

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS AND DOMESTIC ANIMALS

DANGER: Corrosive. Causes irreversible eye damage and skin burns. Harmful if swallowed. Wear chemical splash-proof goggles or face shield, rubber gloves and protective clothing when handling this product. Wash thoroughly with soap and water after handling. Remove contaminated clothing and wash before reuse. Avoid breathing vapors. Vacate poorly ventilated areas as soon as possible. Do not return until strong odors have dissipated.

PHYSICAL OR CHEMICAL HAZARDS

STRONG OXIDIZING AGENT: Mix only with water according to label directions. Mixing this product with chemicals (e.g. ammonia, acids, detergents, etc.) or organic matter (e.g. urine, feces, etc.) will release irritating chlorine gases which are harmful to eyes, lungs and mucous membranes.

NOTE: This product degrades with age. Use a chlorine test kit and increase dosage, as necessary, to obtain the required level of available chlorine.

STORAGE & DISPOSAL

Do not contaminate water, food, or feed by storage or disposal.
PESTICIDE STORAGE: Store this product in a cool dry area, away from direct sunlight and heat to avoid deterioration.
PESTICIDE DISPOSAL: Pesticide wastes are acutely hazardous. Improper disposal of excess pesticide spray mixture or rinsate is a violation of Federal law. If these wastes cannot be disposed of by use according to label instructions, contact your State Pesticide or Environmental Control Agency, or the Hazardous Waste representative at the nearest EPA Regional Office for guidance.
CONTAINER DISPOSAL: Triple rinse (or equivalent). Then offer for recycling or reconditioning or puncture and dispose of in a sanitary landfill or incineration or if allowed by state and local authorities, by burning. If burned, stay out of smoke.

EPA Registration No.: 6243-2
EPA Establishment No.: 875-OH-1[SV], 875-PA-1[SB], 875-GA-2 [AL]
Lot code letters indicate establishment number.

Auto-Chlor Sanitizing Solution-CL is recommended for use as a sanitizer in restaurants, dairies, food processing plants and bars. For use on: chopping blocks, countertops, tables, glasses, dishes and utensils.
Auto-Chlor Sanitizing Solution-CL is recommended for use as a deodorizer/destainer in restaurants, food processing plants, bars, schools and colleges, offices, hotels, motels, commercial, institutional and industrial buildings.

DIRECTIONS FOR USE

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.
(Wisconsin Sanitizer Instructions)
Sanitizing Food Contact Surfaces:
1. Pre-flush, scrape or pre-soak articles to be washed.
2. Wash areas or items to be sanitized with clean water and a recommended detergent.
3. Rinse with potable water.
4. Sanitize in a solution prepared by diluting 2.56 oz. of this product per 10 gallons water to 100 ppm of available chlorine. Immerse or wet all surfaces for at least 2 minutes or as required by local sanitation regulations. When solution depreciates or becomes soiled, discard. Test sanitizer solution periodically with a Chlorine Test Kit to ensure that the available chlorine does not drop below 50 ppm. If no test kit is available prepare a sanitizing solution mixing 5.12 oz. of product per 10 gallons of water to 200 ppm of available chlorine.
5. Drain and allow equipment or utensils to air dry.
Note: NO POTABLE WATER RINSING of equipment is required. Do not soak overnight.

Sanitizing Using Mechanical Warewashing Equipment:

- 1. Pre-flush, scrape or pre-soak articles to be washed.
- 2. Load articles into racks.
- 3. Load rack into dish machine, close door and start wash cycle.
- 4. Upon completion of wash cycle, apply a sanitizing rinse containing 100 ppm available chlorine by adjusting feeding device to meter 2.56 oz. of product per 10 gallons of water. Test sanitizer frequently during operation with a chlorine test kit to ensure that solution does not drop below 50 ppm available chlorine.
- 5. After sanitization cycle completes, open door, remove rack, tilt rack to aid in draining of sanitize solution. Sanitizer used in automatic systems may be used in the general cleaning process but may NOT be reused for sanitizing purposes.
- 6. Allow articles to air dry before removing from rack.

