

RANGE COMPOSITION

N 700: a range of over 100 models for the professional caterer designed to guarantee the highest level of performance, reliability, energy saving, safety standards and ergonomic operation. These concepts are reflected in the total modularity of the range that ensures numerous configurations, either free-standing or bridged. N 700 demonstrates how advanced technology can satisfy the needs of the professional caterer. The models detailed on this sheet are 7 gas fry tops in full module version with smooth or 2/3 smooth and 1/3 ribbed plates in stainless steel or chromed steel.

N 700

FULL MODULE GAS FRY TOPS **ZANUSSI** PROFESSIONAL

FUNCTIONAL AND CONSTRUCTION FEATURES

◆ Safety thermostat on models with thermostatic control (temperature markings in °C). Piezo ignition.

◆ Worktop in 1,5mm stainless steel. Front panel in stainless steel with Scotch Brite finish.

◆ All models have right-angled side edges to allow flush fitting joints between units.

SCRAPER FOR SMOOTH PLATE FRY TOP			1	1			1

- ◆ Very quick heat-up time to maximum temperature.
- ◆ Full module units have separate controls for each ½ module of the cooking surface.
- ◆ Cooking surface in mild steel or chromed: available smooth and ribbed for optimum grilling results.
- ◆ The standard Fry Top cooking plate is manufactured from 15mm thick special mild steel for even temperature distribution. Ideal for grilling, browning and the radiant heat allows thicker cuts of meat to be cooked perfectly.
- ◆ The chromium surface means no absorption of cooking juices into the plate resulting in higher output of product and more flexibility. Very little energy is lost to the kitchen environment due to the reflective qualities of the chromium surface, making the work area more comfortable.
- ◆ On the cooking surface there is a large drain hole to drain fat into a 2-lt grease collection drawer (for top models) or into a 3,5-lt grease collection tray, extractable from open base (for models on base).
- ◆ Splashback in stainless steel included as standard.
- ◆ IPX4 water protection.
- ◆ Main connections can be via the base or the rear of the unit.
- ◆ All top models can be easily mounted on refrigerated base, open base cupboards or bridging supports.
- ◆ All top models provided with service duct to facilitate installation.
- ◆ All gas appliances are supplied for use with natural gas or LPG. Conversion jets supplied as standard.
