

03.02.00

This Quick Guide is a generic guide for all Nokia 88xx series and 8210 phones. When you are asked to select the			
modem you will see Nokia ****, please select one of the following:			
Nokia 8810	Nokia 8810		
Nokia 8850	Nokia 8850		
Nokia 8210	Nokia 8210		

Quick Guide to Using your Nokia Phone with Carbon Copy 5.0

SETTING UP YOUR NOKIA PHONE TO WORK WITH CARBON COPY 5.0 AS A FAXMODEM

If you haven't yet installed Carbon Copy 5.0 please do so before continuing and check also that you have the Nokia Phone installed and that it works as a modem (I e in Dial-Up Networking).

- 1. Connect your Nokia Phone via infrared to your computer and start Carbon Copy 5.0
- 2. Now go to **Options Communications** and select the **appropriate modem** as one of your connection types, so that you are able to receive data calls from another computer using Carbon Copy (Figure 1).

Figure 2. Creating a new connection.

4. Carbon Copy will now configure your Nokia phone to work as a faxmodem. Just fill in the required fields and remember to select the correct modem (Figure 3).

Figure 3. The first three steps towards creating a new connection.

7. The final two steps to completing your new connection are as follows: in the first dialog box you are asked to select the utilities to start when a connection to a remote computer is established and in the last one just click **Finish** (Figure 4).
