

CONTRACTOR SOURCING APPLICATION (CSA)

Educación para proveedores

Agenda

- CSA general
- CSA principales características
- CSA estatus
- CSA e-mails
- Los archivos adjuntos y Navegadores
- CSA log in / referencias URL
- Demostración de solicitudes CSA
- Capturas de pantalla de CSA
 - Navegación
 - De principio a fin, cómo ver y responder a una solicitud. Otras funciones fundamentales.
 - Como solicitar acceso para usuarios adicionales.

CSA General

- **Contractor Sourcing Application (CSA)**

- Esta aplicación se utiliza para comprar servicios de consultoría, educación y técnicos de los proveedores. Se basa en la configuración de cada país.
 - Aplicaciones basadas en Intranet e Internet:
 - Los solicitantes crean una solicitud en la red interna de IBM (Intranet) para enviarla a los proveedores.
 - Se notifica a los proveedores configurados a través de correo electrónico para que revisen la solicitud y presenten su respuesta.
 - Los solicitantes de IBM son notificados de las respuestas del proveedor y acceden a intranet para revisar y seleccionar las respuestas para cargar en Bond las órdenes de compra para su aprobación y publicación.
 - CSA para los proveedores se despliega en los siguientes países: Estados Unidos , Canadá, Alemania , Francia , India , China , Reino Unido, Bélgica, Holanda , Luxemburgo , Finlandia , Suecia , Noruega , Dinamarca, España , Portugal , Irlanda , Austria , Sudáfrica , Suiza , Eslovaquia , Hungría, república Checa , Singapur, Hong Kong , Malasia , Tailandia , Indonesia , Nueva Zelanda , Filipinas, Corea del Sur, Australia , Argentina , Brasil, Perú , Colombia , Chile , México

CSA Principales características

- Cada proveedor tendrá un *Guest Company Coordinator (GCC)* que controla el acceso del usuario dentro de la empresa.
- La página de bienvenida muestra las últimas solicitudes enviadas al proveedor.
- 2 tipos de peticiones: *New request* (nueva solicitud) y *Renewal* (renovación).
- Existen solicitudes que no requieren respuesta por su parte, llamadas *Request for information (RFI)*, y solicitudes para cotización que sí requieren respuesta por su parte, llamadas *Request for Quote (RFQ)*.
- Uso de *Expertise taxonomy* para definir las competencias (*skills*).
- Posibilidad de guardar las respuestas en borrador.
- Se mostrará el precio por la habilidad requerida.
- Se puede consultar el estado de las respuestas.
- Registro del historial de comentarios.
- Las solicitudes pueden ser modificados por el solicitante y reenviarse a los proveedores (es decir, - inicio / fin fecha, cantidad, lugar de trabajo, etc.)
- Las solicitudes se pueden cancelar, poner en espera, eliminar la puesta en espera.
- Varias funciones de búsqueda y clasificación.
- Navegación a través de la solicitud, de los *line items* y de las respuestas.
- Configuración del perfil del proveedor donde se puede añadir el correo electrónico personal.

Tipos de solicitudes en CSA

TIME & MATERIAL (T&M)

- Rol o habilidad específico, en un lugar determinado, por una cantidad de tiempo determinada y una tarifa pre negociada.
- El solicitante involucra a los proveedores directamente para revisar y seleccionar recursos específicos del proveedor para cumplir con el rol o habilidad que se solicita.
- Involucrar al comprador para revisar la solicitud es una excepción en este tipo de solicitudes. Los dos escenarios en los que se puede dar el caso es cuando un proveedor *non-core* se selecciona por el solicitante para este rol específico o si el precio del proveedor excede el precio pre negociado.

Tipos de solicitudes en CSA

Fixed Price

- El servicio que se solicita es un acuerdo entre IBM y un proveedor que se basa en un precio que no va a variar y no depende de la cantidad de recursos o el tiempo empleado en este servicio.
- La forma de pago será convenida por ambas partes y puede ser en incrementos o en un solo pago.
- El comprador es el responsable de decidir a qué proveedores se le envía esta petición y gestionar toda la cotización y el proceso de selección de la respuesta.
- Los solicitantes no podrán presentar la solicitud directamente a los proveedores.

