# Invacare® Top End® Tennis Series Wheelchairs

Yes, you can.™

**Yes, you can.™**

The **Invacare® Top End® T-3™ Tennis Elite chair**, with its patented three-wheel design, has been the industry standard since 1992 when it was introduced at the US Open. It has been refined over the years and is now offered in 3-2.5 seamless titanium. The T-3, designed for players who sit low, is very maneuverable. Team Invacare champions such as Maaiké Smit, Jon Rydberg, Dani DiToro and Sharon Clark use this quick, lightweight and responsive chair.

The new **Invacare® Top End® T-4™ Tennis Elite chair** is for those who want to sit tall. With added height, which allows players to deliver more power to the ball – comes the need for stability; thus, the four-wheeled chair. Now you can have it all: a custom sport specific tennis chair with either three or four wheels – the T-3 or the T-4. Team Invacare's Robin Ammerlaan and Micheal Jeremiasz are switching to the new T-4 to add even more titles to their resumes.

Invacare® Top End® T-4™ Tennis Elite.

Invacare® Top End® T-3™ Tennis Elite.

Toe clip option.

Fixed anti-tip tube option.

Invacare® Top End® T-3™ Titanium features the same great design and performance as the T-3 Elite, but is built of 3-2.5 seamless titanium.
