Section 1: Getting Started

Topics Covered

- · Turning Your Phone On and Off
- · Setting Up Voicemail
- · Understanding this User Manual

This section allows you to start using your phone by activating your service, setting up your voicemail, contacting customer support, or getting an understanding of how this manual is put together.

Turning Your Phone On and Off

Turning Your Phone On

1. Open the flip, then press .

Note: As with any other radio-transmitting device, do not touch the internal antenna as it affects call quality and may cause the phone to operate at a higher power level than is necessary. The internal antenna is located along the top on the back side of your phone.

- Your service provider's name momentarily appears in the display and the phone begins searching for a network signal.
- **3.** Once the phone finds a signal, the time, date, and day appear in the display.
- 4. You're now ready to place and receive calls.

If your phone is outside the Verizon Wireless coverage area the roaming icon _ appears in the top of the display.

Turn Your Phone Off

Press and hold for two or more seconds. Your phone powers off.

Setting Up Voicemail

Voicemail allows callers to leave voice messages, which can be retrieved any time.

Note: Once you have set up your Voicemail account, you can use the Messaging option **Voicemail** (option 5) to view details of voice messages in your voice mailbox (see "Voicemail" on page 105 for more information).

Voicemail Setup

- 1. In standby mode, press and hold the key or press
- Follow the prompts in the new user tutorial to setup your mailbox.

Listen to Voicemail

- 1. In standby mode, press and hold the key or press
- You are then prompted to enter your password followed by key.
- **3.** Follow the recorded prompts to listen to messages, change administrative options, and so on.

Understanding this User Manual

The chapters of this manual generally follow the same order as the menus and sub-menus in your phone. A robust index for quick reference to most features begins on page 227.

Also included is important safety information that you should know before using your phone. Most of this information is near the back of the guide, beginning on page 189.

Notes and Tips

Throughout this guide are icons and text that are set apart from the rest. These are intended to point out important information, quick methods for activating features, to define terms, and more. The definitions for these methods are as follows:

- Notes: Explain alternative options within the current feature, menu, or sub-menu.
- Tips: Provide quick or innovative methods for performing functions related to the subject at hand.
- Important: Points out important information about the current feature that could affect performance, or even damage your phone.

1. Speaker: Music, Ringtones, and Sounds are played

- through the speaker.
- Options Button: In landscape mode press to access camera options.
- 3. Volume/Zoom In/Out Key: Allows you to adjust the master volume in standby mode (with the flip open) or adjust the voice volume during a call. To mute the ringer during an incoming call, press the volume key up or down. When the flip is closed, press and hold the key, and sub LCD displays. In landscape mode, press to zoom in/out on an object.
- **4. Speakerphone Key**: Press to enable/disable the speakerphone option.
- 5. Photo Capture Key: Press to captue an image.

Back View of Your Phone

Section 2

 Camera/Camcorder Lens Cover Switch: Allows you to cover/uncover camera lens when the camera is not in use.

- Camera/Camcorder Lens Cover: Covers the camera lens when camera is not is use.
- Camera/Camcorder Lens: The lens of your built-in camera/camcorder.
- Flash: The built in flash has manual and automatic capabilities.

Command Keys

Functions for the soft keys are defined by what appears above each in the display. There are two soft keys, the left soft key and the right soft key.

Left Soft Key

Some functions of the left soft key are as follows.

- In standby mode, press the Message (left) soft key to open the Message menu.
- When the left soft key function is Settings, press the **Settings** (left) soft key to view settings for the feature.
- When the left soft key function is Edit, press the Edit (left) soft key to edit a Contact or Profile setting.

Right Soft Key

Some functions of the right soft key are as follows.

- In standby mode, press the Contacts (right) soft key to open your Contacts list.
- When the right soft key function is **Options**, press the **Options** (right) soft key to view more options for the current menu.

Clear Key

The CLR key is used to erase or clear numbers, text, or symbols from the display. You can also use to return to a previous menu or to return to standby mode from any menu.

- If you enter an incorrect character, briefly press to backspace (and delete) the character.
- To erase the previous word in a sentence, press and hold
- To back up one menu level, briefly press
- To return to standby mode from any menu, press and hold until you return to standby mode.

End Key

- Press and hold the End key at to turn your phone on or off.
- Briefly press once to disconnect a call.
- Press to return to standby mode from any menu, or to cancel the last input.

Send Key

The **Send** key is used to answer calls, dial calls, and to recall the last number(s) dialed, received, or missed.

- Press once to answer calls.
- Enter a number and briefly press to make a call.
- Briefly press in standby mode to display a list of recent calls to and from your phone.
- Press twice in standby mode to call the most recently dialed, received, or missed number.
- Press to pick up a waiting call. Press again to switch back to the other call.

Navigation Key

Use the directional keys on the navigation key to browse menus, sub-menus, and lists. Each key also acts as a shortcut to launch applications. The down navigation key is user-definable.

Speakerphone Key

Use the speakerphone key to switch from using the earpiece to the speakerphone before or during a call. Use the volume/zoom key (located on the right side of your phone) to adjust the volume. Press the speakerphone key to enable and disable the speakerphone option.

Understanding the Display Screen

The top line of the display is reserved for icons that indicate network status, battery power, signal strength, and so on. The next line up from the bottom of the idle screen can show icons that indicate features/functions statuses. Listed below are display icons and their descriptions.

Display icons

Signal Strength: Always appears when your phone is on and indicates the current signal strength. More bars indicate a stronger signal. The characters between the antenna icon and the signal strength bars indicate the following:

- EV1X (as shown) indicates your phone is using the EVDO/ 1X protocol, which is capable of high-speed broadband data (3G).
- EVD indicates your phone is using the EVDO 2G data protocol.

Note: The EVDO/1X protocol is available only in the Verizon Wireless network.

- Standalone Mode: Appears when Standalone Mode is on. When on, all RF functions for your phone are disabled, and you cannot use your phone to place or receive calls.
- Roaming: Your phone is outside your home area. While roaming, another wireless provider may be handling your call. The service rate for the call may be higher than those made from within your home area. Please refer to Verizon Wireless for roaming rates.
- SSL: Indicates the secure socket layer is active transmits your communications over the internet in an encrypted format.
- Voice Privacy: Prevents eavesdropping over a CDMA traffic channel.
- No service: Your phone cannot find a signal because you're outside a service area. You cannot make or receive calls. Wait for a signal or move to an open area to find a signal. This indicator always appears when you first turn on your phone and disappears once service is located.
- **Dormant**: Indicates no incoming or outgoing data.
- Voice Call: Indicates a call in progress. When dialing a number, this icon flashes until the call connects

Section 2: Understanding Your Phone

- Data Call: Indicates a call in progress. When dialing a number, this icon flashes until the call connects.
- E911: Global Positioning Service (GPS) for 911 is set to On for emergency calls only.
- Location On: Global Positioning Service is set to On for location and 911 calls.
- Bluetooth: Indicates that Bluetooth wireless technology is active.
- **Bluetooth Connected:** Indicates Bluetooth wireless technology is active and connected.
- When the battery is low, an empty battery icon flashes and the phone sounds an alert, which indicates your phone is about to shut down.
- **TTY:** Indicates that TTY is enabled.
- All Sounds Off: The ringer is silenced for all alerts, incoming calls, and incoming messages.
- Alarm Only: Your phone will only ring when the set alarm sounds
- Vibrate Only: Your phone vibrates upon receiving a call.
- **Speakerphone:** Your phone switches to speakerphone instead of earpiece.
- Missed Calls: Your phone displays this icon when calls are missed.
- New Message: You've received a new text, page or web alert message. You're also notified of a new message by animations and sound. You have one or more unread voicemail messages in your voicemail box. (Only applicable on Verizon Wireless Network.)

- **Calendar Appointment:** Your phone displays this icon when you have a calendar appointment scheduled.
- Voicemail: You've received a voicemail message, page or web alert message.
- **Alarm On:** Indicates that your phone has a set alarm.
- Auto Answer: Automatic answer is enabled. Your phone automatically picks up calls after the designated time with stereo headset or bluetooth headset connected.

Dialogue boxes

Dialogue boxes prompt for action, inform you of status, or warn of situations such as low memory. Dialogue boxes and their definitions are outlined below.

- Choice
 - Example: "Save message draft?"
- Reconfirm
 - Example: "Delete all received messages?"
- Performing
 - Example: "Sending..." "Connecting..."
- Completed
 - Example: "Message sent successfully!"
- Information
 - Example: "New Message"
- Error
 - Example: "System Error!"

Warning

Example: "Battery Low," "Memory Full!"

Battery

Note: This phone comes packaged with a partially charged rechargeable standard Li-lon battery and travel charger.

Important: Although the phone can be used while the battery is charging, the battery must be fully charged before first use, otherwise you risk damaging the battery.

Using A Non-Supported Battery

Samsung handsets do not support the use of a nonsupported battery.

When using a non-supported battery you will hear a series of beeps and you will see a warning message that indicates "NON SUPPORTED BATTERY SEE USER GUIDE." If you receive this warning, battery charging has been disabled.

Samsung charging accessories (i.e. travel adapter, and cigarette lighter adapter) will only charge a Samsung approved battery.

To continue use of your Samsung handset press .

Note: When using a non-supported battery the handset can only be used for the duration of the battery life and cannot be recharged.

Important: Using a non-supported battery may cause damage to your phone. Use a Samsung supported battery only.

Install the Battery

- Slide the battery cover down and lift up to remove it.
- Insert the top end of the battery in the direction of the arrow printed on the battery into the phone housing. The gold contacts on the top of the battery should match up with those on the phone.
- Push the top end of the battery down until it snaps into place.
- **4.** Slide the battery cover up until it snap into place.

Remove the Battery

- Slide the battery cover down and lift up to remove it.
- 2. Use your finger to lift the battery (bottom end first) up and away from the phone.

Section 2: Understanding Your Phone

Charge the Battery

Your phone is powered by a rechargeable standard Liion battery. Only use Samsung-approved charging devices and batteries. Samsung accessories are designed to maximize battery life. Using other accessories may invalidate your warranty and may cause damage.

Note: For connection to an electrical supply not located in the U.S., you **must** use an adaptor of the proper configuration for the power outlet. Use of the wrong adapter could damage your phone and void your warranty.

Travel Charger

The travel charger is a convenient, light-weight charger that rapidly charges your phone from any 120/220 VAC outlet.

- Plug the large end of the travel charger into a standard 120/220 VAC wall outlet.
- Insert the smaller end of the travel charger into the charger/ accessory connector at the bottom end of the phone.

Tip: You can use your phone while charging, however, the battery charges faster if the phone is turned off.

Battery Indicator

The battery indicator •••• in the upper-right corner of the display indicates battery power level. Four bars indicate a full charge, while an empty icon indicates an almost empty battery. Two to three minutes before the battery becomes too low to operate, a blinking empty battery icon in appears and a tone sounds. If you continue to operate the phone without charging, it shuts down.

Removable Memory Card Storage

Note: Your phone does not come with the microSD™ memory card, it must be purchased as an accessory. See your service provider for more information.

The following file types can be saved to the removable microSD $^{\text{TM}}$ memory card:

- My PIX: Pictures you have saved from a PIX message or taken using your phone.
- My FLIX: Video Clips you have saved from a FLIX message or taken using your phone.
- My Music: Music you have downloaded directly from the V CAST Music catalog or music you have transferred from your PC using Sync Music.
- My Sounds: Sounds you have recorded using your phone or saved from a PIX message with Sound attached.

Section 2

Phone Memory Storage

The following file types can be saved to the phone memory storage area:

- My PIX: Pictures you have saved from a PIX message, downloaded via the "Get It Now" application, or taken using your phone.
- My FLIX: Video Clips you have saved from a FLIX message, downloaded via the "Get It Now" application, or taken using your phone.
- My Ringtones: Ringtones you have downloaded via the "Get It Now" application, or saved from a PIX message with Ringtone attached.
- My Music: Music you have downloaded directly from the V CAST Music catalog or music you have transferred from your PC using Sync Music.
- My Sounds: Sounds you have downloaded, recorded using your phone, or saved from a PIX message with Sound attached.

Section 3: Call Functions

Topics Covered

- · Making a Call
- · Answering a Call
- · Recent Calls
- Roaming
- TTY
- VoiceSignal™

This section allows you to make or answer a call. It also includes the features and functionality associated with making or answering a call.

Making a Call

- At the standby screen, enter the number you want to call using the keypad.
- 2. Press

Making Calls Using Contacts

Contacts are entries that you create to store names, numbers, and other information for people or groups of interest. If you've already entered information into your Contacts list, you can recall and dial the contact easily. See "Adding a Contact" on page 75 for information on creating contacts.

- At the standby screen, press the right soft key Contacts.
- 2. Press the Volume/ Zoom key on the right side of your phone or the up/down navigation keys until the contact you want to call is highlighted.

Tip: To quickly locate a name, press (or multi-press) any key on the keypad that corresponds to the first, second, and/or third letters of the contact's name.

- 3. When the desired contact is highlighted, press VIEW. Details for the contact appear in the display.
- If the entry contains more than one number, press the volume/zoom key to highlight the desired number.
- **5.** Press to call the number.

Answering a Call

When you receive an incoming call, the Incoming screen appears in the display, press the key to answer the call or press the right soft key Ignore, to send the call to voicemail, or press the left soft key Quiet, to silence the ringer.

Note: To change the answer options, see "Answer Options" on page 128.

Answering Call-Waiting Calls

- When you receive a call while on a call, the Incoming screen displays. You can press and answer the new call or let the new call go to your voicemail.
- If you choose and answer the incoming call, the original caller is placed on call waiting. To return to your original call when you finish with an incoming call, press the Send key.

Recent Calls

When you place, miss, or receive a call, a record of the call is saved in Recent Calls, which is a listing of the different types of calls you can either receive or make. These types of calls are listed below.

- · Missed: Displays any missed calls.
- Received: Displays any received calls that were answered.
- Dialed: Displays all outgoing calls made from your phone.
- All: Displays all missed, received, and outgoing calls made from your phone.
- View Timers: Displays the length of call types and data pushed and pulled from your phone

Section :

Viewing Call Information

Recent Calls retains information such as the duration, date and time, and whether the call was received, dialed, or missed.

- 1. At the standby screen, press the key.
- Press the down navigation key to highlight the desired number.
- Once the desired number is highlighted, press OPEN.
- **4.** The following options appear in the display:
 - "type" call: Where "type" indicates if the call was missed, dialed, or received.
 - Name: If the caller is in your Contacts list, their name is listed here. This option only appears if the caller is in your Contacts list
 - Number: Displays the telephone number as well as the appropriate icon to indicate mobile, work, or home number.
 - Time: The time of the call.
 - Date: The date of the call.
 - Duration: The duration of the calls made or receive.
- 5. Press the right soft key Options to display the following options:
 - Save: Save the number to your Contacts list.
 - Details: If the caller is in your Contacts list, their information displays. This option only appears if the caller is in your Contacts list.
 - Erase: Delete the call from Call History.
 - Lock/Unlock: locks or unlocks the entry to prevent accidental deletion.

Section 3

- **Erase All:** Delete the entire Call History list at one time.
- **View Timers:** Select to view the call timers for your phone.
- Press the down navigation key to highlight an option.Press to enter the highlighted option's sub-menu.

Call History Icons

When you view Recent Calls, an icon to the left of the number indicates the type of call.

- Indicates a Missed call
- Indicates a Dialed call
- Indicates a Received call

Making Calls Using Call History

- 1. At the standby screen, press then press up or down navigation key until the desired number is highlighted.
- Press to call the highlighted number. Or, you can press OPEN, then press to call the highlighted number.

Creating or Updating Contacts Using Call History

- 1. At the standby screen, press then press up or down navigation key until the desired number is highlighted.
- 2. Press the right soft key Options. Save is highlighted. Press
- Use the up or down navigation keys to highlight Create New or Update Existing. Press

- Mobile 1
- Mobile 2
- Home
- Work
- Fax
- 5. Press to add a new contact, and then enter information.
- **6.** Use the navigation keys to enter additional information for the entry and then press SAVE.

Delete Call History Entries

- 1. At the standby screen, press then press up or down navigation key until the desired number is highlighted.
- 2. Press the right soft key Options. A pop-up menu appears in the display.
- Press the down navigation key to highlight Erase and press . Select Yes or No at the ERASE ENTRY? popup screen.
- 4. Press

Delete All Call History Entries

- 1. At the standby screen, press
- 2. Press the right soft key Options. A pop-up menu appears in the display.
- 3. Press the down navigation key to highlight Erase All and press . Select Yes or No at the ERASE ALL ENTRIES? pop-up screen.
- 4. Press .

occurr.

Roaming

What is Roaming?

Your phone can roam on other digital networks. Roaming occurs when you travel outside a pre-designated coverage area. The roaming icon displays when roaming is active and extra charges may apply when making or receiving calls.

Note: Some features may be unavailable while roaming.

Roaming Options

The following roaming options are available:

- Home Only Your phone is available for normal operation only in the designated coverage area.
- Automatic-A: The preferred roaming list is used to acquire service. If no preferred systems are found, any digital "A" system is acquired.
- Automatic-B: The preferred roaming list is used to acquire service. If no preferred systems are found, any digital "B" system is acquired.

Note: Contact your service provider for information regarding preferred systems.

To change your Roaming option, follow these steps:

- Press MENU. Use the right navigation key to highlight SETTINGS & TOOLS.
- 2. Press Phone Settings.
- 3. Press System Select.

4. Use the up or down navigation keys to choose the setting you want, and press.

TTY

Your phone is fully TTY compatible. Connect the TTY equipment to the headset jack, which is located on the right side of the phone. Before you can use your phone with a TTY device, you'll need to enable TTY functions in the phone.

Note: Enabling TTY disables headset audio.

- 1. Press MENU. Use the right navigation key to highlight SETTINGS & TOOLS.
- 2. Press Call Settings.
- 3. Press **TTY Mode**. The TTY Mode screen displays.
- 4. A warning appears in the display stating "ENABLING
 TTY WILL DISABLE HEADSET AUDIO. CONTINUE?"
 - Use the up or down navigation key to highlight Yes and press to proceed to TTY MODE screen.
 - Use the up or down navigaton key to highlight No and press to return to Call Settings menu.
- Use the up or down navigation keys to select one of the following:
 - TTY Full
 - TTY + Talk (VCO)
 - TTY + Hear (HCO)
 - TTY Off
- **6.** Press to make your selection. The **TTY Mode Set** screen displays.

ection 3

VoiceSignal™

VoiceSignal is advanced speech recognition software that can be used to activate a wide-variety of functions on your phone. VoiceSignal software automatically voice activates all contacts for voice dialing, message addressing and searching, no pre-recording or training needed. When using VoiceSignal, speak naturally but clearly. Names should be spoken exactly as they are spelled in the contact list.

VoiceSignal Settings

You can adjust the settings and preferences for VoiceSignal by opening Voice Commands menu in the Tools menu. Using this menu, you can change the following Voice Command features:

- Digit Dial Adaptation
- · Reset Digit Dial Adaptation
- · Choice list behavior
- · Voice recognition sensitivity
- VoiceSignal sound and TTS settings
- VoiceMode Adaptation and Tutorial

To access the VoiceSignal Settings menu, follow these steps:

- 1. At the standby screen, press MENU. Use the right navigation key to highlight SETTINGS & TOOLS.
- Press Tools, then Voice Commands, and Voice Settings.

- 3. Use the navigation keys to select the setting you want to change. The following options are available:
 - Choice Lists: If VoiceSignal is not absolutely confident that it
 has correctly identified a name or number, it can display a
 choice list of up to three possibilities, and prompt you to
 confirm the correct one. You can control when choice lists
 appear by changing the Choice Lists setting to the following:
 - Automatic: VoiceSignal displays a choice list when it is not confident it has identified the correct choice from among multiple alternatives.
 - Always On: When there are multiple alternatives, VoiceSignal always displays a choice list.
 - Always Off: VoiceSignal never displays a choice list. Instead, the application picks the best from among the possible choices.
- Sensitivity: In VoiceSignal, sensitivity controls the balance between rejecting too much, which means the phone frequently does not recognize names, numbers, or commands, and rejecting too little, which means it frequently recognizes something even if nothing was said. When VoiceSignal rejects an utterance, it displays a message such as "Please repeat..." or "No match found." If you frequently experience these messages, you might be able to get better recognition by adjusting the Sensitivity setting toward Reject Less. If you frequently experience false activations (VoiceSignal detects a wrong match), you might be able to get better performance by adjusting the Sensitivity setting toward Reject More.
- Digit Dialing: Use the Digit Dialing menu to adapt digit dialing to your voice.
 - Adapt Digits: Lets you adapt digits, which can improve voice recognition of phone numbers. Adaptation takes about 60 seconds.

