GETTING STARTED

TURNING THE PHONE ON
To turn the phone on:
- Press and hold the **Lock Key**.
- When a signal is found, the day and date appear onscreen.

Note: Activate the device before attempting a call.

CALIBRATING THE TOUCHSCREEN
Calibration adjusts the touchscreen so it correctly locates your touch.
- From the **Main Menu**, touch **Settings**.
- Touch **Phone Settings**.
- Touch **Calibration**. Calibration screen appears.
- Touch **OK** to start the process.
- With the stylus, press the center of each of the five onscreen crosses in sequence.

Note: A stylus is included with the Finesse.

USING THE HELP WIDGET
From your Widget Bar, drag and tap the **Help Widget**. Choose one of the features. For example, touch **Camera**. A screen with helpful hints will appear. Touch the screen to move onto the next hint. Touch the **Up Arrow** in the left hand corner of the screen or the **Clear/Back Key** to go back a page.

PLAYING MUSIC
- Make sure a microSD™ card is installed.
- From the Menu screen or from the Shortcuts Bar, touch **Music Player**.
- The Music Player screen appears.
- Touch the **Music Library Button** in the upper left hand corner of the screen.
- Select **All Tracks**.
- Touch a music file and it will begin playing.

LAUNCHING THE WEB BROWSER
- Touch the **Menu Soft Key**.
- Touch **MetroWEB**.
- The MetroWEB screen appears in landscape mode on the display with a list of categories representing one or more websites.
- Touch a category and then touch the specific website desired or touch the web address box and use the keyboard to type in the desired website.
- To exit the browser, press the **End Key**.

METRONAVIGATOR
Access to turn-by-turn directions, local searches, movies & events and more. To find a movie playing near you:
- Touch **Menu** and then select **metroNavigator**.
- The application will go through the initial authentication and settings.
- A MetroNavigator screen with Menu Options will appear. Touch **Movies & Events**. Select **Movies**.
- Double tap on the highlighted field that says "**What**" and enter the movie name. Then touch **Find**.
- The application will search for your movie. Once it appears, touch the movie name and a synopsis will appear. Select **Find** to locate theatres nearby playing the selected Movie.

Note: Plan and service fees may apply.

HANDWRITING TEXT
For faster text entry, you can handwrite directly on the Finesse™. Choose **Handwriting Full** from the drop down menu in the top right hand corner of the Text screen. Proceed to write directly on the display with your fingertip or the stylus.

WHY SAMSUNG?

ABOUT SAMSUNG TELECOMMUNICATIONS AMERICA
Samsung Telecommunications America, LLC, a Dallas-based subsidiary of Samsung Electronics Co., Ltd., researches, develops and markets wireless handsets and telecommunications products throughout North America and is currently #1 in mobile phone sales in the U.S.
For more information, please visit www.samsungwireless.com.

ABOUT SAMSUNG ELECTRONICS COMPANY
Samsung Electronics Co., Ltd. is a global leader in semiconductor, telecommunication, digital media and digital convergence technologies with 2007 consolidated sales of US$105 billion. Employing approximately 150,000 people in 134 offices in 62 countries, the company consists of two main business units: Digital Media & Communications and Device Solution. Recognized as one of the fastest growing global brands, Samsung Electronics is a leading producer of digital TVs, memory chips, mobile phones and TFT-LCDs. For more information, please visit www.samsung.com.

TIPS & TRICKS

TIP #1: WIDGETS
- Tap the **Widget Bar**, located on the left side of the Main display to open the Widget (quick access) Bar.
- Tap the **Widget Bar** tab again to close it.

Undocking Widgets
You can easily customize the Widget Bar by either keeping these mini-apps docked within the bar itself or undocking them and dragging them anywhere onto your Main display.
- Touch and hold the widget of your choice.
- While still holding the widget, in a single motion drag it over to the new location and release your finger from the screen. The application is now located in another menu or, as in this example, on the Main display.
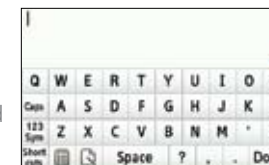

TIP # 2: SHORTCUTS BAR
Tapping the top line of the display pulls down a four-icon Shortcut Bar that contains shortcuts for messaging, web browser, music player, and Bluetooth®. Simply touch the appropriate icon to open its application.

TIP #3: USING THE VIRTUAL QWERTY
The virtual QWERTY Keyboard will always appear in browser mode. To use the QWERTY for messaging, simply touch the text entry display and the keyboard will appear.

TIP #4: TAKING PICTURES
Press and hold the **Camera Key** on the right hand side of the phone.
- The Viewfinder appears on the screen.
- Point the camera at the subject and press the **Camera Key**.
- Press **Save** to store the image.

Note: You can change the camera settings by touching the icons on either side of the viewer. You can also tap on the display to hide the icons and tap again to show them. Tap **Mode** to toggle between camera and camcorder.

TIP #5: GPS
To turn the GPS location setting on:
- Touch the **Menu Soft Key**.
- Touch **Settings** > **Location**.
- Use the **Navigation Key** to highlight **Location On** and touch **OK**.

TIP #6: ADJUSTING THE VOLUME
In Idle mode, press the **Volume Key** on the left side of the Finesse™ to adjust the volume. A Volume and Volume FB tab will appear. Touch **Volume** to adjust Volume Settings or **Volume FB** to adjust your Feedback Settings. You can use the **Volume Key** or touch the onscreen dial to make adjustments.
