Invacare® Top End® Terminator™ Jr. Wheelchair

Yes, you can.™

Yes, you can.™

The Invacare® Top End® Terminator™ Jr., is a pediatric chair built to grow. It is designed to maximize mobility while maintaining the most optimum wheel position for propulsion. The adjustable telescopic center-of-gravity, in combination with adjustable seat depth, allows for both growth and seating systems. There are three seat height settings for each wheel size so that the chair can grow from as low as 13" with an 18" wheel to as high as 18" using a 24" rear wheel. The adjustable height front casters will make seat height adjustments easy and quick. The flip-up footboard make tranfers easy and safe. It is the perfect chair for kids on the go!

Invacare® Top End® Terminator™ Jr. Shown with optional cantilever arms, spokeguards and adjustable height push handles in their hide-away position.