- Reset Digits: Erases any digit adaptation you have done and resets digit recognition to the factory default. If you have not adapted digits, this option is grayed out.
- Sound: You can customize the VoiceSignal user interface by turning playback on or off for prompts, names, and numbers.
 You can also change the speed and volume of name playback.
 - Prompts: Turns playback on or off for prompts such as "Please say a command."

Note: If you turn prompts off, you can still successfully use VoiceSignal by listening to the expert mode tones in place of the prompts.

- Digits: Turns playback on or off for digits, for example, when confirming a phone number.
- Names: Turns playback on or off for names.
- Name Settings: Adjusts the speed and volume of name playback and Voice Announce Caller ID feature.
- VoiceMode: Lets you adapt words, which can improve voice recognition in the TXT messaging, PIX messaging, and FLIX messaging clients.
 - Adapt VoiceMode: Lets you Adapt VoiceMode to your voice, which improves voice recognition of VoiceMode. You must use the adapt VoiceMode feature in a quiet room for best results.
 - Reset VoiceMode: Erases any VoiceMode enrollment data that is currently stored. If you have not adapted VoiceMode, this option is grayed out.
 - Tutorial: Displays the VoiceMode tutorial.
- About: Displays information about VoiceSignal including version number, build number, and device number.

You can also access the VoiceSignal Settings menu by following these steps:

- 1. In standby mode, press the **k**ey.
- 2. Press the right soft key **Settings**.
- 3. Use the navigation keys to select the setting you want to change.

Adapting VoiceSignal

Voice dialing works well for most people without special adaptation. However, people with strong accents or unique voice characteristics may receive better results after adapting the system to match their voices.

You should adapt Digit Dial only if the system is frequently unable to recognize your speech. After you adapt Digit Dial, your phone is customized to your voice, and your voice only. Others will not be able to use it reliably unless they reset the phone to factory defaults.

Adaptation involves recording several digit sequences to adapt the system to the unique properties of your voice. The adaptation process takes about three minutes.

Tips for adapting Digit Dial

- Adapt digits in a quiet place.
- Make sure you wait for the beep before starting to speak.
- Speak clearly, and say each digit distinctly.
- If you make a mistake while recording a sequence of digits, or if there is an unexpected noise that spoils the recording, rerecord that sequence.

- Only adapt digits if you regularly have problems with digit dialing. Once adapted, digit dialing will not work as well for other people using your phone.
- · Adapt Digit Dial to your voice.

Digit Dial Adaptation

To access the Adapt Digits menu, follow these steps:

- At the standby screen, press MENU. Use the right navigation key to highlight SETTINGS & TOOLS.
- 2. Press **Tools**, then **Voice Commands**.
- 3. Press Voice Settings, then Digit Dialing.
- 4. Adapt Digits is highlighted. Press
- 5. A short description of the Adapt Digits displays.
- **6.** Read the description until you are comfortable to proceed, then press .
- Your phone displays the first digit sequence and "Please say" plays through the speaker followed by the four digits appearing in the display.
 - Wait for the beep and repeat the digits using your normal tone of voice.
- 8. After a moment, the phone plays back the recording and prompts "Did the recording sound ok?" If the recording was good, say "Yes." If you need to re-record, say "No." If you say "No," the phone prompts you to pronounce the digits again. Wait for the beep and then re-record. Repeat this step until you're satisfied with the recording.
- After confirming that the recording sounds ok, repeat the recording process with the next set of digits. After ten sets of digits, the phone indicates that adaptation is complete.

Reset Digit Dial Adaptation

This option erases an adaptation and resets Digit Dial to its original state.

- At the standby screen, press MENU. Use the right navigation key to highlight SETTINGS & TOOLS.
- Press Tools, then Voice Commands.
- 3. Press Voice Settings, then Digit Dialing.
- Highlight Reset Digits and press . The Reset Digit Adaptation screen displays requesting confirmation of reset.

Note: If you have not performed the Adapt Digits function, the Reset Digits option will not be accessible.

5. Press to proceed. Digit Adaptation Reset is completed.

VoiceSignal Commands

The following is a list of functions that you can perform using VoiceSignal speech recognition on your phone.

- Call <Name or #>: Dial by saying a Name in your Contacts List or a Name and a Location (home, work, mobile).
- Send <Msg Type>: Send a Text, Picture, or Video message to a number or to someone in your Contacts List.
- Lookup <Name>: Open the contact record for any name in your Contacts List.
- Go to <Menu>: Open any application installed on your device.
- Check < Item>: Provides details of your coverage, signal strength, and battery level.

- My Account: Provides detail information about your Verizon Wireless account.
- Help: Provide helpful information on how to use VoiceSignal.

Call Name Dialing

To use Name Dial, you'll need to have entries stored in your Contacts list. See page 75 for information on creating a Contacts list.

- In standby mode, press the key.
- After a brief pause, a list of optional commands appears in the display and the audio prompt "Please say a command" plays through the earpiece.
- 3. As one command, say "Call" followed by a contact entry or phone number. For example, you could say "Call John Smith," "Call John Smith's Mobile," or "Call John Smith at Work." at a distance of 3-12 inches from the phone in a natural voice. The name that you said is repeated through the earpiece and your phone dials the number.
- 4. If you only say "Call," then "Please say the name, number, voicemail or last number" plays through the earpiece or speakerphone—if it is enabled.
- 5. To use Name Dialing, say the name of the contact that you want to dial.
- **6.** The name that you said is repeated through the earpiece and your phone dials the number.
- 7. If VoiceSignal is not sure of the number that you said, a list of possible matches appears in the display.

- 8. You're asked to confirm the correct number as VoiceSignal displays the results. Say "Yes" or "No" to confirm or reject the number when prompted. You may also say "Cancel" to exit VoiceSignal, or, "Repeat" to restart VoiceSignal from the beginning.
- The location is repeated through the earpiece and your phone dials the number.

Tip: VoiceSignal voice-activates the entire contact list according to the spelling of the entire name field of each contact entry. Remember to say the entire name of the contact you want to dial, exactly as it is spelled in the contact list.

If VoiceSignal has difficulty recognizing a particular name, try editing the contact name to make it unique. Often times, adding a last name into the name field of the contact entry will help. Avoid using abbreviations or unusual spellings in the name field of any contact you wish to name dial.

Call Digit Dialing

Digit Dial allows you to dial any phone number by simply speaking the digits into the phone. No training is necessary, and Digit Dial is programmed to understand natural speech.

- 1. In standby mode, press the key.
- After a brief pause, a list of optional commands appears in the display and the audio prompt "Please say a command" plays through the earpiece or speakerphone—if it is enabled.
- As a single command, say "Call" followed by a valid 10-digit phone number, such as "Call 6-1-7-5-4-3-2-1-0-1," at a distance of 3-12 inches from the phone in a natural voice. For best results, speak the sequence of

- digits naturally and do not pause between each digit. The digits that you say are repeated through the earpiece and your phone dials the number.
- If you only say "Call," then "Please say the name, number, voicemail or last number" plays through the earpiece.
- Say the area code and number that you want to dial into the microphone, clearly and naturally. The number that you said is repeated through the earpiece and your phone dials the number.
- **6.** If VoiceSignal is not sure of the number that you said, a list of possible matches appears in the display.
- You're asked to confirm the correct number as VoiceSignal displays the results. Say "Yes" or "No" to confirm or reject the number when prompted.

Note: For dialing 911 or other special service or emergency numbers, you must use the keypad. VoiceSignal will not recognize 911 or other special service numbers.

Send Message

Send <Msg Type> lets you begin composing any of the following types of messages by simply speaking the type of message and digits or a Contact name into the phone:

- TXT
- PIX
- FLIX
- Sketch

- 1. In standby mode, press the key.
- A list of commands appears in the display and the audio prompt "Please say a command" plays through the earpiece or speakerphone—if it is enabled.
- Say "Send" (for a TXT message) or "Send" and a message type as a single command. "Please say the name or number" plays through the earpiece or speakerphone—if it is enabled.
- 4. Say a name exactly as it is displayed in your Contacts list, first name followed by last name; or say an area code and number into the microphone, clearly and naturally. The number that you said is repeated through the earpiece.
- The CREATE MESSAGE screen appropriate to the message type you said into the microphone appears in the display with the name or number you said entered in an address field.
- **6.** Complete and send your message. See "Section 7: Messaging" on page 89 for more information.

Name Lookup

To perform a name lookup, you'll need to have some entries in your Contacts list.

- In standby mode, press the key.
- A list of commands appears in the display and the audio prompt "Please say a command" plays through the earpiece or speakerphone—if it is enabled.

- 3. In a single command, say "Lookup" followed by the name of a contact entry at a distance of 3-12 inches from the microphone. For example, you could say "Lookup John Smith."
- 4. If you only say "Lookup", "Please say the name" plays through the earpiece or speakerphone—if it is enabled. To use Lookup, say the name of the contact that you want to look up.
- 5. Say the name exactly as it is displayed in your Contacts list, first name followed by last name.
- The contact name appears in the display with other information that you've entered for that contact.

Opening Apps

The example that follows instructs you how to open Messaging. However, you can open Get It Now, Messaging, Contacts, Recent Calls, and Settings & Tools on your phone using VoiceSignal.

- 1. In standby mode, press the key.
- A list of commands appears in the display and the audio prompt "Please say a command" plays through the earpiece or speakerphone—if it is enabled.
- 3. Say "Go To" at a distance of 3-12 inches from the microphone. A list of options displays and a prompt of "Please choose" plays through the earpiece or speakerphone. Speak one of the displayed options:
 - Get It Now
 - Messaging
 - Contacts
 - Recent Calls

4. The menu option spoken opens.

Checking Your Phone Status

Using VoiceSignal, you can visually and audibly check many useful status indicators by voice, including VoiceMail indicator, Number of messages in your inbox, missed calls, current time, battery strength, signal strength, current volume level.

- 1. In standby mode, press the **k**ey.
- 2. A list of commands appears in the display and the audio prompt "Please say a command" plays through the earpiece or speakerphone—if it is enabled.
- As a single command, say "Check" followed by one of the status items. Valid "Check" commands are:
 - "Check Status" Displays and announces all of the available status indicators in sequence through the earpiece or speakerphone—if it is enabled.
 - "Check Voicemail" Displays the number of new voicemail messages.
 - "Check Messages" Displays and announces the number of new voicemail, TXT, and PIX messages through the earpiece or speakerphone—if it is enabled.
 - "Check Missed Calls" Displays the missed call log.
 - "Check Time" Displays and announces the current time through the earpiece or speakerphone—if it is enabled.
 - "Check Battery" Displays and announces the current battery level through the earpiece or speakerphone—if it is enabled.

Section 3

- "Check Signal Strength" Displays and announces the current EVDO and 1x signal strength levels through the earpiece or speakerphone—if it is enabled.
- "Check Volume" Displays and announces the current master volume setting through the earpiece or speakerphone—if it is enabled.

Checking Your Account Information

Using VoiceSignal, you can check your Verizon account status by voice command.

Note: This features launches the browser to your account page and requires a data plan and is subject to Verizon's data coverage.

- 1. In standby mode, press the **k**ey.
- A list of commands appears in the display and the audio prompt "Please say a command" plays through the earpiece or speakerphone—if it is enabled.
- **3.** Say, "My Account" at a distance of 3-12 inches from the phone in a natural voice.
- The phone's mobile web browser will launch and display your account information. See Section 11, "Mobile Web," for details about configuring and using your mobile web browser.

Section 4: Menu Navigation

Topics Covered

- · Menu Navigation
- · Menu Outline

This section explains the menu navigation for your phone. It also includes an outline of all the available menus associated with your phone.

Menu Navigation

- In standby mode press MENU. The first of several menus appear in the display.
- **2.** Use the navigation keys to browse phone menus.
- 3. Press to enter the menu or sub-menu presently appearing in the display.

Return to the Previous Menu

Press **t** o return to the previous menu.

Navigate Using Shortcuts

You can also access menus and sub-menus using menu numbers. This method is often called a "shortcut." To shortcut to a menu or sub-menu, press MENU, then enter the menu and/or sub-menu number(s) for the feature in question. Use "Navigation Key Shortcuts" on page 55, for looking up the menu shortcut number.

- In standby mode, press MENU. The CONTACTS menu is launched.
- Press the number of the menu, sub-menu, and so on to arrive at the desired feature.
- 3. Press MENU, then press Groups, Business.

Navigation Key Shortcuts

In standby mode, press a navigation key (as illustrated below) to launch its corresponding application.

^{*}The Shortcut menu is set to Calendar by default, but it can be customized to select other functions instead. See also "Shortcut Key" on page 119 for more information

Quick Search

With the **Quick Search** option set to **On** (see also "Quick Search" on page 126 for more information), you can identify and select menu options by entering numbers that represent the first few letters of the name of the menu option.

For example:

- Press the down navigation key. The MENU LIST screen appears in the display with the Language option showing and highlighted.

3. Press . The LANGUAGE screen appears in the display with the current Language option setting showing.

Voice Menu Readout

With **Menu Readout** set to **On** (see also "Menu Readout" on page 171 for more information), you can hear your phone "read" main menu items through the earpiece when you highlight each one.

Call Announcement

With Call Annoncement on (see also "Call Announcement" on page 171 for more information), you hear a "Call from <Contact name/number>" voice announcement of a new call instead of a ringtone.

The In-Use Option

Access numerous menus and features even while on a call.

Note: If the call is disconnected while accessing the In-Use Option, the In-Use Option disappears from the display and the phone eventually returns to standby mode.

- 1. While in a call, press the right soft key **Options**. The following menu items appear in the display.
 - **Message**: Open the Messages menu.
 - Contacts: Open the contacts to view.
 - Recent Calls: Display your recent incoming, missed and outgoing calls.
 - Send DTMF: Sends keypad tones.

- Voice Privacy: Prevent recipients of your calls from seeing your number on their display. Select from standard or enhanced options.
- Location: Identifies your location to the network.
- Voice Memo: Record a voice memo.
- 2. Use the navigation key to highlight a menu. Press to open the highlighted menu or to activate the feature.

Menu Outline

The following list shows the menu structure and indicates the number assigned to each option.

- 1: Get Tunes & Tones
 - 1: Get V CAST Music
 - 2: Get New Ringtones
 - 1: Get New App.
 - 3: My Ringtones
 - 1: Get New Ringtones
 - 1: Get New App.
 - 4: My Music

Section 5: Entering Text

Topics Covered

- · Changing the Text Entry Mode
- · Using Word Mode
- Entering Upper and Lower Case
- Entering Symbols
- · Entering Numbers

This section outlines how to select the desired text input mode when entering characters into your phone. This section also describes how to use the T9 predictive text entry system to reduce the amount of key strokes associated with entering text.

Section 5: Entering Text

Changing the Text Entry Mode

- While composing a message in the Text area, press the right soft key Options to display the following options:
- Add: Allows you to add more information or multimedia items to your message.
 - Graphics: Lists preloaded and downloaded graphics to add to the message.
 - Animations: Lists preloaded and downloaded animations to add to the message.
 - Sounds: Lists preloaded and downloaded sounds to add to the message.
 - Quick Text: Choose from up to 22 messages.
 - Name Card: Select from My Name Card or Contacts to add to the message.
- Edit Text Format: Change text font size, alignment, style, and color.
- Save As Draft: Save the message to your Draft folder.
- Priority Level: Save the message with a High or Normal priority.
- **Callback** #: Provides the option to send a callback number with the message.
- Validity Period: Save the message for the assigned period of time.
- Deferred Delivery: Save the message to be delivered at the assigned delivery date and time.
- Enh. Delivery Ack: Displays a pop-up screen notifying the message sent has been received.
- Add To Contacts: Save the recipients number to your Contacts as a new entry or add to an existing entry.

- 2. While composing a message, press left soft key Abc to display a pop-up menu with the following Text Entry Mode options:
 - VoiceMode
 - Word
 - Abc
 - ABC
 - 123
 - Symbols

Using VoiceMode

VoiceMode dictation software allows you to convert your speech to text when sending a text message. Combining VoiceMode with the Send Text voice command, you can address, compose, and send a text message using just your voice and a few keys.

Entering Text

- In standby mode, press the left soft key Message, then press New Msg, TXT Msg to compose a new text message.
- Enter the phone number or email address of the recipient, then press the down navigation key to move to the Text field.
- Press the left soft key Abc to display a pop-up menu containing text entry mode options.
- 4. Abc is highlighted by default. Use the up/down navigation keys to highlight VoiceMode, then press . The text entry mode indicator changes from Abc to Voice.

Section 5: Entering Text

- 5. Press and hold , then begin speaking your text slowly and clearly into the microphone. See "Tips for Text Entry Using VoiceMode" on page 68 for more information.
- **6.** Release the key when you are finished speaking or to take a break. Press and hold when you are ready to resume speaking.

Tips for Text Entry Using VoiceMode

- Use VoiceMode in a quiet place.
- Make sure you press and hold the key before starting to speak.
- · Speak clearly, and say each word distinctly.
- Pause for a second between each word.
- If you make a mistake or VoiceMode misunderstands you while dictating a message, complete the sentence or message, then correct any errors using the naviigation and keys.

Correcting Errors

VoiceMode recognizes the most frequently used word that matches the word you spoke into the microphone. To correct a VoiceMode error, do the following:

- Use the navigation keys to highlight the word to be changed.
- 2. Press to display other words from the VoiceMode dictionary, if available, or to enter the correct word, if it is not in the dictionary.
- Use the navigation keys to highlight the desired word, then press to enter the selected word in your message.

Using Word Mode

Word recognizes the most commonly used word for any sequence of key presses and inserts that word into your message. It's much faster than the traditional method of text entry (Abc) and requires only one key press per letter of the word that you're spelling.

- In standby mode, press the left soft key Message, then press New Msg, TXT Msg to compose a new text message.
- Enter the phone number or email address of the recipient, then press the down navigation key to move to the Text field.
- 3. Press the left soft key Abc to display a pop-up menu containing text entry mode options.

Word recognizes that the most frequently used word for the sequence you entered is "HELLO." If more than one word shares the same sequence, Word provides the most common. Press to display other words in the dictionary, if available.

Section 5: Entering Text

Entering Upper and Lower Case

- Enter characters while in ABC mode by pressing the key that contains the desired characters for "H".
- Press the key repeatedly to cycle through other available characters for that key.
- Pause briefly when the desired character appears in the display to accept the character and therefore insert it into the message.
- Press to enter a space.
- To cycle between uppercase, lower case, and initial caps for characters in ABC mode, briefly press

Entering Symbols

Symbol mode enables you to enter symbols such as @ or% into a text message.

- In standby mode, press the left soft key Message, then press New Msg, TXT Msg to compose a new text message.
- Enter the phone number or email address of the recipient, then press the down navigation key to enter text.
- 3. Press the left soft key Abc to display a pop-up menu containing the text entry mode options.
- Abc is highlighted by default. Use the up/down navigation keys to highlight Symbols, then press .
 The first of three screens containing symbols appears in the display.
- 5. Press Prev or Next to page through the other symbols, if necessary.

- 6. Enter the key that corresponds with the symbol that you wish to enter. For example, press for an exclamation point (!) on the first page of symbols.
- Repeat steps 3 through 6 to insert as many symbols into your message as desired.

Entering Numbers

Enter numbers into a text message while in number mode (123). See "Changing the Text Entry Mode" on page 66 for instructions on changing text entry modes.

- In standby mode, press the left soft key Message, then press New Msg, TXT Msg to compose a new text message.
- Enter the phone number or email address of the recipient, then press the down navigation key to enter text.
- 3. Press the left soft key Abc to display a pop-up menu containing the text entry mode options.
- 4. **Abc** is highlighted by default. Use the up/down navigation keys to highlight **123**, then press ...
- Press the keys that correspond with the numbers that you wish to enter. For example, press for the number

Section 6: Understanding Your Contacts

Topics Covered

- · Opening Contacts Menu
- · Adding a Contact
- · Adding Pauses
- · Contact Groups
- · Finding a Contact Entry
- · Editing an Existing Contact Entry
- · Deleting a Contact Entry
- · Storing Numbers After a Call
- · Speed Dialing
- · My Name Card
- · Finding My Phone Number

This section allows you to manage your daily contacts by storing their name and number in your Contacts menu. Contact entries can be sorted by name, entry, or group.

