## **TERMS and CONDITIONS**

*Our office will be staffed from 0800 to 1630 ET, Monday thru Friday. We have a toll-free number, 1-800-624-5312. We accept MasterCard or Visa. We will ship all ground packages UPS unless other instructions are requested. Packages being shipped Air Express will be shipped Via Federal Express or UPS, which ever is least expensive. If you are in the Midwest area, you are welcome to fly in or drive in to the Fox River Airport (96C), Rochester, WI.*

*Prices are FOB shipping point. Terms are cash with order, credit card, or COD. Additional handling/packing fees will be added for oversize and fragile items. Canadian orders require 20% (\$11.00 min.) for shipping/handling. (prices are for ground UPS shipments. Canadian orders are also subject to Brokerage/Custom fees charged by Canadian Authorities. Air Shipment Orders require an additional charge.) We CANNOT ship COD to Canada. Sales tax is applicable in Wisconsin. Some parts are subject to an additional CORE charge. Full refund of CORE charge is based on a part that can be rebuilt as determined by the approved Repair Station/Vendor.*

**HOW TO ORDER:** Please be sure to include with your order:

- A. **Your Complete Address** with zip code - a street address is necessary for UPS delivery and a phone number where you can be reached during the day for delivery or if there is a problem with your order.
- B. Model, Serial Number, and "N" Number or CF registry of the aircraft. This information is **MANDATORY WHEN ORDERING AN STC'D ITEM!**
- C. **Part Number**, Full Description, LH or RH (from pilot's position) if applicable, and the quantity needed.
- D. Method of Payment - check, Money Order, credit card, or we will automatically ship COD. Sorry - we CANNOT ship COD to Canada or any other non United States Territory. Your credit card statement will show charges to "Fox River Aviation/SS".

There is a \$15.00 minimum on each order (shipping not included) and a \$5.00 minimum shipping charge for all shipments. There is also a \$6.75 charge for any COD shipments. Orders placed before 11:00 am Eastern Time will normally be shipped the same day. These items are indicated in this price list with a "(OS)" symbol. "(OST)" indicates TRUCK Freight only. On orders requested or requiring truck shipping, customer relieves shipper of any responsibility for any damage incurred in transit. It is the customer's responsibility to file any claim with the freight company.

Please inspect all items upon receipt. If for any reason you are not satisfied with your parts, please contact us promptly for credit authorization. NO refunds on electrical components.

**ALL RETURNS MUST BE MADE WITHIN 30 DAYS OF RECEIPT AND MUST INCLUDE A COPY OF THE ORIGINAL INVOICE AND REASON FOR RETURN. THERE IS A 20% RESTOCKING CHARGE ON ALL RETURNS.**

**OUR SHIPPING ADDRESS IS:**

Skyport Aircoupe Services, Attn: John Cooper  
P.O. Box 249  
4996 Delaware Tnpk  
Rensselaerville, NY 12147

**Price list catalogs are updated annually in July  
ALL PRICES ARE SUBJECT TO CHANGE AT ANYTIME WITHOUT NOTICE**

*Revision Date: May 2005*

**TABLE OF CONTENTS**  
**MAY 2005**

The appended price list catalog covers the most frequently required parts, kits, and literature. If what you need is not included, please let us know. We will probably have it in stock or be able to locate it for you.

**\*\* REPLACEMENT ITEMS for STC-FAA-PMA ELECTRIC FUEL PUMP  
(SMK-49FP, page 8 & SMK 68 thru 71; 30 GALLON FUEL SYSTEM page 14)**

**30-GALLON FUEL SYSTEM**

**30-GALLON FUEL SYSTEM GENERAL INFORMATION  
STC FOR ALL 415, FORNEY, ALON AND M10 COUPES  
S/N 813 & ABOVE\* STC-FAA-PMA**

**KITS: SMK-68, SMK-69, SMK-70 or SMK-71**

*When you order the 30-gallon fuel system from Skyport Services, you will receive all necessary instructions for removal and installation. We have had the systems in many of our Couper's planes for over ten years with thousands of hours of flight time. We have over 40 installations with excellent results. We estimate it will take the first timer approximately 50 to 60 hours or six (6) days to complete installation. The first two days are for removal of old system. Third through fifth days are for mounting new system, with the final day for finishing installation and testing.*

