

Invacare® Top End® Terminator™ Series Chairs

Yes, you can.™

Scott McNeice, Team Invacare, Handeycycling Champion

No doubt about it! The Invacare® Top End® Terminator™ BB and X-Terminator™ BB are the undisputed choices of basketball champions everywhere. Why? Because they are quick, responsive and built to your exact specifications with no moving parts, except where it matters: center-of-gravity and footrest height.

Invacare Top End X-Terminator BB with standard wraparound of five wings and recessed footrest.

Invacare Top End Terminator BB.

Camber tube 2000. Strong and lightweight. Choice of one camber with wheel clearance adjustment.

Swivel anti-tip bar allows player to move wheels forward for quick turning while maintaining balance.

Stephen Welch, Dallas Wheelchair Mavericks, MVP of NWBA Four Final champions, 1998, 1999 and 2000.

- Frame protectors
- Swivel anti-tip bar
- Coated pushrims
- 2", 3" or 4" cushion
- Custom paint

Tested tough where it counts . . . on the court! With the Invacare® Top End® X-Terminator™ QR's custom front-end, you can now hold and pick better than ever. However, with the offensive wings, you won't find yourself in the same trap. The recessed footrest gives you even more protection in the pack. Now you have a chair whose performance matches your own.

Dave Gould, Wheelchair Sports USA 1996 Athlete of the Year and member of the 1996 USA Paralympic Quad Rugby team.

Offensive X-Terminator QR with offensive wings and vertical trap front-end.

Defensive X-Terminator QR with vertical trap front-end.

Now you can have all the features and performance of the lightweight Invacare® Top End® Terminator™ Everyday. The same meticulous attention to detail and hand craftsmanship that goes into the construction of the medal-winning Terminator sports chairs can be found in this model designed for everyday use. If you know what you want and no longer need all those extra adjustments, this chair is for you. The Invacare Top End Terminator Everyday is custom-built with the least amount of moving parts, except where it matters: center-of-gravity, footrest height and camber. From as light as 17 pounds.

Michel Bord, Team Invacare Handycycling Champion.

Terminator™ Titanium. Our lightest chair ever – same custom design built with 3-2.5 seamless titanium tubing and backed by years of chair-building experience by Invacare Top End.

Adjustable camber system goes from 0° to 12° in one minute, with no tools.
