replaced, copied, distributed, modified in any way, or used to produce any derivative thereof. No other use including, without limitation, alteration, modification, reproduction, distribution, or reverse engineering of such MOTOROLA software or exercise or rights in such MOTOROLA software is permitted. No license is granted by implication, estoppel or otherwise under MOTOROLA patent rights or copyrights.

Hearing Aid Compatibility

A number of Motorola phones have been tested for hearing aid compatibility. When some wireless phones are used with certain hearing aids, users may detect a noise which can interfere with the effectiveness of the hearing aid.

Some hearing aids are more “immune” than others to this interference noise, and phones can also vary in the amount of interference noise they may generate. ANSI standard C63.19 was developed to provide a standardized means of measuring both mobile phone and hearing aids to determine usability rating categories for both.

Ratings have been developed for mobile phones to assist hearing aid users find phones that may be compatible with their hearing aid. Not all phones have been rated for compatibility with hearing aids. Phones that have been rated have a label with the rating(s) located on the box, and at www.motorola.com/accessibility.

These ratings are not guarantees of compatibility. Results will vary depending on the user’s hearing aid and individual type and degree of hearing loss. If a hearing aid is particularly vulnerable to interference, even a phone with a higher rating may still cause unacceptable noise levels in the hearing aid. Trying out the phone with your hearing aid is the best way to evaluate it for your personal needs.

“M” Rating: Phones rated M3 or M4 meet FCC requirements for hearing aid compatibility and are likely to generate less interference to hearing aids than unrated phones. (M4 is the “better” or higher of the two ratings.) On those models with an extendable antenna, this rating is determined only with the antenna extended.

“T” Rating: Phones rated T3 or T4 meet FCC requirements and are likely to be more usable with a hearing aid’s telecoil (“T Switch” or “Telephone Switch”) than unrated phones. (T4 is the “better” or higher of the two ratings.) On those models with a telecoil mode setting, this rating is determined only with the phone so set. For setting instructions, see “Features for the Hearing Impaired” in the section entitled “Advanced Calling Features”. Note that not all hearing aids have telecoils in them.

Hearing aids may also be measured for immunity to interference from wireless phones and may have ratings similar to wireless phones. Ask your hearing health care professional for the rating of your hearing aid. Add the rating of your hearing aid and your phone to determine the estimated usability:

- Any combined rating equal to or greater than six offers excellent use.
- Any combined rating equal to five is considered normal use.

- Any combined rating equal to four is considered usable.

Thus, if you use an M3 phone with a M3 hearing aid you will have a combined rating of six for "excellent use." This methodology applies equally for T ratings.

More information about hearing aid compatibility may be found at: www.motorola.com/accessibility, www.fcc.gov, www.fda.gov, and www.hearingloss.org/learn/cellphonetech.asp

Information From the World Health Organization

Present scientific information does not indicate the need for any special precautions for the use of mobile phones. If you are concerned, you may want to limit your own or your children's RF

exposure by limiting the length of calls or by using hands-free devices to keep mobile phones away from your head and body.

Product Registration

Online Product Registration:

<http://direct.motorola.com/hellomoto/Motosupport/source/registration.asp>

Product registration is an important step toward enjoying your new Motorola product. Registering helps us facilitate warranty service, and permits us to contact you should your product require an update or other service. Registration is for U.S. residents only and is not required for warranty coverage.

Please retain your original dated sales receipt for your records. For warranty service of your Motorola Personal Communications Product you will need to provide a copy of your dated sales receipt to confirm warranty status.

Thank you for choosing a Motorola product.

Wireless: The New Recyclable

Your wireless phone can be recycled. Recycling your phone reduces the amount of waste disposed in landfills and allows recycled materials to be incorporated into new products.

The Cellular Telecommunications Industry Association (CTIA) and its members encourage consumers to recycle their phones and have taken steps to promote the collection and environmentally sound recycling of end-of-life devices.

As a phone user, you have an important role in ensuring that this device is recycled properly. When it comes time to give this phone up or trade it in for a new one, please remember that the phone, the charger, and many of its accessories can be recycled. It's easy. To learn more about CTIA's Recycling Program for Used Wireless Devices, please visit us at:

<http://recycling.motorola.young-america.com/index.html>

California Perchlorate Label

Some mobile phones use an internal, permanent backup battery on the printed circuit board that may contain very small amounts of perchlorate. In such cases, California law requires the following label:

"Perchlorate Material - special handling may apply. See www.dtsc.ca.gov/hazardouswaste/perchlorate."

