HP Scanjet 4890 Photo Scanner

HP Scanjet
Photo Scanner series

Everything old is new again

Remember that stack of black-and-white and colour snapshots, faded portraits and negatives stored away in boxes or even photo albums?

Photos of your first birthday party, graduation, wedding and new baby... wouldn't it be great if you could bring them back to life in all their former beauty and preserve them in a digital format for future generations?

Now there's an ultra-fast, simple and rewarding way to do all this and more with the new HP Scanjet Photo Scanner series.

HP Scanjet 4370 Photo Scanner

What HP's new scanner series can do for your photos and documents

Whether you're scanning photos and artwork to share with family members, or creating a digital archive of important documents, HP's new super fast scanners are the quickest and easiest way to preserve your photos and documents for years to come.

Get ready to discover a world of digital scanning possibilities right at your fingertips. With up to 4800 x 9600 dpi, 10-second* scanning capabilities and proprietary HP Real Life technologies, you can be sure of professional results with HP's new Scanjet Photo Scanner series.

Preserve your memories and documents

Decades-old traditional photo negatives, 35mm slides or documents can now be scanned and preserved as beautiful photo reprints or text files in seconds.

Original quality reprints

Cherished old family photographs that have stains, yellowing, holes, creases, or other defects can be easily repaired and restored to their former, original glory with HP Real Life technologies.

¹ Scan speed tests were performed on a 1.7GHz HP Vectra PC with 256MB of RAM and Windows® 2000.
² The maximum dpi at which you can scan is limited by available computer memory, disk space and other system factors.

* Speed at about 10 seconds per image for scanning of multiple images into individual files, based on HP internal testing of comparable scanner products available as of April 2005.

HP Scanjet 4890 Photo Scanner

World's fastest

Fast and efficient scanning

Scan multiple images into individual files in about 10 seconds per image* plus preview them quickly too. Four easy-to-use one-touch buttons let you effortlessly perform several tasks including scanning, copying and emailing. Patented HP Instant-on Technology lets you start up the scanner instantly at the touch of a button.

Professional quality results

Get scans that look true to originals with scanning resolution at 4800 x 9600 dpi and 48-bit colour. Plus, you can make beautiful reprints that look just as great as the originals.

What HP Real Life technologies* can do for your photos, negatives and slides

Old, faded photo

Restored to original clarity with HP Real Life technologies

Restore and enhance your old photos

With HP Real Life technologies, you can now easily restore colours to old, faded photos by enhancing the focus, contrast and sharpness of the scanned images. This way all your priceless memories can be brought back to life again.

Dust and scratch removal

HP Real Life technologies' scanning software helps remove the appearance of dust or scratches on scanned images so you can restore old or damaged photos to their original beauty.

Old, damaged photo

Restored photo without scratches

Red-eye caused by flashlights

Corrected photo with red-eye removed

Red-eye removal

Simply select the automatic red-eye removal function for immediate correction of photos.

Adaptive lighting

Turn on adaptive lighting to brighten darker areas and bring out details normally lost in poorly lit or shadowy photos, so your photos will look more vibrant and life-like.

Details lost in shadows

Hidden details brought to light with adaptive lighting

TMA capacity Photos x 2 - 4 • Negatives x 30 • Slides x 16

Resolution 4800 x 9600 dpi

* HP Real Life technologies is not available for HP Scanjet 2400.

HP Scanjet 2400

Digital Flatbed Scanner

Scan photos, negatives, slides, documents and more at high resolution with this easy-to-use, affordable scanner.

Easy to use

The HP Scanjet 2400 Digital Flatbed Scanner features a one-touch front panel that lets you quickly and conveniently send scans to your computer, without using the computer keyboard.

Scan more than photos

You can also make great scans of 3-D objects at up to 1200 x 1200 dpi and 48-bit colour, turning cherished mementos into digital images that can be shared with family and friends.

Faster connectivity

For quick and simple transfer of scans to PCs, its USB port allows fast and simple plug-and-play connection to PCs – compatible with USB 2.0 specifications.

TMA capacity No TMA available
Resolution 1200 x 1200 dpi

multiple image scanner*

With the high performance HP Scanjet 4890 Photo Scanner, you can quickly scan multiple images into individual files, about 10 seconds per image*.

Scan stacks of negatives at one go

Using the built-in Transparent Materials Adapter (TMA) for your negatives and slides, you can quickly and easily scan up to 30 negative frames (35mm) or 16 slides (35mm), or scan up to four 4 x 6-inch photos, at one time. The scanning bed also accommodates a wide variety of photo sizes for efficient, one-touch scanning.

Exclusive HP software

HP Image Zone Photo and Imaging Software helps you easily edit, organise and enhance your digital photos. You can also edit text from scanned documents using I.R.I.S. ReadIris OCR software.

* Speed at about 10 seconds per image for scanning of multiple images into individual files, based on HP internal testing of comparable scanner products available as of April 2005.

HP Scanjet 4850

Photo Scanner

World's fastest scans of multiple images*

For quick and easy scanning, the HP Scanjet 4850 Photo Scanner lets you restore stacks of photos, negatives and slides at the fastest possible scanning speed.

Fast, easy scanning

Experience superior scans at breakthrough speed right at home! Scan multiple images into individual files in about 10 seconds per image*. Four easy-to-use one-touch buttons let you perform several tasks including scanning, copying and emailing with HP Instant Share.

Multiple scanning made easy

Scan up to four 4 x 6-inch photos, six negative frames or four slides at one time with the built-in negative/slide adapter. You can also restore old and damaged photos back to their original beauty easily, with HP Real Life technologies.

Impressive image quality

Preserve your memories, old and new, with high quality scans at an amazing 4800 x 9600 dpi resolution and 48-bit colour for true-to-life original reproductions.

* Speed at about 10 seconds per image for scanning of multiple images into individual files, based on HP internal testing of comparable scanner products available as of April 2005.

TMA capacity Photos x 2 - 4 • Negatives x 6 • Slides x 4
Resolution 4800 x 9600 dpi

HP Scanjet 4370

Photo Scanner

With the HP Scanjet 4370 Photo Scanner, anyone can preserve their cherished photos, negatives and slides in just one click, for brilliant colour reprints every time.

True-to-life photo and document scans

Get true-to-life scans of photos, documents and more at 3600 x 7200 dpi resolution and 48-bit colour. Also scan important documents to create PDF files and get the same crisp text as the original.

Saving treasured memories

Scan up to four 4 x 6-inch photos, two negative frames or two 35mm slides at one time, then touch the scanned images up with HP Real Life technologies.

Easy to scan, copy and share

Get started with any of the four easy-to-use, one-touch buttons that make it easy to scan, copy and even e-mail photos, without large email attachments – thanks to HP Instant Share. You can also get fast preview scans easily.

TMA capacity Photos x 2 - 4 • Negatives x 2 • Slides x 2
Resolution 3600 x 7200 dpi