Opening Contacts Menu

The Contacts menu provides access to powerful features such as adding Groups, creating and sending V-cards, and viewing the phone number assigned to your phone by Verizon Wireless.

- In standby mode, press MENU. The CONTACTS menu displays.
 - New Contact: Add a number, e-mail, or web address to your Contacts.
 - Contact List: Find a phone number by Name.
 - **Groups**: Add new or rename one of your five default groups.
 - Speed Dials: Set a speed dial for a contact.
 - My Name Card: Create a business card, which can then be sent to others as an attachment
- 2. Use the navigation key to highlight the **CONTACTS** sub-menu of your choice, then press .

Contacts Icons

You can assign multiple entries to a contact. The icons in the following table represent all available entry types

- Mobile 1 icon. Enter a mobile number for the entry in this field.
- Home icon. Enter a home number for the entry in this field
- Work icon. Enter the work number for the entry in this field.
- Email 1 icon. Enter an e-mail address for the entry in this field.

- Group icon. Select an available group to associate with the entry in this field.
- Ringtone icon. Select a ringtone to associate with the entry in this field.
- Mobile 2 icon. Enter a secondary mobile number for the ဓ entry in this field.
- **Fax** icon. Enter a fax number for the entry in this field.
- ₩. Email 2 icon. Enter a secondary e-mail address for the entry in this field.
- **Notes** icon. Enter a note for the entry in this field.

Adding a Contact

When you add information to your Contacts, you can add it as a new entry or as an existing entry.

Method 1

- 1. In standby mode, press MENU, the Quantum Contacts menu opens.
- 2. Press Mew Contact to enter the contact information.
- 3. Enter a name for the entry using the keypad.
- 4. Use the navigation key to highlight the appropriate type (Mobile1, Home, Work, E-mail, etc.). Once highlighted, use the keypad to enter required information.
- 5. To assign a **Speed Dial** location after entering the number, press the right soft key **Options**. Highlight **Set Speed Dial** and press .

Highlight an unassigned location and press **SET.** A confirmation message appears in the display, **Yes** is highlighted, press **to add the Contact to the speed dial location.**

Note: Voicemail is assigned to Speed Dial location 1.

Note: You can assign a speed dial location to each number associated with the contact (Mobile 1, Home, Work, Mobile 2, and Fax).

6. When you're finished entering information for the entry, press SAVE to save the entry to your Contacts.

Method 2

You can add new numbers to the Contacts by simply entering the number while the phone is in standby mode, then following the necessary prompts to complete the process.

- In standby mode, enter the number that you wish to save using the keypad, then press the left soft key Save. You're prompted to select from Create New or Update Existing.
- Press to enter the number as a Create New, or press to append the number to Update Existing.
- If you selected Create New, the following types are available.
 - Mobile 1
 - Mobile 2
 - 🖨 Home
 - 🔯 Work

- Fax
- 4. If you selected **Update Existing**, proceed to step 9.
- 5. Use the up/down navigation keys to highlight the desired entry type (Mobile 1, Home, Work, etc.) then press
- 6. Enter a name for the entry using the keypad. Press the left soft key Abc if you wish to select a different method of text entry, such as Word, Abc, ABC, 123, or Symbols.
- To assign a Speed Dial location after entering the number, press the right soft key Options. Highlight Set Speed Dial and press .

Highlight an unassigned location and press **SET.** A confirmation message appears in the display, **Yes** is highlighted, press **to** add the Contact to the speed dial location.

Note: Voicemail is assigned to Speed Dial location 1.

Note: You can assign a speed dial location to each number associated with the contact (Mobile 1, Home, Work, Mobile 2, and Fax.).

- 8. When you're finished entering information for the entry, press SAVE. The entry is saved to your Contacts.
- 9. If you selected Update Existing, the Contact List opens in Search mode. Use the navigation key to browse through entries, or enter the name of the entry using the keypad. Once you've highlighted the entry you wish to append the number, press

- 10. An Update Existing pop-up screen with a selection list of entry types displays. Use the up or down navigation keys to highlight the desired type then press . The Edit Contact screen appears in the display with the number added to the selected entry.
- 11. Press . "Contact Updated" appears in the display.

Adding Pauses

Calls to automated systems often require a password or account number. Instead of manually entering numbers each time, store the numbers to your Contacts along with special characters called pauses.

- Wait: A hard pause stops the calling sequence until further input from you.
- 2-sec pause: A two-second pause stops the calling sequence for two seconds and then automatically sends the remaining digits.
 - 1. In standby mode, enter the number.
 - Press Options use the navigation key to highlight Wait or 2-sec Pause and press .
 - 3. Continue with Step 2, Method 2 of Adding a Contact.

Note: Entering multiple two-second pauses extends the length of a pause. For example, two consecutive two-second pauses cause a total pause time of four seconds. Keep in mind pauses count as digits towards the 48-digit maximum

Contact Groups

You can place any Contact entry into one of five categories, called "Groups." Groups allow you to search your Contacts faster, quickly send messages to one or more group members, and more.

Note: By default, new entries to your Contacts are placed into the No Group unless another group is specified.

View Groups

- In standby mode, press MENU, the CONTACTS menu opens.
- Press Groups. The following groups appear in the display.
 - No Group
 - Business
 - · Colleague
 - Family
 - Friends
- Use the navigation key to highlight the desired group, then press to access the group and view its contents.

Move an Entry to Another Group

- In standby mode, press the right soft key Contacts.
 Use the navigation key to highlight the contact you wish to move.
- 2. Press the left soft key **Edit**. Use the up/down navigation key to scroll to the Group option.

- Press the left soft key Set. Choose from the following groups:
 - No Group
 - Business
 - Colleague
 - Family
 - Friends
- 4. Use the navigation key to highlight the group containing the entry that you wish to move, then press .
- 5. Press SAVE. The selection has been saved to the designated group.

Create a New Group

In addition to the five groups already in your phone, you can create additional groups (a maximum of 30). New groups can be named anything you like as long as their names are within the 32-character limit.

- In standby mode, press MENU, the CONTACTS menu opens.
- 2. Press Groups. Your existing groups appear in the display.
- Press the left soft key New. A NEW GROUP pop-up menu displays with the "Enter new name" highlighted.
- **4.** Press SAVE to save. The Groups list now displays the new group added.

Send a Text Message to Members of a Group

Use Send Message in the Group feature to send a message to as many as 10 members of a group at once.

Note: Text messaging availability varies when roaming off the Verizon Wireless Network.

- In standby mode, press MENU, the CONTACTS menu opens.
- 2. Press Groups. Your existing groups appear in the display.
- Highlight the desired group name and press the right soft key Options. Highlight Send TXT Msg and press
- Use the down navigation key to highlight the contacts in the group to which you want to send a message. Press to mark each selection you want to send the message.

Tip: If the selected group contains 10 contacts or less, press the right soft key **Mark All** to select all contacts in the group.

Press the left soft key Done after selecting up to 10 contacts.

Note: You can mark up to 10 members of a group for message distribution. If you try and mark an 11th member, you'll be notified that "MAXIMUM RECIPIENTS IS 10".

- Press the down navigation key to place the cursor in the Text field.
- 7. Enter the content of your message using the keypad.
- **8.** To send the text message, press **SEND**.

Section 6

Send a PIX/FLIX Msg to Members of a Group

Note: Only available within Verizon Wireless Enhanced Services Area.

- In standby mode, press MENU, the CONTACTS menu opens.
- Press Groups. Your existing groups appear in the display.
- Highlight the desired group name and press the right soft key Options. Highlight Send PIX/FLIX Msg and press .
- 4. Use the down navigation key to highlight the contacts in the group to which you want to send a message. Press MARK to place a checkmark next to each selection to send messages to.

Tip: If the selected group contains 10 contacts or less, press the right soft key Mark All to select all contacts in the group.

Press the left soft key Done after selecting up to 10 contacts.

Note: You can mark up to 10 members of a group for message distribution. If you try and mark an 11th member, you'll be notified that "MAXIMUM RECIPIENTS IS 10".

- 6. The CREATE PIX/FLIX MSG screen appears. Press the down navigation key to move the cursor into the following entry fields:
 - Text: Add text to the PIX/FLIX Msg.
 - PIX/FLIX: Add an image from the PIX or FLIX Gallery to the message.

- Sound: Add sound to the PIX/FLIX Msg.
- Subject: Add a subject to the PIX/FLIX Msg.
- **Name Card**: Attach a Name Card or an entry in your Contacts to the message.
- Once you've finished adding the desired content to your PIX Msg, press SEND to send the PIX/FLIX Msg to the intended recipients.

Finding a Contacts Entry

From standby mode, you can quickly open the Contacts list. Contacts is a quick way of viewing entries you've stored in the Contacts list.

- In standby mode, press the right soft key Contacts.
 The Contact List displays.
- 2. In the Search field, enter the first and second letters of the name you wish to search until it is highlighted.

Editing an Existing Contact Entry

- In standby mode, press MENU, the CONTACTS menu opens.
- 2. Press Contact List.
- 3. Use the navigation key to highlight the contact list entry and press the left soft key **Edit**.
- Use the navigation key to highlight the name, number, email address, or other field that you wish to edit.
- Press to backspace and delete numbers, text, or symbols.
- **6.** Press and hold **to** erase all numbers in the highlighted field.

- 7. Use the keypad to re-enter numbers, text, or symbols.
- 8. When you're finished editing the entry, press SAVE. Your changes are saved.

Deleting a Contact Entry

- In standby mode, press MENU, the CONTACTS menu opens.
- Press Contact List.
- 3. Use the navigation key to display the contact list entry and press VIEW.
- **4.** Press the left soft key **Erase**.
- 5. A pop-up "ERASE ENTRY?" screen displays.
- **6.** Highlight **Yes** or **No**, then press .

Storing Numbers After a Call

Once you've finished a call, you can store the number of the caller to your Contact List.

Note: If the call was incoming and Caller ID information was unavailable, then the store option is also unavailable.

- 1. After you press to end your call, the call time, length of call and phone number appears in the display.
- Press to open the ALL CALLS list, use the navigation keys to highlight the call whose number you want to save, then press the right soft key Options.
- 3. Highlight **Save** and press . You're prompted to confirm this as a **Create New**, or **Update Existing**.
- Follow the on-screen prompts to designate other information.

Store a number in standby mode

Store a phone number by entering the number in standby mode, then pressing the left soft key **Save**. See "Method 2" on page 76 for more information.

Speed Dialing

Note: 1-Touch, 2-Touch, and 3-Touch dialing allows you to call numbers stored in your Contact List quicker.

Speed dialing allows you to press and hold a key (or keys) to dial the number associated with those key(s). There are three types of speed dialing; **1-touch**, **2-touch**, and **3-touch** dialing.

Note: Memory location 001 is reserved for voicemail.

1-touch dialing

Call phone numbers assigned to memory locations 002 - 009 by pressing and holding the any of the 2 - 9 keys. For example, to speed dial the number assigned to location 2, press and hold until the name and number appear in the display and the number is dialed.

2-touch dialing

Call phone numbers assigned to keys 010 through 099 by briefly pressing the first key, then pressing and holding the second key. For example, to speed dial the number assigned to 013, briefly press , then press and hold , until the number dials.

3-touch dialing

Call phone numbers assigned to memory locations 100 through 999 by briefly pressing the first and second keys, then pressing and holding the third key. For example, to dial location number 113, briefly press , then press and hold until the number dials.

Assign a speed dial location

- In standby mode, press MENU, then press Speed Dials. The Speed Dials screen displays with the first available number highlighted.
- Use the navigation keys to highlight the number you wish to assign or enter the speed dial location using the keypad, press SET.
- 3. The SET SPEED DIAL screen displays.
- 4. Use the navigation keys to highlight the entry you want, then press .
- 5. At the pop-up screen, use the navigation key to highlight **Yes** or **No** and press .
- **6.** Continue to assign speed dial entries or press the key to return to standby mode.

My Name Card

My Name Card allows you to create a virtual business card. Once completed, you can send the card to recipients as a V-card attachment.

- In standby mode, press MENU, then press My Name Card.
- 2. My Name Card opens with the Name field highlighted.

- 3. Enter information in each of the fields as desired. Use the navigation key to move between fields, then use the keypad to enter information.
- **4.** When finished, press **t** to save the V-card.

Finding My Phone Number

My Number displays the ten-digit number assigned to your phone.

- 1. In standby mode, press MENU, then press the right navigation key to **X** SETTINGS & TOOLS.
- 2. Press Phone Info.
- 3. Press My Number. The mobile device, phone number, and mobile identification number are displayed.

- Mobile IM
- Chat

This section allows you to send or receive different types of messages. It also includes the features and functionality associated with messaging.

Types of Messages

Your phone is capable of sending email, text, PIX & FLIX, voicemail, sketch, and postcard messages. Send email, text, PIX & FLIX messages by simply entering the email address or the phone number of the recipient in the To: <.....> or Send To field when creating a new message.

Retrieving New Messages

While text messages from other phones are delivered directly to your phone, PIX/FLIX messages and emails will be stored in the Inbox of the message server and the server will alert you to new messages. Therefore you need to retrieve new messages to your phone and read them on the phone.

Retrieving a Text Message

When you receive a message in standby mode, the message ringer sounds, (unless turned off), and New Text Msg appears in the display along with the closed envelope icon . The date and time of the message also appear in the display.

- 1. Press to View Now, or press the down navigation key to highlight View Later and press. The message is saved to your inbox where you can view it later.
- With the message open, press the right soft key Options to Forward, Reply w/copy, Save Graphic, Save Sound, Save Quick Text, Save Name Card, Lock, Add To Contacts or Message Info.
- 3. With the message open, press REPLY to return a message to the sender.

Note: When viewing a TXT message, you can view the previous TXT message by pressing the left navigation key and view the next TXT message by pressing the right navigation key.

Creating and Sending TXT Messages

You can send text messages to another mobile phone or to an email address.

- In standby mode, press MENU, then press the left navigation key to highlight MESSAGING, press New Msg. Or in standby mode, press the left soft key Message then press New Msg.
- 2. Press **TXT Msg** to compose a new text message.
- 3. Enter the phone number or email address of the recipient.
- **4.** Press the right soft key **Options** to display a pop-up menu with the options listed.
 - Entry Mode: Choose from Word, Abc, ABC, 123, Symbols and Shortcuts modes of text entry.
 - Save As Draft: Save the message to your Draft folder.
 - Priority Level: Save the message with a High or Normal priority.
 - Callback #: Provides the ability to send a callback # with the message.
 - Validity Period: Save the message for the assigned period of time.
 - Deferred Delivery: Save the message to be delivered at the assigned delivery date and time.

Section 7

- Enh. Delivery Ack: Displays a pop-up screen notifying the message sent has been received.
- Add To Contacts: Save the recipients number to your Contacts as a new entry or add to an existing entry.
- 5. Press the left soft key Add to select from the following options:
 - Contacts: Choose a number from your contacts list.
 - **Groups**: Choose a group or a number from your group.
 - Recent Calls: Choose a number from the recent calls list.
- After selecting or entering your recipients in the To field, use the down navigation key, or key to move to the message composer.
- 7. In the text field, compose your message using the keypad. At any point while composing a message, press the left soft key Abc to change text entry mode and press the right soft key Options to display the following options:
 - Add: Add information from the following categories.
 - Graphics: Lists preloaded and downloaded graphics.
 - **Animations**: Lists preloaded and downloaded animations.
 - **Sounds**: Lists preloaded and downloaded sounds.
 - Quick Text: Choose from up to 12 pre-loaded messages.
 You can add 10 additional messages by pressing the right soft key
 New and erase messages by pressing the left soft key
 Erase.
 - **Name Card**: Attach My Name Card information or information from one of your Contacts.
 - Edit Text Format: Allows you to edit the text size, alignment, style, color, and background color.
- Save As Draft: Save the message to your Draft folder.

- Priority Level: Save the message with a High or Normal priority.
- Callback #: Provides the ability to send a callback # with the message.
- Validity Period: Save the message for the assigned period of time.
- Deferred Delivery: Save the message to be delivered at the assigned delivery date and time.
- Enh. Delivery Ack: Turn message delivery acknowledgement Off or On.
- Add To Contacts: Save the recipients number to your Contacts as a new entry or add to an existing entry.
- 8. Use the navigation key to highlight an option. Press to perform the function for the option, or to enter its sub-menu.
- **9.** To send the message, press **SEND**.

Creating and Sending PIX/FLIX Messages

Note: Only available within Verizon Wireless Enhanced Services Area.

You can add sounds and attach a Name Card or Contact entry to your PIX/FLIX Msg. This is also known as Multimedia Messaging (MMS).

- In standby mode, press MENU, then press the left navigation key to highlight MESSAGING, press Mew Msg. Or in standby mode, press the left soft key Message then press New Msg.
- Press PIX Msg or FLIX Msg to compose a new message.

- 4. Press the right soft key **Quantity** Options to display a pop-up menu that provides the following options:
 - Entry Mode: Choose from Word, Abc, ABC, 123, Symbols and Shortcuts modes of text entry.
 - Preview: Shows the message before it is sent.
 - Save As Draft: Save the message to your Draft folder.
 - Priority Level: Save the message with a High or Normal priority.
 - Validity Period: Save the message for the assigned period of time.
 - **Deferred Delivery**: Save the message to be delivered at the assigned delivery date and time.
 - Add To Contacts: Save the recipients number to your Contacts as a new entry or add to an existing entry.
- 5. Press the left soft key Add to select from the following options:
 - Contacts: Choose a number from your contacts list.
 - **Groups**: Choose a group or a number from your group.
 - Recent Calls: Choose a number from the recent calls list.
 - To PIX/FLIX Place: Send the message to the PIX Place.
- **6.** Press once you've finished entering the phone number(s) or email address(es).
- 7. In the **Text** field, compose your message.
- 8. Press the down navigation key to highlight the PIX/FLIX field

- Press the left soft key My PIX/My FLIX to add a PIX/ FLIX. The MY PIX screen appears in the display.
- 10. Use the up and down navigation keys to highlight a picture album, and press . An array of pictures appears in the display.
- 11. Use the up and down navigation keys to highlight a picture, and press to attach the highlighted picture to the message. The CREATE PIX MSG screen appears in the display.
- 12. Press the up/down navigation key to highlight the **Sound** field. Press the left soft key **Sounds** to select a sound. Press the up/down navigation key to highlight the desired sound and press .
- 13. Press the down navigation key to highlight the Subject field. Press the left soft key Abc to change entry mode. Press the right soft key Options to Add Quick Text. Press the up/down navigation key to highlight the desired Quick Text phrase, and press .
- 14. Press the down navigation key to add Name Card. Press the left soft key Add to select My Name Card or an entry from your Contacts list. Follow the prompts and press to insert.
- **15.** Once all fields are complete, press to send the message to the intended recipient(s).

Section

Section 7

Receiving PIX/FLIX Messages

When you receive a new PIX/FLIX Msg, NEW PIX/FLIX MSG appears in the display along with the options View Now, View Later or Reject.

Note: For the option Reject to appear in the display when you receive a PIX/FLIX Msg, Auto Receive mode must be set to Off in the Message Settings menu.

- When you receive a new PIX/FLIX Msg, press View Now. Downloading... appears in the display.
- 2. After downloading, the image (and text if any) contained in the PIX/FLIX Msg appear in the display.
- Use the navigation keys to scroll through the message or view the entire picture if necessary.

Note: When viewing a PIX/FLIX message, you can view the previous PIX/FLIX message by pressing the left navigation key and view the next PIX/FLIX message by pressing the right navigation key.

Receive Messages While in a Call

When you receive a message while in a call, the **NEW PIX/FLIX MESSAGE** dialog box appears in the display. Press to clear. You can view the message without disconnecting your call by pressing **Options** and then selecting **Message**.

Note: During a call you can only view the contents of the message. You cannot download any images, or sounds attached to the message.

Reject a PIX/FLIX Msg

Note: For the option Reject to appear in the display when you receive a PIX/FLIX Msg, Auto Receive mode must be set to Off in the Message Settings menu. See "Changing Message Settings" on page 103 for more information

This feature is currently unavailable outside of the United States.

