Palm Treo 750 Easy Email Setup
(For MSN Hotmail or Windows Live Mail e-mail service)

Rogers makes setting up your wireless e-mail service quick and easy.
Before beginning, please ensure you have everything you need to begin enjoying the time-saving benefits and convenience of sending and receiving wireless e-mail on the go.

Wireless E-mail Checklist:

☑ E-mail-capable wireless device   ☑ E-mail Plan   ☑ ISP-based E-mail Address

STEP 1   **Insert the SIM card and the battery into your wireless device**
- Charge your device for 20 minutes

STEP 2   **Turn on your wireless device**
- Ensure EDGE or GPRS appears on screen (indicates device is connected to the Rogers wireless network)

STEP 3   **Set up your wireless e-mail service**
1. On your device, Select E-mail at the bottom left
2. Select **New E-Mail Account**
3. Enter your e-mail address and select **Next** (Ensure 'Try to get e-mail settings automatically from the internet' is checked)
4. Auto Setup will find the settings. Select **Next**
5. You will be directed to Windows Live screen. Scroll down and select '**Sign in to Windows Live**'
6. Review Windows Live Terms of Use and Privacy statement. Only if you agree select **Accept**
7. Enter your e-mail address and password and select **Next** (Check **Save password**, so you don't have to enter it every time you check e-mail)
8. Select whether you to show Windows Live on your home screen and select **Next**
9. Select the items you want synced to your device and select **Next**
10. Your device will now sync with your inbox (may take a few moments)

STEP 4   **Once synchronization is complete you are now ready to send/receive e-mail**
