

Additional Product Information

Attention Windows Mobile® Phone Users:

Audio enhancement settings on your Windows Mobile phone may reduce the quality of your T505/T501 music experience. For Motorola Q series phones, consult the user guide to set **surround sound** or **spatial audio** to ZERO (0) or OFF.

General Usage Tip:

Some phones may not respond to the T505/T501 Call button while playing music. If this is your experience, please pause your music before initiating a call with the T505/T501.

MOTOROLA and the Stylized M Logo are registered in the US Patent & Trademark Office. Windows Mobile is a registered trademark of Microsoft Corporation in the United States and other countries. All other product or service names are the property of their respective owners.
