

The new Invacare® Lynx™ L-3 and L-4 micro-portable scooters allow you to accomplish daily activities with ease! You'll be amazed at how simple they are to assemble and disassemble for transport. Their compact size and seamless functionality allow them to easily transition from the tight turns of the home to the wide-open spaces of the outdoors. With many of the same attributes on both models, you can choose between two stylish scooters packed with great features at a competitive price.

Lynx™ L-3 micro-portable

The three-wheel Lynx L-3 scooter takes portability to a new level. The L-3 model conveniently disassembles into four compact pieces for easy transport. Pick the destination, stow it in the trunk and go... the L-3 model will do the rest. With an estimated seven miles of range, a plug-in battery charger and flat-free tires, consumers can plan their schedule around what they want to do, not around the limitations of their scooter.

Features

- Easy 4-piece disassembly
- Estimated 7 mile travel range
- 0 - 5 mph variable speed control
- 250 lb. weight capacity
- Connector-free, drop-in battery pack
- On or off-board battery charging
- Foam-filled, flat-free tires
- Comfortable 360° rotating chair
- Ample leg room and foot clearance
- 3-position adjustable tiller

Four Easy Steps for Portability

1.

Remove Seat

2.

Remove Battery

Lynx™ L-4 micro-portable

The Lynx L-4 offers the features of the L-3 model with the performance and bold look of a four-wheel scooter. The stable four-wheel base of the L-4 model handles varying surfaces with ease. Customize the L-4 model to fit the consumer by simply adjusting the seat height, armrest width and tiller angle. Get comfortable, get set and go! With a top speed of five mph, you can feel confident the Lynx L-4 scooter will get you to your destination on time.

Note: Do not operate on roads, streets or highways.