Estatus

- Request level:
 - Active, Canceled, On hold, Closed
- Skill line item level:
 - Active, Canceled, On hold, Fulfilled,
- Response level:
 - Draft, Ready for submission, Submitted/non-finalist, Finalist, Fulfilled, Awaiting authorization, Ready to fulfill, Withdrawn by supplier, Rejected, Review and resubmit,

Estatus

Draft: este es el nivel inicial y solo puede ser visto por la consultora. Se puede editar todos los campos o borrar las respuestas.

Ready for submission: es cuando todos los campos requeridos se han completado y se puede enviar la respuesta a IBM. Las respuestas se pueden editar igualmente y tambien pueden ser borradas.

Submitted/non-finalist: este estatus es justo antes de enviar la respuesta. No se puede editar y no se puede borrar. Solo se puede retirar la respuesta cuando fue enviada a ibm.

Finalist: este estatus solo puede ser controlado por el solicitante de IBM. Es un indicador de que la respuesta ha sido seleccionada para su examen definitivo. Esto no significa que se han seleccionado los candidatos para el puesto. Por esta razon, el finalista puede ser marcado como no finalista por el solicitante.

Fulfilled status: el solicitante de IBM ha seleccionado el finalista y lo ha enviado a Bond para el proceso de la orden de compra.

Awaiting authorization: el finalista ha sido elegido pero se requiere autorización antes de enviarlo a Bond.

Ready to fulfill: es el estatus antes de que el finalista haya sido autorizado y el solicitante pueda proceder a Bond.

Withdrawn by supplier: indica que la respuesta fue retirada por la compañía consultora.

Rejected: indica que la respuesta fue rechazada por el solicitante o por la persona que autoriza.

Review and resubmit: Este estatus es para aquellos pedidos activos que fueron modificados por el solicitante y reenviados a la consultora. Indica que el cambio fue realizado por el solicitante y se requiere que la compania lo revise y vuelva a enviar sus respuestas. Cualquier respuesta enviada sera actualizada al estatus de draft para que la compañía pueda editar su respuesta y enviarla otra vez.

Emails

- Solicitudes que se envían al proveedor, incluyendo modificaciones en solicitudes activas.
- Respuesta seleccionada como finalista.
- Se cierra el *line item*.
- La respuesta se rechaza por el solicitante o aprobador.
- La respuesta se cambia de finalista a no finalista.
- La solicitud se cancela.
- La solicitud se pone en espera.
- La solicitud sale de modo en espera.

Navegadores y documentos adjuntos

- Navegadores aptos:
 1. MS Internet Explorer version 6.0, 7.0, 8.0
 2. Google Chrome
 3. Firefox Mozilla 3.x
- Especificaciones para adjuntar documentos:
 - Tamaño límite 800kb
 - Tipos de documento:
 - Microsoft Word (.doc)
 - Acrobat file (.pdf)
 - Lotus Wordpro file (.lwp)
 - Lotus 123 file (.123)
 - Excel spreadsheet (.xls)
 - Powerpoint presentation (.ppt)
 - Zip archive (.zip)
 - Plain text (.txt and .text)
 - HTML (.htm and .html)
 - RAR (.rar)
 - Lotus Symphony (.odt, .ods and .odp)
 - CSV files (.csv) and RTF (.rtf)
- Tenga en cuenta que el archivo debe estar cerrado para garantizar el envío. Si el archivo está abierto, no se adjuntará correctamente. El nombre del archivo adjunto debe estar en Inglés.
- Por favor, no utilice caracteres especiales en el nombre del archivo (;, \$, ~, §, £, @, %, &, *)

Iniciar sesión en CSA

The image shows the IBM Contractor Sourcing Application (CSA) login page. The background features a blue and yellow gradient at the top, transitioning into a dark header bar. The header bar contains the IBM logo, a search bar, and links for "Country/region [select]" and "Terms of use". Below the header is a navigation bar with links for "Home", "Products", "Services & industry solutions", "Support & downloads", and "My IBM". A sidebar on the left has a link for "Sign in to contractor sourcing application". The main content area has a large heading "Sign in to contractor sourcing application". Below it, a message says "You must sign in before you can begin using contractor sourcing application (CSA)". A link "Sign in to CSA." is provided. To the right, there is a box containing links for "Forgot your IBM ID?", "Forgot your password?", and "Change password". At the bottom, there are links for "For CSA Technical Support or questions, send a note to CSAHELP@US.IBM.COM." and "For CSA process-related and other non-technical questions, contact the Procurement Application Help Desk at 888-767-4289." The footer contains links for "About IBM", "Privacy", and "Contact".

Contextual help

How do I use the Request Summary page?