- When you get notification to view a new PIX/FLIX Msg that you don't want to receive, press the down navigation key to highlight Reject.
- 2. Press to reject.

View a PIX/FLIX Msg Later

- When you receive a new PIX/FLIX Msg that you would like to view later, highlight View Later and press
- To view the message, press the left soft key Message, Inbox.
- Use the navigation key to highlight the unopened message, then press OPEN. The MESSAGE INFO screen appears first if the Auto Receive option is Off. If so, press DOWNLOAD to view PIX/FLIX message.

New Sketch Messages

You can convert a picture to a black and white sketch drawing that can be sent with a message. For information on taking a picture see "Take PIX" on page 155. For information on sending the message, see "Creating and Sending PIX/FLIX Messages" on page 93.

Message Folders

Your phone provides default message folders for your Text and PIX/FLIX messages.

Note: To quickly view all messages in the Inbox, Sent, or Drafts folders, open one message and then press the right navigation key to view the next message or press the left navigation key to view the previous message.

Inbox

Received messages of all types are stored in the Inbox folder.

- 1. In standby mode, press the left soft key Message then press Inbox. Or in standby mode, press MENU and use the left navigation key to highlight MESSAGING then press Inbox.
- Use the navigation key to highlight the message that you wish to view.
- Press OPEN to view contents of the highlighted message.
- While viewing a message press the right soft key Options to display the options listed.
 - **Forward**: Forward the message to another recipient.
 - Play Again: Replays a PIX/FLIX message.
 - Reply w/copy: Attaches the content of the message you are replying to.
 - Save PIX/FLIX: Saves the picture sent in a PIX/FLIX message to My PIX or My FLIX.
 - Save Sound: Saves the sound received with the message.

- Save Quick Text: Saves the text received in the message to the Quick Text list.
- Save Name Card: Saves the name card received in the message.
- Lock/Unlock: Locks the message to prevent deletion.
- Add To Contacts: Save the number of the sender to your Contacts as a new entry or add to an existing entry.
- Message Info: Provides the following information: From and Callback Number, Priority, Msg Type, Size and if a Graphic, Sound or Name Card were included in the message.
- From the Inbox menu, press the left soft key Erase
 to delete the message from the Inbox. Highlight Yes to
 delete, or No to return to the Inbox menu.
- Press the REPLY key to return a message to the sender.

Note: When Auto Erase is turned on, the oldest read TXT message is replaced by an incoming TXT message when 50 TXT messages are stored in the Inbox, and the oldest read PIX/FLIX message is replaced by an incoming PIX/FLIX message when available memory is filled with PIX/FLIX messages. See "Changing Message Settings" on page 103 for information on how to set Auto Erase and Auto Receive.

Sent

Your phone stores messages in the Sent folder, regardless of whether the message was successfully transmitted. Verify if and when a message or e-mail was successfully transmitted by enabling the **Enh. Delivery Ack** feature in Message Settings.

- In standby mode, press the left soft key Message then press Sent. Or in standby mode, press MENU and use the left navigation key to highlight MESSAGING then press Sent.
- 2. Use the navigation key to highlight the message that you wish to review, then press **OPEN**.
- 3. While viewing the message, press the right soft key **Detions** to display the options listed.
 - Play Again: Replays a PIX/FLIX message.
 - Forward: Forwards the message to another recipient.
 - Resend: Sends the message again to the original recipient.
 - Lock/Unlock: Locks the message to prevent deletion.
 - Save Quick Text: Saves the text sent in the message to the Quick Text list.
 - Add To Contacts: Adds the sender's information to your contact list.
 - **Erase Sent**: Erases this message from the Sent folder.
 - Message Info: Provides the following information: TO Number, Priority, Msg Type, Size and if a Graphic, Sound or Name Card were included in the message.
- **4.** Use the navigation key to highlight the desired option.
- **5.** Press to perform the function for the highlighted option.
- **6.** Press RESEND to send the message to the recipeint again.
- 7. From the **Sent** menu, press the left soft key **Erase** to delete the message from the Sent folder. Highlight **Yes** to delete, or **No** to return to the Sent menu.

Drafts

Draft messages are those that have been composed but never sent. You can return to the Drafts folder at any time to view, edit, or send a draft message.

Create a Draft Text Message

- In standby mode, press MENU, then press the left navigation key to highlight MESSAGING, press New Msg. Or in standby mode, press the left soft key Message then press New Msg.
- 2. Select the type of message you want to create.
- **3.** Enter the phone number of the recipient, then press the down navigation key.
- Compose your message using the keypad, then press the right soft key Options. A pop-up menu appears in the display.
- Scroll down with the navigation key until Save As Draft is highlighted, then press . A confirmation message appears in the display and your message is saved to the Drafts folder.

View and Edit Draft Messages

- In standby mode, press the left soft key Message then press Drafts. Or in standby mode, press MENU and use the left navigation key to highlight MESSAGING then press Drafts.
- Use the navigation key to highlight the message that you wish to view, then press EDIT. The message opens in the Text field with the message text displayed.

- **4.** Press the right soft key **Options**. A pop-up menu appears in the display with the options listed.
 - Preview: Plays a PIX/FLIX message.
- Add: Add information from the following categories.
 - Graphics: Lists all graphics pre-loaded and downloaded.
 - Animations: Lists all animations pre-loaded and downloaded.
 - Sounds: Lists all sounds pre-loaded and downloaded.
 - Quick Text: Choose from up to 12 pre-loaded messages.
 - Name Card: Allows you to add your name card or the name card of one of your contacts.
- Add Quick Text: Choose from up to 12 pre-loaded messages.
- Edit Text Format: Allows you to edit the text size, alignment, style, color, and background color.
- Save As Draft: Save the message to your Draft folder.
- Priority Level: Save the message with a High or Normal priority.
- Callback #: Provides the ability to send a callback # when sending a message.
- Validity Period: Save the message for the assigned period of time.
- Deferred Delivery: Save the message to be delivered at the assigned delivery date and time.
- Enh. Delivery Ack: Displays a pop-up screen notifying the message sent has been received.

- Use the navigation key to highlight the desired option.
 Press to perform the function for the highlighted option.
- 6. Once you've returned to the message composer, pressto send the message, if desired.

Erase Options

You can erase unlocked messages in your Inbox, Drafts folder, or Sent folder. Locked messages are not erased.

To erase messages:

- In standby mode, press MENU, then press the left navigation key to highlight MESSAGING, then press the right soft key Doptions.
- 2. The following options are available:
 - **Erase Inbox**: Erases unlocked messages in your Inbox.
 - Erase Drafts: Erases unlocked messages in your Drafts folder.
 - **Erase Sent**: Erases unlocked messages in your Sent folder.
 - Erase All: Erases unlocked messages in all message folders (Inbox, Drafts and Sent).

Changing Message Settings

This menu allows you to define settings for messages sent or received on your phone. To access your message settings, use the following steps:

Section 7

- In standby mode, press MENU, then press the left navigation key to highlight MESSAGING, then press the left soft key Settings. Or press the left soft key Message and press the left soft key Settings.
- Select the message type you would like to change and press . Choose from the following options:
 - All Msg: Allows you make a broadcast change to all message settings.
 - Auto Save: Saves all messages sent. Use the navigation keys to select On, Off, or Prompt.
 - Auto Erase: Erases the oldest message of the same type (TXT or PIX/FLIX) when the maximum number of received messages of that type is exceeded in the Inbox. For example, the oldest read TXT message is replaced by an incoming TXT message when 50 TXT messages are stored in the Inbox, and the oldest read PIX/FLIX message is replaced by an incoming PIX/FLIX message when 10 PIX/FLIX messages are stored in the Inbox. Choose from On or Off.
 - Quick Text: Displays the Quick Text pre-defined entries for Text Msg and PIX/FLIX Msg. Press the right soft key New to add to the Quick Text list. Enter your new text and press
 . The new Quick Text item shows in the first position of the list.
 - Voicemail #: Enter the speed dial entry set for your voicemail.
 - Entry Mode: Sets the default entry mode for messaging. Choose from Word, Abc, ABC, or 123.
 - Callback #: Displays the callback number in the text message. Choose from On or Off.
 - Signature: Adds the signature text to each message sent.
 Choose from None or Custom.
 - TXT Msg: Allows you to customize Text Message settings.

- Auto View: Automatically displays the text message when received. Choose from On or Off.
- Signature: Adds the signature text to each message sent.
 Choose from None or Custom.
- Text Auto Scroll: When enabled, advances body text automatically one line at a time.
- PIX-FLIX Msg: Allows you to customize PIX-FLIX Message. settings.
 - Auto Receive: Automatically receives messages into your Inbox. Choose from On or Off.
 - Signature: Adds the signature text to each message sent. Choose from None or Custom.

Voicemail

New voicemail alerts are sent via an SMS text message. These messages indicate how many new and urgent voicemails are in your voicemail box. Open the text message to view the number of new voice messages in your voicemail. If a caller leaves a callback number, this number will also be sent via an SMS text message.

Receive Voicemail Messages

When you receive a new voicemail message you'll hear a sound and a "NEW VOICEMAILS" message and the Voicemail icon appear in the display. You are also prompted to listed to your voicemail message(s).

Phone Settings

The Phone Settings menu provides the ability to access the following menus:

Standalone Mode

With Standalone Mode on, all send and receive radio functions for your phone are disabled, and you cannot use your phone to place or receive calls.

- In standby mode, press MENU, use the right navigation key to highlight SETTINGS & TOOLS.
 Press Phone Settings. The Phone Settings menus are listed in the display.
- 2. Press Standalone Mode. Use the Up or Down navigation key to select On or Off and press .

Shortcut Key

Shortcut Key allows you to select from up to 21 applications that appear in the display when you press the down navigation key in standby mode.

- In standby mode, press MENU, use the right navigation key to highlight SETTINGS & TOOLS.
 Press Phone Settings. The Phone Settings menus are listed in the display. Press Shortcut Key.
- 2. Use the navigation key to select the menu item shortcut of your choice, then press .

Language

Change the display language from English to Spanish using the Language menu.

- In standby mode, press MENU, use the right navigation key to highlight SETTINGS & TOOLS.
 Press Phone Settings. The Phone Settings menus are listed in the display. Press Language.
- 2. Use the navigation key to select the language of your choice, then press .

Location

Note: This feature is only available on the Verizon Wireless network.

The Location (GPS) setting identifies your location to the network. You can fully enable this setting or set GPS to work only in the case that you dial 911 from your phone.

- In standby mode, press MENU, use the right navigation key to highlight SETTINGS & TOOLS.
 Press Phone Settings. The Phone Settings menus are listed in the display.
- 2. Press Location. The Location screen displays.

- Location On: GPS location setting is on wherever the feature is available.
- E911 Only: GPS location setting is on whenever you dial 911 only.
- 3. Use the navigation key to highlight an option.
- **4.** Press **t** to select the highlighted setting.

Security

The **Security** menu allows you to lock your phone, set restrictions, and other security options.

- In standby mode, press MENU, use the right navigation key to highlight SETTINGS & TOOLS. Press Phone Settings.
- 3. Enter the lock code (factory settings are the last four digits of your telephone number). The following options display:
 - Common Code: Common code On, uses a common password for both device and location lock code. Common code Off, uses separate passwords for both device and location.
 - Lock Mode: Allows you to lock the Device or Location.
 - Edit Code: Allows you to change the Lock Code for the Device or Location.
 - Reset Phone: All settings (except Contacts) are reset to factory default settings.
 - Erase Phonebook: Allows you to erase the phonebook.

Lock Phone

Lock Phone restricts the use of your phone with the exception of outgoing calls to 911. Lock Phone allows you to answer calls, but to place calls (except to emergency numbers) you have to unlock the phone.

- In standby mode, press MENU, use the right navigation key to highlight SETTINGS & TOOLS. Press Phone Settings. The Phone Settings menus are listed in the display. Press Security. You're prompted to enter the lock code. The default lock code is the last four digits of your telephone number.
- Enter the Lock Code. Several security menus appear in the display.
- Press Lock Mode. Use the navigation key to highlight Device or Location. Press . The following options display:
 - Lock: Your phone returns to standby mode. The the Lock Code is required immediately to access any functions.
 - Unlock: If locked, unlocks the device or phone, depending on your selection.
 - On Power Up: The Lock Code is required whenever you
 power up the phone.

Note: The **On Power Up** option is not an available in the Location sub-menu.

4. Press to perform the function for the highlighted option.

Edit Lock Code

The default lock code is the last four digits of your phone number. **Edit Code** allows you to change this code to a lock code of your preference.

- In standby mode, press MENU, use the right navigation key to highlight SETTINGS & TOOLS.
 Press Phone Settings. The Phone Settings menus are listed in the display.
- Press Security. You're prompted to enter the lock code. The default lock code is the last four digits of your telephone number.
- Press Edit Code. Two options are available Device and Location. Use the navigation keys to highlight your choice and press .
- At the "ENTER NEW LOCK CODE" or "ENTER NEW LOCATION LOCK CODE" prompt, enter the new lock code.
- At the "CONFIRM LOCK CODE" prompt, enter the new lock code.
- "DEVICE CODE SET" or "LOCATION LOCK CODE SET" message appears in the display confirming that your lock code has been changed.

Note: Your phone does not allow you to view the lock code for obvious security reasons. If you change the lock code, be sure to write down or memorize the new code.

Resetting Your Phone

Reset Phone returns all setup options to their factory default.

- In standby mode, press MENU, use the right navigation key to highlight SETTINGS & TOOLS.
 Press Phone Settings. The Phone Settings menus are listed in the display.
- Press Security, and enter the lock code. Press Reset Phone. A prompt appears in the display asking if you wish to restore default settings (except for the Contacts).
- Press Yes to restore default settings or press No to return to the Security list.

Erase Phonebook

Erase Phonebook allows you to erase the phonebook.

- In standby mode, press MENU, use the right navigation key to highlight SETTINGS & TOOLS.
 Press Phone Settings. The Phone Settings menus are listed in the display.
- Press Security, and enter the lock code. Press Frase Phonebook. A prompt appears in the display "DELETE ENTIRE PHONEBOOK". Use the navigation key to highlight Yes and press.

Emergency

Note: Emergency number 911 is hard-coded into your phone. You can dial this number any time, even when the phone is locked or restricted. If you call 911 an audible tone is heard and an emergency prompt appears in the display for the duration of the call.

Remember to always turn your phone on and check for adequate signal strength before placing a call.

Call Emergency Numbers in Lock Mode

In Lock Mode, you can dial 911 to place an emergency call.

Note: If you dial 911, your phone dials the emergency number immediately (no prompt).

 Press Call Settings. The Call Settings menus are listed in the display.

- Press Picture ID. The following options appear in the display:
 - 0n
 - Off
- 3. Make your selection and press .

Bluetooth Settings

About Bluetooth

Bluetooth is a short-range wireless communications technology capable of exchanging information over a distance of about 30 feet without requiring a physical connection.

Unlike infrared, you don't need to line up the devices to beam information with Bluetooth. If the devices are within a range of one another, you can exchange information between them, even if they are located in different rooms.

Note: For optimal user experience when using the Bluetooth earpiece, enable the Keyl/EarMic option in the Voice Commands Voice Dial menu. This will allow you to place calls with a Bluetooth earpiece using the Voice Dial feature in hands-free mode.

Bluetooth Service Profiles

Actually, the Bluetooth specification is a protocol that describes how the short-range wireless technology works, whereas individual profiles describe the services supported by individual devices. Profiles reduce the chance that different devices will not work together.

Your phone supports the following profile:

- HSP: Mono-headset Profile*
- HFP: Hands Free Protocol
- · SPP: Serial Port Profile
- DUN: Dial Up Network Profile
- BPP: Basic Print Profile
- * For vehicle/accessory compatibility, go to www.verizonwireless.com/bluetoothchart
 Phone does not support all Bluetooth OBEX profiles.

The following Bluetooth options are available:

On/Off

When the Bluetooth radio is turned on, you can use the Bluetooth features available. When the Bluetooth radio is turned off, you cannot send or receive information via Bluetooth. To save battery life or in situations where radio use is prohibited, such as airline traveling, you can turn off the Bluetooth wireless technology.

- In standby mode, press MENU key and use the right navigation key to highlight SETTINGS & TOOLS.
 Press Bluetooth. The Bluetooth menus are listed in the display.
- 2. Press to turn Bluetooth On or Off.

Note: If activated, the Bluetooth icon displays.

Search

This option searches for a recognized Bluetooth wireless technology device.

- In standby mode, press MENU, use the right navigation key to highlight SETTINGS & TOOLS. Press Bluetooth. The Bluetooth menus are listed in the display.
- 2. Add New Device is highlighted, press .

- A list of found Bluetooth devices will be displayed. Use the Up and Down navigation keys to highlight a Bluetooth device. Press to pair the devices.
- 4. Enter the passkey (0000 for most devices) and press to pair with the device you selected.

Bluetooth Settings

The Bluetooth wireless technology settings menu provides the ability to view and change the device name, show the visibility, and set the security for the device.

- In standby mode, press MENU, use the right navigation key to highlight SETTINGS & TOOLS.
 Press Bluetooth. The Bluetooth menus are listed in the display.
- 2. Press Settings. The Bluetooth menu displays with the following options:
 - **My Phone Name**: allows you enter a customized name.
 - Discovery Mode: allows other users to see your accessibility. Select On for other devices to see your device, or

Off for no visibility. (For more information, refer to your Bluetooth device documentation.)

• My Phone Info: shows the handset information.

Note: When a Bluetooth headset is paired with the phone, the button on the Bluetooth headset will launch VoiceSignal voice recognition over the Bluetooth link

Also, VoiceSignal will use the Bluetooth headset to play prompts and record speech.

Memory

The Manage Memory menu allows you to set your **Save Options** to **Phone Memory** or **Card Memory**. You can also set the memory usage for pictures, videos, music, sounds, and ringtones on your phone and microSD™ card.

- In standby mode, press MENU, use the right navigation key to highlight SETTINGS & TOOLS.
 Press Memory. The Memory menus are listed in the display. The following options are available:
 - Save Options: You can set your PIX, FLIX, or Sounds to be saved to either phone memory or card memory.
 - Phone Memory: Allows you to see memory usage of everything stored on your phone.
 - Card Memory: Allows you to see memory usage of everything stored on your microSD™ card.

Phone Info

The **Phone Info** menu allows you to view the software and hardware information, your assigned number, and an icon glossary for your phone.

- In standby mode, press MENU, use the right navigation key to highlight SETTINGS & TOOLS.
 Press Phone Info. The Phone Info menus are listed in the display.
- 2. **My Number** is highlighted. Press **1** to display the Mobile Device and Identification numbers.
- 3. Press SW Version to view the software, PRL, ERI, Browser, Get it Now, and Hardware versions available on your phone.
- **4.** Press **Icon Glossary** to view the list of icons with a brief description.
- **5.** Press **1** to return.

Section

Section 9: Multimedia

Topics Covered

- · Get It Now
- · Get Tunes & Tones
- · Get PIX & FLIX
- · Printing Pictures Using PictBridge
- · Get Fun & Games
- · Get News & Info
- · Get Going
- · Get Extras

This section describes how you receive tunes, tones, images, games, news and information. You can also take and send pictures and video from your phone.

Get It Now

The Get It Now menu provides sub-menus to GetTunes & Tones, Get PIX & FLIX, Get Fun & Games, Get News & Info, Get Going and Get Extras. You can also view memory info to see how much space you've used (and have left) for stored media. Use the following steps for each GET IT NOW sub-menu.

 In standby mode, press MENU, use the left navigation key to highlight GET IT NOW. Press the right soft key Info.

Note: you can directly access the GET IT NOW menu by pressing the right navigation key while in standby mode.

- 2. Press App. Memory to display the memory available. Press the key to return.
- Press Content Memory to view the memory used for the following items. Press the key to return.
 - My Ringtone
 - · My Music
 - My Sound
 - My Pix
 - My Flix
 - Applications
 - PIX/FLIX Msg
- Press View Log to see the file transfer activity. Press the key to return.

5. Press Help to display a list of frequently asked questions. Use the navigation key to highlight an item and press to display help text. Press the key to return.

Get Tunes & Tones

This menu allows you to get new tunes and tones, record new sounds, and set tunes and tones as your ringtone. It also allows you to access your music files.

