1. GENERAL INSTALLATION INSTRUCTIONS

Perform the following steps in order to install the Contact Download Application for the Nokia 810 car phone, the Nokia 610 car kit phone or Nokia 616 car kit:

1. Download the application from www.nokia.com to your mobile phone.
 - There are different versions of the application, running on different phones. Please select the application matching your mobile phone.
 - There are different ways to download the application to the mobile phone. Usually the application is first downloaded to a PC, then to the mobile phone. Depending on the capabilities of the mobile phone and the PC, use one of the following methods:
 - Bluetooth
 - Infrared
 - USB
 - MMC

Alternatively, the application may be downloaded directly using the mobile internet.

See Section 2 for more detailed information, and consult the user guide of your mobile phone and PC.

2. In case you have a Nokia 610 or Nokia 810, remove previous pairings of your mobile phone with the car kit phone or car phone. This is not necessary with the Nokia 616 car kit.
3. Install the Contact Download application on your mobile phone. The application is now available in the inbox of your mobile. Store it on your mobile phone, and the installation starts automatically. Read and appropriately answer all questions.
4. Start the application
5. In some versions, you are asked if you want the application to start every time the phone is switched on.
6. If Bluetooth is switched off, confirm the question to switch Bluetooth on.
7. To pair your mobile phone with the Nokia 810 car phone, enable Bluetooth technology on your mobile phone, and follow the instructions in the user guide of the Nokia car product.

For downloading the contacts from your mobile phone to your car kit or car phone please follow the instructions in the user guide of the car kit or car phone.

For further information on the use of the car kit or car phone and your mobile phone please consult the relevant user guides

2. DOWNLOAD THE APPLICATION TO THE MOBILE PHONE

Please select a method that fits the capabilities of your mobile phone and PC.
