

HCPCS Code = E2607, E2608 (Gentle Contour)

The Invacare® InTouch™ Flovair™ seat cushion was developed to provide pelvic stability, leg positioning and pressure management for patients with postural asymmetry and skin integrity concerns. It incorporates a fluid overlay used in tandem with the ThinAir™ liner. This allows for pelvic immersion while minimizing overall product weight. The insert's unique channeling method limits the amount of fluid migration, thus decreasing the chances for "bottoming out." The Flovair is a great choice for neuromuscular, TBI or SCI clients without significant obliquity.

HCPCS Code = E2611

The Invacare® InTouch™ Propel™ Back, the general purpose back support so lightweight and comfortable consumers will forget it's there. Hardware installation is no longer a hassle: just grab it, set it and go. The rigid shell coupled with a soft contoured foam cushion provides gentle support and facilitates postural symmetry. The Propel provides a stable surface for propulsion and completion of daily living activities. Consumers will leave ordinary back upholstery in the past when they try the new InTouch Propel.

HCPCS Code =E2607, E2608 (Gentle Contour) E2605 (Max Contour)

The Invacare® InTouch™ Stabilite™ seat cushion was developed to provide pelvic stability and leg positioning for patients with postural asymmetry. The Stabilite comes fitted with a ThinAir™ liner, a unique comfort layer that assists in redistributing peak pressures away from bony prominences.

Invacare® Rehab Seating & Positioning Products

With the number of new seating and positioning products available today, it's only natural to choose the products that you know best. Invacare seating and positioning products offer a clinical benefit while making life more comfortable for the consumer. This catalog is your source for Invacare seating and positioning products.

Whether it's the comfort and style of an Absolute™ cushion, or the revolutionary InTouch™ Flovair™ and Stabilite™, Invacare seating and positioning products provide optimal solutions, for any individual's seating needs. Not only do Invacare products raise the benchmark in functionality and comfort for the consumer, but they also ensure that all providers can have confidence in our quality products.

For your convenience, we have included a perforated Off-the-Shelf Product Guide that can be easily torn-off and used for reference. Post it on the wall, place it in a binder or keep it with you as you travel to see clients. However you decide to use it, we hope it helps in choosing Invacare products.

Invacare is committed to providing you with products that exceed your expectations. As the landscape of seating changes, Invacare's dedication to innovation, quality and, most of all, your comfort, will stay the same.

Invacare® Absolute™ Series: Simple seating solutions for comfort, fit and function.

For clients with mild to moderate seating needs, the Invacare® Absolute™ Series cushions offers a wide range of simple, but highly functional solutions. The Absolute cushion is designed to provide comfort at an affordable price.

HCPSC Code = E2601

InTouch® Absolute™ Cushion (formerly Essential™ Cushion)

Model no. EC

- Molded polyurethane foam provides comfort and durability
- Breathable, water repellant cover
- Non-slip bottom with hook and loop fasteners keeps cushion securely in place
- Six sizes from 16" x 16" to 20" x 18"
- Shaped cushion bottom for use on taught sling upholstery

Application Guide

- Comfort
- Adults and geriatrics, primarily comfort, able to do own weight shift for pressure relief
- Good rental wheelchair cushion

Comfort Thickness

- A. Height at adductor 3.25"
- B. Height at abductor 2.25"
- C. Height at rear 2"

The Invacare Comfort-Mate Extra cushion goes one step further with a comfortable, molded design and a durable moisture-resistant coating.

HCPSC Code = E2603, E2604

InTouch® Comfort-Mate Extra Cushion

Model no. CMEX

- Low profile, lightweight cushion designed for long-term sitting comfort
- Comfortable, molded dual-firmness polyurethane foam promotes good postural position
- Moisture-resistant coating seals and protects foam from moisture; easily wipes clean
- Breathable, water repellant cover
- Beveled sides coupled with a firm base for stability and a soft outer layer for comfort
- A great fit for the Infinity® Drop Base to get your desired seat-to-floor

Application Guide

- Comfort stability and gentle positioning
- Adolescents through geriatrics with long-term comfort needs, who are able to do own weight shift for pressure relief
- Good long-term care facility wheelchair cushion

Comfort Thickness

- A. Height at adductor 2.625"
 - B. Height at abductor 3.0"
 - C. Height at rear 1.75"
 - D. Height at leg trough 2.25"
- Cushion weight approximately 2.3 lb.
(18" x 16" cushion w/cover)

HCPCS Code = E2607, E2608 (Gentle Contour)
E2605 (Max Contour)

InTouch™ Stabilite™

"Stable + Light"

Model no. ITSG, ITSM

The Stabilite™ seat cushion was developed to provide pelvic stability and leg positioning for patients with postural asymmetry. The Stabilite comes fitted with a patent-pending ThinAir™ liner, a unique comfort layer that assists in redistributing peak pressures away from bony prominences. The Stabilite is a great choice for geriatric or CVA clients.