*You will receive all the necessary fuel lines, fittings, clamps and brackets. A new electric standby fuel pump\*\*, and a new fuel shut off valve is included. We have made every effort during prototyping to make a "standard" system, however it is recognized that over the years no two Coupes are alike. Therefore, credit will be allowed for any un-used new parts that do not "fit" into your system or where you found duplication with old parts as specified by the instructions and /or drawings. Skyport Services will also allow a core credit for your three old tanks. Credit will be based on the condition of your old tank, with a minimum of \$25.00 each for unusable tanks and up to \$100.00 for a good condition header tank, and up to \$125.00 each for a good wing tank. Turnplate, patched tanks or poorly sealed tanks will receive minimum credit each.*

*If you have a Stromberg NAS3A1 carburetor, you will have to change the 383911 standard seat with a 384585 seat that has a .113 hole, because the new system operates at a greater fuel pressure. The 384585 seat is available from SKYPORT. No changes are necessary if you have a MARVEL-SCHEBLER MA-3SPA. If you have converted to an O-200 engine, the engine must have an engine driven fuel pump. All other Ercoupes have engine driven fuel pumps. If you have the original LH Wing Tank Fuel gauge assembly, reuse that. This original fuel gauge is no longer available through normal supply sources. Conversion to other fuel gauges offered on the open market will require field approval via form 337.*

*We feel this installation deserves serious consideration because it will eliminate the safety hazards caused by the header tank. It will give you extra fuel capacity and much needed room behind the panel. There is no effect on automotive fuel STC. Unusable fuel is less than 5%.*

\* See page 15 for more information.

\*\* See page 13 for replacement filters & gaskets for this fuel pump.

## SMK-77, SMK-78 and SMK-79

### INSTRUMENT PANEL MODIFICATION KITS

**HAPPINESS IS** *Having all INSTRUMENTS right in front of you. Our NEW "ALON STYLE" Instrument Panel fits all Models of ERCOUPES or FORNEYS ... Provides plenty of space for a full Gyro set-up. The "BASIC SIX" Flight Instruments can be grouped on a separate STANDOFF PANEL, right where they belong ... directly in front of the pilot. The bottom edge of PANEL is 1 3/4" LOWER -(13.75" high on center line) than original to permit PANEL mounting of RADIO.*

Fabricated from .050" thick ALUMINUM (Same as original panel). **NOT AN OVER-LAY.** Furnished Blank, except for CONTROL SHAFT HOLES. Layout & Instructions provided. Kit includes FIBERGLASS GLARE SHIELD for flight group instruments and RAISED FLIGHT GROUP PANEL.

SMK-77..... (OS) \$ 185.30

**NOTE: You must have BUBBLE WINDSHIELD installed to accommodate this kit because of GLARE SHIELD HEIGHT.**  
\*Glare Shield comes sanded & primed. Deduct 15% from the Glare Shield price if you wish to do that task yourself and receive it just as it comes out of the mold.

**ALSO AVAILABLE** *Panel (Same as above, but does not include the separate FLIGHT GROUP PANEL or GLARE SHIELD). Furnished blank, except for CONTROL SHAFT HOLES.*

**BUBBLE WINDSHIELD NOT REQUIRED** *for SMK 78, oversize panel only.*

SMK-78	OVERSIZE PANEL Only.....	(OS) \$ 137.45
KE2-540-9	FLIGHT GROUP PANEL Only.....(From SMK-77) .....	\$ 41.25

SMK 98	BRAKE RESERVOIR REPLACEMENT (For all brake systems) (STC-FAA-PMA) .....	\$ 76.95
SMK 115	NEW BELLEVILLE SPRING CONVERSION KIT (Approved for S/N: 813 and up).....	\$ 532.50

\* This rebuilt SCOTT Master Cylinder will be ideal for those older GOODRICH Brake Systems factory installed on Serial Numbers 1-812 and also on later Ercoupes and Forneys (Serial Numbers 813 and newer) with factory installed GOODYEAR Systems.

*However, and in any case you should ensure that the wheel brake linings discs and “O”-rings are like new and the system operates efficiently save replacement of a leaking or weak Master Cylinder*

\*\* The NEW Skyport FAA-PMA replacement Master Cylinder installation will give outstanding results when coupled with a CLEVELAND Wheel Brake System installation. This is the most perfect combination you can have.

Excellent system operation can be achieved with GOODYEAR brakes installed provided that the linings & discs are near new. If this is not the case, order SMK-20 instead.

However, if you have GOODRICH Brakes, SMK-88 will not work, order SMK-20 only.

