

Sony Ericsson P1i

Always connected

Staying connected means staying efficient. The SonyEricssonP1i gives you always-on access to your business e-mail, calendar and contacts. No matter where you go.

Complete mobile office

Take your office on the road. 3G gives you the speed you need. With full office applications on your phone - view and edit documents on the go.

Afterwork-compatible

When you unwind after work, your SonyEricssonP1i stays on duty. Listen to music. Snap a picture with the 3.2 megapixel camera and send to your blog. Or just relax with a game.

Business in your pocket

The Sony Ericsson P1i combines business with pleasure in one stylish, compact package. Mobile efficiency that keeps you in touch - and fits in your pocket.

Business card scanner

Take a photo of a business card. Use the Business Card Reader to scan the text - and then save it as a contact.

Symbian™ OS

An open operating system for mobile devices which enables you to download new applications to your phone.

Push e-mail

Instant e-mail on your mobile phone, just like on your home computer. Messages are sent directly to your phone as soon as they arrive.

3G

Quick and easy access to broadband Internet. Say hello to video calls, audio and video streaming, Internet surfing, multi-media messaging and e-mail on the go.

Handwriting Recognition

Text input using stylus on touchscreen: write a character as you would with a pen and it transforms it into the corresponding letter on a keyboard.

Touchscreen

Using a stylus or pointer, you can navigate the phone menu by touching icons or menu items on the screen.

Web wherever

Truly mobile Internet lets you enjoy browsing the Web and effectively manage your e-mail from the convenience of your phone, wherever you are.

RSS feeds

Use your phone to view up-to-the-minute news and other content from selected websites and blogs. Just subscribe to the feed and let it come to you.

Integrated camera

Built-in digital camera with screen viewfinder, dedicated menus and direct interaction with in-phone imaging and messaging features.

Video call

See who's talking with your 3G phone. During a video call, you see a live video stream of the person you're talking to and they can see you.

Links you like

Forget cables - wireless is the way forward. Connect to other devices with Bluetooth™ to sync, share and send.

Music recognition

What's that sound? Just record a few seconds of music and TrackID™ returns the song name, artist and album to your phone within seconds.
