

GENERAC[®]
POWER SYSTEMS, INC.

PORTABLE

generators

life is **better**
with power

The most trusted name in home standby generators now introduces its new portable line up. From home use to camping, construction, or outdoor events, these rugged and reliable generators are available in sizes up to 17500 Watts.

Better **power.** More choices.

Supply your project or occasion with dependable portable power from Generac. Better power. More choices. One manufacturer.

Generac Power Systems.

XP series

XP Series: 4000 - 16000 Watts

Featuring Generac's OHVI® engine, the professional grade XP Series of portable generators has been engineered for high performance. Durable construction with oversized full wrap frame tubing and impact resistant corners minimizes damage from rough handling. These rugged units include:

- True Power™ utility quality electrical output for sensitive electronics
- Hour meter with maintenance resets
- Covered outlets for protection from the environment
- Steel fuel tank with incorporated fuel gauge
- Start/stop, fuel shut-off and choke controls conveniently located on outlet panel
- Low-tone mufflers for quiet operation
- Locking fold-down handles and never flat wheel kit
- Circuit breaker outlet protection including dual breakers on 120/240V outlets
- Idle control on XP10000E & XP16000E
- Cord set included with XP4000, XP6500E and XP8000E
- Electric start with starting battery standard on XP6500E, XP8000E, XP10000E, & XP16000E
- External battery charge jack on electric start models
- Maintenance kit

GP series

GP Series: 5000 - 8000 Watts

Easy to use in a variety of applications, our GP series of portable generators offers affordable reliability. Standard features include:

- GP7000, GP7000E, GP8000, & GP8000E models feature the Generac OHVI engine
- Hardened steel tube cradle
- Steel fuel tank with incorporated fuel gauge
- Locking fold-down handles and wheel kit
- Low-oil shutdown
- Hour meter with maintenance resets
- Circuit breaker protected outlets
- Low-tone mufflers for quiet operation
- Electric start with starting battery standard on GP7000E & GP8000E

ULTRA SOURCE

Ultra Source: 15000 Watts & 17500 Watts

Two of the most powerful portable generators on the market offering the best value in the business. Generac portable generators are ideal on the job site, as an emergency source of electricity at home or for commercial applications.

- Generac OHVI engine
- 16-gallon fuel tank provides up to ten hours of run time at half load
- Breakthrough design means our 17500 watt unit can start a variety of central air units
- Idle control increases fuel efficiency
- Electric start with starting battery included
- Maintenance kit, heavy duty wheel kit and lifting eye included
- Manual transfer switch with built-in load center protects up to 16 circuits (included with 17500 watt model)

OHVI engine

OVERHEAD VALVE INDUSTRIAL ENGINE

Generac is renowned for the quality and durability of its overhead valve industrial engine. Engineered for heavy duty applications in automatic standby generators, select portable models now feature the same reliable engine.

- Full pressure lubrication and spin-on oil filter
- Longest engine life in the industry
- Low-oil pressure shutdown
- Longest oil change service interval – runs 200 hours between oil changes