Features

- Positioning foam base
- +
- ThinAir™ liner
- Gentle/Max contour

Functional Benefits

- Supports the pelvis and thighs; helps to prevent adduction and internal rotation
- Helps reduce shear
- Contour choices based on involvement level

HCPCS Code = E2607, E2608

InTouch™ Flovair™

"Fluid over Air"

Model no. ITFG, ITFM

The Flovair™ seat cushion was developed to provide pelvic stability, leg positioning and pressure management for patients with postural asymmetry and skin integrity concerns. It incorporates a fluid overlay used in tandem with the ThinAir™ liner. This allows for pelvic immersion while minimizing overall product weight. The insert's unique channeling method limits the amount of fluid migration, thus decreasing the chances for "bottoming out." The Flovair is a great choice for neuromuscular, TBI or SCI clients without significant obliquity.

Features

- Positioning foam base
- Fluid + ThinAir™ liner
- +
- Gentle/Max contour

Functional Benefits

- Supports the pelvis and thighs; helps to prevent adduction and internal rotation
- Effectively redistributes pressure without weight penalty. Additional shear reduction as two layers work in harmony.
- Contour choices based on involvement level

Positioning Support Base

The larger the surface area, the lower the pressure. Our engineers put purpose behind the contouring of the InTouch base to mimic the shape of the seated human body. Leg troughs are slightly abducted. Soft foam envelops the IT's, coccyx and sacrum. Firmer foam supports the trochanters while preventing hammocking. Smooth, refined transitions are sculpted to replace steep ridges or uncomfortably placed abductors.

If the base isn't right, then nothing else matters!

Features

- Medial thigh support
- Raised adductors
- Sacral relief
- Pre-ischial elevation
- Lateral pelvic support
- Low profile

Functional Benefits

- Gentle control of mild adduction tendency
- Positioning guidance to maintain proper alignment of lower extremities
- Provides additional comfort and support for those sitting in anterior to posterior pelvic tilt
- Limits forward migration of pelvis and sliding out of position
- Intended to maintain pelvis in a centered position on the seat and provide lateral stability
- Reduces seat-to-floor height for foot propulsion and lateral transfers

Maximize surface area

Contour Thickness

	Gentle Contour	Max Contour
A. Height at adductor	3.5"	4.38"
B. Height at abductor	3.5"	4.38"
C. Height at leg trough	2.87"	2.88"

InTouch™ Flovair™/Stabilite™ Gentle Contour InTouch™ Flovair™/Stabilite™ Max Contour

InTouch™ TargIT™
with
Blend₂™ Technology

InTouch™ TargIT™ Max and Gentle Contour Cushion

Invacare® InTouch™ TargIT™ is the industry standard for consumers who require moderate skin protection and positioning. The large, anatomically-shaped pelvic surface of the InTouch cushion eliminates the guesswork of placing a consumer in contact with pressure-relieving material. The construction of the InTouch TargIT incorporates an exclusive Blend₂™ foam molding technology that fuses the polyurethane base foam with visco-elastic pressure-relieving foam to eliminate transitional edges, providing worry-free fit and comfort.

Features

- Model no. ITTG, ITTM
- InTouch™ Zone technology
- Blend₂™ foam molding technology
- Sacral relief
- Gentle/Contour
- Bariatric sizes available

Contour Thickness

	Gentle Contour	Max Contour
A. Height at adductor	3.625"	4.35"
B. Height at abductor	3.625"	4.35"
C. Height at leg trough	2.50"	2.85"

Positioning Support Base

The support base of the TargIT cushion is constructed with molded polyurethane foam contoured to promote comfort, enhance positioning and prevent bottoming out.