Get V CAST Music

You can use the Get V CAST Music option to download music from the V CAST Music catalog directly to phone memory or to a removable memory card. Before downloading music to your microSD $^{\text{TM}}$ memory card, be sure to format it as described below.

Formatting Your microSD™ Card Using Your Handset

- Insert your card into the microSD card slot located on the left side of the phone.
- In standby mode, press MENU, then press the right navigation key to SETTINGS & TOOLS.
- 3. Press Memory.
- 4. Press **Card Memory**.
- **5.** Press the right soft key **Doptions**.
- **6.** Format Card is highlighted, press **1** to format card.

Formatting Your microSD™ Card Using Your PC

For best playback of songs stored to the microSD™ memory card, you should reformat your memory card with PC format FAT32.

Note: Any contents currently stored on the microSD[™] memory card will be lost after this procedure is performed.

- Insert the microSD™ memory card into an SD card adapter.
- 2. Insert the SD card adapter into the SD card reader slot.
- 3. Plug the SD card reader into a USB port on your PC.
- On your PC, go to your My Computer directory and highlight the drive that represents the SD card reader.
- 5. Right click and select the Format option.
- Under the File System option, select FAT32 and click the Start button.
- 7. Your microSD™ memory card will be reformatted.
- 8. Remove the microSD™ card from the SD card reader and insert it back into your phone. The My Music directory will automatically be created on the microSD™ memory card the first time you insert it into the phone.

Downloading Music from the V CAST Music Catalog

- In standby mode, press the Menu, use the left navigation key to highlight Get It Now. The Get Tunes & Tones menu is highlighted, press
- Press Get V CAST Music to open the V CAST Music catalog.
- Browse or search the catalog to preview the songs you want.
- Highlight the music (song or album) that you want to purchase. Press BUY to purchase.

- The CONFIRM PURCHASE screen will display the price and items you selected to purchase. Press BUY to accept the terms.
- You'll receive confirmation that your purchase was successful and your music is available for download. Press to continue.
- 7. Highlight Phone Memory or Memory Card for storage location (Memory Card is recommended). Press to begin downloading. Wait for the phone to acquire the content license. Press when download is complete.
- 8. Press Play to play the downloaded song immediately.
 - Or, You can press the left soft key Library to go to your Music Library of downloaded songs and albums. See "Manage Music" on page 148 for more information.
- **9.** To return to standby mode, press the **key**.

Get New Ringtones

You can use this option to download new ringtones from the Internet.

- In standby mode, press MENU, use the left navigation key to highlight GET IT NOW. The Get Tunes & Tones menu is highlighted, press .
- 2. Highlight Get New Ringtones and press .
- 3. Highlight Get New App. and press .
- **4.** You are connected to the web server and presented with available provider ringtone applications.
- 5. To return to standby mode, press the key.

My Ringtones

- In standby mode, press MENU, use the left navigation key to highlight GET IT NOW. The Get Tunes & Tones menu is highlighted, press . The GET TUNES & TONES menu appears in the display.
- 2. Highlight **My Ringtones** and press .
- Select Get New Ringtones to access the web to download new ringtones. Or if you have already downloaded ringtones, highlight your selection and press
- **4.** To return to standby mode, press the **key**.

My Music

The Music Player can be used to play music files that you have downloaded from the V CAST Music catalog or that you have transferred from your PC using Sync Music.

You can play your music with the flip open or closed.

Playing Music with the Flip Closed

The external keys which you will use are labeled below.

 In standby mode, with your flip closed, press the Play/ Pause (> II) key. If you have already downloaded music to your phone or memory card, Play All will be displayed as well as any playlists that you have created.

Note: To create a playlist, see "Creating a Playlist" on page 150 for more information.

- To scroll through the list, press the up/down navigation key until the playlist that you want is highlighted. Or, highlight Play All if you want to play all of your songs.
- Press the Play/Pause (II) key to play the songs you have selected.
- 4. You can use the **Fast Forward** (►►I) and **Rewind** (I►I) keys to skip to another song track. Press and hold the **Fast Forward** (►►I) and **Rewind** (I►I) keys to forward or rewind the current song.

Playing Music with the Flip Open

- In standby mode, press MENU, use the left navigation key to highlight GET IT NOW. The Get Tunes & Tones menu is highlighted, press .
- 2. Highlight **My Music** and press .
- 3. The Music Player opens with a list of music files that have been downloaded or transferred to internal phone memory or to the microSD™ memory card. The Get V CAST Music option is also shown. See "Get V CAST Music" on page 141 for more information.

- 4. Scroll down to a song and press the right soft key Options, to select from the following options:
 - Move: Moves the song from the microSD[™] memory card to the phone, or vice-versa, depending upon where it is currently stored
 - Lock: Allows you to lock the song so that it will not be deleted.
 This option may not be available for all songs.
 - Erase: Frases the selected file.
 - Erase All: Erases all files.
 - Song Info: Displays title, artist, album title, genre, copyright year, distributor, duration, and track number if available.
- Press the up/down navigation keys to highlight the song you want to listen to and press PLAY to play the song. Or, press the left soft key Playlist to see a list of your playlists.
- 6. During song playback, press the right soft key potions to switch to one of the following functions:
 - Play All: Selects all songs for playback.
 - **Shuffle**: Re-sorts the current playlist order.
 - Get V CAST Music: Connects you to the V CAST Music catalog to download more songs.
- During song playback, press the right navigation key to advance to the next song track in the current playlist, or press the left navigation key to skip to the previous song track.

My Sounds

- In standby mode, press MENU, use the left navigation key to highlight GET IT NOW. The Get Tunes & Tones menu is highlighted, press .
- 2. Highlight My Sounds and press .

- Record New is highlighted. Press to launch the RECORD NEW screen.
- 4. Press REC to begin recording. Press STOP to stop and save the recording. Press the left soft key Pause to pause and resume the recording appropriately.

Sync Music

This option allows you to transfer music files from your PC. In order to use this option, you must load Windows MediaTM Player 10 on your PC. Windows MediaTM Player 10 is only compatible with Windows XP® operating systems.

For setup of Windows MediaTM Player 10, refer to the following resources:

- To download the Windows MediaTM Player 10: http://www.microsoft.com/windows/windowsmedia/mp10/ default.aspx
- Tips on getting started: www.microsoft.com/windows/windowsmedia/mp10/ usingplayer.aspx
- Common questions: http://www.microsoft.com/windows/windowsmedia/mp10/ troubleshooting.aspx
- Troubleshooting error messages: http://www.microsoft.com/windows/windowsmedia/mp10/ errors.aspx

Note: The file name is limited to 36.3 characters (thirty-six to left of ".", three to right of ".")

Only songs with English or Spanish filenames can be successfully transferred to the phone for play back.

Note: Before transferring files, be sure to format your microSD™ memory card with PC format FAT32. See "Formatting Your microSD™ Card Using Your PC" on page 141 for more information.

- Plug in the USB cable to your phone and connect it to a USB port on your PC.
- In standby mode, press MENU, use the left navigation key to highlight GET IT NOW. The Get Tunes & Tones menu is highlighted, press .
- 3. Highlight **Sync Music** and press .
- 4. Your phone should display the message, Connected.
- 5. Open Windows Media Player 10 on your PC and select the **SYNC** option.
- The left-hand side of the Windows Media Player will display the files on your PC. Check the songs you want to download.
- On the right-hand side of the Windows Media Player, select whether you want to download the music to Removable storage card or Phone internal memory.
- Press the Start Sync button on the upper left-hand side of the Windows Media Player.
- **9.** A **Synchronization Complete** message will appear on the phone when downloading is complete.
- 10. Disconnect the USB cable.
- 11. To return to standby mode, press the key.

Manage Music

This option allows you to view your music sorted by genre, artist, album title, or song title. You can also create playlists.

- In standby mode, press MENU, use the left navigation key to highlight GET IT NOW. The Get Tunes & Tones menu is highlighted, press .
- 2. Highlight Manage Music and press .
- 3. Your Music Library will appear. The following categories are available:
 - Genres: This option organizes your songs by music type (genre). For example, Folk, Rock, Country, Classical, Soul, Unknown and so on. Each folder will contain all songs within that genre.
 - · Artists: This option organizes your songs by artist.
 - Albums: This option organizes your songs by album title.
 Even if you only have one song from an album, a folder for the album will display.
 - **Songs**: This option organizes your songs by song title. To add a song to a playlist, press the right soft key **Options** and select **Add to playlist** to place the song into one of your playlists.
 - Playlists: Any playlists that you have created are displayed in this option. Press the right soft key Create to create a new playlist. With a playlist highlighted, press the right soft key Options to play, edit, rename, or erase the playlist, or to create a new playlist.
 - Inbox: This repository is where alert notifications are received when new music from a selected artist is available for download.
 - Play All: This option will play all of your songs in list order.
 - Shuffle: This option will re-sort a playlist order.
- You can press the left soft key Catalog to go to the Get V CAST Music catalog.

Creating a Playlist

- In standby mode, press MENU, use the left navigation key to highlight GET IT NOW. The Get Tunes & Tones menu is highlighted, press .
- 2. Highlight Manage Music and press .
- 3. Highlight Playlists and press .
- 4. If playlist(s) already exist on the phone, press the right soft key **Options**. Highlight **Create playlist** and press .
 - Or, if no playlists exist, press the right soft key **Create**.
- **5.** Enter a title for the playlist in the text box and press ...
- Press the key to return to the Music Library menu. You can select songs to add to the playlist by browsing through Genres, Artists, Albums, or Songs in the Manage Music library.
- 7. Highlight a song, press the right soft key Options and select Add to Playlist. Highlight the appropriate playlist and press ADD.
- **8.** To return to standby mode, press the **key**.

Editing a Playlist

- In standby mode, press MENU and use the left navigation key to highlight GET IT NOW. The Get Tunes & Tones menu is highlighted, press .
- 2. Highlight Manage Music and press .
- 3. Highlight **Playlists** and press **.**

- 4. Highlight the playlist you would like to edit and press the right soft key Options. Highlight Edit playlist and press .
- 5. To remove a song from the playlist, highlight the song and press the right soft key Remove.
- 6. To change the order of the songs in your playlist, highlight a song and press Move. Then use the Up or Down navigation keys to move the song up or down in the playlist order. When you are finished, press Save.
- 7. To return to standby mode, press the **last** key.

Get PIX & FLIX

This menu allows you to get new PIX and FLIX from the internet or take new PIX or FLIX using your phone's camera. You can also view the saved pictures.

Get V CAST Video

V CAST, the next generation wireless technology that unveils a whole new multimedia experience at your fingertips, provides access to vibrant, full-color content from some of the biggest names in entertainment. V CAST is your link to video on demand, which allows you to

view or download video clips that contain breaking news, sports highlights, weather and more.

For additional information regarding V CAST Video and its use, see www.verizonwireless.com.

Note: To access and download videos, you must have the **!!!** icon displayed.

Browsing, Selecting and Playing Video Clips

- In standby mode, press MENU, use the left navigation key to highlight GET IT NOW. Highlight Get PIX & FLIX and press .
- 2. The **Get V CAST Video** option is highlighted. Press
- Use the up or down navigation keys to highlight the V CAST Video category you want.
- **4.** After choosing the category you want press . Choose a sub category, if applicable, by using the navigation keys or by entering the short-cut key number and press .
- Use the navigation key to highlight a video. You may press the right soft key Options to read the description of the video clip.
- 6. To view the highlighted video, press **VIEW**.
- Highlight Yes to accept charges, if applicable, and then press . After connection and buffering occurs, the video clip begins.

Downloading a Video Clip

 Launch V CAST Video and select a video you want to save. For information about launching your video player and choosing a video clip, review steps 1-5 of the previous section, "Browsing, Selecting and Playing Video Clips" above.

- To download and save the highlighted video, press SAVE. The video clip will be saved to V CAST Video in My FLIX.
- Highlight Yes to accept charges, if applicable, and then press . The video download begins.
- Once the download is completed, "Download Complete. Play video now?" appears in the display.
- 5. Select **Yes** and press to view the video, or select **No** to return to the **V CAST Video** menu.

Note: Not all video content available can be downloaded to your phone; however, all content is available for viewing.

Deleting Video Clips

- Launch V CAST Video. For information about launching your video player, review "Get New PIX" on page 155.
- 2. Press the right soft key Options. My Clips is highlighted.
- 3. Press . The clips you have downloaded are listed.
- 4. Use the navigation key to highlight the video you want to erase and press the right soft key Options. Erase is highlighted.
- 5. Press . Highlight Yes when the confirmation screen displays, then press .

Using the Video Gallery

The video clips you save are stored in a folder named **V CAST Video** in **My FLIX**. You can access this folder without launching the **V CAST Video** application and delete your saved video clips directly.

- In standby mode, press MENU, use the left navigation key to highlight GET IT NOW. Highlight Get PIX & FLIX and press ...
- 2. Press My FLIX.
- Use the navigation key to highlight V CAST Video, then press .
- 4. Use the navigation key to highlight the video you want to delete and press the right soft key **Options**.
- 5. Use the navigation key to highlight **Erase** and then press .
- **6.** Highlight **Yes** to confirm that you want to erase the saved clip, then press .

Configure Alerts for New Video Clips

- 1. Launch V CAST Video.
- Use the right and left navigation keys to select the V CAST Video categories you want to configure an alert.
- Choose a sub category if applicable, then press the right soft key Options.
- 4. Highlight Alerts and press
- 5. Highlight Configure alerts and press .
- **6.** Select the alert content you want, and press **.**
- 7. After reading terms, highlight **Save** to accept and press \square , or highlight **Cancel** to decline and press \square .

Note: Fees apply for text messages/alerts both sent and received.

Get New PIX

- In standby mode, press MENU, use the left navigation key to highlight GET IT NOW. Highlight Get PIX & FLIX and press ...
- To get new PIX press Get New PIX. Press Get New App. You are connected to the internet. Follow the on-screen prompts.

Take PIX

This menu launches the camera.

- In standby mode, press MENU, use the left navigation key to highlight GET IT NOW. Highlight Get PIX & FLIX and press ...
- Press Take PIX. The camera is now active.
 Or press the Camera/Camcorder key to activate the camera.
- 3. Press the right soft key Options, to choose the specific camera settings.

Use the right/left navigation keys to advance to each setting category, and the up/down navigation keys to make selections within each category. The following categories are available:

- **Picture Mode**: Auto, Portrait, Landscape, Macro, Night, Daylight, and Backlight.
- Flash: Off, Always On, Auto, Only This Shot
- Self Timer: Off, 2 Sec., 5 Sec., 10 Sec.
- Multi Shot: Series Shot, Divided Shot, Auto/Manual
- Quality: Economy, Normal, Fine

- Resolution: (2048X1536), (1600X1200), (1280X960), (1024X768), (800X600), (640X480), (320X240), and Picture ID
- Brightness: 4, 3, 2, 1, 0, -1, -2, -3, -4
- White Balance: Auto, Sunny, Cloudy, Tungsten, Fluorescent
- ISO: Auto, ISO 100, ISO 200, ISO 400, ISO 800
- Color Effects: Normal, Black & White, Sepia, Negative, Emboss, Sketch
- Metering: Average, Center, Spot
- Settings: Memory (store PIX to phone or microSD™ card), Auto Focus, Icon Display, Shutter Sound, Reset Settings
- Camcorder: Switches from Camera to Camcorder
- Press and hold TAKE to capture a picture. Press the left soft key Erase to delete it or press the right soft key Save. The picture is now saved to the Gallery.
- **5.** To exit the camera, press the key.

Digital Camera Mode

- 1. Open your handset.
- Rotate the flip clockwise 180 degrees until the internal display is facing outward and fold down. Starting Camera appears in the display.

Note: Make sure the lens cover is not engaged.

- 3. Press the Options/Clr. The following options appear in the display:
 - Picture Mode: Auto, Portrait, Landscape, Macro, Night, Daylight, and Backlight.
 - Flash: Off, Always On, Auto, Only This Shot
 - Self Timer: Off, 2 Sec., 5 Sec., 10 Sec.

- Multi Shot: Series Shot, Divided Shot, Auto/Manual
- Quality: Economy, Normal, Fine
- Resolution: (2048X1536), (1600X1200), (1280X960), (1024X768), (800X600), (640X480), (320X240), and Picture ID
- Brightness: 4, 3, 2, 1, 0, -1, -2, -3, -4
- White Balance: Auto, Sunny, Cloudy, Tungsten, Fluorescent
- ISO: Auto, ISO 100, ISO 200, ISO 400, ISO 800
- Color Effects: Normal, Black & White, Sepia, Negative, Emboss. Sketch
- · Metering: Average, Center, Spot
- Settings: Memory (store PIX to phone or microSD™ card), Auto Focus, Icon Display, Shutter Sound, Reset Settings
- · Camcorder: Switches from Camera to Camcorder
- 4. Press the Volume/Zoom key to highlight an option.
- Press the Photo Capture key to open the pop-up menu.
- 6. Press the Volume/Zoom key to highlight an option.
- 7. Press the **Photo Capture** key to select the option.
- 8. Press the **Photo Capture** key to take a picture. Any camera icons clear and the "Rotate to Send" message appears in the display.
- 9. Press Save to save the image or press the Erase to delete the image.

To send the PIX/FLIX image:

10. Rotate the flip counter clockwise 180 degrees to compose a **PIX MSG**.

Note: After you take the picture, rotating the flip back to its normal position automatically saves the picture and displays the **CREATE PIX MSG** screen with the first **To:** field highlighted.

- **11.** Enter the phone number or e-mail address of the recipient (or recipients) using the keypad.
- **12.** Press the right soft key **Options** to display a pop-up menu that provides the following options:
 - Entry Mode: Choose from Word, Abc, ABC, 123, Symbols and Shortcuts modes of text entry.
 - **Preview**: Shows the message before it is sent.
 - Save As Draft: Save the message to your Draft folder.
 - Priority Level: Save the message with a High or Normal priority.
 - Validity Period: Save the message for the assigned period of time.
 - **Deferred Delivery**: Save the message to be delivered at the assigned delivery date and time.
 - Add To Contacts: Save the recipients number to your Contacts as a new entry or add to an existing entry.
- 13. Press the left soft key Add to select from the following options:
 - Contacts: Choose a number from your contacts list.
 - **Groups**: Choose a group or a number from your group.
 - Recent Calls: Choose a number from the recent calls list.
 - To PIX Place: Send the message to the PIX Place.

- **14.** Press once you've finished entering the phone number(s) or email address(es).
- 15. In the Text field, compose your message.
- 16. Press the up/down navigation key to highlight the Sound field. Press the left soft key Sounds to select a sound. Press the up/down navigation key to highlight the desired sound and press
- 17. Press the down navigation key to highlight the Subject field. Press the left soft key Abc to change entry mode. Press the right soft key Options to Add Ouick Text. Press the up/down navigation key to highlight the desired Quick Text phrase, and press
- 18. Press the down navigation key to add Name Card. Press the left soft key Add to select My Name Card or an entry from your Contacts list. Follow the prompts and press to insert.
- **19.** Once all fields are complete, press to send the message to the intended recipient(s).

PIX Gallery

- In standby mode, press MENU, use the left navigation key to highlight GET IT NOW. Highlight Get PIX & FLIX and press .
- Press Take PIX. The camera is now active.
- Press the left soft key My PIX to review the albums.
 The My PIX menu displays with Default Album highlighted.

4. Press the right soft key Options to view your pictures in a Slide Show, or to Lock the pictures from deletion. Highlight Slide Show and press . The SLIDE SHOW SETTINGS appears in the display. Use the up/down navigation key to change fields. Use the left/right navigation key to set the fields and press PLAY.

Press the left soft key Pause to pause the slide show.

Press the right soft key Done to return to PIX Gallery.

Press VIEW to view in full screen mode.

- 5. From the My PIX menu, press to view the highlighted picture. Press VIEW. Press the right soft key Options to select from the following options:
 - Send: Launches the Create PIX Msg screen.
 - To PIX Place: Transfers the file to the online gallery.
 - Get New: Launches the internet to get online pictures.
 - **Set As**: Set the picture as the Main Wallpaper, Front Wallpaper or Picture ID image.
 - Zoom: Allows you to zoom in on the highlighted picture.
 - **Print**: Allows you to print the image.
 - **Rename**: Allows you to rename the picture.
 - Move: Moves the images from the card to the phone and/or Default Album.
 - Lock/Unlock: Locks the picture to prevent deletion.
 - **Erase**: Erases the selected picture from the gallery.
 - Erase All: Erases all pictures from the gallery.
 - Pix Editor: Allows you to edit the PIX.

