YOUR ZODIAC DEALER

Established in 1969

Parts and accessories for Harley-Davidson motorcycles from Europe's Largest Warehouse Distributor.

FOR HARLEY RIDERS THROUGHOUT THE WORLD

Zodiac represents 38 years of experience in supplying and distributing the highest quality replacement parts and accessories for Harley-Davidson motorcycles.

Zodiac is a wholesale and Distribution Company and only supplies directly to our list of authorized dealers.

MORE THAN JUST DISTRIBUTION

In the past decades Zodiac has built its reputation as the worlds leading supplier of high quality aftermarket parts, performance parts and accessories for Harley-Davidson motorcycles. We can proudly say that we have set the highest standards for the aftermarket industry. We have always been one step ahead of the competition and continue to do so. We are constantly searching for the best quality products the market has to offer. In 1999 we were the first and in 2007 still the only distributor in the Harley-Davidson aftermarket that is ISO 9002 certified for warehousing, distributing and assembling. This prestigious international industry standard is a guarantee of our continuous quality and excellence. For the year 2007 we have again expanded our product line with thousands of new and exciting items from our own Zodiac brand, our existing suppliers, and a number of new suppliers from the USA, Europe, Japan and Australia.

LOOK FOR THE "NEW PARTS" LOGO

All products that are added to an existing product group are indicated with a small NEW logo at the end of the part number/description line. A total new item will show the NEW logo in the picture.

SUPER SERVICE AND FAST DELIVERY

Our goal is to provide our dealers with the best possible service. Our 40,000 square foot warehouse facility allows us to store over twenty five thousand different items with a value of millions of Euro's. Computerized order processing ensures a dealers order is normally picked & packed and ready to go within 3 hours from ordering. Our shipping service will ensure that:

ORDERS ARE DELIVERED IN 24 TO 48 HOURS *

At most European destinations, but if you are really desperate we offer our:

24 HOUR EXPRESS SERVICE

This service is for European countries only. Customers outside Europe should check transit time through our worldwide tracking system.

ZODIAC'S INVESTMENT IN YOUR FUTURE

The rules and regulations in the European Union are becoming tougher than ever and there are more to come. More and more parts and accessories need E.U. or TÜV approval. That's why Zodiac is investing in you and your customer's future. The 2007 catalog shows many newly approved products.

OUR DEALERS

Zodiac and Zodiac Dealers working together can meet the exact demands of Harley-Davidson and Custom motorcycle riders. In fact, our latest catalog contains the most extensive selection of quality parts and accessories ever assembled for Harley-Davidson and Custom riders. Parts are 100% guaranteed and you can sell them with complete confidence. We encourage you to offer our catalog for sale to your customers. In the hands of your customer, it becomes your most valuable sales tool. It opens up a world of parts and accessories to your customer, with more variety than any single shop can offer. Together, we can help your customer builds the bike of his dreams.

IMPORTANT NOTICES FROM ZODIAC

All motorcycle brand names like Harley-Davidson, etc., as used in this catalog, are used for reference only. It simply implies that these parts can be used on your customer's motorcycle. The products in this catalog are not made by or with the permission of the Harley-Davidson motor corporation or any other motor corporation.

PART FITMENT, INSTALLATION AND LIABILITY POLICY

All parts contained in this catalog must be installed by a qualified mechanic in accordance with the original equipment manufacturers service manual. It is also important that you, as a dealer, make sure the proper part is selected for the right purpose. Refer to the original equipment manufacturers service manual for normal and ordinary maintenance. For their own protection, dealers should inform their customers of this policy. If not ridden or maintained properly, motorcycles can be dangerous. Zodiac therefore expects the retailer/dealer and their customers to exercise good judgement as to the proper selection, installation, use and maintenance of any parts. Zodiac assumes no responsibility for damage or injury of any kind arising from misuse or improper application of any parts in any way by any person. Unless specifically stated, Zodiac has no control over the manufacturing, testing or usage of any part sold, therefore the manufacturer will be responsible for any and/or all claims for damage to person(s) or property arising from design, manufacturing, and testing of its products. In no event will Zodiac be liable for consequential or indirect damages.

FITMENT INFORMATION

We have indicated fitment to the best of our knowledge at the time of print approving. Due to our catalog publication schedule we were unable to confirm all fitment for our products. There are however, many items that will fit a later model than indicated in the catalog. Also check fitment with your Zodiac dealer whenever a part fitment is listed "to present".

Note: It is the dealer's responsibility to make sure the proper part is selected for the right purpose.