If no test kit is available or if available chlorine has dropped below 50 ppm during sanitizing, either discard the sanitizer solution or add sufficient product to reestablish a 200 ppm available chlorine sanitizer strength. Resanitize equipment. Do not rinse equipment with water after sanitizing and do not soak equipment overnight in sanitizer solution.

For Use as a Commercial Laundry Sanitizer:

Wet fabrics or clothes should be spun dry prior to sanitization. Thoroughly mix 5.12 oz. of product per 10 gallons of water to yield 200 ppm available chlorine. Promptly after mixing the sanitizer, add the solution into the pre-wash prior to washing fabrics/clothes in the regular wash cycle with a good detergent. Test the level of available chlorine, if solution has been allowed to stand. Add more of this product if the available chlorine level has dropped below 200 ppm.

For Use as a Laundry Destainer/Deodorizer:

Use with Auto-Chlor automatic dispensing equipment to feed directly from this container to the washer. Consult your Auto-Chlor representative for additional information.

PRIMEROS AUXILIOS

EN CASO DE CONTACTO CON LOS OJOS: Mantenga el párpado abierto y enjuáguese el ojo lentamente y suavemente con agua por 15 ó 20 minutos. Quítese los lentes de contacto, según el caso, después de los 5 primeros minutos, luego continúe enjuagando los ojos.
EN CASO DE CONTACTO CON LA PIEL O LA ROPA: Quítese la ropa contaminada. Enjuáguese la piel inmediatamente con mucha agua durante 15 ó 20 minutos.
EN CASO DE INGESTIÓN: Póngase en contacto con un centro de control de intoxicación o un médico de inmediato para obtener consejos médicos. Si la persona puede tragar, haga que sorba un vaso de agua. No induzca vómito a menos que se indique por un centro de control de intoxicación o médico. No administre nada por vía oral a una persona inconsciente.

EN CASO DE EMERGENCIA, LLAME A UN CENTRO DE CONTROL DE INTOXICACIÓN O UN MÉDICO PARA OBTENER CONSEJOS MÉDICOS.
1-800-851-7145
Al llamar a un centro de control de intoxicación o médico o al buscar tratamiento medical, asegúrese de que tenga a mano el recipiente o la etiqueta del producto.

NOTA PARA EL MÉDICO: El daño probable de las membranas mucosas puede contraindicar el empleo de lavado gástrico.

PRECAUCIONES

PELIGROS PARA LOS HUMANOS Y ANIMALES DOMÉSTICOS

PELIGRO: Corrosivo. Ocasiona lesiones irreversibles en los ojos o quemaduras en la piel. Puede ser mortal si se ingiere. Al manipular este producto, use lentes de protección resistentes a salpicaduras de sustancias químicas o un protector para el rostro, guantes de goma y ropa de protección. Lávese por completo con agua y jabón después de toda manipulación. Quítese y lave la ropa contaminada antes de volverla a usar. Evite respirar los vapores. Retírese de las áreas inadecuadamente ventiladas lo antes posible. No regrese antes de que los olores fuertes se hayan disipado.

RIESGOS FÍSICOS O QUÍMICOS

AGENTE OXIDANTE FUERTE: Mézclelo solamente con agua siguiendo el modo de empleo en la etiqueta. El mezclar de este producto con sustancias químicas (por ejemplo: amoníaco, ácidos, detergentes, etc.) o materias orgánicas (por ejemplo: orina, heces, etc.) liberará gases de cloro irritantes que resultan nocivos para los ojos, pulmones y membranas mucosas.

NOTA: Este producto se degrada con el tiempo. Emplee un juego de prueba de cloro y aumente la dosis según se requiera, a fin de obtener el nivel requerido de cloro disponible.

PELIGRO