There is no special handling required by consumer.

Software Copyright Notice

The Motorola products described in this manual may include copyrighted Motorola and third party software stored in semiconductor memories or other media. Laws in the United States and other countries preserve for Motorola and third party software providers certain exclusive rights for copyrighted software, such as the exclusive rights to distribute or reproduce the copyrighted software. Accordingly, any copyrighted software contained in the Motorola products may not be modified, reverse-engineered, distributed, or reproduced in any manner to the extent allowed by law. Furthermore, the purchase of the Motorola products shall not be deemed to grant either directly or by implication, estoppel, or otherwise, any license under the copyrights, patents, or patent applications of Motorola or any third party software provider, except for the normal, non-exclusive, royalty-free license to use that arises by operation of law in the sale of a product.

Privacy and Data Security

Motorola understands that privacy and data security are important to everyone. Because some features of your phone may affect your privacy or data security, please follow these recommendations to enhance protection of your information:

- **Monitor access:** Keep your phone with you and do not leave it where others may have unmonitored access. Lock your device's keypad where this feature is available.
- **Keep software up to date:** If Motorola or a software/application vendor releases a patch or software fix for your phone which updates the device's security, install it as soon as possible.
- **Erase before recycling:** Delete personal information or data from your phone prior to disposing of it or turning it in for recycling. For step-by-step instructions on how to delete all personal information from your device, please contact your local service provider.

- **Understanding AGPS:** In order to comply with emergency caller location requirements of the FCC, certain Motorola phones incorporate Assisted Global Positioning System (AGPS) technology. AGPS technology also can be used in non-emergency applications to track and monitor a user's location, for example, to provide driving directions. Users who prefer not to permit such tracking and monitoring should avoid using such applications.

If you have further questions regarding how use of your phone may impact your privacy or data security, please contact Motorola at privacy@motorola.com, or contact your service provider.

Smart Practices While Driving

Drive Safe, Call SmartSM

Check the laws and regulations on the use of phones and their accessories in the areas where you drive. Always obey them. The use of these devices may be prohibited or restricted in certain areas. Go to www.motorola.com/callsmart for more information.

Your phone lets you communicate by voice and data, almost anywhere, anytime, wherever wireless service is available and safe conditions allow. When driving a car, driving is your first responsibility. If you choose to use your phone while driving, remember the following tips:

- **Get to know your Motorola phone and its features such as speed dial and redial.** If available, these features help you to place your call without taking your attention off the road.
- **When available, use a hands-free device.** If possible, add an additional layer of convenience to your phone with one of the many Motorola Original hands-free accessories available today.
- **Position your phone within easy reach.** Be able to access your phone without removing your eyes from the

road. If you receive an incoming call at an inconvenient time, if possible, let your voice mail answer it for you.

- **Let the person you are speaking with know you are driving; if necessary, suspend the call in heavy traffic or hazardous weather conditions.** Rain, sleet, snow, ice, and even heavy traffic can be hazardous.
- **Do not take notes or look up phone numbers while driving.** Jotting down a “to do” list or going through your address book takes attention away from your primary responsibility, driving safely.
- **Dial sensibly and assess the traffic; if possible, place calls when your car is not moving or before pulling into traffic.** If you must make a call while moving, dial only a few numbers, check the road and your mirrors, then continue.
- **Do not engage in stressful or emotional conversations that may be distracting.** Make people you are talking with aware you are driving and suspend conversations that can divert your attention away from the road.
- **Use your phone to call for help.** Dial 911 or other local emergency number in the case of fire, traffic accident, or medical emergencies.**

- **Use your phone to help others in emergencies.** If you see an auto accident, crime in progress, or other serious emergency where lives are in danger, call 911 or other local emergency number, as you would want others to do for you.**
- **Call roadside assistance or a special non-emergency wireless assistance number when necessary.** If you see a broken-down vehicle posing no serious hazard, a broken traffic signal, a minor traffic accident where no one appears injured, or a vehicle you know to be stolen, call roadside assistance or other special non-emergency wireless number.*