This page summarizes the requested skills and the supplier responses. You can reject requested skills, add and submit responses, withdraw submitted responses and delete unsubmitted responses from this page.

To view the requested skill details, click the skill name requested in blue. There may be more than one skill requested on a request.

To indicate to the requester that you cannot fill a request, you need to click **Reject skill**. You may also reject all the requested skill by clicking **Reject all skills** at the bottom of the page.

The **Responses remaining** are the number of responses that can be submitted. This is determined by taking the total responses allowed and subtracting the number of responses already submitted.

You can have different status for responses:

Draft response means that the response is partially created. You will need to complete the response before you can submit it.

Ready for submission means that the response is complete and required fields have

Resumen del Skill

The screenshot shows a web interface for the IBM Contractor sourcing application. The top navigation bar includes links for Home, Solutions, Services, Products, Support & downloads, My IBM, and a search bar. The page title is "Contractor sourcing application > T&M Review > Skill response". A sidebar on the left lists options like T&M Review, View Individual skills, View responses, Fixed price, Feedback, and CSA search. Below the sidebar, a "Related links" section lists CSA help, Procurement application support center, Global procurement, Supply portal, and IBM supply chain management. The main content area is titled "Skill response" and contains a message: "Use this page to create or edit response information." A link "Need help with this form?" is present. The "General skill information" section displays the following details:

| | |
|-------------------------|-------------------------------|
| Request number | T22DFM |
| Project name | CR 00640 Test, Romania, Lajos |
| Skill number | 001 |
| Skill requested | Application Developer Java |
| Requested straight time | 184 Hours |
| Other expenses | 0.00 EUR |
| Primary work location: | |
| Country/Territory | Romania |
| City | BUCHAREST |
| State/Region/Province | Bucuresti |
| Work region | ALL ROMANIA |

The "Response details" section contains fields for Reference (with a browse button), Response attachment (with a browse button), Other attachments (with a browse button), and Comments to requester (with a text area).

Resubmit (Volver a presentar una solicitud)

- Permite al iniciador, Solicitante, o al coordinador del proyecto editar una solicitud presentada y reenviarla a los proveedores configurados.
- Los siguientes campos pueden ser modificados:
 - Coordinador del Proyecto, revisor respuesta, tipo de solicitud, la información contable que se utilizará en Bond, información contable (pero no de tipo contable) y Adjuntos.
 - Los cambios en los adjuntos o el tipo de solicitud de RFI a RFQ se deberán a respuestas del proveedor recibidas hasta la fecha y se enviarán de nuevo al proveedor con el estatus cambiado a "revisar y volver a presentar" .
- Los siguientes campos en el line item se pueden modificar:
 - Cantidad de la habilidad necesaria, años de experiencia, requisitos de formación.
 - Todos los campos de la sección "Detalles de la Posición" se pueden editar.
 - Todos los campos de la "Estimación de tiempo en los que trabajar" sección se pueden editar.
 - Sección de habilidades secundarias son editables
 - La lista de proveedores puede ser modificado.

Resubmit (Volver a presentar una solicitud)

- Los siguientes Skill line items no pueden ser modificados:
 - Categoría principal trabajo, categoría profesional secundaria, puesto de trabajo, habilidades o nivel de habilidad y el lugar de trabajo.
- En función de los cambios, las respuestas anteriores que fueron presentadas por los proveedores se eliminarán a vista del solicitante y volverán al proveedor como "revisión y vuelva a presentar". Los proveedores serán notificados por correo electrónico para volver a enviar sus respuestas. El correo electrónico contendrá los cambios realizados en la solicitud.
- Algunos cambios no requieren que los proveedores vuelven a enviar las respuestas y los solicitantes serán capaces de continuar el proceso como de costumbre.

Explicación sobre el GCC
Añadir usuarios adicionales
Cambiar los correos de notificación

GCC

- ❖ Cada proveedor ha identificado un usuario con acceso a CSA que será el coordinador de la compañía (GCC) para controlar las solicitudes y el acceso de usuarios adicionales para su empresa
- ❖ Sólo el GCC puede presentar una solicitud para conceder acceso a otro usuario en su compañía
- ❖ Hay 2 funciones de usuario, GCC o usuario normal
 - Un usuario normal puede acceder a toda solicitud de CSA y responder a todas las peticiones al igual que un GCC pero no tienen autoridad para solicitar el acceso a otro usuario.
- ❖ Puede haber más de 1 GCC para cada proveedor.
- ❖ IBM mantendrá los registros para un GCC por proveedor. Si se sustituye este contacto GCC, por favor póngase en contacto con el servicio de asistencia para informar de la necesidad del reemplazo del GCC para que podamos iniciar la actualización.