### WHEEL PANTS KITS include everything you need to install.

------------	------------------	----------------

**Specify type of MAIN GEAR when ordering and also if you have CLEVELAND BRAKES.**  
New simplified design is stronger, lighter and easier to install.

**Not compatible with Landing Light Kits that install on gear legs.**

Flared wheel openings permit easy access to tire valves with no sacrifice in stream lining.

**Main gear fairings are fully articulated and remain level at all times. Strut action is not restricted.**  
Increase cruise speed 3 MPH. No affect on aircraft trim, control or C.G.

**No sturdier fairing is made!**

Basic fairings are fabricated of a combination fiberglass mat and cloth impregnated with Polyester Resin.  
Ready for final finishing, paint and trim.

**Kit includes necessary components for immediate installation. Parts simply bolt on. Fiberglass units shipped filled, sanded and primed. DEDUCT 15% if you do not wish to have this done for you prior to shipment.**  
Oversized Shipment Required (OS)

## Cover Photo

Credit for our May 2005 cover photo goes to Alan Fairclough of Kingwood, Texas, who owns this Ercoupe serial number 506 circa 1946. Production ended for this series with serial number 812.

This Ercoupe is seen sitting the late afternoon Texas sun. Alan sent this photo on CD along with other photos and text. They will be the fledgling start to a SKYPORT WEBSITE which is still in development.

Thanks Alan.

## Play it cool...with the Super Bowl!

If your 'coupe is getting hot under the cowl, the FIBERGLASS BOWL may be the answer to your problems. Larger "gills" improve cooling of the cylinder heads, and the recessed intake below the prop assures a constant flow of cool ram air along the bottom of the crankcase and to the oil sump. No loss in performance.

\* Straight from the mold - un-sanded and un-primed - you'll sand and prime after fitting

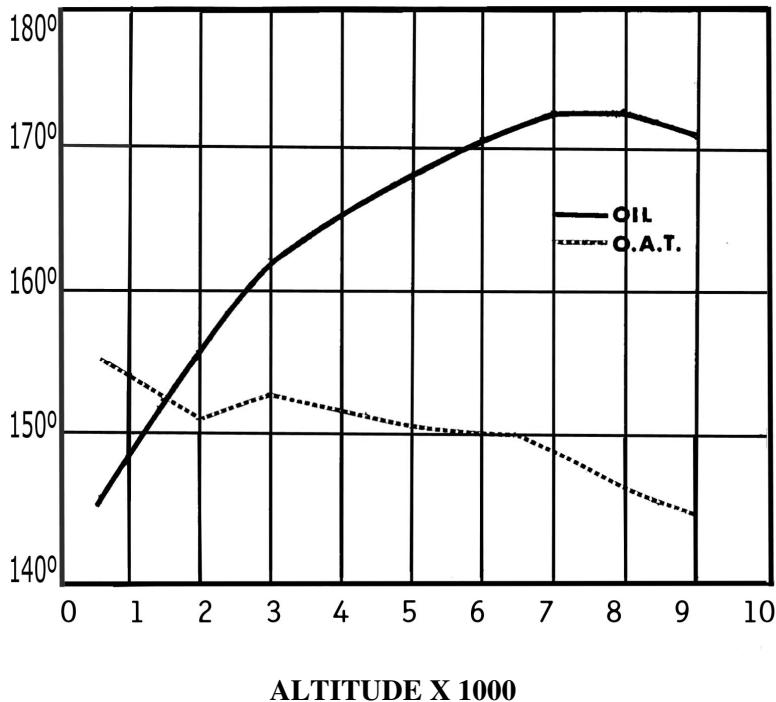

KIT NO. SMK-72

**\$ 329.00**

KIT NO. SMK-73

(With cabin air fitting)

**\$ 354.00**

### FAA TEST RESULTS

Aircraft: Ercoupe 415CD  
Engine: Continental C-90  
Wt. @ T/O: 1478 lbs.  
Field temp: 71°F  
Field altitude: 63 ft.  
Climb range: 600' to 9000'  
Power setting: Full throttle  
Climb speed: 70 mph  
Time to climb: 26 min.  
Max oil temp.: 173°F  
Max cyc. head temp:  
#1: 461°F  
#2: 454°F  
#3: 414°F  
#4: 359°F  
(max. allow = 525°F)

Fully approved and STC'd by the FAA (Requires 337). Quality crafted of fiberglass mat and cloth, laminated in flame retardant resin. Finished in Gel-Coat. No increase in weight. No increase in aerodynamic drag. Shipped via UPS Oversize.
