Guia de Instalação das Impressoras no Sistema Operacional Linux Instituto de Física – UFRGS Setor de Informática – 2013

Este documento descreve como instalar as impressoras da rede do IF-UFRGS no Linux.

O CUPS e o HPLIP devem já estar instalados no sistema. Se você não possui acesso como superusuário ao seu computador, consulte o administrador do sistema.

1- Verifique se o CUPS está inicializado, com o comando:

\$ service cups status

2- Abra em seu navegador o endereço localhost:631.

CUPS and the CUPS logo are trademarks of Apple Inc. Copyright 2007-2013 Apple Inc. All rights reserved.

3- Na aba *Administration*, clique em *Add Printer*.