Welcome to the Supply Portal

This site is a single entry point for suppliers to access various strategic procurement applications.

- The [Public Portal](#) link to the left will lead you to a list of unrestricted procurement applications. **No action** is required to gain access to those applications.
- The [My Portal: My Functions](#) link to the left will lead you to a **customized** list of procurement applications and user functions. After clicking on this link, you will be asked for a user ID and password.
 - First time users: [Register](#) for your user ID and password at the **IBM registration** site. In the future, this will be your single identity for accessing IBM systems over the internet. If you already have an IBM registration user ID and password, you do not have to obtain another.
- Once you have access to 'My Portal: My Functions', the '**User functions**' will allow you to complete administrative tasks, such as requesting access to a specific procurement application or changing your user profile.

Añadir un nuevo usuario al portal

The screenshot shows the 'New user enrollment' page of the IBM Supply Portal. The top navigation bar includes links for 'Home', 'Products & services', 'Support & downloads', and 'My account'. A search bar is also present. On the left, a sidebar lists various options like 'Select a country', 'Supply Portal overview', 'Select a language', 'My Portal: My Functions', 'Public Portal', 'News, announcements, etc.', 'Contact information', 'Client T's & C's', 'Help', and 'Feedback'. Below this is a section titled 'Related links' with links to 'IBM registration', 'Change password', 'Forgot password', 'Global Procurement', 'Global help desk', and 'Import compliance guidelines'. The main content area is titled 'New user enrollment' and contains instructions: 'Please enter the short IBM registration ID of a user from your company, select the application for which you would like to register, and click "Continue". Required fields are marked with an asterisk (*) and must be filled in to complete the form.' It features two input fields: 'ID to register' and 'Select application', both highlighted with a red oval. A 'Continue' button is located below these fields.

Añadir un nuevo usuario al portal

The screenshot shows the 'New user enrollment' page of the IBM Supply Portal. The URL is <http://www.ibm.com/supplyportal/enrollment>. The page has a blue header with the IBM logo and a search bar. The main content area has a white background. On the left, there's a sidebar with links like 'Select a country', 'Supply Portal overview', 'Select a language', etc. The main content starts with a 'Welcome' message: 'Please enter the short IBM registration ID of a user from your company, select the application for which you would like to register, and click "Continue". Required fields are marked with an asterisk (*) and must be filled in to complete the form.' Below this, there are two input fields: 'ID to register' (with an asterisk *) and 'Select application'. A dropdown menu is open under 'Select application' with the option 'Choose from the following:' and 'Contractor Sourcing Application (CSA)'. A red oval highlights this dropdown. A red rectangle highlights the 'Continue' button below it. At the bottom of the page, there's a footer with links like 'About IBM', 'Privacy', 'Terms of use', and 'Contact'.

Añadir un nuevo usuario al portal

The screenshot shows the 'New user enrollment' page from the IBM Supply Portal. The page has a blue header with the IBM logo and 'United States'. Below the header is a navigation bar with links: Home, Products & services, Support & downloads, and My account. The main content area has a title 'New user enrollment (continues...)'. It includes instructions for completing the registration form for the Contractor Sourcing Application (CSA) application. It states that fields marked with an asterisk (*) are required. It also notes that changes made in the profile information in the Supply Portal application are stored locally and not updated to other IBM systems. A warning message at the bottom says: 'You must enter the first name, last name and e-mail address of the user as entered in IBM registration. If the information you enter does not match the information in IBM registration, this request may be rejected.' A red oval highlights the required fields: Desired portal role, First name, Middle initial, Last name, E-mail address, Job title, Department, and Office phone #.

Please take a moment to complete this registration form for **Contractor Sourcing Application (CSA)** application.

The fields indicated with an asterisk (*) are required to complete this transaction; other fields are optional. If you do not want to provide us with the required information, please use the 'Back' button on your browser to return to the previous page, or close the window or browser session that is displaying this page.

Any changes made in the profile information in the Supply Portal application is stored locally and not updated to any other IBM system.

You must enter the first name, last name and e-mail address of the user as entered in IBM registration. If the information you enter does not match the information in IBM registration, this request may be rejected.