- Make Slide Show: Allows you to view of a series of pictures.
- Make Postcard: Adds text to a picture selected from the PIX Gallery.
- PIX Info: Provides the date, name, time, location, resolution, and size of the picture.
- 6. Use the navigation key to make your selection and press

Take FLIX

This menu launches the camcorder.

- In standby mode, press MENU, use the left navigation key to highlight GET IT NOW. Highlight Get PIX & FLIX and press .
- Press Record FLIX. The camcorder is now active.
 Press the right soft key Options to select from the following options:
 - Recording Mode: Limit To FLIX Msg (to record up to a 15 second clip to attach to a FLIX message), Normal (to record video with length up to 10 minutes at a time).
 - Flash: Off, Always On, Auto.
 - Self Timer: Off, 2 Sec., 5 Sec., 10 Sec.
 - Quality: Economy, Normal, or Fine. Recording Mode must be set to Normal for Quality options Normal and Fine to appear.
 - Resolution: (320X240), (176X144) FLIX Msg
 - Brightness: 4, 3, 2, 1, 0, -1, -2, -3, -4
 - White Balance: Auto, Sunny, Cloudy, Tungsten, Fluorescent
 - Color Effects: Normal, Black & White, Sepia, Negative, Emboss

- Settings: Memory (store FLIX to phone or microSD™ card), Icon Display, Start Sound, End Sound, Call Interruption, Reset Setting.
- Camera: Switches from camcorder to camera.
- **3.** Press **1** to save the settings.
- 4. Press REC to begin recording. Press the left soft key Pause or press to stop recording.
- After you stop recording, press the right soft key Save, press the left soft key Erase, or press PLAY.
- **6.** To exit the camcorder, press the **less** key.

Note: If you receive an incoming call while using your camcorder, the video recording is stopped. You will be presented with the call Ignore / Accept screen. If you ignore the call, then you are given the choice to Save, Send or Erase the video. If you accept the call, then your video is auto-saved and the camcorder application exits in the background.

Note: If the battery level becomes too low while you are recording, the recording is stopped and the video is auto-saved. The low battery indicator will be displayed and you will exit from the camcorder application. If your battery is too low then the phone will power down without saving the video.

Note: If you receive a text message, a multi-media message or a voice mail while you are recording, the video recording is stopped. You are given the choice to View Now or View Later. If you choose later, you are given the chance to Save, Send or Erase the video. If you want to view the message now, the video is auto-saved and the camera application exits in the background.

My FLIX

This menu allows you to review the videos you have taken or downloaded and stored into your phone and ∕ or microSD™ card.

- In standby mode, press MENU, use the left navigation key to highlight GET IT NOW. Highlight Get PIX & FLIX and press .
- 2. Press My FLIX. Default Album is highlighted.
- Press to view the FLIX in thumbnail mode. Press the navigation key to highlight the desired video clip and press PLAY to play the selected video.
- After playing the video, press the CLR key to return to the thumbnail view.
- Press the right soft key Options for the following options. Highlight an option and press to make your selection.
 - Send
 - To PIX Place
 - · Get VCast Video
 - Capture Frame
 - · Set As Wallpaper
 - Rename
 - Move
 - Lock/Unlock
 - Frase
 - Erase All
 - FLIX Info

PIX Place

Send a PIX to your online album.

Note: You must first setup your account on the Verizon Wireless website: www.verizonwireless.com before establishing a connection.

- In standby mode, press MENU, use the left navigation key to highlight GET IT NOW. Highlight Get PIX & FLIX and press .
- Highlight PIX Place and press . The PIX Place signon screen displays.
- Enter your Mobile Number and Password. Use the navigation key to highlight LOGIN and press . You are now connected to your online album.

Printing Pictures Using PictBridge

PictBridge is an industry standard established by the Camera & Imaging Products Association (CIPA) that enables a range of digital photo solutions, including direct photo printing from a digital camera to a printer without the need for a PC.

Printing From Your Phone

The A990 comes equipped with a built-in camera that allows you to print images directly to a printer using the PictBridge technology. A USB cable must be connected between the two devices before any printing can occur.

To use PictBridge to print pictures from your phone:

- Insert one end of the accessory cable into the USB slot on the printer. (Printer must support PictBridge technology.)
- 2. Press MENU, use the left navigation key to highlight GET IT NOW. Press Get PIX & FLIX.
- 3. Press My PIX. PictBridge Print.
- 4. Insert the USB cable into your phone.
- Read the Connect Printer message and press the right soft key Next.
- 6. Highlight the desired image and press the right soft key Next. (To select multiple images, press to place a check mark next to each image selected.)
- Highlight Copies and press the navigation key left or right to select the desired number of copies to print.
- 8. Press the navigation key down to select Type. Press the navigation key left or right to select one of the following sizes:
 - 4x6
 - Default

Note: These sizes may vary and are dependent on the printer's capabilities.

- Press the navigation key down to select Size. Press the navigation key left or right to select one of the following:
 - Standard: prints the standard image.
 - Index: prints the index information.

Note: These options may vary and are dependent on the printer's capabilities.

- **10.** Press the navigation key down to select **Date**. Press the navigation key left or right to turn **on** or **off**.
- **11.** Press the navigation key down to select **Border**. Press the navigation key left or right to turn **on** or **off**.
- 12. Press the right soft key Preview to preview the image, or press the left soft key Print to print the image.
- **13.** Select **Yes** to confirm printing and press .

Get Fun & Games

Select from several fun and interesting applications or a broad category of games that you can play on your phone.

- In standby mode, press MENU, use the left navigation key to highlight GET IT NOW. Highlight Get Fun & Games and press .
- Press Get New App.
- 3. Use the navigation keys to make a selection and press
- Choose the charge Either Subscription or Unlimited, then press . Follow in screen prompts to apply.

Get News & Info

- In standby mode, press MENU, use the left navigation key to highlight GET IT NOW. Highlight Get News & Info and press .
- 2. The browser is launched and a pop up screen with available applications is displayed.
- 3. Use the navigation key to browse the categories.

4. Once the desired category is highlighted, press to enter the category list.

When you use Get News & Info, some of the keys operate differently than during a normal phone call.

It presents on-screen items in any of the following ways:

- Text or numeric input
- Links (embedded in content)
- Numbered options (some options may not be numbered)
- Simple text

You can utilize the options or links by using the soft keys.

Get Going

Download applications that keep you in touch with the world, keep you organized, and help you find the coolest spots.

- In standby mode, press MENU, use the left navigation key to highlight GET IT NOW. Highlight Get Going and press .
- 2. Press Get New App.
- 3. Highlight the application you wish to download and press
- Follow on screen subscription prompts and press .
 The download process begins.
- At the "App installed successfully. Would you like to run it?" prompt, press Yes to launch application, or No to return to category list.

Note: The GET GOING menu will display all downloaded applications, with the most current download first.

Get Extras

Get Extras is a backup assistant for your Address Book. Get Extras saves your address book entries to a database on Verizons network to protect them in the event that your phone is damaged and are retrieved and pushed to your new phone preventing manual reentry.

Section 10: Tools

Topics Covered

- Voice Commands
- Calculator
- Calendar
- · Alarm Clock
- World Clock
- · Stop Watch
- Notepad

The topics covered in this section allow you to schedule appointments, view the calendar, set an alarm, view time zones, take notes, and perform simple math calculations.

Voice Commands

Your phone includes VoiceSignal, an advanced speech recognition software that you can use to activate a wide-variety of functions on your phone.

Note: See also "VoiceSignal™" on page 39 for more information.

Voice Commands options and sub-menus allow you to set options that tailor VoiceSignal to suit your needs.

Voice Dial

To set the key or action that launches VoiceSignal, do the following:

- In standby mode, press MENU, then press the right navigation key to highlight SETTINGS & TOOLS.
 Press Tools, Voice Commands, Voice Dial.
 The following options appear in the display:
 - Voice Key Only Press the Voice Recognition key () to activate VoiceSignal for one call or to launch one function.
 - Voice Key/EarMic Attach a headset to your phone. Press
 the Voice Recognition key () to activate VoiceSignal. Now,
 you can make and end calls using VoiceSignal by pushing the
 button on the headset.
 - Voice Key/Flip Press the Voice Recognition key () to activate VoiceSignal for repeated calls. Open and close folder to make and end calls using Voice Kit. Press to release VoiceSignal.
- Use the navigation keys to highlight the option you want, then press to save and exit.

Voice Settings

For information, See "VoiceSignal™" on page 39.

Menu Readout

With **Menu Readout** on, your phone "reads" main menu items through the earpiece when you highlight each one. To enable Menu Readout, do the following:

- In standby mode, press MENU, then press the right navigation key to highlight SETTINGS & TOOLS.
 Press Tools, Voice Commands, Menu Readout. The following options appear in the display:
 - On Enables Menu Readout.
 - Off Disables Menu Readout.

The current setting is highlighted. The default setting is **Off**.

2. Use the navigation keys to highlight **On**, then press to save and exit.

Call Announcement

With **Call Annoncement** on, you hear a "Call from <Contact name/number>" voice announcement of a new call instead of a ringtone. To enable Call Announcement, do the following:

- In standby mode, press MENU, then press the right navigation key to highlight SETTINGS & TOOLS.
 Press Tools, Voice Commands, Call Announcement. The following options appear in the display:
 - On Enables Call Announcement.
 - Off Disables Call Announcement.

The current setting is highlighted. The default setting is **Off**.

2. Use the navigation keys to highlight **On**, then press to save and exit.

Calculator

You can perform calculations, including addition, subtraction, multiplication and division using your phone.

- In standby mode, press MENU, then press the right navigation key to highlight SETTINGS & TOOLS.
 Press Tools, Calculator, Normal. The Calculator opens.
- Enter the first number in your equation using the keypad. (Numbers can be up to nine digits long.)
- 3. Press the right soft key Operator to display a pop-up menu which allows you to enter a Parenthesis or Power if desired. Press the left soft key Clear or to clear all data entered.
- **4.** Press **t** to change the sign for a number to a negative.
- **5.** Press the **a** to add a decimal point.
- **6.** Use the navigation keys to set the type of calculation that you wish to perform. Your choices are as follows:
 - Up key: [+] Addition
 - Down key: [-] Subtraction
 - Right key: [x] Multiplication
 - Left key: [+] Division
- Use the keypad to enter the second number into your equation.
- **8.** Press **1** to perform the calculation and view the result.

Tip

Calculates the tip and determine how much each person should pay for the meal.

- In standby mode, press MENU, then press the right navigation key to highlight SETTINGS & TOOLS.
 Press Tools, Calculator, Tip. The Tip Calculator opens.
- 2. Populate the following fields:
 - . Bill: enter the amount of the bill.
 - Tip: enter the tip percentage.
 - # Paying: enter the amount of people paying.

Note: Press the key to enter a decimal.

3. The tip is automatically calculated in the section below.

Converter

The **Converter** menu provides the following conversion categories:

- Temperature
- Length
- Weight
- Area
- Volume
- Currency

To convert any of the above categories, do the following:

 Scroll to the conversion feature you wish to use and press the key.

Section 10: Tools

- Use the Left or Right navigation keys to select the From units of money or measure for the quantity you want converted.
- 3. Enter the quantity you want converted in the text box.

Note: Press the key to enter a decimal. In the Temperature conversion feature, the (+/-) key is active.

 Use the Left or Right navigation keys to select the To units of money or measure for the quantity you want converted.

Calendar

Schedule up to eight events for any day by indicating each event's start and end time. Set alarms for events so that you can be alerted before an event takes place. Events scheduled for future dates automatically appear on your Today events schedule for the present day.

Add a new event

- In standby mode, press MENU, then press the right navigation key to highlight SETTINGS & TOOLS.
 Press Tools Calendar. The calendar appears in the display with the current date highlighted.
- To view available options, press the right soft key Options. A pop-up menu appears in the display that contains the menu items.
 - Weekly: View the current week.
 - Go To Date: Go to any date that you specify.
 - Go to Today: View today's events.
 - Erase Old: Select a past event to delete.

- Erase All: Delete all events in your calendar
- 3. Press the left soft key Add to add a new event.
- 4. The Appointment name field is highlighted. Enter the name and use the down navigation key to move to the following fields:
 - Start Date: Enter the start date for the event.
 - Start Time: Enter the start time for the event.
 - am/pm: Select from am or pm for the start time.

Note: Press **a** for am or **a** for pm.

- End Date: Enter the end date for the event.
- End Time: Enter the end time for the event.
 - am/pm: Select from am or pm for the end time.

Note: Press **a** for am or **a** for pm.

 Time Zone: Enter the time zone you wish your event to reflect.

Note: Each time zone is listed as both a standard time zone and a daylight time zone. For example, if you are in the Central Time zone, you would enter CDT (Central Daylight Time) if you are on Daylight Savings time, or CST (Central Standard Time) if you are not.

- **Recurrence**: Select the frequency of the event.
- Alert: Sets the alarm for the event. Select from Tone, Vibrate, or Light Only.
- Reminder: Set a reminder up to one day before the event.
- Alert Time: Set the Alert Time to sound before the event takes place.

Section 10: Tools

- 5. Fill in and select event details using the navigation keys and the alpha-numeric keypad.
- **6.** Press . The event is saved.

View an event

- In standby mode, press MENU, then press the right navigation key to highlight SETTINGS & TOOLS.
 Press Tools Calendar.
- A calendar appears in the display with the current date highlighted.
- Use the navigation keys to highlight the date containing the event that you wish to view. Press the right soft key Options.

Tip: Use the volume key to move between months in the calendar.

- In the pop-up menu that appears in the display, use the navigation key to highlight Go To Date, then press
- Enter the desired date in the box, then press . The month that you entered appears in the display with the event date highlighted.
- **6.** Press **VIEW** to view event details for the date.
- 7. To edit the event, press the left soft key **Edit**. Make changes, then press **SAVE**.
- 8. Press the right soft key Options. A pop-up menu appears in the display.
- To erase the current event, press Erase. A pop-up menu appears with Yes highlighted. press to erase, or highlight No to cancel.

- To see the selected date in a month view, press Monthly.
- 11. To see the selected date in a week view, press Weekly.

Alarm Clock

Your phone has an alarm clock that can be set to go off once, or recur daily at a specific time. Once set, the alarm clock is easy to change or turn off.

Set An Alarm

- In standby mode, press MENU, then press the right navigation key to highlight SETTINGS & TOOLS.
 Press Tools Alarm Clock. The Alarm Clock menu displays with the Alarm 1 highlighted.
- 2. The following options appear in the display:
 - Alarm 1
 - Alarm 2
 - Alarm 3
- 3. Use the navigation key to highlight the alarm that you wish to enable, then press . The Set Alarm (1, 2, or 3 depending on your selection) screen appears in the display.
- **4.** The Alarm field is highlighted. Use the left/right navigation keys to select **On** or **Off**.
- Press the down navigation key to highlight the Time field, then enter the time that you wish for the alarm to sound.

Press the down navigation key once to highlight the am/ pm field. Use the left/right navigation keys to select am or pm.

Note: Press **Tor am or Tor pm**.

- Press the down navigation key once to highlight the Frequency field. Use the left/right navigation keys to set the frequency (occurrence) of the alarm. Below lists and defines the options for this field.
 - Once: The alarm sounds only once, at the time specified.
 - · Daily: The alarm sounds every day at the time specified.
 - Mon-Fri: The alarm sounds Monday through Friday at the time specified.
 - Weekends: The alarm sounds Saturday through Sunday at the time specified.
- **8.** Press the down navigation key once to highlight the first **Ringer** field. Use the left/right navigation keys to set the ringer to Tone, Vibrate, or Light Only.
- If you selected Tone, press the down navigation key again to highlight the second field. Use the left/right navigation keys to set the alert tone to VZW Default Tone, or select a tone from your My Ringtones or My Sounds folders.
- 10. When all fields have correct information entered, pressSAVE to save your settings.

Disable an alarm before it sounds

 In standby mode, press MENU, then press the right navigation key to highlight SETTINGS & TOOLS.
 Press Tools Alarm Clock. The Alarm Clock

- menu displays with the Alarm 1 highlighted.
- Use the navigation keys to highlight the alarm you wish to disable, then press the right soft key Options. A pop-up menu appears in the display.
- Press off to turn the highlighted alarm off. Press Reset to reset the highlighted alarm or press Reset All to reset all of the alarms.

Snooze

When an alarm sounds, a menu screen displays that allows you to either turn the alarm off or to have the alarm ring again after 5 minutes. This is called Snooze.

To use this feature follow these steps:

- Set one of your phone's 3 alarms. For more information about setting an alarm, see "Set An Alarm" on page 177.
- When an alarm sounds, use the up/down navigation key to highlight Snooze or Dismiss. To snooze, highlight Snooze and press to set it to ring again after 5 minutes. Or, highlight Dismiss to turn the alarm off completely. The alarm turns off and the standby screen displays.

World Clock

World Clock allows you to view the time of day or night in any part of the world.

- In standby mode, press MENU, then press the right navigation key to highlight SETTINGS & TOOLS.
 Press Tools World Clock.
- Use the left soft key Cities to display the 45 supported cities. Press to save your entry.

Section 10: Tools

- Press the right soft key Options to view the following options:
 - Set As Local Time: Sets the time according to the city chosen in the Cities field.
 - DST On: Sets the Daylight Savings time option.
- **4.** You can scroll through other cities by pressing the navigation keys.
- **5.** Press **t** to return to standby mode.

Stop Watch

This feature allows you to use a stop watch. Press the START to start the stopwatch. Press STOP to stop stopwatch. Press the right soft key Reset to erase recorded stopwatch time.

- In standby mode, press MENU, then press the right navigation key to highlight SETTINGS & TOOLS.
 Press Tools Stop Watch. The Stop Watch appears in the display.
- 2. Press the START to start the stopwatch.
- **3.** Press **STOP** to stop stopwatch.
- Press the right soft key Reset to erase recorded stopwatch time.

Notepad

Create and store notes in Notepad. Return to Notepad anytime to review and edit your notes.

In standby mode, press MENU, then press the right navigation key to highlight SETTINGS & TOOLS.
 Press Tools Notepad. The Note Pad menu opens.

- If you have any stored notes, they appear as a list in the display. If this is your first time in Notepad, No Notes displays.
- To add a new memo, press the left soft key Add, then enter the memo using the keypad.
- While entering a memo, press the left soft key Abc, to display a pop-up menu with the following text entry modes
 - Word
 - Abc
 - ABC
 - 123
 - · Symbols
- 5. Use the navigation keys to select the other available text entry modes of 123, Word, and Symbol, or press to exit the pop-up menu.
- **6.** When you're finished entering details for the note, press ... The note is saved.

Review, Add, Edit, and Erase Memos

- In standby mode, press MENU, then press the right navigation key to highlight SETTINGS & TOOLS.
 Press Tools Notepad. The Note Pad menu opens. If you have any stored notes, they appear as a list in the display.
- With a memo highlighted, press the right soft key popular. A pop-up menu with the options listed in the following table appears in the display:
 - **Edit**: Edit the note currently highlighted or appearing in the display.

Section 10: Tools

- **Erase**: Erase the note currently highlighted or appearing in the display.
- Erase All: Erase all notes.
- Lock/Unlock: Locks messages. When a message is locked it cannot be deleted until it is unlocked.
- 3. Use the navigation keys to highlight an option or press to exit the pop-up menu.
- **4.** Press **t** to perform the highlighted option's function.

Section 11: Mobile Web

Topics Covered

- · Mobile Web
- · Launching Mobile Web
- · Exit Mobile Web
- · Navigate the Web
- · Mobile Web Soft Keys
- Links
- Place a Call While Using Mobile Web

This section outlines the available gaming options and accessories for your phone. For more information, contact your service provider.

Mobile Web

Mobile Web allows you to surf the web from your wireless phone.

If you receive a call while using Mobile Web, the web session is suspended during the call. Once the call ends, your Mobile Web session resumes where you left off.

Note: This feature is currently unavailable outside of the United States. Only available within the Verizon Wireless Enhanced Services Area.

Any time the service indicator icon is visible, you are connected to the Internet and billed accordingly. Rates and prices vary according to your service contract. For further information on billing contact Verizon Wireless.

