- IT AVVERTENZE:** All'atto dell'installazione, ed ogni volta che si interviene sulla lampada, assicurarsi che sia stata tolta la tensione di alimentazione. Le operazioni di installazione e collegamento alla rete elettrica devono essere effettuate esclusivamente da personale qualificato.
- GB WARNING:** When installing fixture and during unkeep take care that the mains voltage is switched off. The operations of installation and connection to power mains should be done by skilled personnel only.
- DE HINWEISE:** Während der Installation und bei allen nachfolgenden Arbeiten auf der Lampe sollte sichergestellt werden, daß die Versorgungsspannung vorher abgenommen wurde. Die Arbeiten zur Installation und zum Anschluss an das Stromnetz sind von Fachpersonal durchzuführen.
- FR AVERTISSEMENTS:** Lors de l'installation et à chaque fois que l'on fait un entretien sur la lampe, s'assurer que la tension d'alimentation ait été coupée. Les opérations d'installation et de branchement au réseau électrique doivent être effectuées par un personnel qualifié.
- ES ADVERTENCIA:** Durante la instalación, y cada ve que se interviene sobre la lámpara, asegurarse que la alimentación haya sido desconectada. Las operaciones de instalación y conexión a la red eléctrica tienen que ser efectuadas exclusivamente por personal cualificado.

IT ATTENZIONE:

La sicurezza dell'apparecchio è garantita solo rispettando queste istruzioni sia in fase di installazione che di impiego.

GB WARNING:

Fitting safety is only guaranteed if the following instructions are strictly observed both during installation and use.

DE ACHTUNG:

Für die Sicherheit des Geräts kann nur dann die Garantie übernommen werden, wenn die in den vorliegenden Anweisungen enthaltenen Hinweise sowohl bei der Installation als auch beim Betrieb beachtet werden.

FR ATTENTION:

La sécurité de l'appareil n'est assurée que lorsque les consignes portées sont respectées, tant lors de l'installation que durant l'utilisation de l'appareil.

ES ATENCIÓN:

La seguridad del aparato está garantizada sólo si se respetan estas instrucciones durante la fase de instalación y de empleo.

IT smaltimento dell'apparecchio

GB equipment disposal

DE entsorgung des geräts

FR élimination de l'appareil

ES eliminación del aparato

IT A fine vita l'apparecchio di illuminazione un rifiuto che rientra nella categoria Raee (Rifiuto di Apparecchiatura Elettrica ed Elettronica), pertanto non deve essere smaltito come un rifiuto municipale misto ma deve essere smaltito correttamente per evitare danni all'ambiente, alle persone e agli animali, ed evitare lo spreco di materiali riciclabili. E' possibile consegnare il vecchio apparecchio al venditore nel momento in cui si acquista un nuovo apparecchio di illuminazione, oppure portare l'apparecchio nelle aree pubbliche di raccolta predisposte dalle amministrazioni comunali, o depositarlo negli appositi contenitori.

GB At the end of its life cycle, the light fixture should be considered as a Weee (Waste of electrical and electronic equipment) category waste, therefore it should be disposed of not as generic municipal waste, but properly in order to avoid damages to the environment, people and animals, and to avoid any waste of recyclable materials. When ordering a new light fixture, the customer may give back his/her old one to the seller, or bring it to the public collection sites arranged by the municipal authorities, or simply put it in special collection containers.

DE Am Ende der Lebensdauer ist das Gerät als Elektro- und Elektronik-Altgerät (ElektroG) zu behandeln und darf daher nicht zum Restmüll gegeben, sondern muss korrekt entsorgt werden, um die Schädigung von Umwelt, Personen und Tieren sowie die Verschwendung recycelbarer Materialien zu vermeiden. Das ausgediente Gerät kann beim Kauf eines neuen Gerätes beim Händler abgegeben oder zu einer öffentlichen Sammelstelle gebracht bzw. in den dafür vorgesehenen Behältern deponiert werden.