THE ZODIAC WEB-SITE

When "Surfing the Net" be sure to visit the Zodiac Web-Site and have a peek at the latest and hottest parts and accessories for the Harley aftermarket. Our web pages show the latest information on:

- Hot new parts
- The European Zodiac network
- The latest news on our Drag-Race team
- New Zodiac project bikes
- Wallpaper to download
- Zodiac's Show attendance
- Links to the Zodiac Race Pages
- Links to magazine sites and other Harley-Davidson related sites of interest

ZODIAC TEAM THREE TIMES EUROPEAN CHAMPION 1992-1996-2004

During the 1992-1996-2004 seasons the Zodiac team wrote history. The Drag Bike ridden by "the Godfather" Ton Pels took the official European title in the "SuperTwin Top Fuel" class as well as claiming the 2004-2005-2006 title of "European SuperTwin Champion of Champions". In 2006 the team took a sabbatical, but is back in 2007. In 2007 Ton's mate and former Top Fuel Champion Roel Koedam will ride the Zodiac SuperTwin. The team will enter all championship races during the 2007 season. The SuperTwin class, dominated by Big Cubic Inch V-Twins, championship is ran over 6 events in England, Finland, Sweden, Norway an Germany.

THE 850+ HORSEPOWER ZODIAC T&V RACING ENGINE

The 174 CI (2850 CC) engine, designed and built by Zodiac's general manager Ton Pels and his son Vincent Pels (T&V Racing) is probably the most reliable Drag Race engine on the planet. During the last racing season it did not break any parts, it just needed maintenance, in fact the engine did not come out of the frame during the whole season. The engine produces 850+ Horsepower at the rear wheel at 4600 RPM and more torque than a 15 ltr. lorry diesel engine. A large number of parts used to build the engine come from the Zodiac catalog. The "plain" bearing engine has 4.600" bore and a 5.250" stroke. The fuel consumption is approx. 8 liter on the quarter mile (about 20 liter per kilometer!!)

CHANGES FOR THE 2007 SEASON

For the 2007 season the team produced 9" long connecting rods and longer hardened steel cylinders to take away some side trust in the engine. The engine produces more power than most tracks could handle during the last race season and the T&V built chassis performs like it is supposed to. Also there will be some experimenting with variable timing ignition system.

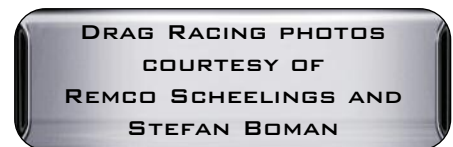

RESULTS AND AWARDS OF THE ZODIAC TEAM

- 2004:** FIM/ UEM European Championship: European Champion
- 2003:** FIM/ UEM European Championship: Vice Champion
- 2002:** FIM/ UEM European Championship: Third Place

IMAGINE THIS IF YOU CAN!

- A thundering V-Twin lifts the front wheel at the start line and with a deafening roar hurtles down the quarter mile, never to touch the asphalt again until past the finish line. Acceleration from 0 - 60 MPH in less than one second and from 0 - 210 MPH in less than 6.60 seconds! Who wouldn't like to witness that? Well you can! Go to one of the Drag Races listed below and you will have the time of your life. Enjoy the smell of burning rubber fermented with the nose-tickling, eye-watering smell of burnt NITRO!

PROVISIONAL RACE CALENDAR FOR 2007

Santa Pod (UK) Easter Thunderball	6 - 9 April
Santa Pod (UK) The Main Event	25 - 28 May
Alestaro (Finland) Nitro Nationals	28 June - 1 July
Mantorp Park (Sweden) Veidec Festival	26 - 29 July
Gardemoen (Norway) Drag Challenge	2 - 5 August
Hockenheim (Germany) Nitro Challenge	17 - 19 August
Santa Pod (UK) European Finals	6 - 9 September

The owner of the bike is Zodiac's General Manager Ton Pels. After 35 years he ended his active racing career in 2005. This is definitely the longest Drag Racing career in Europe (probably in the world). He's considered to be the most experienced Drag Racer in Europe and has his (not without reason acquired) nickname "The Godfather" of SuperTwin Drag-Racing, to prove this. Ton and his son Vincent (T&V Racing) have built 7 editions of the "Godfather" SuperTwin Drag Bike and are working on the 8th one! For the 2008 season they are working on completely new concepts, a 1680 cc Supercharged Monster.

On the way to another no.1 Qualifying pass at Hockenheim, Germany

BIKE SPECS "GODFATHER"

Engine:

Bore: 4.600"
 Stroke: 5.250"