Launching Mobile Web

Note: This feature is currently unavailable outside of the United States. Only available within the Verizon Wireless Enhanced Services Area.

- 1. In standby mode, press the up navigation key. Mobile Web and a list of categories (representing one or more web sites) appears in the display.
- 2. Use the navigation key to browse the categories.
- 3. Once the desired category is highlighted, press to enter the category list.

Exit Mobile Web

To exit the Mobile Web, press the key.

Navigate the Web

Note: This feature is currently unavailable outside of the United States. Only available within the Verizon Wireless Enhanced Services Area.

When you use Mobile Web, some of the keys operate differently than during a normal phone call.

Mobile Web presents on-screen items in any of the following ways:

- · Text or numeric input
- Links (embedded in content)
- Numbered options (some options may not be numbered)
- Simple text

You can act on the options or links by using the soft keys.

Mobile Web Soft Keys

Note: This feature is currently unavailable outside of the United States. Only available within the Verizon Wireless Enhanced Services Area.

At the bottom of the Mobile Web display contains the browser commands. The left and right soft keys on the keypad are used to perform the commands in the display. These are called "soft keys" because their function changes depending where you are in the application.

How Mobile Web keys work

The following table lists Mobile Web keys and functions.

Navigation Key: Use the navigation key to browse lists and highlight options.

CLR Key: A browser back-up key. Press once to back up one page. Press and hold to go back to Mobile Web home page.

Press to clear the last number, letter, or symbol entered. Press and hold to completely clear the display.

- Asterisk/Shift Key: Press before entering text to enable upper case characters (in Abc mode).
- **O/Next Key**: Press to enter a zero (0), or to display another word in the dictionary when in Word entry mode.
- **Pound/Space Key**: Press to insert a space when entering text.
- Numbers 1 9: Use the number keys to select items in a menu if they are numbered.
 - **END Key**: Press to exit Mobile Web and return the phone to standby mode.
 - Left Soft Key: Press the left soft key to go to the highlighted web link and/or perform the function above it in the display.
 - Right Soft Key: The right soft key is the Menu key.

 Press this key to display a pop-up menu with several options.
 - **SEND Key**: Press to dial a highlighted number.

Links

Note: This feature is currently unavailable outside of the United States. Only available within the Verizon Wireless Enhanced Services Area.

Links can serve several purposes, such as jumping to a different page, to a different site, or initiating a phone call. Links are underlined (__). Normally, the left soft key is used to select a highlighted link.

Place a Call While Using Mobile Web

Note: This feature is currently unavailable outside of the United States. Only available within the Verizon Wireless Enhanced Services Area.

You can place a call while using Mobile Web if the website supports this feature. Press the appropriate soft key to call the number. In most cases you can also press to call the number. The Internet connection terminates when you initiate the call. After you end the call, your phone returns to standby mode.

Section 12: Health and Safety Information

Topics Covered

· Health and Safety Information

This section outlines the safety precautions associated with using your phone. These safety precautions should be followed to safely use your phone.

Health and Safety Information

Exposure to Radio Frequency (RF) Signals

Certification Information (SAR)

Your wireless phone is a radio transmitter and receiver. It is designed and manufactured not to exceed the exposure limits for radio frequency (RF) energy set by the Federal Communications Commission (FCC) of the U.S. government. These FCC exposure limits are derived from the recommendations of two expert organizations, the National Counsel on Radiation Protection and Measurement (NCRP) and the Institute of Electrical and Electronics Engineers (IEEE). In both cases, the recommendations were developed by scientific and engineering experts drawn from industry, government, and academia after extensive reviews of the scientific literature related to the biological effects of RF energy.

The exposure limit set by the FCC for wireless mobile phones employs a unit of measurement known as the Specific Absorption Rate (SAR). The SAR is a measure of the rate of absorption of RF energy by the human body expressed in units of watts per kilogram (W/kg). The FCC requires wireless phones to comply with a safety limit of 1.6 watts per kilogram (1.6 W/kg). The FCC exposure limit incorporates a substantial margin of safety to give additional protection to the public and to account for any variations in measurements.

SAR tests are conducted using standard operating positions accepted by the FCC with the phone transmitting at its highest certified power level in all tested frequency bands. Although the SAR is determined

at the highest certified power level, the actual SAR level of the phone while operating can be well below the maximum value. This is because the phone is designed to operate at multiple power levels so as to use only the power required to reach the network. In general, the closer you are to a wireless base station antenna, the lower the power output.

Before a new model phone is available for sale to the public, it must be tested and certified to the FCC that it does not exceed the exposure limit established by the FCC. Tests for each model phone are performed in positions and locations (e.g. at the ear and worn on the body) as required by the FCC. For body worn operation, this phone has been tested and meets FCC RF exposure guidelines when used with an accessory that contains no metal and that positions the handset a minimum of 1.5 cm from the body. Use of other accessories may not ensure compliance with FCC RF exposure guidelines.

The FCC has granted an Equipment Authorization for this mobile phone with all reported SAR levels evaluated as in compliance with the FCC RF exposure guidelines. The maximum SAR values for this model phone as reported to the FCC are:

CDMA

Head: 1.09

Body-worn: 0.841

SAR information on this and other model phones can be viewed on-line at www.fcc.gov/oet/fccid. To find information that pertains to a particular model phone, this site uses the phone FCC ID number which is usually

printed somewhere on the case of the phone. Sometimes it may be necessary to remove the battery pack to find the number. Once you have the FCC ID number for a particular phone, follow the instructions on the website and it should provide values for typical or maximum SAR for a particular phone. Additional product specific SAR information can also be obtained at www.fcc.gov/cgb/sar.

UL Certified Travel Adaptor

The Travel Adaptor for this phone has met UL 1310 safety requirements. Please adhere to the following safety instructions per UL guidelines.

FAILURE TO FOLLOW THE INSTRUCTIONS OUTLINED MAY LEAD TO SERIOUS PERSONAL INJURY AND POSSIBLE PROPERTY DAMAGE

IMPORTANT SAFETY INSTRUCTIONS - SAVE THESE INSTRUCTIONS.

DANGER - TO REDUCE THE RISK OF FIRE OR ELECTRIC SHOCK, CAREFULLY FOLLOW THESE INSTRUCTIONS.

FOR CONNECTION TO A SUPPLY NOT IN THE U.S.A., USE AN ATTACHMENT PLUG ADAPTOR OF THE PROPER CONFIGURATION FOR THE POWER OUTLET.

Consumer Information on Wireless Phones

The U.S. Food and Drug Administration (FDA) has published a series of Questions and Answers for consumers relating to radio frequency (RF) exposure from wireless phones. The FDA publication includes the following information:

What kinds of phones are the subject of this update?

The term wireless phone refers here to hand-held wireless phones with built-in antennas, often called "cell," "mobile," or "PCS" phones. These types of wireless phones can expose the user to measurable radio frequency energy (RF) because of the short distance between the phone and the user's head. These RF exposures are limited by Federal Communications Commission safety guidelines that were developed with the advice of FDA and other federal health and safety agencies. When the phone is located at greater distances from the user, the exposure to RF is drastically lower because a person's RF exposure decreases rapidly with increasing distance from the source. The so-called "cordless phones," which have a base unit connected to the telephone wiring in a house, typically operate at far lower power levels, and thus produce RF exposures well within the FCC's compliance limits.

Do wireless phones pose a health hazard?

The available scientific evidence does not show that any health problems are associated with using wireless phones. There is no proof, however, that wireless phones are absolutely safe. Wireless phones emit low levels of radio frequency energy (RF) in the microwave range while being used. They also emit very low levels of RF when in the stand-by mode. Whereas high levels of RF can produce health effects (by heating tissue), exposure to low level RF that does not produce heating effects causes no known adverse health effects. Many studies of low level

RF exposures have not found any biological effects. Some studies have suggested that some biological effects may occur, but such findings have not been confirmed by additional research. In some cases, other researchers have had difficulty in reproducing those studies, or in determining the reasons for inconsistent results.

What is FDA's role concerning the safety of wireless phones?

Under the law, FDA does not review the safety of radiation-emitting consumer products such as wireless phones before they can be sold, as it does with new drugs or medical devices. However, the agency has authority to take action if wireless phones are shown to emit radio frequency energy (RF) at a level that is hazardous to the user. In such a case, FDA could require the manufacturers of wireless phones to notify users of the health hazard and to repair, replace or recall the phones so that the hazard no longer exists.

Although the existing scientific data do not justify FDA regulatory actions, FDA has urged the wireless phone industry to take a number of steps, including the following:

- Support needed research into possible biological effects of RF of the type emitted by wireless phones;
- Design wireless phones in a way that minimizes any RF exposure to the user that is not necessary for device function; and
- Cooperate in providing users of wireless phones with the best possible information on possible effects of wireless phone use on human health.

FDA belongs to an interagency working group of the federal agencies that have responsibility for different aspects of RF safety to ensure coordinated efforts at the federal level. The following agencies belong to this working group:

- National Institute for Occupational Safety and Health
- Environmental Protection Agency
- Federal Communications Commission
- Occupational Safety and Health Administration
- National Telecommunications and Information Administration

The National Institutes of Health participates in some interagency working group activities, as well.

FDA shares regulatory responsibilities for wireless phones with the Federal Communications Commission (FCC). All phones that are sold in the United States must comply with FCC safety guidelines that limit RF exposure. FCC relies on FDA and other health agencies for safety questions about wireless phones.

FCC also regulates the base stations that the wireless phone networks rely upon. While these base stations operate at higher power than do the wireless phones themselves, the RF exposures that people get from these base stations are typically thousands of times lower than those they can get from wireless phones. Base stations are thus not the primary subject of the safety questions discussed in this document.

What are the results of the research done already?

The research done thus far has produced conflicting results, and many studies have suffered from flaws in their research methods. Animal experiments investigating the effects of radio frequency energy (RF) exposures characteristic of wireless phones have yielded conflicting results that often cannot be repeated in other laboratories. A few animal studies, however, have suggested that low levels of RF could accelerate the development of cancer in laboratory animals. However, many of the studies that showed increased tumor development used animals that had been genetically engineered or treated with cancer-causing chemicals so as to be pre-disposed to develop cancer in absence of RF exposure. Other studies exposed the animals to RF for up to 22 hours per day. These conditions are not similar to the conditions under which people use wireless phones, so we don't know with certainty what the results of such studies mean for human health.

Three large epidemiology studies have been published since December 2000. Between them, the studies investigated any possible association between the use of wireless phones and primary brain cancer, glioma, meningioma, or acoustic neuroma, tumors of the brain or salivary gland, leukemia, or other cancers. None of the studies demonstrated the existence of any harmful health effects from wireless phones RF exposures. However, none of the studies can answer questions about long-term exposures, since the average period of phone use in these studies was around three years.

What research is needed to decide whether RF exposure from wireless phones poses a health risk?

A combination of laboratory studies and epidemiological studies of people actually using wireless phones would provide some of the data that are needed. Lifetime animal exposure studies could be completed in a few years. However, very large numbers of animals would be needed to provide reliable proof of a cancer promoting effect if one exists. Epidemiological studies can provide data that is directly applicable to human populations, but ten or more years' follow-up may be needed to provide answers about some health effects. such as cancer. This is because the interval between the time of exposure to a cancer-causing agent and the time tumors develop - if they do - may be many, many years. The interpretation of epidemiological studies is hampered by difficulties in measuring actual RF exposure during day-to-day use of wireless phones. Many factors affect this measurement, such as the angle at which the phone is held, or which model of phone is used.

What is FDA doing to find out more about the possible health effects of wireless phone RF?

FDA is working with the U.S. National Toxicology Program and with groups of investigators around the world to ensure that high priority animal studies are conducted to address important questions about the effects of exposure to radio frequency energy (RF).

FDA has been a leading participant in the World Health Organization international Electromagnetic Fields (EMF) Project since its inception in 1996. An influential result of this work has been the development of a detailed agenda of research needs that has driven the establishment of new research programs around the world. The Project has also helped develop a series of public information documents on EMF issues.

FDA and Cellular Telecommunications & Internet Association (CTIA) have a formal Cooperative Research and Development Agreement (CRADA) to do research on wireless phone safety. FDA provides the scientific oversight, obtaining input from experts in government, industry, and academic organizations. CTIA-funded research is conducted through contracts to independent investigators. The initial research will include both laboratory studies and studies of wireless phone users. The CRADA will also include a broad assessment of additional research needs in the context of the latest research developments around the world.

What steps can I take to reduce my exposure to radio frequency energy from my wireless phone?

If there is a risk from these products - and at this point we do not know that there is - it is probably very small. But if you are concerned about avoiding even potential risks, you can take a few simple steps to minimize your exposure to radio frequency energy (RF). Since time is a key factor in how much exposure a person receives, reducing the amount of time spent using a wireless phone will reduce RF exposure.

 If you must conduct extended conversations by wireless phone every day, you could place more distance between your body and the source of the RF, since the exposure level drops off dramatically with distance. For example, you could use a headset and carry the wireless phone away from your body or use a wireless phone connected to a remote antenna.

Again, the scientific data do not demonstrate that wireless phones are harmful. But if you are concerned about the RF exposure from these products, you can use measures like those described above to reduce your RF exposure from wireless phone use.

What about children using wireless phones?

The scientific evidence does not show a danger to users of wireless phones, including children and teenagers. If you want to take steps to lower exposure to radio frequency energy (RF), the measures described above would apply to children and teenagers using wireless phones. Reducing the time of wireless phone use and increasing the distance between the user and the RF source will reduce RF exposure.

Some groups sponsored by other national governments have advised that children be discouraged from using wireless phones at all. For example, the government in the United Kingdom distributed leaflets containing such a recommendation in December 2000. They noted that no evidence exists that using a wireless phone causes brain tumors or other ill effects. Their recommendation to limit wireless phone use by children was strictly precautionary; it was not based on scientific evidence that any health hazard exists.

Do hands-free kits for wireless phones reduce risks from exposure to RF emissions?

Since there are no known risks from exposure to RF emissions from wireless phones, there is no reason to

believe that hands-free kits reduce risks. Hands-free kits can be used with wireless phones for convenience and comfort. These systems reduce the absorption of RF energy in the head because the phone, which is the source of the RF emissions, will not be placed against the head. On the other hand, if the phone is mounted against the waist or other part of the body during use, then that part of the body will absorb more RF energy. Wireless phones marketed in the U.S. are required to meet safety requirements regardless of whether they are used against the head or against the body. Either configuration should result in compliance with the safety limit.

Do wireless phone accessories that claim to shield the head from RF radiation work?

Since there are no known risks from exposure to RF emissions from wireless phones, there is no reason to believe that accessories that claim to shield the head from those emissions reduce risks. Some products that claim to shield the user from RF absorption use special phone cases, while others involve nothing more than a metallic accessory attached to the phone. Studies have shown that these products generally do not work as advertised. Unlike "hand-free" kits, these so-called "shields" may interfere with proper operation of the phone. The phone may be forced to boost its power to compensate, leading to an increase in RF absorption. In February 2002, the Federal trade Commission (FTC) charged two companies that sold devices that claimed to protect wireless phone users from radiation with making false and unsubstantiated claims. According to FTC, these

defendants lacked a reasonable basis to substantiate their claim.

What about wireless phone interference with medical equipment?

Radio frequency energy (RF) from wireless phones can interact with some electronic devices. For this reason, FDA helped develop a detailed test method to measure electromagnetic interference (EMI) of implanted cardiac pacemakers and defibrillators from wireless telephones. This test method is now part of a standard sponsored by the Association for the Advancement of Medical instrumentation (AAMI). The final draft, a joint effort by FDA, medical device manufacturers, and many other groups, was completed in late 2000. This standard will allow manufacturers to ensure that cardiac pacemakers and defibrillators are safe from wireless phone EMI. FDA has tested wireless phones and helped develop a voluntary standard sponsored by the Institute of Electrical and Electronic Engineers (IEEE). This standard specifies test methods and performance requirements for hearing aids and wireless phones so that no interference occurs when a person uses a compatible phone and a compatible hearing aid at the same time. This standard was approved by the IEEE in 2000.

FDA continues to monitor the use of wireless phones for possible interactions with other medical devices. Should harmful interference be found to occur, FDA will conduct testing to assess the interference and work to resolve the problem.

Additional information on the safety of RF exposures from various sources can be obtained from the following organizations:

- FCC RF Safety Program: http://www.fcc.gov/oet/rfsafety/
- Environmental Protection Agency (EPA): http://www.epa.gov/radiation/
- Occupational Safety and health Administration's (OSHA): http://www.osha.gov/SLTC/radiofrequencyradiation/ index.html

Road Safety

Your wireless phone gives you the powerful ability to communicate by voice, almost anywhere, anytime. But an important responsibility accompanies the benefits of wireless phones, one that every user must uphold.

When driving a car, driving is your first responsibility. When using your wireless phone behind the wheel of a car, practice good common sense and remember the following tips:

1. Get to know your wireless phone and its features, such

- as speed dial and redial. If available, these features help you to place your call without taking your attention off the road.
- When available, use a hands-free device. If possible, add an additional layer of convenience and safety to your wireless phone with one of the many hands free accessories available today.
- Position your wireless phone within easy reach. Be able to access your wireless phone without removing your eyes from the road. If you get an incoming call at an inconvenient time, let your voicemail answer it for you.
- 4. Let the person you are speaking with know you are driving; if necessary, suspend the call in heavy traffic or hazardous weather conditions. Rain, sleet, snow, ice and even heavy traffic can be hazardous.
- Do not take notes or look up phone numbers while driving. Jotting down a "to do" list or flipping through your address book takes attention away from your primary responsibility, driving safely.
- 6. Dial sensibly and assess the traffic; if possible, place calls when you are not moving or before pulling into traffic. Try to plan calls when your car will be stationary. If you need to make a call while moving, dial only a few numbers, check the road and your mirrors, then continue.

- Do not engage in stressful or emotional conversations that may be distracting. Make people you are talking with aware you are driving and suspend conversations that have the potential to divert your attention from the road.
- 8. Use your wireless phone to call for help. Dial 9-1-1 or other local emergency number in the case of fire, traffic accident or medical emergencies. Remember, it is a free call on your wireless phone!
- 9. Use your wireless phone to help others in emergencies. If you see an auto accident, crime in progress or other serious emergency where lives are in danger, call 9-1-1 or other local emergency number, as you would want others to do for you.
- 10. Call roadside assistance or a special non-emergency wireless assistance number when necessary. If you see a broken-down vehicle posing no serious hazard, a broken traffic signal, a minor traffic accident where no one appears injured, or a vehicle you know to be stolen, call roadside assistance or other special non-emergency number.

"The wireless industry reminds you to use your phone safely when driving."

For more information, please call 1-888-901-SAFE, or visit our web-site www.wow-com.com

Provided by the Cellular Telecommunications & Internet Association.

Operating Environment

Remember to follow any special regulations in force in any area and always switch your phone off whenever it is forbidden to use it, or when it may cause interference or danger. When connecting the phone or any accessory to another device, read its user's guide for detailed safety instructions. Do not connect incompatible products.

As with other mobile radio transmitting equipment, users are advised that for the satisfactory operation of the equipment and for the safety of personnel, it is recommended that the equipment should only be used in the normal operating position (held to your ear with the antenna pointing over your shoulder if you are using an external antenna).

Using Your Phone Near Other Electronic Devices

Most modern electronic equipment is shielded from radio frequency (RF) signals. However, certain electronic equipment may not be shielded against the RF signals from your wireless phone. Consult the manufacturer to discuss alternatives.

Pacemakers

Pacemaker manufacturers recommend that a minimum distance of 15 cm (6 inches) be maintained between a wireless phone and a pacemaker to avoid potential interference with the pacemaker.

These recommendations are consistent with the independent research and recommendations of Wireless Technology Research.

Persons with pacemakers:

- should always keep the phone more than 15 cm (6 inches) from their pacemaker when the phone is switched on.
- should not carry the phone in a breast pocket.
- should use the ear opposite the pacemaker to minimize potential interference.

If you have any reason to suspect that interference is taking place, switch your phone off immediately.

Hearing Aid Compatibility with Mobile Phones

When some mobile phones are used near some hearing devices (hearing aids and cochlear implants), users may detect a buzzing, humming, or whining noise. Some hearing devices are more immune than others to this interference noise, and phones also vary in the amount of interference they generate.