FR A la fin de sa durée de vie, l'appareil d'éclairage est un déchet qui entre dans la catégorie DEEE (Déchets des Equipements Electriques et Electroniques) ; il ne doit donc pas être éliminé comme un déchet municipal mixte mais correctement pour éviter tout dommage à l'environnement, aux personnes et aux animaux, et éviter le gaspillage de matériaux recyclables. Il est possible de remettre le vieil appareil au vendeur lorsque l'on achète un nouvel appareil d'éclairage, ou de porter l'appareil dans les aires publiques de collecte prévues par les administrations communales, ou de le déposer dans les contenants prévus à cet effet.

ES Al final de su vida, el aparato de iluminación es un residuo que está incluido en la categoría Raee (Residuo de aparatos eléctricos y electrónicos), por lo tanto no tiene que eliminarse como un residuo urbano mixto, sino que tiene que eliminarse de forma correcta para evitar daños al medio ambiente, a las personas y los animales, y para evitar el derroche de materiales reciclables. Es posible entregar el aparato antiguo al vendedor en el momento en que se compre un aparato de iluminación nuevo, o bien llevar el aparato a la zona pública de recogida preparadas por las administraciones municipales, o depositarlo en los contenedores al efecto.

Viabizzuno strada principale della frazione Bizzuno in provincia di ravenna dove tra la casa del popolo e la parrocchia, al n°17, sono nato il ventuno luglio millenovecentocinquantacinque.

mn

Viabizzuno raccoglie attorno a sé esperienza, conoscenza e ricerca per poter meglio esprimere il proprio 'modo di fare luce'. il pensiero progettuale di Viabizzuno si identifica in una pagina bianca. due linee di prodotti complementari occupano questo spazio esplorandolo, dilatandolo: si incrociano forti della propria identità, due anime rappresentate dalle collezioni For m e Alvaline. inoltre sviluppa e realizza apparecchi di illuminazione speciali e su misura. è fondamentale che il progetto sia stimolante e che l' interlocutore sia preparato a una progettazione complessa, che richiede tempo e impegno. progettiamo la luce a 360°.

Viabizzuno is the name of the main road of the small village Bizzuno, located in the province of ravenna, where I was born on the 21st of july 1955 at n°17, between the "casa del popolo" and the local parish church.

mn

Viabizzuno channels together experience, knowledge and research to express its "way of making light" as best as possible. Viabizzuno planning concepts are exalted when posed before a blank page; two complementary product lines occupy the space by exploring it and expanding it. they entwine together without vanishing thanks to their clear-cut identity. distinct yet complementary just like the two souls represented by the two Viabizzuno collections For m and Alvaline. it designs and produces special and custom-made lighting equipment too. it is essential that the project is stimulating and that the other party is prepared for a complex design process, requiring time and commitment. we design ligh at 360°.

**energia pulita
clean energy**

For m divide lo spazio verticalmente: equilibrata, razionale, rigorosa. il corpo illuminante evolve nella sua funzione di fare luce:

il suo uso é sempre più flessibile e la sua capacità di fondersi con l'architettura ne fa un vero materiale da costruzione, attraverso un design non invasivo, non mimetico, non sfacciatamente decorativo.

i corpi illuminanti si ritraggono nelle pareti, a filo intonaco, a scomparsa, nascosti alla vista lasciando piena soggettività alla luce. il grigio dei materiali come cemento, alluminio, acciaio é il colore della collezione For m.

For m divides space vertically. it is balanced, rational and rigorous. the lighting element is an evolution in the way that light is shed: its way of being used becomes evermore flexible and its capacity of blending with the surrounding architecture makes it a true building material, thanks to its non-intrusive yet non-mimetic design, which is not brazenly decorative. the recessed lighting elements retract into the wall, grazing against the plaster to hide away from sight and leave the whole scene to the light. the gray of materials like cement, aluminium, and steel is the colour of the For m collection.

Avaline attraversa lo spazio diagonalmente: dinamica, irriverente, ironica, giocosa. inizia il gesto, dove si muovono gli sguardi, dove la materia si fonde mescolandosi alla luce, si originano così colore e forma, che vivono per se stesse e per l'emozione che li circonda. il blu della notte é il suo colore.

Avaline cuts through space diagonally with dynamism, irreverence, irony and playfulness. its gesture is marked by the shifting of glances, by the blending of matter with light thus giving life to colour and form which live a life of their own with the emotions surrounding them. midnight blue is its colour.
