

Tuberías plásticas en la edificación: Manual técnico

Description: La aparición del Código Técnico de la Edificación (CTE), el Reglamento de Instalaciones Térmicas en Edificios (RITE), junto con otras normativas, ha impulsado a AseTUB a elaborar este completo manual técnico sobre los sistemas de tuberías plásticas.

En esta publicación se describen detalladamente las principales características y las diversas aplicaciones de los distintos sistemas de tuberías plásticas para la conducción de agua en el interior de los edificios.

Todo ello se complementa con tablas, gráficos, fotografías a color e ilustraciones para que el profesional vinculado a este sector aproveche al máximo todos los conocimientos expuestos.