The wireless telephone industry has developed ratings for some of their mobile phones, to assist hearing device users in finding phones that may be compatible with their hearing devices. Not all phones have been rated. Phones that are rated have the rating on their box or a label on the box.

The ratings are not guarantees. Results will vary depending on the user's hearing device and hearing loss. If your hearing device happens to be vulnerable to interference, you may not be able to use a rated phone successfully. Trying out the phone with your hearing device is the best way to evaluate it for your personal needs.

M-Ratings: Phones rated M3 or M4 meet FCC requirements and are likely to generate less interference to hearing devices than phones that are not labeled. M4 is the better/higher of the two ratings.

T-Ratings: Phones rated T3 or T4 meet FCC requirements and are likely to be more usable with a hearing device's telecoil ("TSwitch" or "Telephone Switch") than unrated phones. T4 is the better/higher of the two ratings. (Note that not all hearing devices have telecoils in them.)

Hearing devices may also be measured for immunity to this type of interference. Your hearing device manufacturer or hearing health professional may help you find results for your hearing device. The more immune your hearing aid is, the less likely you are to experience interference noise from mobile phones.

Other Medical Devices

If you use any other personal medical devices, consult the manufacturer of your device to determine if it is adequately shielded from external RF energy. Your physician may be able to assist you in obtaining this information. Switch your phone off in health care facilities when any regulations posted in these areas instruct you to do so. Hospitals or health care facilities may be using equipment that could be sensitive to external RF energy.

Vehicles

RF signals may affect improperly installed or inadequately shielded electronic systems in motor vehicles. Check with the manufacturer or its representative regarding your vehicle. You should also

consult the manufacturer of any equipment that has been added to your vehicle.

Posted Facilities

Switch your phone off in any facility where posted notices require you to do so.

Potentially Explosive Environments

Switch your phone off when in any area with a potentially explosive atmosphere and obey all signs and instructions. Sparks in such areas could cause an explosion or fire resulting in bodily injury or even death.

Users are advised to switch the phone off while at a refueling point (service station). Users are reminded of the need to observe restrictions on the use of radio equipment in fuel depots

(fuel storage and distribution areas), chemical plants or where blasting operations are in progress.

Areas with a potentially explosive atmosphere are often but not always clearly marked. They include below deck on boats, chemical transfer or storage facilities, vehicles using liquefied petroleum gas (such as propane or butane), areas where the air contains chemicals or particles, such as grain, dust or metal powders, and any other area where you would normally be advised to turn off your vehicle engine.

Emergency Calls

This phone, like any wireless phone, operates using radio signals, wireless and landline networks as well as userprogrammed functions, which cannot guarantee connection in all conditions. Therefore, you should never rely solely on any wireless phone for essential communications (medical emergencies, for example).

Remember, to make or receive any calls the phone must be switched on and in a service area with adequate signal strength. Emergency calls may not be possible on all wireless phone networks or when certain network services and/or phone features are in use. Check with local service providers.

To make an emergency call:

- 1. If the phone is not on, switch it on.
- 2. Key in the emergency number for your present location (for example, 911 or other official emergency number). Emergency numbers vary by location.
- 3. Press the Send key ().

If certain features are in use (call barring, for example), you may first need to deactivate those features before you can make an emergency call. Consult this document and your local cellular service provider.

When making an emergency call, remember to give all the necessary information as accurately as possible. Remember that your phone may be the only means of communication at the scene of an accident; do not cut off the call until given permission to do so.

Restricting Children's access to your Phone

Your phone is not a toy. Children should not be allowed to play with it because they could hurt themselves and others, damage the phone or make calls that increase your phone bill.

FCC Notice and Cautions

FCC Notice

The phone may cause TV or radio interference if used in close proximity to receiving equipment. The FCC can require you to stop using the phone if such interference cannot be eliminated.

Vehicles using liquefied petroleum gas (such as propane or butane) must comply with the National Fire Protection Standard (NFPA-58). For a copy of this standard, contact the National Fire Protection Association, One Batterymarch Park, Quincy, MA 02269, Attn: Publication Sales Division.

Cautions

Any changes or modifications to your phone not expressly approved in this document could void your warranty for this equipment, and void your authority to operate this equipment. Only use approved batteries, antennas and chargers. The use of any unauthorized accessories may be dangerous and void the phone warranty if said accessories cause damage or a defect to the phone.

Although your phone is quite sturdy, it is a complex piece of equipment and can be broken. Avoid dropping, hitting, bending or sitting on it.

Other Important Safety Information

 Only qualified personnel should service the phone or install the phone in a vehicle. Faulty installation or service may be dangerous and may invalidate any warranty applicable to the device.

- Check regularly that all wireless phone equipment in your vehicle is mounted and operating properly.
- Do not store or carry flammable liquids, gases or explosive materials in the same compartment as the phone, its parts or accessories.
- For vehicles equipped with an air bag, remember that an air bag inflates with great force. Do not place objects, including both installed or portable wireless equipment in the area over the air bag or in the air bag deployment area. If wireless equipment is improperly installed and the air bag inflates, serious injury could result.
- Switch your phone off before boarding an aircraft. The use of wireless phone in aircraft is illegal and may be dangerous to the aircraft's operation.
- Failure to observe these instructions may lead to the suspension or denial of telephone services to the offender, or legal action, or both.

Product Performance

Getting the Most Out of Your Signal Reception

The quality of each call you make or receive depends on the signal strength in your area. Your phone informs you of the current signal strength by displaying a number of bars next to the signal strength icon. The more bars displayed, the stronger the signal.

If you're inside a building, being near a window may give you better reception.

Understanding the Power Save Feature

If your phone is unable to find a signal after 15 minutes of searching, a Power Save feature is automatically activated. If your phone is active, it periodically rechecks

service availability or you can check it yourself by pressing any key.

Anytime the Power Save feature is activated, a message displays on the screen. When a signal is found, your phone returns to standby mode.

Understanding How Your Phone Operates

Your phone is basically a radio transmitter and receiver. When it's turned on, it receives and transmits radio frequency (RF) signals. When you use your phone, the system handling your call controls the power level. This power can range from 0.006 watts to 0.2 watts in digital mode.

Maintaining Your Phone's Peak Performance

For the best care of your phone, only authorized personnel should service your phone and accessories. Faulty service may void the warranty.

There are several simple guidelines to operating your phone properly and maintaining safe, satisfactory service.

- If your phone is equipped with an external antenna, hold the phone with the antenna raised, fully-extended and over your shoulder.
- Do not hold, bend or twist the phone's antenna, if applicable.
- Do not use the phone if the antenna is damaged.
- If your phone is equipped with an internal antenna, obstructing the internal antenna could inhibit call performance.
- Speak directly into the phone's receiver.

 Avoid exposing your phone and accessories to rain or liquid spills. If your phone does get wet, immediately turn the power off and remove the battery. If it is inoperable, call Customer Care for service.

Availability of Various Features/Ring Tones

Many services and features are network dependent and may require additional subscription and/or usage charges. Not all features are available for purchase or use in all areas. Downloadable Ring Tones may be available at an additional cost. Other conditions and restrictions may apply. See your service provider for additional information.

Battery Standby and Talk Time

Standby and talk times will vary depending on phone usage patterns and conditions. Battery power consumption depends on factors such as network configuration, signal strength, operating temperature, features selected, frequency of calls, and voice, data, and other application usage patterns.

Battery Precautions

- Avoid dropping the cell phone. Dropping it, especially on a hard surface, can potentially cause damage to the phone and battery. If you suspect damage to the phone or battery, take it to a service center for inspection.
- Never use any charger or battery that is damaged in any way.
- Use the battery only for its intended purpose.
- If you use the phone near the network's base station, it uses less power; talk and standby time are greatly affected by the signal strength on the cellular network and the parameters set by the network operator.
- Follow battery usage, storage and charging guidelines found in the user's guide.
- Battery charging time depends on the remaining battery charge and the type of battery and charger used. The battery can be charged and discharged hundreds of times, but it will gradually wear out. When the operation time (talk time and standby time) is noticeably shorter than normal, it is time to buy a new battery.
- If left unused, a fully charged battery will discharge itself over time.
- Use only Samsung-approved batteries and recharge your battery only with Samsung-approved chargers. When a charger is not in use, disconnect it from the power source. Do not leave

the battery connected to a charger for more than a week, since overcharging may shorten its life.

- Do not use incompatible cell phone batteries and chargers.
 Some Web sites and second-hand dealers, not associated with reputable manufacturers and carriers, might be selling incompatible or even counterfeit batteries and chargers.
 Consumers should purchase manufacturer or carrier recommended products and accessories. If unsure about whether a replacement battery or charger is compatible, contact the manufacturer of the battery or charger.
- Extreme temperatures will affect the charging capacity of your battery: it may require cooling or warming first.
- Do not leave the battery in hot or cold places, such as in a car in summer or winter conditions, as you will reduce the capacity and lifetime of the battery. Always try to keep the battery at room temperature. A phone with a hot or cold battery may temporarily not work, even when the battery is fully charged. Li-ion batteries are particularly affected by temperatures below 0 °C (32 °F).
- Do not place the phone in areas that may get very hot, such as on or near a cooking surface, cooking appliance, iron, or radiator
- Do not get your phone or battery wet. Even though they will dry and appear to operate normally, the circuitry could slowly corrode and pose a safety hazard.
- Do not short-circuit the battery. Accidental short-circuiting can occur when a metallic object (coin, clip or pen) causes a direct connection between the + and - terminals of the battery (metal strips on the battery), for example when you carry a spare battery in a pocket or bag. Short-circuiting the terminals may damage the battery or the object causing the short-circuiting.
- Do not permit a battery out of the phone to come in contact with metal objects, such as coins, keys or jewelry.
- Do not crush, puncture or put a high degree of pressure on the battery as this can cause an internal short-circuit, resulting in overheating.

 Dispose of used batteries in accordance with local regulations. In some areas, the disposal of batteries in household or business trash may be prohibited. For safe disposal options for Li-lon batteries, contact your nearest Samsung authorized service center. Always recycle. Do not dispose of batteries in a fire.

Care and Maintenance

Your phone is a product of superior design and craftsmanship and should be treated with care. The suggestions below will help you fulfill any warranty obligations and allow you to enjoy this product for many years

- Keep the phone and all its parts and accessories out of the reach of small children.
- Keep the phone dry. Precipitation, humidity and liquids contain minerals that will corrode electronic circuits.
- Do not use the phone with a wet hand. Doing so may cause an electric shock to you or damage to the phone.
- Do not use or store the phone in dusty, dirty areas, as its moving parts may be damaged.
- Do not store the phone in hot areas. High temperatures can shorten the life of electronic devices, damage batteries, and warp or melt certain plastics.
- Do not store the phone in cold areas. When the phone warms up to its normal operating temperature, moisture can form inside the phone, which may damage the phone's electronic circuit boards.
- Do not drop, knock or shake the phone. Rough handling can break internal circuit boards.
- Do not use harsh chemicals, cleaning solvents or strong detergents to clean the phone. Wipe it with a soft cloth slightly dampened in a mild soap-and-water solution.

- Do not paint the phone. Paint can clog the device's moving parts and prevent proper operation.
- Do not put the phone in or on heating devices, such as a microwave oven, a stove or a radiator. The phone may explode when overheated.
- If your phone has an external antenna, use only the supplied or an approved replacement antenna. Unauthorized antennas or modified accessories may damage the phone and violate regulations governing radio devices.
- If the phone, battery, charger or any accessory is not working properly, take it to your nearest qualified service facility. The personnel there will assist you, and if necessary, arrange for service.

This section explains the warranty information for your new phone.

2

Standard Limited Warranty

What is Covered and For How Long? SAMSUNG

TELECOMMUNICATIONS AMERICA, L.P. ("SAMSUNG") warrants to the original purchaser ("Purchaser") that SAMSUNG's Phones and accessories ("Products") are free from defects in material and workmanship under normal use and service for the period commencing upon the date of purchase and continuing for the following specified period of time after that date:

Phone 1 Year
Batteries 1 Year
Leather Case/ Pouch 90 Days
Holster 90 Days
Other Phone Accessories 1 Year

What is Not Covered? This Limited Warranty is conditioned upon proper use of Product by Purchaser. This Limited Warranty does not cover: (a) defects or damage resulting from accident, misuse, abuse, neglect, unusual physical, electrical or electromechanical stress, or modification of any part of Product, including antenna, or cosmetic damage; (b) equipment that has the serial number removed or made illegible; (c) any plastic surfaces or other externally exposed parts that are scratched or damaged due to normal use; (d) malfunctions resulting from the use of Product in conjunction with accessories, products, or

ancillary/peripheral equipment not furnished or approved by SAMSUNG; (e) defects or damage from improper testing, operation, maintenance, installation, or adjustment; (f) installation, maintenance, and service of Product, or (g) Product used or purchased outside the United States or Canada. This Limited Warranty covers batteries only if battery capacity falls below 80% of rated capacity or the battery leaks, and this Limited Warranty does not cover any battery if (i) the battery has been charged by a battery charger not specified or approved by SAMSUNG for charging the battery, (ii) any of the seals on the battery are broken or show evidence of tampering, or (iii) the battery has been used in equipment other than the SAMSUNG phone for which it is specified.

What are SAMSUNG's Obligations? During the applicable warranty period, SAMSUNG will repair or replace, at SAMSUNG's sole option, without charge to Purchaser, any defective component part of Product. To obtain service under this Limited Warranty, Purchaser must return Product to an authorized phone service facility in an adequate container for shipping, accompanied by Purchaser's sales receipt or comparable substitute proof of sale showing the date of purchase, the serial number of Product and the sellers' name and address. To obtain assistance on where to deliver the Product, call Samsung Customer Care at 1-888-987-4357. Upon receipt, SAMSUNG will promptly repair or replace the defective Product. SAMSUNG may, at SAMSUNG's sole option, use rebuilt, reconditioned, or new parts or components when repairing any Product or replace Product with a rebuilt, reconditioned or new Product. Repaired/ replaced leather cases, pouches and holsters will be

warranted for a period of ninety (90) days. All other repaired/replaced Product will be warranted for a period equal to the remainder of the original Limited Warranty on the original Product or for 90 days, whichever is longer. All replaced parts, components, boards and equipment shall become the property of SAMSUNG. If SAMSUNG determines that any Product is not covered by this Limited Warranty, Purchaser must pay all parts, shipping, and labor charges for the repair or return of such Product.

WHAT ARE THE LIMITS ON SAMSUNG'S WARRANTY/LIABILITY? EXCEPT AS SET FORTH IN THE EXPRESS WARRANTY CONTAINED HEREIN, PURCHASER TAKES THE PRODUCT "AS IS," AND SAMSUNG MAKES NO WARRANTY OR REPRESENTATION AND THERE ARE NO CONDITIONS, EXPRESS OR IMPLIED, STATUTORY OR OTHERWISE, OF ANY KIND WHATSOEVER WITH RESPECT TO THE PRODUCT, INCLUDING BUT NOT LIMITED TO:

- THE MERCHANTABILITY OF THE PRODUCT OR ITS FITNESS FOR ANY PARTICULAR PURPOSE OR USE;
- WARRANTIES OF TITLE OR NON-INFRINGEMENT:
- DESIGN, CONDITION, QUALITY, OR PERFORMANCE OF THE PRODUCT:
- THE WORKMANSHIP OF THE PRODUCT OR THE COMPONENTS CONTAINED THEREIN; OR
- COMPLIANCE OF THE PRODUCT WITH THE REQUIREMENTS OF ANY LAW, RULE, SPECIFICATION OR CONTRACT PERTAINING THERETO.

NOTHING CONTAINED IN THE INSTRUCTION MANUAL SHALL BE CONSTRUED TO CREATE AN

EXPRESS WARRANTY OF ANY KIND WHATSOEVER WITH RESPECT TO THE PRODUCT. ALL IMPLIED WARRANTIES AND CONDITIONS THAT MAY ARISE BY OPERATION OF LAW, INCLUDING IF APPLICABLE THE IMPLIED WARRANTIES OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE, ARE HEREBY LIMITED TO THE SAME DURATION OF TIME AS THE EXPRESS WRITTEN WARRANTY STATED HEREIN. SOME STATES/PROVINCES DO NOT ALLOW LIMITATIONS ON HOW LONG AN IMPLIED WARRANTY LASTS, SO THE ABOVE LIMITATION MAY NOT APPLY TO YOU. IN ADDITION, SAMSUNG SHALL NOT BELIABLE FOR ANY DAMAGES OF ANY KIND

RESULTING FROM THE PURCHASE. USE. OR MISUSE OF, OR INABILITY TO USE THE PRODUCT OR ARISING DIRECTLY OR INDIRECTLY FROM THE USE OR LOSS OF USE OF THE PRODUCT OR FROM THE BREACH OF THE EXPRESS WARRANTY, INCLUDING INCIDENTAL, SPECIAL, CONSEQUENTIAL OR SIMILAR DAMAGES. OR LOSS OF ANTICIPATED PROFITS OR BENEFITS, OR FOR DAMAGES ARISING FROM ANY TORT (INCLUDING NEGLIGENCE OR GROSS NEGLIGENCE) OR FAULT COMMITTED BY SAMSUNG, ITS AGENTS OR EMPLOYEES, OR FOR ANY BREACH OF CONTRACT OR FOR ANY CLAIM BROUGHT AGAINST PURCHASER BY ANY OTHER PARTY. SOME STATES/PROVINCES DO NOT ALLOW THE EXCLUSION OR LIMITATION OF INCIDENTAL OR CONSEQUENTIAL DAMAGES, SO THE ABOVE LIMITATION OR EXCLUSION MAY NOT APPLY TO

YOU. THIS WARRANTY GIVES YOU SPECIFIC LEGAL RIGHTS, AND YOU MAY ALSO HAVE OTHER RIGHTS. WHICH VARY FROM STATE TO STATE/ PROVINCE TO PROVINCE. THIS LIMITED WARRANTY SHALL NOT EXTEND TO ANYONE OTHER THAN THE ORIGINAL PURCHASER OF THIS PRODUCT AND STATES PURCHASER'S EXCLUSIVE REMEDY, IF ANY PORTION OF THIS LIMITED WARRANTY IS HELD ILLEGAL OR UNENFORCEABLE BY REASON OF ANY LAW, SUCH PARTIAL ILLEGALITY OR UNENFORCEABILITY SHALL NOT AFFECT THE ENFORCEABILITY FOR THE REMAINDER OF THIS LIMITED WARRANTY WHICH PURCHASER ACKNOWLEDGES IS AND WILL ALWAYS BE CONSTRUED TO BE LIMITED BY ITS TERMS OR AS LIMITED AS THE LAW PERMITS. THE PARTIES UNDERSTAND THAT THE PURCHASER MAY USE THIRD-PARTY SOFTWARE OR EQUIPMENT IN CONJUNCTION WITH THE PRODUCT. SAMSUNG MAKES NO WARRANTIES OR REPRESENTATIONS AND THERE ARE NO CONDITIONS, EXPRESS OR IMPLIED, STATUTORY OR OTHERWISE, AS TO THE QUALITY, CAPABILITIES. OPERATIONS. PERFORMANCE OR SUITABILITY OF ANY THIRDPARTY SOFTWARE OR EQUIPMENT, WHETHER SUCH THIRD-PARTY SOFTWARE OR EQUIPMENT IS INCLUDED WITH THE PRODUCT DISTRIBUTED BY SAMSUNG OR OTHERWISE, INCLUDING THE ABILITY TO INTEGRATE ANY SUCH SOFTWARE OR EQUIPMENT WITH THE PRODUCT. THE QUALITY, CAPABILITIES, OPERATIONS. PERFORMANCE AND SUITABILITY

OF ANY SUCH THIRD-PARTY SOFTWARE OR EQUIPMENT LIE SOLELY WITH THE PURCHASER AND THE DIRECT VENDOR, OWNER OR SUPPLIER OF SUCH THIRD-PARTY SOFTWARE OR EQUIPMENT, AS THE CASE MAY BE.

This Limited Warranty allocates risk of Product failure between Purchaser and SAMSUNG, and SAMSUNG's Product pricing reflects this allocation of risk and the limitations of liability contained in this Limited Warranty. The agents, employees, distributors, and dealers of SAMSUNG are not authorized to make modifications to this Limited Warranty, or make additional warranties binding on SAMSUNG. Accordingly, additional statements such as dealer advertising or presentation, whether oral or written, do not constitute warranties by SAMSUNG and should not be relied upon.
