

PICS 2 PC

USB PICTURE SCANNER

Turn all of your pictures, slides, and negatives into digital images.

PICS 2 PC makes it easy and fun to rediscover your photo prints, slides, and film negatives on your computer. Incredibly fast, one-touch scanning and a single-cable connection make PICS 2 PC perfect for archiving your memories, your family's memories and your friends' memories! Just install the included software on your computer, connect PICS 2 PC using the standard USB cable, and you're ready to reacquaint yourself with your old pictures. Outstanding attention to quality ensures that you can capture all of the color and detail in each one of your slides or negatives. Enjoy your precious memories every day and share them with PICS 2 PC.
