

los proyectos hacen los objetos eternos,
las modas los corrompen,
los imbéciles los copian y los venden a los ignorantes y a los idiotas.
nosotros hacemos proyectos y trabajamos
para ayudar a la luz a emocionarle.
los frutos de nuestras ideas y de nuestros proyectos
están protegidos con patentes,
modelos registrados y derechos de autor.
design makes objects timeless,
fashion corrupts them,
fools copy them and sell them to ignorants and idiots.
we do projects and work to help light to bring
you true emotion.
the results of our ideas and our projects
are protected by patents
and/or registered models
and/or copyright.

mario nanni

For m

Viabizzuno, calle principal del anejo de Bizzuno, provincia de ravenna, donde, el 21 07 1955, nací, en el nº17, entre el ayuntamiento y la parroquia. de aquí nace el nombre de la empresa establecida en el año mil novecienta noventa y cuatro representada por un espacio blanco atravesado por dos líneas, una vertical, rigurosa, limpia, equilibrada, For m, y otra inclinada, irreverente en el espacio, irónica, fuera de los esquemas, Alvaline. distintas pero complementarias, igual que las dos almas representadas por las dos colecciones Viabizzuno. y en el punto en el que se cruzan las dos líneas, el UpO, Ufficio progettazione Ombre.

Viabizzuno is the name of the main road of the small village Bizzuno located in the province of ravenna, where I was born on the 21 07 1955 at nº17, between the 'casa del popolo' and the local parish church. from here the name of the company founded in nineteen ninety-four represented by a white space intersected by two lines one vertical, well balanced, logical, clean, For m, the other dynamic, irreverent, ironic, Alvaline. separate and yet complementary, just like the two different philosophies behind Viabizzuno two collections. in the intersection between the two lines, UpO, Ufficio progettazione Ombre. mn

Alvaline

Viabizzuno se rodea de experiencia, conocimientos e investigación para poder dar la mejor expresión posible a su modo de hacer luz. este instrumento es un manual técnico: la recopilación, el relato, la explicación de las dos líneas de producto que nacen del pensamiento proyectual de Viabizzuno que se identifica en una página blanca, siempre lista para aceptar y resolver nuevos desafíos. dos líneas complementarias ocupan ese espacio explorándolo, dilatándolo: se cruzan, seguras de su propia identidad, dos almas representadas por las colecciones For m y Alvaline. dos instrumentos que, unidos, nos permiten proyectar la luz a 360°. el manual For m y Alvaline forma así un único libro, pero con dos recorridos: en uno es la forma la que emociona e ilumina, en otro es el diseño el que genera la luz; en un recorrido tenemos la lámpara irreverente, el objeto que vive tanto en la luz artificial como en la natural; en el otro, el cuerpo iluminante, técnico, que desaparece para dejar espacio únicamente a la luz. dos tipos de producto distintos, pero complementarios. es el instrumento para conocer nuestra luz: la histórica, pero también la especial, desarrollada y creada a medida, que narra lo importante que es que el proyecto sea estimulante y que el interlocutor esté preparado para un proyecto complejo, que requerirá tiempo y esfuerzo.

proyectamos la luz a 360°.

Viabizzuno draws on all its experience, knowledge and research to fully express its own personal way of creating light. this tool is a technical manual, a collection, account and explanation of the two product ranges generated by Viabizzuno's design concept, which takes the form of a white page, always ready to accept and solve a new challenge. two complementary ranges occupy this space, exploring and expanding it; they intersect, confident in their own identity, two kindred spirits represented by the For m and Alvaline collections. two tools that together enable us to design lighting in 360°. the For m and Alvaline manual becomes a single book but with two pathways; in one it is the shape that excites and illuminates, in the other it is the design that generates the light, in one is the irreverent lamp, the object that is alive in both artificial and natural light, in the other is the efficient light fitting that disappears to make way for light alone, two different but complementary product types. the manual is a tool to learn about our light, both the historical and the special, developed and made to measure, which explains how important it is for the design to be stimulating and for the customer to be prepared for a complex design process, which requires both time and commitment.

we design lighting at 360°.

cuerpo iluminante para interiores IP40 (IP20 en la versión con alarma acústico-visual), formado por un elemento de aluminio extruido oxidado negro o blanco, con base de 100x30mm y un difusor de metacrilato transparente 100x100x30mm, o bien con base 250x30mm y un difusor de 250x250x30mm. tiene función de luz de ambiente, de señalización y lámpara de guía, cableado para fuentes led de 2x1W y 4x1W 6050K, respectivamente. está disponible en la versión de techo empotrable en arqueta, en pared y en plafón. admite serigrafías personalizadas sobre el soporte difusor. pensado en las versiones 100, con el cuerpo totalmente empotrado; 100x150, con el cuerpo de plafón de 150mm de altura y 100x250, con el cuerpo de plafón de 250mm de altura. está disponible también la versión alarma contra incendios con fuente luminosa de led y 1 zumbadores piezoelectricos de 70db para prealarma y alarma.

IP40 light fitting for interior use (IP20 in the audio-visual alarm version), consisting of a black or white oxidized aluminium extrusion with 100x30mm base and 100x100x30mm clear methacrylate diffuser or with a 250x30mm base and 250x250x30mm diffuser. it provides ambient, signage and guide lighting and is wired for 2x1W and 4x1W 6050K led lamps respectively. available in the recessed ceiling version with appropriate housing, for wall or ceiling mounting. the diffuser support can be screen printed to your design. produced in a 100 version with fully recessed body, a 100x150 version with a ceiling fitting 150mm high and a 100x250 version with a ceiling fitting 250mm high. also available in the fire alarm version with led light source and 1 No. 70db piezoelectric warning and alarm buzzers.