Features:	Functional Benefits:
• Medial Thigh Support (Abductor)	Gentle control of mild adduction tendency
• Raised Adductors	Positioning guidance to maintain proper alignment of lower extremities
• Mild Hip Guides	Adductors are extended posteriorly to keep user centered on cushion
• Pre-contoured sacral area	Provides additional comfort and support for those sitting in anterior to posterior pelvic tilt
• Pre-ischial shelf w/ 15° drafted edge	Limits forward migration of pelvis and sliding out of position
• Low profile (Gentle)	Reduces seat-to-floor height for foot propulsion and lateral transfers Ideal for clients who require a mild to moderate level of postural support
• Deep IT relief well (Max)	Provides maximum pelvic immersion and control Ideal for clients who require a moderate to high level of postural support

Invacare® Single Density Cushion

- Model no. SD
- Contoured deformation cut foam provides comfort and stability
- Available in over 100 custom sizes
- Water repellent cover with non-slip bottom

Cushion Thickness

A. Height at rear (adductor)	2"
B. Height at rear (center)	1.5"
C. Height at front	2.5"

Cushion weight approximately 2 lb.

Application

- Comfort
- Adult and geriatric, able to do own weight shift for pressure relief
- Good rental wheelchair cushion

Invacare® Infinity® Cushions

ViscoFoam

- Model no. ILCVF, IGCVF, IMCVF
- ViscoFoam is an excellent choice for clients who:
 - Are at high risk of skin breakdown
 - Require excellent support and stability
 - Require a lightweight cushion

FloGel®

- Model no. ILCFG, IGCFG, IMCFG
- FloGel® is an excellent choice for clients who:
 - Are at high risk of skin breakdown
 - Require excellent support and stability
 - Require a good dynamic shear reduction

AirFlo™

- Model no. ILCAIR, IGCAIR, IMCAIR
- AirFlo™ is an excellent choice for clients who:
 - Have a history of or are considered to be at very high risk of skin breakdown
 - Require an air flotation insert for immersion of bony prominences
 - Require a postural support base for stability

LoContour

- LoContour is an excellent choice for clients who:
 - Have good postural control
 - Have low to normal muscle tone
 - Laterally transfer
 - Foot propel

Gentle Contour

- Gentle Contour is an excellent choice for clients who:
 - Have moderate postural instability
 - Require gentle control of tone
 - Need moderate control of abduction/adduction tendency

Max Contour

- Max Contour is an excellent choice for clients who:
 - Require high level of postural control
 - Need maximum control of tone
 - Require optimal pressure reduction and redistribution

Introducing the Invacare® InTouch™ Propel™, the general purpose back support so lightweight and comfortable consumers will forget it's there. Hardware installation is no longer a hassle: just grab it, set it and go. The rigid shell coupled with a soft contoured foam cushion provides gentle support and facilitates postural symmetry. The Propel provides a stable surface for propulsion and completion of daily living activities. Consumers will leave ordinary back upholstery in the past when they try the new InTouch Propel.

HCPCS Code = E2611

1-handed quick release

Adjust depth/angle while client is seated

Fits 7/8" or 1" canes with no additional hardware.

Features

Model no. ITPR

- 4-way adjustability: height/width/depth/angle
- 1-handed quick release
- 1-tool assembly (7/8" wrench)
- 2-point mountings fit 7/8" to 1" canes
- 3-point comfort foam
- Adjustment while patient is seated

HCPCS Code = E2615, E2616

The Personal Back™10 and Personal Back™10 Plus combine simplicity of design with effectiveness of application. The highly popular Personal Back line continues to provide the comfort, postural support, and spinal alignment that you have come to expect.

Personal Back™10

Model no. PBR, PBT

The Personal Back10 is an excellent choice for clients who require comfort and stability with moderate midline support.

Features

- Lightweight aluminum shell
- Pre-contoured shell provides excellent contact and support
- Pre-drilled headrest pattern
- Quick Set™ hardware with increased adjustability
- Bariatric sizes available: 22", 24" and 26" widths at 500 lb. weight capacity

Personal Back™10 Plus

Model no. PPR, PPT

The Personal Back10 Plus is an excellent choice for clients who require comfort and stability with increased midline support. It often is recommended when using the foam-in-place kit.

Lightweight, durable, aluminum shell is pre-contoured to provide excellent contact and support.

Pre-drilled headrest mounting pattern accommodates most major manufacturers' headrest systems.

Deep lateral contour of the Personal Back10 Plus provides increased midline support without interfering with upper extremity range of motion.
